In Flight.

RUN OUT OF JUAREZ.

Mexican Ill Will to Americans.

They Hurry Across Border from a Street Demonstration Against Them.

Embargo on Food and Ammunition Enrages Rebels to the Riot Point.

Absence of Explosives May Tie Up the Smelter and Mine Industries.

[BY A. P. NIGHT WIRE TO THE TIMES.]

EL PASO (Tex.) March 20.—A street demonstration occurred in Juarez this afternoon when it became known that the embargo on munitions of war hereafter will be confined on the American side as including food as well as arms and ammunition and, in fact, everything which a rifle needs.

The demonstration was started by a shop-keeper commonly called "Big Jim," who makes no personal use of the goods which he sells. He rushed into the middle of the street in front of his place and seeing a number of Americans, began a tirade against them. A large crowd gathered quickly.

As the crowd of Mexicans grew larger, the Americans worked their way out and lost no time in getting to the American side of the international bridge.

After the departure of Gen. Rojas with his column from Juarez this afternoon, leaving a garrison of 600 men under Col. Pascual Orozco, Sr., the gates were opened for the first time in weeks. The word was passed in the hotel lobbies in El Paso tonight that it would be unwise to cross to the Mexican side where the keno gambling halls offer an attraction to many persons here for the races.

Several thousand dollars' worth of supplies were held up by Collector of Customs Sharpe. According to the interpretation which he places on his orders, munitions of war include articles necessary to sustain a soldier. This shuts out food and clothing and many smaller articles. The collector, however, did not molest individual purchases of this kind where the supply was obviously for the every-day wants of individual families.

James McKay and John Thomas, Americans, and James Costa, a Mexican, were arrested by soldiers on a charge of trying to smuggle cartridges into Juarez. Several hundred rounds were found secreted in their clothing.

CUSTOMS EMBARGO AFFECTS INDUSTRY.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, March 20.—Unless some arrangements are made soon to permit the shipment of explosives into Mexico, large mining industries probably will be compelled to suspend operations.

Col. Steever, commanding the Fourth U. S. Cavalry, reported to the War Department today that 90,000 pounds of dynamite, consigned to commercial organizations in Mexico, was being held at El Paso in compliance with President Taft's proclamation prohibiting explosive material of all kinds from being taken across the border.

It is probable a plan will be devised to allow explosives for mining to be taken across the line in bond.

Col. Steever's action in holding up the dynamite has been approved. Notwithstanding representations that it was destined to mines and smelters, and employees might be thrown out of work and into the rebel forces, it was stated that no exception would be made to President Taft's proclamation, which prohibits the shipment of all explosives to Mexico. Officials feared that the dynamite would be seized by rebels and used to blow up bridges.

An army officer who returned from Panama today by way of Vera Cruz and the City of Mexico, reported to the General Staff that the situation

Reaching Out.

BUY PLANTS TO GET BUSINESS.

Alleged Methods of Sugar "Trust" Laid Bare.

Former Secretary of Defendant Is a Witness.

Says Millions Were Voted to Buy Rival Concerns.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, March 20.—In the trial of John E. Parsons, Washington B. Thomas and other officials of the American Sugar Refining Company under the criminal clause of the Sherman law, Dist.-Atty. Wise began today to introduce evidence intended to show that for a long period the policy of the "trust" had been to purchase and close down rival sugar plants in order to monopolize the industry.

Charles R. Heike, former secretary of the company, whose conviction for underweighing frauds is now under appeal, was the witness through whom the District Attorney started in an effort to prove this policy. Heike's testimony brought a storm of protest from the defense, but the court admitted it in evidence.

Mr. Wise read a long list of sugar refineries which Heike identified as having been either controlled or closed by the "trust," and later read from the minutes of the board of directors of the American Sugar Refining Company statements indicating that millions had been voted by the board at various times to buy refineries.

Judge Hand earlier in the day was called upon to rule on the admission of the testimony of Walter A. Robinson, secretary of the late Gustave Kissel, concerning loans amounting to $610,000 alleged to have been made by Kissel to Adolph Segal, owner of the Pennsylvania refinery, prior to the $1,250,000 loan by which the "sugar trust" got control.

Prosecutor Wise heatedly denounced the "trust" and the defendants when objection was made, saying that he was going to show how these men "stood together and robbed Segal." He declared that the defendants schemed long to saddle Segal with debts and then step in and loan him a large amount to pay back what he already owed them, they in return getting what they were "angling" for, the control of the refinery.

Judge Hand decided to exclude the testimony temporarily.

The famous "Cousin Dave" letters may be admitted in evidence against the defendants, it was indicated by Judge Hand today.

These letters, which passed between David B. Stetson and his cousin, President Thomas of the American Sugar Refining Company, are said to contain private information which Stetson drew from Adolph Segal and had been excluded at the objection of the defense.

Scene Shifts.

EFFORTS TO AVERT COAL STRIKE WITHOUT RESULT.

Coincident With Receipt of Encouraging Reports from England Comes Word that the American Bituminous Mines Are in Imminent Danger of Suspension Because Owners and Miners Canno t Agree.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CLEVELAND (O.) March 20.—Wage discussions between the operators and representatives of 200,000 union miners in the bituminous coal fields of Western Pennsylvania, Ohio and Illinois, held in an effort to avert a prolonged suspension of business and possible strike after April 1, were without result today.

The prospect that all the bituminous coal mines would be closed after the first of the month, pending a new two-year agreement, was said to be imminent. It also was said the lack of a wage scale in the Central States would leave the union bituminous coal miners in the other States without a basis within which to work, and they would have to close, entailing idleness for more than 350,000 miners.

After today's conference adjourned until tomorrow, the union officials and operators announced only the first of the miners' demands had been considered and no vote had been taken. This demand is that all the men be paid on the "mine run" basis. At present the pay is based either on a ton screened or sifted from the smaller lumps and dust, or at a smaller rate for coal unscreened.

The run of the mine basis, already in use in some States, would provide for a flat rate per ton mined.

In the readjustment of this basis the miners demand an increase of 10 cents a ton over the average price now paid. They also want shorter working hours.

As an offset to the miners' demands, the operators ask ten-cent reduction in the present rate.

The number of men and mines involved are:

Western Pennsylvania, 60,000 miners; 250 mines.

Ohio, 47,000 miners; 450 mines.

Indiana, 24,000 miners; 147 mines.

Illinois, 72,000 miners; 320 mines.

The number of miners in other States who, it was said, necessarily would have to suspend work because of the lack of a basis upon which to fix their agreements, which also expire April 1, are:

Oklahoma, Missouri, Arkansas and Kansas, comprising the southwestern district, 30,000 miners; Iowa, 15,000, and Michigan, 10,000.

The operators assert that a suspension of the mines which employ union men would still leave at work in Kentucky, Alabama, West Virginia, Central Pennsylvania and Tennessee about 300,000 miners not enrolled by the union.

WHITE GOVERNS MEETING.

The conference of eight operators and eight union officials from each of the four States was called to order by John P. White, president of the United Mine Workers of America, but after a brief session it adjourned until later because of the non-arrival of some of the delegates. Mr. White announced the miners' delegates had come to meet the operators on friendly terms, but they intended to adhere to their demands. The miners' demands are:

Ten cents a ton increase for lump coal and the mining of all coal on a tonnage basis.

"Seven instead of eight hours a day.

"Five hours on Saturday instead of eight.

"Pay day every week instead of every two weeks."

The operators representing State organizations informed Mr. White that the demand equaled a 20 per cent increase and was excessive.

It was pointed out by both sides that a strike or even a prolonged suspension was not desired. But it was declared that, even if a satisfactory adjustment was reached, it would have to be submitted to a referendum vote or convention of the union, and pending this delay of not less than two weeks after April 1 business would have to stop.

REFERENDUM VOTE REQUIRED.

Should the miners' representatives refuse to meet the demands of the operators their action would have to be submitted to a referendum vote of the miners, and even if the latter were to declare against a strike there would ensue a suspension while a vote was being taken. The period allotted for this covers thirty days. If the operators and miners in the Central States fail to agree, it will leave the miners in Oklahoma, Arkansas, Kansas, Missouri, Iowa, Michigan and other States and Canada without a basis for an agreement and altogether about 400,000 miners will be out of work.

H. M. Taylor, president of the Illinois Coal Operators' Association, which has to deal with about 70,000 miners, said before the meeting that the situation is grave.

"The demands of the union are unreasonable," he said. "There is no prospect of settlements on that basis. We hope the men will see that they are asking too much."

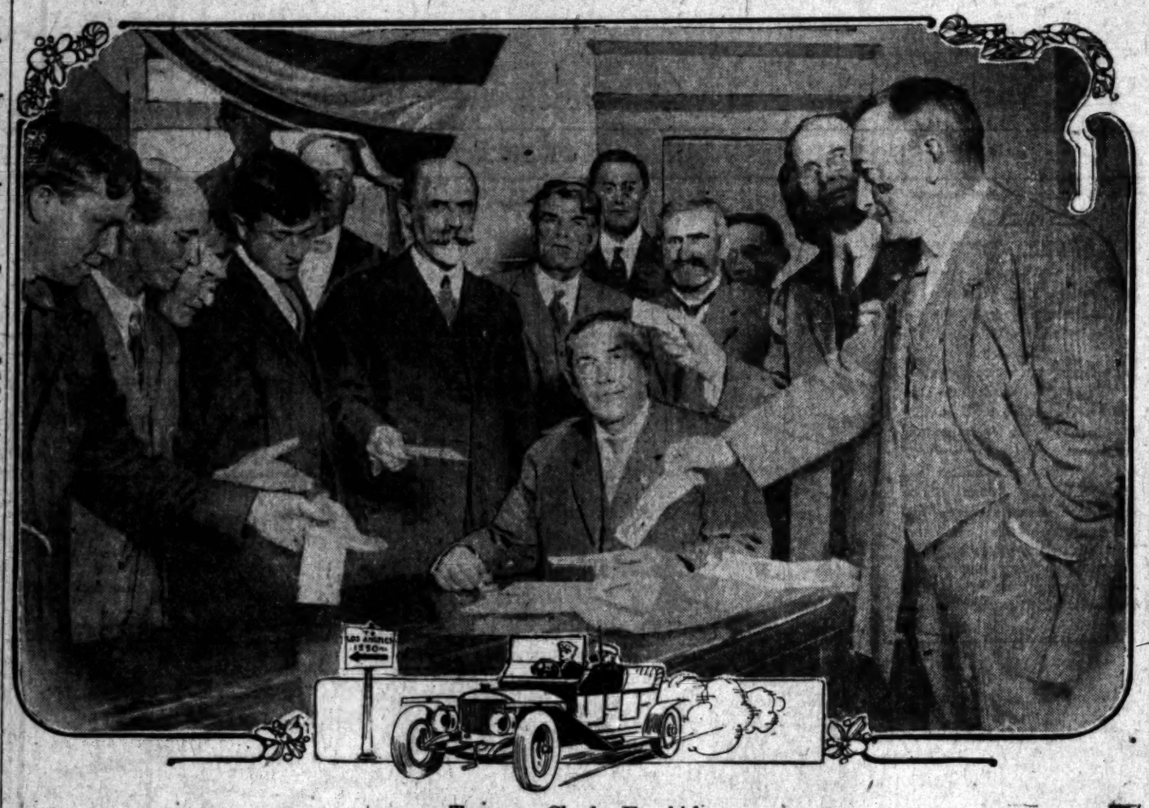
NON-STRIKERS KILLED.

TROUBLE ENDS IN GERMANY.

[BY A. P. NIGHT WIRE TO THE TIMES.]

BERLIN, March 20.—The termination of the strike in the Westphalian coal fields, where nearly 200,000 miners laid down their tools on March 11, was marked by two fatalities last night in attacks by strikers on non-strikers working in the pits at Hagen. A third man was wounded, probably fatally. In the Saar district the strikers also have abandoned the movement and gone back to work, but the miners in Upper Silesia are leaving the pits in increased numbers.

Receiving Ocean-to-Ocean Highway Checks Too Fast to Count.



Treasurer Charles Frankish,

Receiving offerings of money for the ocean-to-ocean highway project in Ontario yesterday. The checks came in faster than he could count them and the receipts were the best for any one day since the highway hustlers started out.

TWO TO MAKE BARGAIN.

Young Man Secures Marriage License Without Asking Consent of Girl He Loves.

OXNARD, March 20.—So infatuated with a young woman that he procured a marriage license without her having any knowledge that he was even fond of her, George Brownslie, son of wealthy eastern parents, secured a marriage license to marry Miss Stella Juanita McCormick. The first she latter knew of it was when friends began congratulating her over the telephone.

Having no idea of what they were talking about, as she had not yet seen a notice of the license, she at first considered it a joke.

"Why, I scarcely know him," she later declared. "I met Mr. Brownslie several months ago and he has called on me a few times, but there has never been anything of a serious nature, nor even an intimation, between us. I don't intend to marry him and don't see how he dared have the license issued."

HIGHWAY BOUSERS.

(Continued from First Page.)

forms this year. Now is the time to work.

"There is no one more interested in good roads that the farmers. We are too wealthy to afford to have bad roads and too poor to do without good roads. As for the route of the California end of the national highway, we feel it should be the main artery through the Banning route, chosen by the Phoenix convention with laterals leading to all the larger cities."

"You sent an able representative in F. W. Balfour, to Phoenix," said Mr. Mitchell, speaking at the Pomona mass meeting. "Instead of being a pessimist on the Federal aid plan, I admit tonight that I'm an optimist. With hundreds of bills before Congress asking for good roads, we have a chance to get government money to build our proposed ocean-to-ocean highway. These bills show that we need organization. We must form divisions of the Ocean-to-Ocean Highway Association from the Pacific to the Atlantic.

"I propose to personally go over the road from here to Yuma within the next month, organizing divisions of the Ocean-to-Ocean Highway Association in every city and town.

"Last year we spoke with pride of the 100 automobiles that crossed this country. We should have 1000 traversing the Santa Fe route this coming year. I predict that within a year from next July it will be possible to make an automobile trip across the continent in twenty days, and by 1915 I believe we will have nearly 10,000 motor cars crossing the Santa Fe trail."

THE WAY TO WIN.

"The only way to win is to work," said Jordan. "We will work and we will win. They say Alhambra is waking up. Well, she's got almost sixty miles of good roads now. Your town can be placed on the map. Don't put it off until tomorrow. Count on the Los Angeles Times to help you in this."

"When I returned from the Phoenix convention, I made a report of what we had done," said F. W. Balfour, "it did not seem possible that we could perform even half the work that has already been accomplished. In the past we have managed to build this valley by pulling apart. Now we can build our section of the Great Way by pulling together."

Enthused with the good roads sentiment expressed by a dozen orators, the people of Ontario began to contribute to the good roads fund. The money rolled in so fast that Treasurer Charles Frankish was forced to protest as he could not keep track of the amount that poured into the coffers. He broke the record himself by contributing $50 to a fund of $1000 raised in record time by the 1000 enthusiastic members of the Ontario division.

One of the inspiring sights of the day's tour was the crowd of hard-headed business men elbowing their way toward the treasurer with checks and cash ready to contribute to the good roads fund.

After the meeting The Times car was given a great send off as it started again on its mission of organizing divisions along the Santa Fe trail.

WILL DO THEIR PART.

"It has been said that Pomona is the mecca for kickers," said F. E. Nichols, "but we will do our part to build the Ocean-to-Ocean highway. This means much to our community. We are situated directly on this route. It means much to us and we expect to get this new highway for this prosperous community. Unless we build this road how can we get these other cities to join in a bigger project? Pomona needs only to be aroused by such men as Robert Jordan of Alhambra to put a proportion through. Let's be the seventh division of the Ocean-to-Ocean Highway Association."

F. W. Balfour was chosen president of the Pomona division; S. A. P. Nichols, vice-president; Truitt, secretary; F. E. Graham, treasurer.

H. W. Howell from Spadra struck the iron with a mighty swing and pledged $200. This jumped the Pomona division stock to above the $1500 mark. H. A. Thatcher also offered to help. Others then swung into line.

L. R. Mathews, Mayor of Pomona, was one of the biggest boosters in the enthusiastic rally that followed the reading of the telegram from Gen. Harrison Gray Otis.

The division of the Ocean-to-Ocean Highway Association formed at the town of Walnut chose S. W. A. Thatcher for president; E. D. Martin, vice-president; John N. McLintoc, secretary, and S. O. McConnell, treasurer.

RUN OUT OF JUAREZ.

(Continued from First Page.)

there was not so serious as it had been made to appear.

Rebel activities are reported by the American Consuls. Many Americans are going to Tampico for safety. The Federal garrison at San Blas, in the territory of Tepic, mutinied on March 19 in favor of Orozco. Two encounters between the Federals and the rebels have occurred in the State of Mexico, and Zapatistas now are operating in Puebla.

On the Lookout.

SAN FRANCISCO, March 20.—[By A. P. Night Wire.] Collector of Customs Frederick A. Stratton has received a letter from President Taft. He has instructed collectors along the Pacific Coast to use every effort to prevent the transportation of contraband arms and ammunition into Mexico from Pacific Coast points. As the result of the letter all inspectors have been instructed to make careful inspection of all shipments direct to Mexico.

OPPOSING ARMIES NINE MILES APART.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CHIHUAHUA, March 20.—Nine miles separated the advance guards of the two armies tonight. Gen. Salazar's column is mobilized in and about Jimenez, sixty-five miles north of Zavalza, and today a trainload of federals guarding a repair crew advanced from the south into the State of Chihuahua as far as Zavalza. The movement by the Federal troops indicates that the Central Railway, by the joint work of rebels and federals, again is intact.

Arrangements practically have been completed for the strengthening of the revolutionary war fund. The measure prepared by Gov. Guiterrez for floating a loan of 1,200,000 pesos was approved today by the permanent committee of the Legislature and at a meeting of bankers and private capitalists tomorrow the distribution of the bonds will be made.

Rurales Defeated.

SAN ANTONIO (Tex.) March 20.—[By A. P. Night Wire.] Revolutionists, number unknown, defeated 100 rurales in a fight Monday about twenty miles south of Ojinaga, according to a telegram received here today by Gen. Duncan, commanding the Department of Texas, from Capt. Wm. H. Winter, third cavalry, now stationed at the Presidio, Texas. The casualties were not given.

Americans Robbed.

DEL RIO (Tex.) March 20.—[By A. P. Night Wire.] A party of Americans arrived here today from Mexico after being robbed by brigands of everything they possessed. The robbers carried a red flag with "liberty" inscribed upon it. They warned the Americans never to return to Mexico.

Pacifics Americans.

SAN ANTONIO (Tex.) March 20.—[By A. P. Night Wire.] A message from Pascual Orozco to the American people assuring them that they need fear no trouble from the Vasquistas in Mexico, and that all foreigners and their rights will be guarded sacredly, was brought here today by Melco Ochacho, sent by Orozco as a confidential envoy to Emilio Vasquez Gomez.

BELASCO THEATER—Main St., Between Third and Fourth. MATINEES TODAY, Sat. and Sun.
The BIGGEST BANKER IN THE UNITED STATES SAYS
"I have seen 'THE LANDSLIDE' eight times. The subject of the play is a vital one—the social question it traverses is one with which we are face to face, and every thoughtful person, whether Radical or Conservative, who witnesses its presentation, must be stimulated by it to a thoughtful consideration of the politico-social question that faces us."
Lyman J. Gage
This is what the former SECRETARY OF THE UNITED STATES TREASURY UNDER PRESIDENT M'KINLEY, and for years, the FOREMOST BANKER OF CHICAGO, says concerning Mr. Austin Adams' comedy of Day-After-Tomorrow,
The Landslide
This really great play is the biggest hit the Belasco stage has known in years. Contrary to the general belief THE LANDSLIDE IS A PLAY FOR EVERYBODY, as is not intended for the workingman any more than it is for the millionaire. Certainly, there is nothing "revolutionary" about former Secretary-Of-The-Treasury Gage. He is a representative of the Conservative Interests of the Country, and yet in regards THE LANDSLIDE as
One of the Really Great Plays of the Decade
It's such men as Secretary Gage with their clarity of vision with which the future of this wonderful country has to do. WHEN SUCH PROMINENT BUSINESS MEN AS SECRETARY GAGE DECLARE IN FAVOR OF "THE LANDSLIDE" THERE CERTAINLY CAN BE NOTHING "REACTIONARY" ABOUT THE PLAY.
If you want to see what is really the biggest play of the decade—if you want to see a play that will make you laugh and think at the same time, YOU MUST SEE THE LANDSLIDE.
It's only once in a long while that a truly big play comes along—THE BIG PLAY OF THE GENERATION IS NOW HERE, AT THE BELASCO. EVERYBODY OUGHT TO SEE THIS POSITIVELY GREAT PLAY.
Regular Belasco prices: Nights, 25c, 50c and 75c.

Lights Out.

PATIENT KILLS TWO PHYSICIANS

Seattle Man Declares They Obtained His Last Cent.

Begins Shooting as Soon as He Enters Offices.

Satisfying Himself They Are Dead He Kills Himself.

[BY A. P. DAY WIRE TO THE TIMES.]

SEATTLE, March 20.—Dr. W. T. Akey, a specialist, and his assistant, Samuel Suskind, were shot and killed in Akey's office today by A. A. Anderson, a patient of Dr. Akey. Anderson then shot and mortally wounded himself.

Anderson said after the shooting he killed the "specialists" because they had robbed him of his last cent. It is said that the Akey office is one of the chain of such places. The books were taken away by the District Attorney.

Akey was the principal advertising doctor of Seattle.

Anderson apparently went to the office determined to kill the men. An argument of an adjoining office says that Anderson began shooting as soon as he entered Akey's room. After firing several shots into Akey and Suskind, to make sure that they were dead, he ran to his room in a hotel and shot himself twice.

Anderson was a logger, about 44 years old.

Suskind, a young man, was not a physician, but helped Akey in the office. On February 27 of this year, Suskind was married in Oakland, Cal., to Miss Vilma Steck of that city. Mrs. Suskind now is in Seattle.

Anderson died an hour or two later in a hospital, to which he was taken. Dr. Akey was an employee of a realty syndicate which owns "medical institutes" in Los Angeles, San Francisco, Oakland and other California cities and in Portland, Or., Tacoma, Wash., and Seattle. When the California law, which provided that a medical office must be conducted by a licensed physician under his own name became effective, the syndicate adopted the California system in Oregon and Washington. Dr. Akey was then in Portland conducting the "Dr. Taylor Institute." He was transferred to Seattle to conduct the Seattle "Dr. Taylor Institute" under his own name. Dr. Akey's advertisement contained the following words:

"I publish my true photograph, my name and personally conduct my office. I make this announcement that you will know you consult a specialist who sees and treats his patients personally. I possess skill and experience acquired in such a way that no other can share them. I should not be classed with 'medicine companies' or 'medical institutes,' as such companies or institutes have no license to practice medicine in Washington or any other State. They are usually advertised with a portrait of a doctor whose identity or personality is indefinite as the legitimate result of the office. Hired substitutes, ordinarily doctors with questionable ability, give consultation, examination and treatment."

FORMERLY IN OAKLAND.

[BY A. P. NIGHT WIRE TO THE TIMES.]

OAKLAND, March 20.—Suskind lived several months in Oakland at different times, being associated with the medical specialist, who has removed to this city.

FIRE IN NELSON.

INCENDIARISM SUSPECTED.

[BY A. P. DAY WIRE TO THE TIMES.]

NELSON (B. C.) March 20.—The Columbia saw mill and 100,000 feet of lumber were destroyed early today by fire alleged to have been of incendiary origin. Loss, $75,000. The citizen men of Nelson are on the verge of a panic because of the operations of incendiaries. The fire today preceded by a blaze at the Brackett warehouse which was extinguished before much damage was done. It is said both fires undoubtedly were incendiary. An attempt was made Monday night to destroy a large sawmill block. Nelson experienced a similar reign of terror last summer.

NAMED BY GOVERNOR.

CLERK SUCCEEDS HIMSELF AS SECRETARY.

[BY A. P. DAY WIRE TO THE TIMES.]

SACRAMENTO, March 20.—The governor today named Prof. D. P. Barrows of the University of California to fill the unexpired term of M.

Controversy

ACCUSED HOUSE TRY TO SHOW

[BY A. P. NIGHT WIRE

SANTA FE (N. M.) March 20.—Mounted Policeman A. A. Sena, testifying this afternoon before a committee of fifteen which is conducting the House investigation of charges in connection with the United States Senatorial contest the incidents leading to the House of Representatives Lucero, Montoya and Cordova, on the charge of soliciting and accepting a bribe, underwent a grilling examination, but his story was clear.

He was propounded by the defense, indicated that their counsel will try to establish that a conspiracy existed to get the four legislators out of the way, because they would not vote in certain way in the Senatorial

Four were arraigned before Justice David J. Leahy tonight, and after a preliminary examination their bail was fixed at $2000 each. At the hearing it was brought out that Sena had been in jail two days and a day without having been served with warrants and, without papers. Sena's testimony told of having had a conversation between Eldridge, one of the prosecuting witnesses, and the four defendants in a room at the Palace Hotel, in which the defendants promised, he said, to vote for a candidate for the Senate that Sena should designate, but would not

OFFERED IN NOVEL FORM.

Proposed Constitutional Amendment for Recall of Judiciary to Be Submitted by Photography.

[BY A. P. DAY WIRE TO THE TIMES.]

PHOENIX (Ariz.) March 20.—The proposed constitutional amendment, providing for the recall of the judiciary, which will be submitted to both houses of the Arizona Legislature, tomorrow, will be placed before the legislators in unique form.

Senator Homer Wood of Prescott, who is seeking to have the proposed amendment resubmitted to the people at the next general election, has provided, for the consideration of the State Senate and Assembly, photographic reproductions of the original judiciary recall provision as it appeared in the manuscript copy of the proposed Arizona Constitution.

It is expected that the amendment will be adopted as measure No. 1 of both houses, in accordance with Gov. Hunt's message favoring that form of democratic rebuke to President Taft, at whose instance the judiciary recall provisions was stricken from the Arizona Constitution.

AIRMAN IN AUTO CRASH.

..Aviator Coffyn, His Press Agent and New York Official Meet Accident in Central Park.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, March 20.—Frank C. Coffyn, the aviator; E. L. Harvey, secretary to the Water Commissioner of New York, and Albert S. Levine, Coffyn's press representative, were hurled from one of the water department automobiles in Central Park today, after it had skidded and crashed into a bridge.

Coffyn was stunned and it was at first thought his skull was fractured, but an examination showed that no bones were broken, and he was not seriously hurt. Harvey sustained a broken rib and a broken arm; Levine was uninjured.

SWEETHEARTS IN JAPAN.

CORPSES IN AMERICA.

[BY A. P. DAY WIRE TO THE TIMES.]

SEATTLE, March 20.—Satsuga Nakea, aged 25, and Mrs. Koiui Marutani, aged 23, committed suicide last night at Kent, near Seattle, by taking poison. They had been sweethearts in Japan, but Satsuga's father would not permit them to marry, and Koiui, still loving Satsuga, married another man. Satsuga was found dying in convulsions last night in his cabin and soon afterward, in her own home, the woman was discovered also dying. It is supposed the couple entered into a suicide agreement.

KOHL MAID INDICTED.

COMES BACK FROM FRANCE.

[BY A. P. DAY WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—Adele Verge, the French maid who shot and seriously wounded C. Frederick Kohl, millionaire clubman of this city, June 8, 1911, was indicted last night by the grand jury. After the shooting, the woman was pronounced insane and deported to France. Kohl informed the grand jury she had returned to this country and was living in New Hampshire. Fearing a second attempt upon his life, Kohl sought her arrest.

EXPOSITION BANQUET.

FRANCIS HONOR GUEST.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—Former Gov. David R. Francis of Missouri was the guest of honor at a banquet tonight by the directors of the Panama-Pacific International Exposition. Charles C. Moore, president of the exposition company, presided. Mayor James Rolph, Jr., and others prominent in the civic life of San Francisco were present. A telegram signed by forty-eight residents of St. Louis, addressed to President Moore and expressing the sentiment of Missouri toward the exposition, was read.

AGRICULTURAL SOCIETY.

NEW OFFICERS ELECTED.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, March 20.—The board of directors of the State Agricultural Society this morning elected the following officers: A. L. Scott, San Francisco, president; Senator Ben F. Rush, Suisun, vice-president; C. Allison Telfer, Fresno, secretary. The Governor this afternoon reappointed Senator B. F. Rush and C. W. Paine to succeed themselves. No action was taken in the case of E. Forest Mitchell, whose terms has also expired.

Controversial.

...CUSED HOUSE MEMBERS ...RY TO SHOW CONSPIRACY.

...propounded by the de... ...that their counsel will ... that a conspiracy ... the four legislators out ... house they would not ... way in the Senatorial ...

...was arraigned before Dis... ...Reed J. Leahy tonight. ...preliminary examination ...fixed at $200 each. At ...hearing it was brought out ...have been in jail two ...day without having been ...warrants and, without ...process.

...testimony told of hav... ...conversation between El... ...prosecuting witness, ... defendants in a room ...hotel, in which the de... ..., he said, to vote ... for the Senate that ... wants, but would not agree to vote for a second candidate he might name.

He declared that when the money was passed, Baca clapped his hands as a signal and the witnesses, Venceslao, Jaramillo and Jose de Sena, who had been waiting in an adjoining bathroom, stepped in. The witness said he took the money, relating how part of it had been thrust under a bed quilt.

He told of recovering a $20 gold piece a half hour after the arrest from the defendant, Lucero, who had it in his vest pocket. Lucero, he said, explained its presence there by saying he was so frightened that he reached in his vest pocket for a toy pistol he was accustomed to carry there.

Sena testified that Lucero asked the forgiveness of Republican State Chairman Jaramillo, saying that if Jaramillo wanted to cut his heart out, he might do so.

The witness then narrated a conversation he said he had with Montoya previous to March 18, repeating a rumor that a certain Senatorial candidate was trying to buy up the Legislature. When objection was made to street rumors as part of the testimony, Attorney Wright, for the committee, contended that the conversation was put in evidence to show that the defendants had ample warning that "the game was not being played under the old rules."

In the conversation referred to, Montoya, the witness testified, had said: "No one has tried to buy me."

The committee adjourned until tomorrow afternoon.

Lust for Blood.

CHARGED WITH MANY MURDERS.

Brothers Arrested in Oregon Admit Crimes.

One Says the Other Killed Their Stepfather.

Police Dig Up Appalling Lot of Other Cases.

[BY A. P. NIGHT WIRE TO THE TIMES.]

PORTLAND (Or.) March 20.—The list of alleged murders attributed to Charles and George Humphrys, brothers under arrest at Corvallis, charged with the murder of Mrs. Ella Griffith, an aged widow, has reached startling proportions. Charles Humphrys is said to have made a confession today, accusing his brother of murder of their stepfather, twelve years ago. Following is the record of crime which the police charge to the two men:

William King, their stepfather, choked to death by George Humphrys, near Dayton, Or., in 1900, in order to rob him of $5.

Mrs. Ella Griffith, murdered by George and Charles Humphrys at her home, near Philomath, June 1, 1911.

Suspicion also is directed against the Humphrys in connection with the disappearance of N. I. Patterson, a bachelor who lived near the Humphrys in Polk county. Patterson dropped from sight in 1902, shortly after receiving back pensions of $1800. At that time the Humphrys claimed to have received a $2000 legacy from the East.

Both are said to have confessed to the murder of Mrs. Griffith.

Air Perils.

AVIATOR IS HURT WHEN HE LANDS.

WIND DRIVES MACHINE BEYOND CONTROL AT SACRAMENTO.

Realizing an Impending Crash He Jumps, But Clothing Is Caught and When Craft Comes to a Rest He Is Beneath It—New York Auto Hurts Aviator Coffyn.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, March 20.—Charles K. Hamilton, while attempting to alight after a flight here today, was struck by a gust of wind and his machine was driven along the back stretch of the racetrack at terrific speed. When he saw that a crash was inevitable, he jumped, intending to throw himself clear of the machine, but the wheels caught his clothing and dragged him some distance. For a time he was in serious danger, as the engine was going full speed ahead and the propeller blades were revolving near his head. The machine rested upon his body for several minutes before he could be rescued, as none of the workmen could shut off the engine, his mechanician being on the other side of the track. He sustained bruises from which he will recover. The machine was badly damaged.

COFFYN BADLY HURT.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, March 20.—Although first examinations indicated that he had been only slightly injured, physicians said tonight that Frank Coffyn, the aviator who was hurt today in an automobile smash-up in Central Park, possibly had sustained a fracture at the base of the skull. His condition is serious.

THE MOTHER WINS.

Refusing to Testify Against Him Her Son Is Freed and She Is Sent to Jail.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SEATTLE, March 20.—Mrs. Lottie Kramer, who was sentenced to thirty days' imprisonment for refusing to testify against her 24-year-old son, L. M. Johnson, better known as Kramer, accused of complicity in the theft of his mother's jewels, won her contest with the law today for the freedom of her boy. Tonight young Kramer is free and his mother is occupying a cell in the County Jail. The court instructed the jury to return a verdict of not guilty because of lack of evidence, and at the same time remanded Mrs. Kramer to serve the contempt sentence.

Young Kramer and his mother left the courtroom together. Mrs. Kramer was led to her cell, while the boy gaily packed his belongings and hurried away. He told the jailer that he would go to Spokane tonight to avoid further trouble in Seattle. He is a son of Mrs. Kramer by a first marriage.

Mrs. Kramer's counsel will apply tomorrow for her release on a writ of habeas corpus.

CLASH OVER SMALLPOX.

AUTHORITIES AT VARIANCE.

[BY A. P. NIGHT WIRE TO THE TIMES.]

DOUGLAS (Ariz.) March 20.—Dr. Looney, State Superintendent of Health; Dr. Miner, County Health Officer, and Dr. Green, City Health Officer, clashed at a public meeting here this morning. Greene, newspaper men, the postmaster and citizens bitterly assailed Miner and Looney for ordering schools and theaters closed here. Greene says the smallpox epidemic is over and last Monday ordered schools and theaters to open. Looney says they must close if he has to call out the militia. Order is now in effect, but an indignation meeting may be called tomorrow.

OBITUARY.

Edward Sabine Renwick.

NEWARK (N. J.) March 20.—[By A. P. Night Wire.] Edward Sabine Renwick, a well-known inventor and patent expert, is dead at his home in Short Hills, N. J., in his ninetieth year. His most remarkable engineering feat was the repairing of the Great Eastern while afloat, in 1862. He succeeded in replating a fracture of the bilge eighty-two feet long and ten feet in greatest width after other experts had declared the feat impossible

BELOVED TEACHER GONE.

Flags on All School Buildings in San Francisco at Half Mast in Memory of Miss Deane.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—[Exclusive Dispatch.] Death came early this morning to Miss Mary Agnes Deane, a member of the Board of Education, and one of the city's most noted educators. The end was unexpected. Yesterday's reports from the sick chamber were that the patient was rallying.

The relapse came toward midnight. The members of her immediate family were summoned and were at the bedside when the end came. Pneumonia was the cause of death.

Miss Deane had been a member of the San Francisco school department for more than thirty years and from 1884 until her appointment by Mayor Rolph to the Board of Education was principal of the Redding school. She always took a lively interest in the careers of her students and thousands of men and women who received their first start under her direction will cherish her memory.

At an informal meeting the Board of Education this morning decided to close the schools Friday in memory of Miss Deane. Flags on all the school buildings are at half mast.

Miss Deane was a sister of Mrs. M. H. DeYoung.

SCHOONER PUTS BACK.

TOWED IN BY A TUG.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—The cod-fishing schooner Galilee, which cleared from here March 16 for Bering Sea, was towed into port today by a tug. The Galilee had eighteen feet of water in her hold and captain and crew were exhausted from a long fight against shipwreck. The first day out the schooner sprang a leak and after five hours Capt. Nelson decided to put about. It was three days and nights before she made the heads. At the time the tug responded to the signal eight schooners were standing by the Galilee.

A NEW RAILROAD.

ARTICLES OF INCORPORATION.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, March 20.—Articles of incorporation were filed today for the California Central Railroad Company, capitalized at $2,000,000, with the chief offices at San Francisco which is to run a railroad and telegraph lines from Hollister to San Juan, San Benito county, and from Chittenden to Watsonville, Santa Cruz county, a distance of approximately thirty miles. The directors named are: George L. Walker of Alameda, F. I. Guilford of Oakland, P. F. Unger, T. H. Woody, F. Y. Hayes, F. W. Bishop and J. L. Falion of San Francisco.

SLOPE BRIEFS.

Miss Mary Agnes Deane.

SAN FRANCISCO, March 20.—[By A. P. Day Wire.] Miss Mary Agnes Deane, a member of the Board of Education of this city, died today of pneumonia. Miss Deane had been identified with educational work in San Francisco for thirty years and had devoted practically her entire life to the mental development of children.

His Hat in the Ring.

STOCKTON, March 20.—[By A. P. Day Wire.] William O'Brien, a baker, claiming Seattle as his residence, was this morning sentenced to a five-year term at San Quentin. O'Brien held up and Robbed Claude Jewell of Alameda county. He took all his victim had, even his hat.

Victims Recovering.

VISALIA (Cal.) March 20.—Members of the family of A. N. Thompson who were injured by an explosion of dynamite in Thompson's barn near here yesterday are expected to recover. Mrs. Thompson, however, still is in a critical condition.

Robbed of His Collections.

SAN JOSE, March 20.—[By A. P. Day Wire.] H. M. Pitman, a Palo Alto contractor, was set upon by two men last night in that town as he was returning from a house where he had collected $200 and was robbed of the entire amount.

Shot by Robbers.

VERNON (B. C.) March 20.—[By A. P. Day Wire.] Provincial Constable Ashton was shot and mortally wounded last night by two men whom he had arrested at Penticton for robbery committed at Bellevue.

An Opium Seizure.

SAN FRANCISCO, March 20.—[By A. P. Night Wire.] Inspectors of the State Board of Pharmacy seized opium valued at $1000 from the steamer Honolulan as she was about to cast off her lines today en route to Honolulu. The drug was addressed to L. Apana of the Yee, Ling Tai Company of Honolulu, and was consigned by L. Lunn of this city, who was arrested.

Bond Issue Defeated.

EUREKA (Cal.) March 20.—[By A. P. Night Wire.] The bond issue for a $150,000 building for the Eureka High School was defeated at today's election. This is the second time that the proposition has been defeated. The strongest opposition came from the wards in which the Socialists are strong.

New Officers Elected.

PETALUMA (Cal.) March 20.—The twentieth annual State convention of the Junior Order of American Mechanics ended here today. Officers elected are: State Councillor, C. T. Quirey, San Francisco; vice-councillor, C. E. Miller, Los Angeles; State treasurer, C. A. James, Oakland. The newly-elected officers were installed by National Deputy Shannon of Oakland.

BAER SUMMONED.

President of the Reading Company to Talk Over the Coal Situation in Washington.

[BY DIRECT WIRE TO THE TIMES.]

PHILADELPHIA, March 20.—[Exclusive Dispatch.] President Baer of the Reading Company has been invited to visit the White House on Friday or Saturday of this week. The invitation arrived here Monday and was sent out at the same time that President Taft asked John Mitchell to come to Washington for a conference and it is believed by operators who are in this city that this move is an indication that the government has determined to prevent a miners' strike on April 1.

While Mr. Baer would not say on what business he was going to Washington, coal men here say that the Lee bill introduced in Congress Saturday has had much to do with bringing the operators together for some concessions which the President will suggest to Mr. Baer after his conference with Mitchell.

FIVE WEEKS MORE OF IT.

For Thirty Days Roosevelt Will Spout and Then His Camp Will Be in Shadow, Taft Men Say.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, March 20. — [Exclusive Dispatch.] Mr. Taft's campaign managers say that in five weeks their column of delegate strength will be towering and substantial enough to shadow the Roosevelt camp and to take all the heart out of it. They predict the disintegration of the enemy's forces for mid-April, and wholesale desertions immediately thereafter by which the President's following will profit. The administration chieftains are contemptuous of threats of contests in convention.

Mr. Roosevelt's lieutenants say they will contest the South. The Taft table for Alabama shows eighteen delegates instructed for the President. The Roosevelt table shows two Alabama delegates in hand with fourteen open to contest. The Taft table shows fourteen Tennessee delegates instructed for the President and the whole Roosevelt table gives two to the colonel and twelve to be instructed. So it runs virtually all through the southern list.

How to Beautify Hair and Complexion

Nothing has been found so efficient to keep the scalp clean and healthy, and the hair lustrous, fluffy and growing, as a shampoo prepared by dissolving a teaspoonful of canthrox in a cup of hot water. The hair will rinse easily and dry quickly without streaking. This shampoo prevents brittleness, split hairs and dissolves dandruff instantly.

An extremely good lotion, far better than face powder for whitening the skin and beautifying the complexion, can be made by dissolving 4 ounces of spurmax in ½ pint witch hazel (or hot water,) then adding 2 teaspoonfuls glycerine. For taking away that shiny, oily, sallow look and improving a muddy complexion it is unequaled. It is very beneficial to the skin, does not show nor rub off easily like powder, and gives to the skin such a smooth, refined appearance.

We Can Replace Them Without a Plate

The work is guaranteed to look natural, feel natural, and for masticating purposes equal to Nature's own. We make Restoration Plates, which do wonders towards restoring the mouth to its youthful lines and appearance. Our Combination Plates used where one or more teeth remain in the mouth, are self-supporting and roofless. Every facility for doing high-class dentistry is ours, and our prices are very reasonable. Each piece of work is guaranteed. Isn't that fair enough?

KNOX'S SERVANT ON PAY ROLLS?

House Committee Inquiring Into the Charges.

Also Looks Into Matter of Paying for Trip South.

Learn of Emergency Fund in Diplomatic Measure.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, March 20.—The House Committee on State Department Expenditures is investigating statements that Secretary of State Knox uses as a private servant, Archibald S. Pinkert, a negro, carried on the State Department pay rolls, and that Pinkert is accompanying Mr. Knox as valet on the present Central American tour.

"Robert F. Clayton, superintendent of the State Department's mailing room, told us," said Chairman Hamlin, of the committee, "that while Pinkert was carried on the mailing room pay roll at $1200 a year, he has not been at work there more than none third of the time in three years, and that the rest of the time he was engaged at Secretary Knox's home in some capacity."

The committee also inquired into the matter of defraying the expenses of the secretary's Central American trip, and the statements made by Controller Tracewell, that it could not be paid for out of the secret emergency or diplomatic funds, but might come out of the horse and stable fund of the department, which is $8000. It was stated that the horse and stable fund would not pay one-sixteenth part of the trip.

"Where will the money come from?" Mr. Hamlin asked.

"I do not know," Chief Clerk McNier replied.

State Department officials today said that Secretary Knox's expenses on his tour of South and Central America were being paid from the emergency fund provided in the regular diplomatic and consular appropriation bill. The item reads:

"To enable the President to meet unforeseen emergencies arising in the diplomatic and consular service and to extend the commercial and other interests of the United States, $90,000."

It was explained that the expense of the trip also might have been charged against the appropriation for the cultivation of trade relations.

This explanation was called forth by the hearing today before the House committee. At the department no official comment was made on the charge that the secretary was using one of the departmental laborers as a valet, though it was said that the higher officials of the government often do much official work at home, involving the employment outside the department of stenographers, clerks and messengers.

GRANT TO BURBANK.

WASHINGTON, March 20.—[Exclusive Dispatch.] Congressman S. C. Smith, is not in favor of offering special inducements to Luther Burbank, in the shape of a grant of desert lands at the minimum government price, on which to grow spineless cactus. He says it is a monopoly, anyway, and he believes in letting Burbank grow cactus on private lands although he admits there is great need for some new forage plant that will thrive on the barren lands. Several persons have written in advocacy of the bill, using letter forms very nearly identical.

PITH OF THE DAY'S NEWS FROM THE MIDDLE WEST.

CHICAGO, March 20. — [Exclusive Dispatch.] Chicago was gripped by one of the worst blizzards of the winter today. There is much suffering, and traffic is demoralized. The storm promises to continue until tomorrow. The snow is one of the heaviest experienced this season. The maximum temperature today was 40 and the minimum 18 deg. Middle West temperatures:

JACK BEALL A CALLER.

[BY A. P. DAY WIRE TO THE TIMES.]

LEAVENWORTH (Kan.) March 20.—Congressman Jack Beall of Texas, chairman of a House committee to investigate Federal prisons, visited the United States prison here, yesterday.

A HAT PIN JAB.

[BY A. P. DAY WIRE TO THE TIMES.]

OTTUMWA (Iowa.) March 20.—Miss Lulu Mason of Libertyville, Iowa, is in a hospital today as the result of a hatpin jab received in one of her eyes in a bargain counter rush. She has lost the sight of her eye.

A BIG EGG.

[BY A. P. DAY WIRE TO THE TIMES.]

ELGIN (Ill.) March 20.—What is believed to be the largest egg has been laid by an Elgin hen. The egg measures eight and a half by six and a half inches, and weighs fifteen ounces.

OHIO MAN UNAVENGED.

[BY A. P. DAY WIRE TO THE TIMES.]

INDEPENDENCE (Kan.) March 20.—After being out since Saturday afternoon, the jury in the third trial of A. A. Truskett of Caney, Kan., charged with the murder of J. D. S. Keeley, the Lima (Ohio) oil promoter, was discharged last night, after failing to reach a verdict. The serious illness of Frank Utter, a juror from Cherryvale, Kan., brought the trial to an end.

"GARRY" ALSO RETIRES.

[BY A. P. DAY WIRE TO THE TIMES.]

CINCINNATI, March 20.—August Herrmann, who for thirty years has been associated with George B. Cox in Republican politics in this city, last night announced that he had retired. This follows an announcement to the same effect made several months ago by Mr. Cox, who also withdrew from active participation in politics. Mr. Herrmann is president of the National Baseball Commission and of the Cincinnati National League baseball club.

PENSION FOR EDUCATORS.

[BY A. P. DAY WIRE TO THE TIMES.]

CHICAGO, March 20.—University of Chicago faculty members and their widows are to be beneficiaries of a pension system with an endowment of $2,000,000, President Harry Pratt Judson announced today. Between 150 and 200 members of the faculty, which now number 350, will be eligible to pensions. They will range from $1000 to $3000 a year. Any person in the service of the university who has reached the age of 65, and has been in the service of the school at least fifteen years, at a rank not lower than assistant professor, may retire from active service, or be retired by the trustees on an annual allowance. The $2,000,000 necessary to carry out the pension system will be obtained by setting aside $200,000 each year for ten years from the income derived from the latest endowment of $10,000,000 by John D. Rockefeller. It is estimated the pensions will amount to $100,000 a year.

SENTENCED TO DIE.

[BY A. P. DAY WIRE TO THE TIMES.]

BENTON CITY (Mo.) March 20.—The ground hog has received official notice here. The Mayor and Aldermen passed a resolution last night and caused it to be written in the town records, declaring the ground hog to be to blame for the unusual weather, and ordering his execution on February 2, 1913.

J. P. MORGAN'S GIFT.

[BY A. P. DAY WIRE TO THE TIMES.]

NASHVILLE (Tenn.) March 20.—Announcement was made here today of a gift of $100,000 by J. Pierpont Morgan to the Peabody College for Teachers. The trustees of the George Peabody fund agreed to give an additional $500,000 to the southern college, provided the college raised $1,000,000 by September 1, 1913. Mr. Morgan's contribution is to be a part of the million. Southern alumni have agreed to raise $200,000.

TO DEPORT CHINESE.

[BY A. P. DAY WIRE TO THE TIMES.]

CHICAGO, March 20.—United States deputy marshals will leave here next Tuesday for a trip to San Francisco to deport the largest number of allen Chinese that has ever left this country at one time. There are thirty-five in the party. Seven will be taken from Chicago and nine from St. Louis. Stops will be made at New Orleans, San Antonio, Tex., Del Rio, Tex., El Paso and Los Angeles to pick up Chinamen ordered deported. The party will travel across the continent in a special car. The steamship Nile will leave San Francisco April 3 with the party.

GIRL IN MALE ATTIRE.

[BY A. P. DAY WIRE TO THE TIMES.]

PITTSBURGH (Kan.) March 20.—Enoch Sommers, a young man recently married, died under mysterious circumstances at his home here today. A coroner's jury decided that his death was caused by chloroform, administered by an unidentified person. Sommers's body was found in his bed. The police are trying to locate Mrs. Sommers to get her testimony. Sommers, who was 25 years of age, married Clara Anthony, a school teacher here. A few weeks ago they went East seeking employment. At Terre Haute, Ind., having spent their money, Mrs. Sommers donned man's attire and they started to walk from that city. Later they were found in the open country almost frozen. Friends sent them money and they returned.

THE CONCRETE FACE.

[BY A. P. DAY WIRE TO THE TIMES.]

HAMMOND (Ind.) March 20.—Men with "concrete faces" are going to pay more for their shaves in this town or shave themselves, say the barbers. Concrete faces? It is thus explained: Men working in the concrete plant here get their beards full of fine cement dust. When they perspire and get into the cold air a layer of concrete forms on their skin which is not calculated to promote the efficiency of a delicate-edged razor or yet the patience of the barber.

A MODERN FAIR.

[BY A. P. DAY WIRE TO THE TIMES.]

CHICAGO, March 20.—Going to the county or State fairs will lose much of its charm if State fair officials of eight Central Western States carry out the threat they have made at their annual meeting here. They threaten to bar: All kinds of freaks, including the snake eater and the fat lady; the old-fashioned barker with the horse blanket vest and dyed moustache whose voice would carry from the grand stand to the quarter pole.

THE WEDDING FEAST.

[BY A. P. DAY WIRE TO THE TIMES.]

CHICAGO, March 20.—Municipal Judge Dolan today decided Mrs. Henry Goulbinos must repay John Blusis $80 he gave her with which to purchase a wedding feast when they were to be married two years ago. Blusis told the court that while he was in St. Charles, Ill., telling his relatives of his approaching marriage he received this letter: "I've changed my mind. I don't think we could be happy together. I have given the $80 to my brother. He will turn it over to you. Good bye." Blusis never received the $80, so he brought suit. Mrs. Goulbinos said her brother must have squandered the money.

THE CHESTNUT CROP.

[BY A. P. DAY WIRE TO THE TIMES.]

TOPEKA (Kan.) March 20.—Kansas fruit prospects never have been better than they are this year, according to Walter Wellhouse, secretary of the State Horticultural Society. "The apple buds are in the best condition the fruit men have seen them in many years," Mr. Wellhouse said today. "Some of the more tender varieties of peaches are killed, but plenty of the best varieties will be in the market unless late frosts catch them. I look for an immense fruit crop and fruit of unsurpassed quality."

HOKE SMITH RUNS AMUCK.

Tries to Earn His Pay as a Senator by Preventing Old Soldiers from Obtaining Government Pensions.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, March 20.—Senator Hoke Smith again today balked at speedy disposition of private pension bills. When his request that each of 188 names on the first of seven bills on the calendar be taken up individually was ruled out of order, he began to offer amendments to strike out individual names.

The first to fall under the Georgia Senator's onslaught was Thomas Jefferson, negro, of the 123rd Volunteer Infantry, who was promptly voted back into the bill, 31 to 18.

Senator Smith told the Senate he had not noticed the name of the beneficiary before making his motion. Others whom he sought to strike out stayed in.

Senator Smith thinks the private bills should not be passed until action has been taken on the general service pension bills.

PROJECT HAS CLEAR ROAD.

Secretary of Interior Denies All Applications for Rehearing and Intervention in Aqueduct Cases.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON (D. C.) March 20.—[Exclusive Dispatch.] The Secretary of the Interior has finally denied not only all applications for rehearings in the matter of rejections of protests against the right of Los Angeles to buy certain lands in connection with its aqueduct system, but he has also denied the application of the Silver Lake Company to intervene. This company alleged that it had an application on file for a right of way, but on investigation no such application could be found. Attorney R. Woodland Gates, representing the city of Los Angeles, says this clears the way for the completion of Los Angeles' great undertaking.

THE PRESIDENT RETURNS.

Is Kept Waiting in Railway Station by Reports of an Accident to Mrs. Taft in New York.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, March 20.—President Taft got back to the White House late today, after two days in New England. Reports of an accident to Mrs. Taft in New York kept the President in the waiting-room at the Union Station here for fifteen minutes while he talked to his brother, Henry W. Taft, over the long distance telephone, who reassured him.

MRS. TAFT SUFFERS A FALL.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, March 20.—Mrs. Taft, wife of President Taft, stepped on her dress as she was alighting from a wheeled chair at the Woman's Industrial Exhibit in the Grand Central Palace, this afternoon, and fell to the floor. She was not injured.

FEDERAL CO-OPERATION URGED BY THE PRESIDENT.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, March 20.—[Exclusive Dispatch.] The President having some personal knowledge of conditions on the Sacramento River wrote a letter to the Senate Committee on Commerce recommending government co-operating with the State on river work contemplated. He has been informed by Chairman Nelson that he will urge the committee to accept the President's views.

LOS ANGELES MAN APPOINTED.

WASHINGTON, March 20.—[Exclusive Dispatch.] F. T. Parker, Los Angeles, was today appointed stenographer in Panama.

A PERKINS BILL PASSES.

WASHINGTON, March 20.—[Exclusive Dispatch.] The Senate today passed the Perkins bill authorizing the Secretary of the Interior to acquire patented lands in Yosemite National Park.

BELL SYSTEM REPORTS.

Annual Statement Large Increase of Business and in Wire Mileage for Year Just Ended.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, March 20.—Growth of the Bell system is shown concretely in the annual report of the American Telephone and Telegraph Company for 1911, made public today. It indicates an increase of 749,006 stations, making 6,632,625 in all at the end of the year. Of these, 2,158,454 were operated by the connecting companies.

Wire mileage has been increased to nearly 13,000,000 miles, over half of it, under ground. Net earnings for the year are given as $23,201,245, an increase of $1,268,031 over 1910.

THE PACKERS' TRIAL.

United States Attorney in Statement to Jury Demands the Conviction of Ten Under the Sherman Law.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CHICAGO, March 20.—United States Attorney James H. Wilkerson demanded the conviction of the ten packers charged with criminal violation of the Sherman law, in his closing address to the jury today. He declared the government had proved beyond all reasonable doubt every offense charged in the indictment.

"The Sherman law is not the fog through which the ship of interstate commerce has been sailing," he said. "The real fog has been the contempt for and disobedience of the law."

CANVAS COSTS MILLION.

New York Merchant Purchases Two Velasques Portraits Executed Three Hundred Years Ago.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, March 20.—Benjamin Altman, a New York dry goods millionaire, is now named as the purchaser of two famous portraits by Velasquez, which recently came to this country. The portraits which have heretofore hung in the Villa Hermosa palace, cost Mr. Altman something over $1,000,000, it is said.

The paintings are of King Philip IV of Spain and his Minister, the Duke of Olivares. They bear the date of 1624 and are the most expensive canvases by this artist on record.

For Men Who Call Strikes.

BOSTON, March 20. — [By A. P. Night Wire.] "Men who call strikes among laborers should be punished and held responsible for all succeeding acts of violence," said President John J. Kirby, Jr., of the National Association of Manufacturers, at a luncheon of the association here yesterday.

Labor.

PAINTS UNIONS AS DIRE PERIL

They Undermine Civilization Says Railroad Man.

President Loree Likens Them to Rank Anarchists.

Urges Roads to Meet Situation Wtih Committee.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, March 20.—[Exclusive Dispatch.] That organized labor is making a systematic attempt to undermine all the efforts that civilization has made for the preservation of order was the statement made in an address by L. F. Loree, president of the Delaware and Hudson Railroad, at the annual dinner of the American Railway Engineering Association this evening.

It was regarded as one of the most blistering attacks ever made on trade unionism by a railroad official and evoked intense interest. Mr. Loree urged the railroads to meet a critical situation by establishing a permanent committee to consider questions of organization, discipline and equipment of forces for various kinds of labor. Mr. Loree was unable to attend and his address on "Labor Unionism" was read by George H. Burgess, chief engineer of the Delaware and Hudson road.

In one of his broadsides at labor organizations, President Loree declared that "The trade unions display the same intolerance, the same exclusive claims for superior rights and the same ferocious cruelty that characterized the persecution of sects.

"The effectiveness of the strike would appear to depend upon disorder, violence and crime which have distinguished it in all countries at all times and among all unions."

Since 1889, he asserted, the whole trade union world has been drifting toward socialism.

RESIGNS HIS POSITION.

Attorney-General of Porto Rico to Retire and Take Up Practice of Profession in Tennessee.

[BY A. P. DAY WIRE TO THE TIMES.]

NASHVILLE, March 20.—Gen. Fox Conner, Attorney-General of Porto Rico, who was appointed by President Taft to succeed Solicitor V. Brown of Porto Rico was in Nashville today on his way to New York today on his way to Washington where he will hand his resignation to President Taft tomorrow. He will return to his home in Charlottesville, Va., to resume his law practice.

Mr. Brown spoke enthusiastically of the progress and prosperity of Porto Rico, where he has been stationed for two years.

"I do not think there is a single office in the Union today where the

MRS. BLANCHE CARSON ENDS LIFE

Arrested in New York on Charge of Stealing Gems from India, Young Woman Dies in Los Angeles, San Francisco Suicide—Was Authoress.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, March 20.—Mrs. Blanche Carson of San Francisco, who was arrested here for stealing jewelry on her arrival from India, committed suicide early today by hanging herself out of the window of the Hotel Brotsell.

The body of Mrs. Carson was seen by a pedestrian swinging from a window on the eighth floor of the hotel. The clerk was notified and the door of Mrs. Carson's room was forced. A rope tied to the radiator, passed out of the window and at its end dangled the body. The body was still warm. Two notes were found in the room, one of which was addressed to her attorney, Harrison Osborn.

Mrs. Carson reached here day before yesterday on the steamship from Washington. She was accused on the charge of gross undervaluation and smuggling, after she confessed that she had smuggled jewelry which the authorities valued at $4,000.

On her arrival Mrs. Carson had declared a package of unstrung pearls she had undervalued them.

On her appearance for examination yesterday she broke down and wept. Of the large amount of jewelry she had brought into the country concealed in her hat and baggage. Released on $2000 bail Mrs. Carson went to her hotel. She registered as Mrs. Blanche Carson of Paris. She was about 40 years of age and was making a tour around the world alone.

Mrs. Carson evidently had set up all night and some time after 5 o'clock she untied a rope from a large chair in her room and fastened one end to the radiator, slipped the other around her neck and dropped from the window.

A second note left by Mrs. Carson was addressed to Paul R. Mabury, No. 919 West Twenty-eighth street, Los Angeles, Cal.

In her statement before the customs official Mrs. Carson said:

"I will confess that these unstrung pearls are not the only gems I have. I have also a pair of diamond earrings which I concealed in the lining of my hat. I was told the duties collected were excessive. I thought I could not to pay excessive duties. I have told all I have done. I am willing to pay the duties and give up everything I have purchased for fair valuation. I am willing to pay the duties."

Mrs. Carson said he did not know the previous affairs of Mrs. Carson. There was a card with her name and bearing the address No. 919 South street, San Francisco. Mr. Osborn declined to open the letter addressed to him until the Coroner had finished his examination.

The letter addressed to Paul R. Mabury began:

"Dear Brother," but it was not addressed to Mr. Osborn read as follows:

"Dear Mr. Osborn: My brother's name is Paul R. Mabury No. 919 West Twenty-eighth street, Los An-

Labor.

PAINTS UNIONS AS DIRE PERIL.

They Undermine Civilization Says Railroad Man.

President Loree Likens Them to Rank Anarchists.

Urges Roads to Meet Situation With Committee.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, March 20.—[Exclusive Match.] That organized labor is making a systematic attempt to undermine all the efforts that civilization has made for the preservation of order was the statement made in an address by L. F. Loree, president of the Delaware and Hudson Railroad, at the annual dinner of the American Railway Engineering Association this evening.

It was regarded as one of the most scathing attacks ever made on trade unionism by a railroad official and created intense interest. Mr. Loree charged unionists to anarchists and urged the railroads to meet a critical situation by establishing a permanent committee to consider questions of organization, discipline and equipment of forces for various kinds of labor.

Mr. Loree was unable to attend and his address on "Labor Unionism" was read by George H. Burgess, chief engineer of the Delaware and Hudson road.

In one of his broadsides at labor organizations, President Loree declared that "The trade unions display all of the intolerance, the same exclusive claims for superior rights and the same ferocious cruelty that characterized the persecution of sects. The effectiveness of the strike will appear to depend upon disorder, violence and crime which have diminished it in all countries at all times and among all unions."

Since 1830, he asserted, the whole trade union world has been drifting toward socialism.

RESIGNS HIS POSITION.

Attorney-General of Porto Rico to Leave and Take Up Practice of Law in Tennessee.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, March 20.—Gen. Fosdick V. Brown of Porto Rico was in New York today on his way to Washington where he will hand his resignation to President Taft tomorrow. He will return to his home in Chattanooga, Tenn., to resume his law practice.

Mr. Brown spoke enthusiastically of the progress and prosperity of Porto Rico, where he has been stationed for two years.

"I do not think there is a single man in the Union today where the people are so happy as the Porto Ricans are with the government they have," he said.

"There is only one complaint they make against the United States, and that, I think, is a just one. They feel they have a right to American citizenship. That feeling was expressed and favored in the platforms of both parties in this country and both President Roosevelt and President Taft urged the conferring of such citizenship. There is no reason especially in view of these long standing promises, why Porto Ricans should not be made citizens. Without it, they feel today that a Porto Rican is a man without a country."

TO DISCUSS STEEL RAILS.

Railroad and Steel Men Will Meet in New York for Series of Conferences on Big Subject.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, March 20.—Railroad men and steel experts from all parts of the country will meet at the headquarters of the American Railway Association here tomorrow to begin a series of conferences on the steel rail question. Opinions differ enough to make it probable that the argument will begin at the mines and continue through the whole process of manufacture to the track.

The railroad side of the case will be presented by President Willard of the Baltimore & Ohio; President Loree of the Delaware and Hudson; President Mudge of the Rock Island, and Vice-President Kruttschnitt of the Harriman lines.

The steel men will include E. H. Gary and James A. Farrell of the United States Steel corporation; Presidents A. C. Dinkey of the Carnegie Steel Company, Eugene J. Buffington of the Illinois Steel Company, Edmund A. S. Clark of the Lackawanna Steel Company, W. R. Woods of the Maryland Steel Company, C. M. Schwab of the Bethlehem Steel Company, S. M. Felton of the Pennsylvania Steel Company, and George G. Crawford of the Tennessee Coal and Iron Company.

PROOF HELD COMPETENT.

Court Rules That Waters-Pierce Company Has Right to Show Conspiracy on Part of Standard.

[BY A. P. DAY WIRE TO THE TIMES.]

ST. LOUIS, March 20.—Circuit Judge Kinsey decided today in the mandamus suit of the Standard Oil Company, against the Waters-Pierce Oil Company, that it was competent as defense for the Waters-Pierce company to submit proof that the Standard Oil owners were seeking to perpetuate the Standard Oil monopoly through individual control of corporations formerly owned by the Standard before its dissolution by the United States Supreme Court.

Judge Kinsey's ruling was on the motion of the Standard Oil attorneys to strike out of the Waters-Pierce answer all allegations relating to a conspiracy in restraint of trade. Judge Kinsey ordered, however, that the allegations be more specific.

The mandamus suit was filed to compel the Waters-Pierce company to count the ballots tendered by the Standard Oil interests in the recent annual election.

NO INDIGESTION OR SICK, UPSET STOMACH

DIAPEPSIN STOPS FERMENTATION AND ENDS WORST CASE OF DYSPEPSIA IN FIVE MINUTES.

Why not get some now—this moment, and forever rid yourself of Stomach trouble and Indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of Gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and Dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of Indigestion and Upset Stomach in five minutes.

There is nothing else better to take Gas from Stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table and what you eat will do you good.

Absolute relief from all Stomach misery is waiting for you as soon as you decide to take a little Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out of order and uncomfortable now, you can surely get relief in five minutes.

Political Ghosts.

THE HOBGOBLIN OF A MINORITY.

ROOSEVELT SAYS HE IS EARNESTLY AFRAID OF IT.

Declares He Stands by Every Word of His Columbus Speech That Gained for Him the Sobriquet of the McNamara of the Political World.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, March 20.—Theodore Roosevelt spoke on "The Right of the People to Rule," in Carnegie Hall tonight.

He said:

"I have scant patience with this talk of the tyranny of the majority. Whenever there is tyranny of the majority, I shall protest against it with all my heart and soul. But we are today suffering from the tyranny of minorities. It is a small minority that is grabbing our coal deposits, our water powers and our harbor fronts. A small minority is battening on the sale of adulterated foods and drugs. It is a small minority that lies behind monopolies and trusts. It is a small minority that stands behind the present law of master and servant, the sweatshop, the whole calendar of social and industrial injustice. It is a small minority that is today using our convention system to defeat the will of a majority of the people in the choice of delegates to the Chicago convention. The only tyrannies from which men, women and children are suffering in real life are tyrannies of minorities.

"My opponents charge," Mr. Roosevelt continued, "that two things in my programme are wrong, because they intrude into the sanctuary of the judiciary. The first is the recall of judges; the second, the review by the people of judicial decisions on certain constitutional questions. I do not advocate the recall of judges in all States and in all communities. But democracy has a right to approach the sanctuary of the courts when a special interest has corruptly found sanctuary there."

"Mr. Taft's position," said Mr. Roosevelt, "is the position that has been held since the beginning of our government. President Taft fairly defines the issue when he says our government is and should be a government of all the people by a representative part of the people. This is an excellent and moderate description of an oligarchy.

"Essentially this view is that the Constitution is a strait-jacket to be used for the control of an unruly patient—the people. Now I hold that this view is not only false, but mischievous, that our Constitutions are instruments designed to secure justice by securing the deliberate but effective expression of the popular will. Mr. Taft says 'every class' should have a 'voice' in the government. That seems to me a very serious misconception of the American political situation. The real trouble with us is that some classes have had too much of a voice.

"Mr. Taft expresses disbelief in the people when they vote at the polls. I should much like to know the exact distinction between what Mr. Taft calls 'the fitful impulse of a temporary majority' when applied to a question such as that I raise and any other question.

"I stand on the Columbus speech. The principles there asserted are not new but I believe they are necessary to the maintenance of free democratic government."

THE HARMON PLAN.

ADOPTED IN OHIO.

[BY A. P. NIGHT WIRE TO THE TIMES.]

COLUMBUS, (Ohio) March 20.—Supporters of Gov. Harmon's Presidential candidacy, in complete control of the Democratic State Committee, provided for a Presidential preference primary to be held in Ohio, May 21, at which all entrants for the Democratic nomination for President may be voted for directly. A State convention for the nomination of the State ticket was called to be held at Toledo on June 4 and 5, for the nomination of candidates for Governor and other officers. The Harmon plan provides that the successful Presidential candidate in the primary of May 21 shall name the six delegates at large.

ROOSEVELT ITINERARY.

TRIP TO THE WEST.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, March 20.—Part of the itinerary of Col. Roosevelt's western speaking trip next week was announced here tonight by Senator Joseph Dixon, chairman of the Roosevelt Executive Committee. Tuesday, March 26, leave for Chicago, 5 p.m. Wednesday, March 27, arrive at Chicago, 2 p.m. Leave Chicago, 11:43 p.m. Thursday, March 28, arrive St. Louis, 7:58 a.m. Leave 10:30 p.m. by special train overtaking the regular St. Paul train at Cedar Rapids, Iowa, at 8 a.m., Friday. Friday, March 29, arrive at St. Paul, 5 p.m. Leave St. Paul at 11:30 p.m. Saturday, March 30, arrive in Chicago at noon.

Mr. Taft Indorsed.

COLUMBUS (Ohio) March 20.—[By A. P. Night Wire.] Republican County Committee executive chairmen of sixty-two counties at a meeting here yesterday adopted a resolution indorsing President Taft and renewing the pledge of the State convention of 1910, which promised Ohio's support to the President.

No Special Session.

CHICAGO, March 20.—[By A. P. Night Wire.] Gov. Deneen announces he will not call a special session of the State Legislature to enact a preferential primary law.

GATHER BIG OLIVE CROP.

Output of Seville for Year Reported to Have Been Largest in History of the Province.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON (D.C.) MARCH 20.—[Exclusive Dispatch.] A report in the Daily Consular and Trade Reports by Consul Charles S. Winans of Seville states that in the Province of Seville the olive crop just harvested (mid-February) is the largest within memory. The olives, moreover, are of good quality and in excellent condition. The harvest, which was accomplished without untoward incident, is estimated by the local agricultural bureau, in comparison with last year's (1910) crop, as follows (metric quintal equal 220.46 pounds:)

Products—	1910 Quintals	1911 Quintals
Total production of olives	704,767	5,351,945
Olives for making oil	627,343	4,621,339
Olives for consumption	77,524	630,156
Oil produced per metric quintal of olives	.1351	.1744
Total production of oil	84,749	805,965
*Local consumption of oil:		
For food	111,051	111,051
Other uses	6,000	6,000
Surplus of oil, for exportation, etc.	.....	688,914

*The estimated acreage of land under olive cultivation is now 551,971, as against 551,946 a year ago.

In Italy also the prospects for olives are very good.

Consul Hernando de Soto of Palermo, under date of February 14, reports that the crop of oil-producing olives in Sicily in 1911 is estimated at 345,700 tons, an increase of 295,190 tons over the very small crop of the preceding year. The crop in all of Italy is estimated at 1,410,000 tons, as compared with 935,760 tons in 1910. The value of the exports of olive oil from Palermo to the United States in 1911 was $271,490, against $338,707 in 1910.

EXPLOSION KILLS NINE.

Mine Settlings Result in Escape of Gas and Combustion Following Wrecks Score of Buildings.

[BY A. P. DAY WIRE TO THE TIMES.]

SCRANTON (Pa.) March 20.—In a gas explosion, caused, it is believed, by mine settlings, nine persons were killed and two injured today in Dunmore, near here. Two families, comprising two women and seven children, were either blown to pieces in the explosion or burned in the fire that followed and destroyed their houses. The dead:

MRS. JOHN CAVELLA and her five children, ROSE, aged 3; DOMINICK, 8; LUCY, 11; LIZZIE, 14; WILLIAM, 20.

MRS. VITO SUMMA, Mrs. Cavella's daughter, and her two children, MARY, aged 7, and FRANK, 4.

The body of Mary Summa was found in the limbs of a tree fifty feet from the scene of the explosion a half hour after the accident.

More than twenty dwellings near the scene of the explosion were badly damaged by the concussion and the flying timbers and scores were thrown out of their beds and bruised.

During the last week mine settlings in the neighborhood of the Cavella home have caused alarm. Only a few days ago the cellar dropped off a house on the opposite side of the street and several miners climbed to the surface on ladders let down by the women of the house.

Dunmore police say that gas from a broken main, caused perhaps by the mine settlings, found its way into the cellar of the Cavella home, where it gathered in a dense volume and exploded when it came in contact with an oil lamp burning in the house.

Fontana Orange Lands

Subdivision No. 2

The Fontana Development Company has subdivided and placed on the market 640 acres of land lying between the Santa Fe and Southern Pacific Railways. This land is now for sale in 5, 10 and 20-acre tracts, unimproved, or planted to citrus fruits, as the buyer desires.

The soil is rich, deep and especially adapted to the growing of oranges, lemons and grapefruit. Streets and avenues are being graded and oiled and bordered with ornamental shade trees.

If you contemplate purchasing an orange grove do not wait until you have accumulated money enough to pay for a bearing grove at from $2000 to $3000 per acre. Adopt the FONTANA PLAN instead and have a grove brought to maturity while you are earning the money to pay for it, at your regular employment.

Under the FONTANA PLAN a buyer may have his land planted to any variety of citrus fruits at the rate of $450 per acre, including water, and pay only one-fifth down on the purchase price. He need not make another payment until the end of the third year, and is allowed six years in which to pay the balance.

If the buyer is not in a position to care for his own grove we will make a contract to care for it until maturity. This work is done under the personal supervision of our horticultural expert. If a buyer desires to take possession of his grove and care for it after planting he will be entitled to the counsel and advice of our expert at any and all times without charge on any matters connected with the development of the property.

The Fontana Company is financially and physically equipped to carry out a proposition of this kind, and is so doing for scores of business men residing in various parts of the United States and Canada, to the entire satisfaction of the owners of the groves.

The success of citrus culture depends on good soil, ample water supply and convenient transportation facilities. Fontana lands have all these advantages.

The soil is composed of a fine silt, mixed with alluvial decomposed granite, and has no hardpan or alkali.

The water supply is from the Lytle Creek Canyon, and is abundant at all seasons of the year. The rights to the water have been legally adjudicated to the company and the irrigation system is complete in every particular, the water being delivered to the groves under pressure in concrete pipes.

The transportation facilities are of the best, as there are two transcontinental railroads, the Southern Pacific and Santa Fe, passing through the tract, the Santa Fe having one station on the property.

For those who prefer groves already planted we have a few tracts—demonstration groves—from ten months to a little over one year old, which can be had at $500 and $550 per acre according to age and location, on our regular terms, one-fifth down and balance in six years.

Go out with our representatives, examine our new subdivision and young groves and become familiar with the most practical citrus land buying opportunity offered in the Southwest.

MRS. BLANCHE CARSON ENDS LIFE BY HANGING.

Arrested in New York on the Charge of Smuggling Gems from India, Young Woman With Relatives in Los Angeles, San Francisco and San Jose, Commits Suicide—Was Authoress of Note.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, March 20.—Mrs. Blanche Carson of San Francisco, who was arrested here for [illegible] jewelry on her arrival [illegible], committed suicide early [illegible] hanging herself out of the [illegible] of the Hotel Brotsell.

The body of Mrs. Carson was seen by a pedestrian swinging from a window on the eighth floor of the hotel. The clerk was notified and the door to Mrs. Carson's room was forced. She was tied to the radiator, passed [illegible] the window and at its end dangled the body. The body was still warm. Two notes were found in the room, one of which was addressed to Harrison Osborn.

Mrs. Carson reached here day before yesterday on the steamship from Washington. She was arrested in the charge of gross undervaluation and smuggling, after she declared that she had smuggled jewelry [illegible] the authorities valued at [illegible].

After her arrival Mrs. Carson had declared a package of unstrung pearls, [illegible] undervalued them.

Upon her appearance for examination yesterday she broke down and wept. The large amount of jewelry [illegible] brought into the country concealed in her hat and baggage. Recently $1000 bail Mrs. Carson went [illegible] hotel. She registered as Mrs. Carson of Paris. She was [illegible] years of age and was making [illegible] around the world alone.

Mrs. Carson evidently had sat up [illegible] and some time after 5 o'clock tied a rope from a large [illegible] in her room and fastened [illegible] the radiator, slipped the [illegible] her neck and dropped [illegible].

A letter was left by Mrs. Carson addressed to Paul R. Mabury, 918 West Twenty-eighth street, Los Angeles, Cal.

A statement before the [illegible] Mrs. Carson said:

"I confess that these unstrung pearls are the only gems I have. I had a pair of diamond earrings which I concealed in the lining of my hat. I was told the duties [illegible] excessive. I thought I would be [illegible] my excessive duties. I [illegible] what I have done. I am willing to [illegible] all and give up everything purchased for fair valuation. I am willing to pay the [illegible]."

Mr. Osborn said he did not know [illegible] affairs of Mrs. Carson. [illegible] a card with her name [illegible] bearing the address No. [illegible] Francisco. Mr. [illegible] refused to open the letter addressed to Paul R. [illegible] until the Coroner had [illegible] examination.

The letter addressed to Paul R. [illegible] "Dear Editor," but it was not [illegible] to Mr. Osborn read as follows:

"Mr. Osborn: My brother's address is Paul R. Mabury No. 918 West Twenty-eighth street, Los Angeles, Cal. I can never thank you enough for all you have done for me. Dispose of the remains here as quickly as possible. Do not send them home.

[Signed] "B. CARSON."

A WEALTHY FAMILY.

MOURNING FOR MRS. CARSON.

[BY A. P. DAY WIRE TO THE TIMES.]

SAN JOSE, March 20.—Mrs. Blanche Carson, who hanged herself in New York this morning, was a daughter of the late Hiram Mabury, who for years was one of the most prominent residents of this city. Her mother, and two sisters and two brothers reside in Los Angeles, whence the family removed four years ago. Mrs. Carson and two other sisters' Miss Carlotta and Miss Beatrice Eugenie—have been residing in San Francisco. The family is one of great wealth, and after their mansion on the Alameda had been wrecked by the earthquake of 1906 they removed to Los Angeles, where they had large property interests. Mrs. Carson had been a great traveler for many years and a few years ago she published a book on Egypt that attracted considerable attention. Mrs. Carson was an exceptionally attractive woman, with fine business and literary ability combined. She had a wide circle of friends here.

VASSAR GRADUATE.

MRS. CARSON'S CAREER.

[BY A. P. DAY WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—Mrs. Blanche Carson was an alumna of Vassar College and active in the work of the Vassar Students' Aid Society in this city. She was the author of several books, including "From Cairo to the Continent," and "Letters from India." Her husband, Dr. Edwin Carson, died a few weeks after their marriage a number of years ago. Since then Mrs. Carson has spent much of her time at Carmel-by-the-Sea, a colony of writers and artists, near this city. The Mabury family is known in several California cities, the late Hiram Mabury of San Jose, Mrs. Carson's father, having been prominent in financial affairs in the northern part of the State. Relatives here refused to believe Mrs. Carson had taken her own life. They declared she carried a large amount of jewelry which might have been the cause of her arrest for smuggling. Members of the Century Club, to which Mrs. Carson belonged, said she had never shown eccentricities of any kind and that she was a quiet, cultivated woman, engrossed in study and travel, and concerned in charitable and philanthropic work.

"I cannot believe my sister guilty of smuggling," said Miss Eugenia Mabury today. "She was independently wealthy and had with her several thousand dollars' worth of jewelry, when she left here on her world tour last August. My sister cabled from Paris that she expected to sail for New York on the Olympic, March 13. That was the last word I received from her. Dr. Carson died twelve years ago."

"Sea trips are good hygienic ocean baths belong to the best natural curative remedies."
—Dr. von Penhoitz, Famous Hygienist.

TAFT MEN SHOW HIGH SPIRITS.

State Committee Pleased by North Dakota Reports.

Chairman Hammond Says Result Was Inevitable.

Predicts California Will Repudiate Roosevelt.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—[Exclusive Dispatch.] At today's meeting of the Campaign Committee of the Taft Republicans of California, at the St. Francis Hotel, there were regiments of joys trooping through the headquarters and dancing about the feet and hopping on the shoulders of those present. It was all because of the result of the first Presidential preference primary election ever held in America, that of North Dakota, yesterday, when Theodore Roosevelt was beaten at the polls two to one. La Follette gets the entire delegation from that State to the national Republican convention in Chicago in June, and Roosevelt gets nothing but a very fine manifestation of the wishes of the people respecting himself as a third term candidate for the office of President.

"The result in North Dakota shows that Roosevelt is neither the choice of the people, nor of the Republicans, either of North Dakota, nor anywhere else," said Col. Charles Mifflin Hammond, Roosevelt's brother-in-law, who is chairman of the Taft Republicans.

"Those persons who truly reflect the sentiment of the so-called insurgent wing of the Republicans are supporting La Follette. And now that Roosevelt knows this, it may be possible that such boomers as Gov. Johnson and some of his friends in California may eventually realize it. Roosevelt lived for a long time in the Dakotas on a ranch, and his defeat yesterday is more striking on that account.

"There was no fight made in North Dakota by the Taft campaign managers, as they considered it the wisest policy to allow La Follette and Roosevelt fight it out alone. That it was a good plan is proved by the fact that the issue between the third term aspirant and the deserted insurgent leader was clear cut, and the people have spoken loud enough to be heard at Oyster Bay and Sacramento.

"And let me make a prediction: There will be little difference in the defeat of Roosevelt in North Dakota and his defeat in California."

ROOSEVELT IS SQUIRMING.

Now He Says the North Dakota Primary Wasn't a Republican One. McKinley's Fears Justified.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, March 20.—[Exclusive Dispatch.] Director McKinley of the Taft campaign headquarters today characterized North Dakota's Presidential primary as a foretaste of what might happen in the so-called "soap-box primary." Mr. McKinley quoted John S. Bass, manager of the Roosevelt campaign in North Dakota, who said the Democrats voted for La Follette in the Republican primary yesterday.

"This is exactly what the managers of the Taft bureau have attempted to impress upon the country from the outset of this campaign," said McKinley. "In this instance there was a State law, but without the party enrollment feature. The claim now is made by the Roosevelt managers that it was not a Republican primary, but one open to all comers.

"In the absence of a State law it is easy to foresee that 'soap-box' primary rules would prevail and a contest for Republican nomination for President would degenerate into a national scandal in which the Republican party itself would play a minor role."

Joy dispossessed gloom at the La Follette headquarters for the first time since the Senator's speech to the publishers in Philadelphia. The place was radiant because of the news from North Dakota.

La Follette men say the Senator's victory was due first to his position as a real insurgent. They add that Roosevelt's support by some of the standpatters in North Dakota weakened his claim on the insurgents.

At the Roosevelt headquarters they said they intimated two days ago they might be defeated in North Dakota.

Senator Dixon, manager of Roosevelt's campaign, said: "The ten delegates elected in North Dakota said several days ago that, if elected, they would support Roosevelt when it was shown that La Follette could not be nominated. They can safely be put in the Roosevelt column."

A statement today from the La Follett national headquarters says that in Wisconsin, Nebraska, Oregon, California and in other States, Mr. La Follette's candidacy will be submitted as it was in North Dakota.

A SPEEDY STEAMER.

PORTLAND, March 20.—[Exclusive Dispatch.] Before the summer excursion season is well advanced, one of the speediest steamers on the Coast probably will be placed in regular service between Portland and San Francisco, where she will connect with the Yale and Harvard, which go through to Los Angeles and San Diego. The steamer from Portland is acknowledged to provide a weekly service. Frank Bollam, local agent for the Yale and Harvard, who returned from San Francisco today, declares that the owners, the Pacific Navigation Company, are negotiating for the purchase of a speedy steamer to run out of Portland, and to connect with the steamers at the Bay City, which are on the Southern California run.

WAGE BILL TEETERING.

LONDON, March 20.—The fate of the minimum wage bill seems trembling in the balance.

A. J. Balfour, on behalf of the unionists will move the rejection of the bill in the House of Commons tomorrow, but there is little doubt that the government can carry the second reading of the bill, as the Labor party and the Nationalists have decided to give their support to that end. Difficulties will arise in the committee stage, when the laborites will move amendment with the idea of having inserted the schedule of minimum rates as fixed by the miners' federation.

A Cabinet council will be held tomorrow to consider the situation. The probability is that the parliamentary discussion of the bill will extend into next week and there will be no resumption of work until the bill is

LOTS OF SOFT, WAVY, FLUFFY HAIR, AND NO MORE DANDRUFF

GET A 25-CENT BOTTLE OF DANDERINE AND JUST TRY THIS. STOPS FALLING HAIR AT ONCE.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Danderine tonight—now—any time—will surely save your hair. Ten minutes after applying all the dandruff will disappear, all itching will cease and there will be no more falling hair. Millions of men and women use Knowlton's Danderine and they never have dandruff, itchy scalp or falling hair—they know that it keeps the scalp clean and healthy and makes the hair grow heavy, long and beautiful.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Life's Seamy Side.

Evidence that He Ambushed Them in Dense Woods.

[BY DIRECT WIRE TO THE TIMES.]

MONTESANO (Wash.) March 20.—[Exclusive Dispatch.] The lifeless bodies of Deputy Sheriffs Colin McKenzie and Al V. Elmer, who disappeared while searching for John Tornow, outlaw murderer, were found today thirty miles north of here, in the Oxbow country buried in a shallow grave, and so well were the remains hidden that only the yielding of the earth beneath the officers' feet led to the grewsome discovery. The men were lying on their back, and a hasty examination developed that both had been shot. Tornow, the alleged slayer, is still at large.

Deputy Sheriff Fitzgerald says the men walked into an ambush and got within twenty-five feet of the camp when they were slain without a word of warning. The murderer had built a camp, securely surrounded by windfalls and in his stronghold had built a fire and smoked the meat of an elk, killed several days before. It was the fact that trappers had found the carcass of an elk that brought the officers into this country to look for Tornow, who was wanted for the alleged murder of his twin nephews, John and William Bauers, whose dead bodies were found buried under a long log last September.

That Tornow is still near the scene of the murder is the opinion of the officers, who heard a shot ring out in the canyon not far from their camp last night. During the day a dog had taken up a trail, and slipping out of his harness was soon lost in the woods. The officers thought that the animal had been killed, but it returned early this morning.

Every indication at the camp showed that Tornow had been back yesterday. It is thought he came after the smoked elk meat, and that he has another camp. The officers found a quantity of elk meat wrapped up in an old hide and hidden away. None of the guns of the officers were found. But in his camp was found flour, which is evidence that he has been getting outside assistance.

Sheriff Payette will leave in the morning with a posse of twenty-four men to bring out the remains. It will require two days to get the bodies out. Pack horses will be used and a trail blazed.

The commissioners of the county will meet tomorrow and a reward of $5000 will be offered. It is expected that Gov. M. E. Hay will add to the reward. Tornow has lived in the woods all his life and it is doubtful if he will ever be taken alive.

Drawing Power.

TRACE CASH PAID FOR LEWIS'S LOTS.

GOVERNMENT EXPERT PRESENTS FIGURES AT TRIAL.

Extracts from Papers Published by Lewis Tell of Use to Which Money Would Be Placed—Attorneys for Defendant Offer Evidence of Client's Former Annoyance.

[BY A. P. NIGHT WIRE TO THE TIMES.]

ST. LOUIS, March 20.—A. E. Radert, expert accountant for the Department of Justice, was recalled to the witness stand this afternoon in the case of the government against E. G. Lewis, charged with fraudulent use of the mails in the promotion of his University City enterprises.

Radert told of his examination of the books of the University Heights Realty & Development Company. He testified that between March 1 and December 1, 1909, $23,367 was received by the company in part payment for lots in University Heights.

District Attorney Houts read extracts from Lewis's publications in which it was said that in Lewis's judgment the cash payments for lots would wipe out the entire mortgage indebtedness of the company.

Attorneys for Lewis cross-examined Francis V. Putnam, former treasurer of the companies, today, as to Lewis's troubles with the Postoffice Department in 1905 and 1907. Putnam testified that many persons who subscribed for the notes and stocks of the corporation wrote letters to Lewis expressing sympathy for him in the fight with the Postoffice Department. Dist.-Atty. Houts repeated his objections of going into the fraud orders issued against Lewis and the People's United States Bank in 1907.

Former Judge Barry for Lewis succeeded in getting into the record the statement of Putnam that he, Lewis, and F. J. Cabot were indicted in 1905, and again in 1907, and that postoffice inspectors sent circulars announcing these facts to 18,000 stockholders in the Lewis corporations. He also testified regarding the holding up of three carloads of Lewis magazines by the Postoffice Department after the postage had been paid.

DREDGES ENTER TANANA.

Guggenheims are Sending Plants to Fairbanks From Dawson and Move Is Considered of Importance.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) March 20.—[Exclusive Dispatch.] A Dawson cable says the Yukon Gold Company of which the Guggenheims are the chief owners, is hauling one of the largest dredges from upper Hunker Creek to Dawson to be shipped to Fairbanks by one of the first steamers. This movement marks the entrance of the Guggenheims into the Fairbanks country and Tanana Valley with a dredging enterprise, which may prove of vast importance. The company's experience at Dawson in the last six years has been invaluable in learning how to operate gold ships on frozen areas.

The Guggenheim representatives have undoubtedly quietly purchased at least one creek near Fairbanks and probably several. The dredge being moved is electrically driven, with a capacity of 4000 yards daily.

NEW AQUEDUCT COMPANY.

SACRAMENTO, March 20.—[Exclusive Dispatch.] The Mount Shasta Aqueduct Company, incorporated in San Francisco for $10,000,000, filed its articles with the Secretary of State today. The incorporators are C. E. Sheets, Oakland; Thomas H. Laine, Berkeley; W. H. Hawkins, J. B. Kennedy and C. H. McDonagh, San Francisco. This company has a scheme for supplying pure mountain water to San Francisco, Oakland, Alameda, Berkeley, Point Richmond and towns in Contra Costa, Solano, Yolo, Colusa Glenn, Tehama and Shasta counties. It proposes to build a great aqueduct from the McCloud River in Siskiyou county to San Francisco, a distance of more than 300 miles. Surveys made last summer indicated a route along the west side of the Sacramento Valley, several miles west of the Southern Pacific Railway, being four miles west at Willows and Orland. Whether it is planned to elevate it or build it under or at the surface of the ground is not known here.

NEEDLE IN HIS HEAD.

PHOENIX, (Ariz.) March 20.—A piece of needle today was extracted from the head of Ben Peterson, that had been imbedded in his body 22 years and had passed half way around his head. As the result of a fall in childhood, the needle was driven into Peterson's forehead. Today the piece was extracted from a lump, recently in the back of his head.

HYATT'S HEALTH SHAKEN.

SACRAMENTO, March 20.—[Exclusive Dispatch.] State Superintendent of Public Instructions Hyatt left Sacramento today for Riverside, where it is understood he intends remaining until his health is more fully improved. Hyatt's illness prevented him taking a trip to St. Louis, where he was scheduled to speak before the National Educational Association at a convention of State superintendents from all over the country.

THIRD PARTY PROJECT.

STOCKTON, March 20.—[Exclusive Dispatch.] Foreshadowing a formidable third party in the field at the next municipal election, a non-partisan new charter association has just been organized in this city. Many business men, as well as a large number of women, have pledged their allegiance to the new organization. The avowed object of the association is to see that only competent men, irrespective of politics, seek office at the next city election. W. P. Steinbeck, president of the Chamber of Commerce, is president of the association.

This Is It

Millions of Catarrh Victims Have Used It With Wonderful Results

Notice this picture; it shows the little hard rubber HYOMEI inhaler the exact size.

If you own one you can get a bottle of HYOMEI (liquid) for only 50 cents.

If you do not own one, $1.00 will buy you a complete Hyomei outfit, including inhaler. Then you will have in your possession a remedy that banishes catarrh. Also coughs and colds.

Just breathe HYOMEI — that's all you have to do—no stomach dosing—it passes over the inflamed membrane, kills the germs and heals the inflammation.

It is guaranteed to end catarrh, coughs and colds, or money back.

Sold by druggists everywhere.

Hyomei Ends Catarrh

MOMENTUM

OF OUR GROWTH:

At the beginning of last week nearly $60,000 of our $100,000 had been subscribed.

At the end of the week nearly $70,000 had been subscribed.

Now, by the middle of this week, nearly $75,000 has been subscribed.

All in less than seven weeks—and all in small subscriptions. We will not accept large ones.

And many inquiries from the country and far-away points are yet to be heard from.

At this rate the remaining $25,000 will all be sold within the coming two or three weeks.

This quick recognition of a strong organization in an old and tried field means a great deal to the inexperienced "home-building" investors.

It means that the "knowing ones" are losing no time in buying these shares at 20 cents.

They are grasping the chance promptly. There are nearly 300 of them already.

Follow their example before the small amount unsold is all taken. We want you with us now.

This is your chance to join us. Our policy is simple.

We are gathering about this experienced organization a strong body of investors, accepting only a small subscription from each. And as this Company grows to be a strong and powerful factor in its chosen field, these investors will grow with it—an important factor in its organization.

Bestir yourself. Our growth and success is a certainty.

FOR SALE—

BEAUTIFUL
DU RAY PLACE
ADJOINS THE WEST ADAMS DISTRICT. AND IS ONE OF THE FINEST RESIDENCE SECTIONS IN THE CITY.
LOTS ON THE NEAR-BY WEST ADAMS HEIGTS SELL FOR $15,000 TO $30,000.
BUT YOU CAN GET A LOT IN
DU RAY PLACE
FOR
$250 AND UP
$10 DOWN AND $10 A MONTH
INCLUDING INTEREST
This is the chance for the man of modern means to enjoy the advantages of the delightful residence section where values are very rapidly increasing.
Take any West Adams street through car to
DU RAY PLACE
Where automobiles will meet you and show you the tract.
BECAUSE
DU RAY PLACE
Is a new tract does not mean that we will not have up-to-date improvements, and have them immediately. The graders are at work now, the cement contractors are waiting to put in curbs, gutters and sidewalks. The roads are to be oiled and then covered with sand, making as good a road as macadam.
DU RAY PLACE
Will please you because it is just what you have been looking for—a chance to buy a home site or make a profitable investment with a small outlay of capital.
DU RAY PLACE
Is where you want to buy NOW, while the low opening prices prevail. These lots are in such great demand that the price is bound to go up.
DU RAY PLACE
Is situated upon the highest ground in the vicinity. Well out of the smoke and dirt of the city.
DU RAY PLACE
Is where the cool ocean breezes blow. It is so cool, pleasant and beautiful that you will want to live here when you see it.
COME OUT TO
DU RAY PLACE
NOW
And get a choice selection.
REMEMBER ONLY $250 AND UP;
$10 DOWN AND $10 A MONTH, INCLUDING INTEREST.
You can't find a better proposition in the city.

Classified Liners.

FOR SALE—Country Property.

FOR SALE—

IRRIGATED LANDS.

LIVINGSTON,

MERCED COUNTY.

HOMESEEKERS LOOK.

YOUR OPPORTUNITY.

5 ACRES

$475.00.

PERPETUAL WATER RIGHT.

PAY $50.00 DOWN.

THEN 10 MONTHLY

PAYMENTS OF

$5.35 EACH.

After the above payments have been made, if the land is being improved we will allow payments to be suspended until November 1, 1914. Then the balance in annual payments.

We will sell as many acres as may be desired under the same conditions.

This is a rare chance to acquire a piece of the choicest irrigated land in the San Joaquin Valley.

LAND WILL PAY PURCHASE PRICE.

Immediate possession will be given and a few cows or a flock of chickens will give sufficient returns to provide funds for all future payments and improvements.

OPPORTUNITY FOR YOUNG PEOPLE.

To the young man or lady holding a position in the city this proposition should appeal with striking force. Arrangements can be made to have the land cultivated, cropped and improved until such time as it seems advisable to go on the property. Many owners are getting as much as $50 per acre rental per year.

Sell, barter and eliminate the best and everything right for stock, alfalfa, sweet potatoes, berries, poultry or fruit.

No pioneering. Near railroads, schools and churches, creamery, cannery and packing houses.

It's land that will make comfortable living and independence for the owner.

A LARGE ACREAGE IN PEACHES.

We own 320 peach trees in this county and during 1911 the prices realized on the crop ranged from $30 to $40 per box. The Merced peach is of such a high grade that the orchards sell them while the trees grow independent as soon as the trees begin bearing.

LIVINGSTON SWEEPS ARE MORTGAGE LIFTERS.

Merced Sweets have a market of their own and during 1911, up to November 1, the growers had received for sweet potatoes shipped from Livingston $79,400 worth of sweets, making a total of $225,000 worth to go out of the county for the 1911 crop.

FIVE ACRES NETS $1350.

Mr. Joe Lawrence, of Livingston, planted his five acres to sweet potatoes in 1911 and received $1350 for his crop. Many others are receiving equally high returns from their five and ten-acre tracts.

ALMONDS A BANNER CROP.

Tomatoes are one of the banner crops also. F. Pregno & Son netted $1200 from one acre planted to tomatoes and many fortunes are being made from the shipping of this crop. Vines grow early and bring a very high price.

LAND ADAPTED TO FIGS.

Our Livingston lands are especially adapted to the Smyrna fig and it is no uncommon occurrence for a Merced fig raiser to net $500 per acre for his fig crop.

BERRIES ALSO.

A crop easily handled and very profitable to berries. Many places have been paid for entirely from proceeds.

DAIRYING IN DAIRYING.

Dairying is another of the great industries of the county, and during 1911 the dairy product amounted to $1,781,690.

Alfalfa should not be overlooked in mentioning some of the money making crops of Merced county, as from six crops are harvested each year and the yield is very heavy. Frequently making ten tons per acre per year.

ON THE RAILROAD.

Livingston, Merced county, is on the line of the Southern Pacific Railroad and is surrounded by a body of land as rich as is to be found in the State.

A CHOICE BODY OF LAND.

The Orchard and Farm Lands Company, 211 Merchants Exchange Building, has the general sales agency for what is known as the Smith & Reese Tract, lying two miles west of Livingston, and which is indeed a beautiful land. With produce citrus and deciduous fruits, alfalfa, etc. Particulars, 543 TITLE INSURANCE BLDG., 5th and Spring.

A FEW GOOD CLAIMS LEFT NEAR FAMOUS Roosevelt district, Arizona. If you want to go with one who is posted and get claim worth $4000; call at once. Residence 810 W. FIRST ST. Right is no "Rube" or desert proposition; fine farms; railway and markets near; plenty water; expense low.

FOR SALE—A RELINQUISHMENT OF 160 acres, adjoining improved land, can be bought at a bargain. Call APARTMENT 211, the Westonia.

FOR SALE — 160-ACRE RELINQUISHMENT, under ditch. 318 S. HILL ST.

COACHELLA VALLEY—

FOR SALE—

320 acres of grape and orange land in Coachella Valley. This land is frostless and is the very best for winter vegetables. These can be raised to an immense profit while the orange trees are growing. The water conditions are the very best. In 200 yards of this land is a flowing well. The half section next to it is being improved by three families who are living there. There is not better land in the States than this half section for oranges and grapes. In two miles of this place there is a 10-acre bearing orange grove watered entirely by a flowing well. This well flows 75 miner's inches of water. Let us talk with you and give you the figures of the orange and grape men around this piece. This land as a whole can be had at $80 an acre.

R. T. WEBB, with

J. S. WEBB & CO.,

1016 Wright & Callender Bldg.

Los Angeles.

SAN JOAQUIN VALLEY SUBDIVISION.

4000 acres in Kings county, on railroad; level alfalfa land, irrigated by an ample, dependable gravity irrigation system, which is completed; 1200 acres in alfalfa, most of balance now in grain, all ready to subdivide today, and fully developed; price $40 per acre. Terms. For sale at a whole only.

25-000-ACRE CATTLE RANCH.

One of the best known ranches in State; located in Monterey county, near coast; has 800 acres of finest Carmel River bottom land, this alone worth $250 per acre; also about 20,000 acres of hillside land. An early feed range, now running 2500 head; can be made to carry 5000 head; some of finest apple orchards in California on same kind and near by land; a bargain; price only $12 per acre.

SAN FRANCISCO CITY SUBDIVISION.

The famous Sutro property, consisting of about 650 acres in the heart of San Francisco, is being taken over by a syndicate of prominent San Francisco capitalists; an opportunity exists for an investment of a few thousand dollars here to complete the syndicate; an absolutely ground floor opening—with no promotion stock or commissions to any one. The property will be subdivided and sold as a high-class residence district, with large lots and winding avenues. The certainty of the completion of the Twin Peaks tunnel puts this property within five minutes of 12th and Market sts., and doubles the value of this tract. Full particulars upon application. An exceptional offering.

SUBDIVISION IN CITY OF STOCKTON.

Stockton is at the beginning of an era of tremendous growth and activity. I offer 800 acres, part of it within the city limits and in the direct line of growth. It is a money maker. Investigate.

For maps, photographs and full particulars of these and other properties see the exclusive agent.

Santa Cruz.

FOR SALE — RANCHES, HOMES, ACREage. Free list. WILSON BROS., Santa Cruz, Cal.

Pomona.

FOR EXCHANGE—

4.15 acres in the city of Pomona, with fine modern 8-room house, barn and chicken corrals, apricots, olives, peaches and some vacant land. Price $5000; mortgage $2000. Trade for Los Angeles to equity or more.

FOR SALE—OR EXCHANGE—

Two modern houses in Pomona, each of six rooms. Price $2300 for one, $2600 for the other. Will take $1000 cash, either one, or will trade both into property of equal value in Los Angeles or Ocean Park.

FOR SALE—A BARGAIN.

Five acres inside the city limits of Pomona, with seven-room new California house, windmill and tank. Irrigation water and pipe line for same, splendid for truck, alfalfa or fruit. Can be bought for less than it is worth as owner is strictly up against it and must get out or lose what he has to it. Price $3200; $1400 will handle it.

JONES & PATTERSON,

104 South Thomas street,

Pomona, Cal. Phone 3112.

GOVERNMENT LANDS—

ATTENTION FARMERS! WANTED, 20 people to join colonizing, good level land, water company owned by subscribers. You pay $800 for water stock and location on 320 acres of land; land surveyed and located in Southern California. Will produce citrus and deciduous fruits, alfalfa, etc. Particulars, 543 TITLE INSURANCE BLDG., 5th and Spring.

A FEW GOOD CLAIMS LEFT NEAR FAMOUS Roosevelt district, Arizona. If you want to go with one who is posted and get claim worth $4000; call at once. Residence 810 W. FIRST ST. Right is no "Rube" or desert proposition; fine farms; railway and markets near; plenty water; expense low.

FOR SALE — 160-ACRE RELINQUISHMENT, under ditch. 318 S. HILL ST.

COACHELLA VALLEY—

FOR SALE—

320 acres of grape and orange land in Coachella Valley. This land is frostless and is the very best for winter vegetables. These can be raised to an immense profit while the orange trees are growing. The water conditions are the very best. In 200 yards of this land is a flowing well. The half section next to it is being improved by three families who are living there. There is not better land in the States than this half section for oranges and grapes. In two miles of this place there is a 10-acre bearing orange grove watered entirely by a flowing well. This well flows 75 miner's inches of water. Let us talk with you and give you the figures of the orange and grape men around this piece. This land as a whole can be had at $80 an acre.

Los Angeles.

ARE YOU GOING?

Carey Act Land from Uncle Sam.

Excursion Saturday, 10:30 a.m.

Come and go with us and talk to farmers who are making $2000 to $5000 a year raising alfalfa seed from 40 acres. We sold over 1000 acres to Los Angeles buyers in the last two weeks, 1800 acres being planted to apples, land 50c, water cheaper than paying rent, and 15 years to pay for it.

IT'S A POOR MAN'S CHANCE!

Don't delay, but see us at once. Phone us for excursion tickets, which save you $23. PITZER REALTY CO., Phone F7169. 309 Bumiller Bldg., 430 S. Broadway.

FOR SALE—

40 acres of alfalfa and date land in the Coachella Valley. It is in a community of several families and land is being improved on all sides of it. The water conditions are the very best and the soil the very best. The price at $75 an acre cannot be duplicated, taking merit into consideration.

Will trade for a $12,000 interest in one of the highest-class subdivisions in the city. This tract is within a short walking distance from Westlake Park. All street work done, gas, electric lights, etc., and has beautiful view of the mountains and ocean. It can boast of being the only first-class close-in subdivision on high ground that can be obtained at the present time.

This interest will pay out in two or three years better than 125 per cent. Will trade for any property that can be improved to bring an income. Might assume if property can show value. Anyone wishing to double his money in two or three years or

Ethereal Mildness.

A BLIZZARD IN THE EAST ON FIRST DAY OF SPRING.

Chicago Is a Veritable Venice Where Persons Get About on Stilts and in Rude Gondolas—Floods Are Reported in a Number of States With Snow Falling in Some Quarters and Heavy Rains in Others.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, March 20.—[Exclusive Dispatch.] Gentle spring officially arrived at 5:49 this evening, but her timid greeting was lost in the roar and howl of a blizzard that again enveloped this city and vicinity in banks of sharp, gritty snow. Farther down the Mississippi Valley the storm took on the form of rain and disastrous floods are reported. All through Northern Illinois and Indiana, insignificant streams have suddenly become raging torrents, swollen to an actual menace by the melted snow that has been seeking an outlet for three days prior to the latest blizzards. In the suburbs of Chicago hundreds of basements are submerged and the streets are impassible except by stilts or in boats or rafts. The situation is much more serious in Joliet and other manufacturing towns where the sudden floods have practically ruined big manufacturing establishments located along the streams. Powerhouses are flooded and the wholesale warehouses where large consignments of perishable goods are stored, present a scene of costly ruin.

Conditions are serious throughout all Illinois. Sleet storms have torn down telegraph wires and poles and put all traction lines out of commission. Communications with St. Louis and all points south of Joliet has practically been shut off since early today.

FIFTH BLIZZARD.

As for the latest blizzard, the fifth of its kind in two months, it has put heavy burdens upon the already badly crippled railroads, telegraph and telephone companies and all transportation concerns. Officials of the Grand Trunk Railway, as one example of many, say the storm will cost them $20,000. They say there have been instances this winter where one night's fall of snow will represent $100,000 of expense to one road and a million and a half dollars to the western lines.

Weather forecasters say the present storm will continue through the night and most of tomorrow with increasing cold. In a measure the lower temperature will be a blessing, as it will check the floods now a peril in so many places. The high wind is from the northeast and blowing across the Great Lakes, all filled with ice, so there is no hope for warmer weather until the wind shifts.

Forecaster Cox tonight said:

"It is difficult to predict how severe the snowfall may be. In the western States twelve inches is reported, with the storm still in progress. No warm weather is in sight for several days, although I do not think the temperature will fall much below twenty degrees in Chicago's vicinity. The storm extends from the Rocky Mountain slope to the eastern Ohio Valley. In Southern Illinois rain is falling, while Nebraska reports twelve inches of snow."

Nebraska, Iowa and other western States report the worst storm of the unusually severe season, with train service paralyzed.

Expert agriculturists find comfort in the storm and lower temperature. They say it will fertilize the soil and prevent it from sprouting buds prematurely in which even an April freeze would play havoc with all sorts of fruits and early vegetables.

Chicago has exhausted its street cleaning appropriation and has overdrawn it $25,000 because of the storm several days ago. The city must now go into debt an additional $25,000 or more to clear the streets of the present snowfall.

IN OTHER STATES.

Grave apprehension is felt over probable flood conditions in the Illinois, Ohio and Mississippi River valleys and later on, all the streams of the South. An immense wall of water is now assembling in all these valleys. In the Missouri River headlands and in western Pennsylvania snow fifteen feet deep has been reported all winter and a sudden thaw will create havoc when all this water gets under headway.

Snow is falling tonight in Iowa, Wisconsin, Ohio, Indiana, Illinois, Missouri, Nebraska, Minnesota, Colorado, Michigan and Eastern Canada. Sleet is reported from lower Illinois, lower Indiana, Eastern Iowa and rain is falling in West Virginia, Western Pennsylvania, portions of Ohio, Oklahoma, Southern Missouri, Wyoming and Utah. The temperature is 26 below zero at Minnedosa and 22 below at Q'Appelle.

Women Will March.

CHICAGO, March 20.—[By A. P. Day Wire.] Fifty thousand women will march in a parade at the Republican national convention in the coliseum here next June and ask the party to endorse the equal suffrage cause if plans formulated here are carried into execution. Dr. Anna Blount, one of the leaders in the case, said that every State in the Union would be represented.

APPROPRIATION PASSED.

Rivers and Harbors Bill Adopted by House, Carrying More Than Twenty-six Million Dollars.

[BY A. P. DAY WIRE TO THE TIMES.]

WASHINGTON, March 20.—The House yesterday passed the rivers and harbors appropriation bill, carrying upward of $26,250,000. The measure went through in quick order, the appropriation being at the rate of more than $8,500,000 an hour. The vote for it was unanimous.

Twenty of the appropriation items and an equal number of survey items were for work of investigation in Florida, the home of Chairman Sparkman of the committee. That drew the fire of Minority Leader Mann.

"If there ever was needed an example of the desirability of the States maintaining their representatives in Congress," he said ironically, "it is to be found here. The gentleman from Florida, now risen to the head of this important committee, having seen to it that every river and harbor in his State was cared for, now provides here for surveys of every harbor, inlet, outlet, river, creek and spring. When the Panama Canal is completed, I have no doubt that steamers drawing twenty feet will be able to pass through the canal and visit every part of Florida."

ELECTRIC CONSOLIDATION.

A Merger of Interests Valued at Over Twenty-eight Million Dollars Is Effected in San Francisco.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—Consolidation of all the electric lines and properties of the United Properties Company was effected today. The merged properties will be known as the San Francisco-Oakland terminal railways, and is capitalized at $28,175,000. F. M. Smith, multi-millionaire of Oakland, is the principal owner. The consolidation includes the Oakland Traction Company, Oakland and San Jose Consolidated Railways and the East Shore and Suburban Railway Company. Property of the Sacramento Short Line and the San Jose Short Line also was deeded to the new corporation in the articles of consolidation filed today.

ARMY CAPTAIN ARRESTED.

For the Second Time in a Year Coast Artillery Officer Will Have to Stand Trial by Court-Martial.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, March 20.—Capt. James M. Fulton, Coast Artillery, was arrested today in his quarters at Ft. Winfield Scott, and will be tried by court-martial. This is the second time within a year that Capt. Fulton has faced charges. He is accused of being derelict in his duties and of disobedience to his superior officers. As the result of his trial in May, 1911, Capt. Fulton suffered a reduction of several files and imprisonment at the Presidio post for six months.

Indiana Democracy.

INDIANAPOLIS, March 20. — [By A. P. Night Wire.] "I find no indication that there will be one voice raised in the Democratic State convention here tomorrow in opposition to a resolution instructing the Indiana delegation in the national convention for Gov. Thomas R. Marshall for the Presidential nomination," said Bernard Korbly, chairman of the Democratic State Committee, today. National Committeeman Thomas Taggart seconded Mr. Korbly's statement. Samuel M. Ralston of Lebanon has no contestant for the nomination for Governor.

"CITIZEN AT SIXTEEN."

Founder Of George Junior Republic Says That Youths And Not The Men Saved The Country.

[BY DIRECT WIRE TO THE TIMES.]

REDLANDS, March 20.—[Exclusive Dispatch.] "A boy is fit for citizenship at sixteen years of age," declared William R. George, founder of the George, Junior Republic, in an address in the Contemporary Clubhouse, this evening.

"At that age they are broader-minded than their parents. Age seems to narrow one. We seem to get into ruts while the boy comes in contact with the best thoughts in the schools. He gets a better idea of democracy. The law regards him as an infant but he isn't, as he will arise to an emergency. This country was not saved by the men of the country in 1861, but by the boys. You will find this true if you will go to the trobble to look up the enlistments. The army was made up of boys from 16 to 21 years of age and if an army was to be raised today the boys would volunteer."

George also declared that it is criminal to segregate the boys and girls of the public schools. He stated that it was just as useless to try o do anything with boys without having girls around as it is to make a decent place of a mining camp or a town made up of cowboys.

The founder of the Junior Republic arrived here this morning at 9 o'clock by auto and was taken to the University of Redlands and the High School, where he delivered addresses.

TRUNK-KEY QUESTION.

Ownership of Receptacle in Dispute and Man Arrested in Consequence. Queer Mix-up for Court.

If two keys owned by different persons fit the same trunk, to whom does the trunk belong? That is the complicated question a judicial Solomon will have to solve in a few days.

The trunk in dispute is in the possession of John de la Pena, a realty and loan broker, with offices in the Consolidated Realty building. But C. H. Brown, also a real estate dealer, with offices in the Stimson building, lays claim to the brass-bound clothes receptacle and yesterday had De la Pena arrested on a warrant charging petty larceny.

In proof of his ownership, Brown submitted a key which unlocked the trunk as easily as that of De la Pena.

The man under charge is a scion of one of the oldest and most aristocratic families of Mexico City. He states he purchased the trunk in El Paso seven years ago, when he was coming to Los Angeles. He is held under $100 bond, while the police are holding the twin-owned trunk.

ANNUAL CONVENTION.

District Sunday-Schools to Meet in Anaheim and Good Programme Has Been Prepared.

ANAHEIM, March 20.—The annual convention of the Anaheim district Sunday-school will be held in this city at the Presbyterian Church, Friday, March 29. At the forenoon session Miss Meme Brockway of Los Angeles will illustrate and discuss "Graded Lessons;" Mrs. D. W. Hasson of Buena Park will talk on the subject of "Our Girls;" Rev. Bruce Brown of Fullerton will talk on "Methods of Increasing Sunday-school Attendance."

The afternoon programme will include a roll call of all the Sunday-schools in the Anaheim district, which includes northern Orange county. Speakers for the afternoon will be Miss Margaret Walker, Anaheim, who has taken for her subject, "Ideals and Aims in Primary Work;" Mrs. R. A. Marston, Fullerton, will conduct the mothers' department and Dr. O. B. Waite, Los Angeles, will talk of the "Problem of Teacher Training."

"Decision Day in the Sunday-school" is to be the topic which Rev. H. M. Moore of El Mondena will speak on. "The Boy Problem" is to be discussed in a general manner. Those in attendance will enjoy a basket lunch at the noon hour.

THE FORTY THIEVES.

Under the direction of their music teacher, Mrs. Bartlett, the glee club of the Anaheim Union High School will give the operetta "Ali Baba," (The Forty Thieves,) at the Opera House, April 4. A special feature connected with the event is that all the costumes used in the operetta are being cut and made by the domestic science students of the High School and the art students are designing and manufacturing the scenery, which will be used. This scenery is being made by young ladies of the advanced art class and is the first work of the kind ever attempted in Orange county in connection with the high schools.

DRAINAGE DITCH.

The Los Concrete Company is making excellent progress with the installation of the big drainage water ditch of the Anaheim Union Water Company beyond Placentia. James King, who is in charge of the work, has over 2000 feet of pipe down and 2000 remaining to go down. The job will require six weeks' work yet.

WHAT CARNEGIE MISSED.

And by the Way, Rockefeller Also Overlooked All This Fine Iron Ore in Pennsylvania.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH (Pa.) March 20.—[Exclusive Dispatch.] An immense deposit of highest grade iron ore, conservatively estimated at more than one billion tons has been located in the heart of Pennsylvania. The mother lode of red hematite ore, which scientists for many years have believed lay somewhere in Southern Pennsylvania has been located almost at the door of the largest steel and iron industry in the world. The discovery was made by J. N. Crossland of New Florence, Pa. It is located in three spurs of the Blue Ridge Mountains, 100 miles from Baltimore, 200 miles from Philadelphia, and 240 miles by rail from Pittsburgh.

FLEETS IN CHINA COMBINED.

WASHINGTON, March 20.—[By A. P. Night Wire.] The second and third divisions of the United States Asiatic fleet have been temporarily combined as the China squadron, Asiatic fleet, under orders issued at the Navy Department today. The merger is to give Admiral Nicholson a command pending Admiral Murdock's relief.

Conference Called Off.

WASHINGTON, March 20.—[By A. P. Night Wire.] The conference between President Taft and John Mitchell regarding the threatened coal strike has been postponed indefinitely, according to an announcement at the White House today. No reason was given.

Wants Clark to Quit.

DES MOINES (Ia.) March 20.—[By A. P. Night Wire.] Senator Thomas P. Gore of Oklahoma authorized today the statement that Speaker Champ Clark would be asked to withdraw in favor of Woodrow Wilson from participation in the Nebraska Presidential primary.

James Canavan and a Cartercar will join the parade over the valley route today. With James will be John S. Mitchell of the Ocean to Ocean Highway Association. The meeting at El Monte is called for 12:30 o'clock, but Jim will call for President Mitchell at 10:45 in order to be on hand at the valley town for the formation of the El Monte division. Then the Cartercar will continue on to Pomona and Ontario.

Anarchistic.

FIND BOMBS WERE PLACED TO ASSASSINATE MR. KNOX.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW ORLEANS, March 20.—As the result of the alleged discovery by the government of Nicaragua of a plot to assassinate Secretary of State Knox during his recent visit there, it is not improbable several leading "liberals" will be put to death, according to advices received here today from Blue Fields.

Thirteen dynamite bombs connected with an electric battery and placed beneath the road bed over which Secretary Knox's special train traveled from Corinto to Managua, were discovered by government agents and will be used as evidence against the conspirators.

On the day of Mr. Knox's arrival at Managua a bomb was exploded under the Chilamate bridge, between Leon and La Celba, destroying a small portion of the track.

OFFICIALS SURPRISED.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, March 20.—State Department officials expressed surprise today at the reports from New Orleans that the Nicaraguan government contemplated executing Liberals arrested March 5 and 6 in connection with a reported plot to kill Secretary Knox. United States Minister Wetzel in reporting the arrests to the State Department at that time declared the records failed to show that any dynamite bombs actually were placed. The men were arrested merely to keep them quiet during the Secretary's visit as they had been talking wildly and publishing inflammatory articles in the newspapers. Secretary Knox in cablegrams to the department declared these precautions were unnecessary. No request of any kind for the punishment of the men was made by the American government.

Railroad Record.

ALASKAN ROAD IS ADVOCATED.

Secretary Fisher Will Take Matter Before Congress.

Would Use Panama Equipment for Construction.

Plan Is to Connect Coal Region With Tidewater.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON (D. C.) March 20.—[Exclusive Dispatch.] Secretary Fisher of the Interior Department will within a few days have ready for Congress a report which will deal with the question of penetrating Alaska by means of a new railway and of using the construction material equipment of the Panama Canal to do it.

The proposition is to use the material that was employed in building the Panama Canal to construct the road to the Matanuska coal field in Alaska. Secretary Fisher will urge that the force of engineers and the purchased equipment at Panama are precisely what are required for the work in Alaska. The total value of the material that could be turned over to Secretary Fisher at the time of purchase was roundly $16,000,000. To sell it as scrap after the completion of the canal would involve a considerable loss, as it would bring hardly one-sixth of what it cost.

Secretary Fisher's object is to open up the coal field at Matanuska by a road from Seward 175 miles to the coal field, then by running on to Fairbanks, and finally to the Tanana River, which runs into the Yukon, to open a line of communication with the river through the length of Alaska and bring to the government road a vast amount of freight. The Secretary has decided on Seward as the terminal at deep water.

Secretary Fisher takes the view that since the Guggenheim syndicate has begun to develop its own investments the government should go forward with the construction of another road, thus affording the region the advantage of two lines of railroad so smaller investors will be enabled to operate. At it is now, the prospector becomes discouraged by the want of facilities to get in machinery or get out ore, gives up and sells his claims for what he can get for it.

NORTH DAKOTA FIGURES.

Roosevelt Cuts Down the Lead of La Follette, Who, However, Still Leads the Third Termer.

[BY A. P. NIGHT WIRE TO THE TIMES.]

GRAND FORKS (N. D.) March 20.—Theodore Roosevelt was successful, on late returns today, in cutting down Senator Robert M. La Follette's majority in yesterday's Presidential preference primary to between 11,000 and 12,000.

Forty-four counties reported returns from 1093 precincts out of 1618, giving La Follette 22,648 and Roosevelt 14,929.

Out of forty-nine counties in the State, Roosevelt carried fifteen, La Follette the remainder. One county went to La Follette by a majority of only one.

Based on a total vote in the State of 52,000, La Follette has received from 30,000 to 32,000 votes, and Roosevelt from 18,000 to 21,000.

President Taft's vote, according to present indications, will be less than 2000.

BOYS SHOW CLASS.

Home Team Rolls Fine Total in Chicago National Bowling Tournament.

CHICAGO, March 20.—[Exclusive Dispatch.] The Brunswicks of Chicago rolled 2847 for first place in the five-men standing in the bowling tournament on the early shift here tonight, with scores of 900, 956 and 991. The Weighmans ran second on the squad with 2810; the Chalmers Motors, 2809, and Songs Springs, 2807.

The Los Angeles Investment Company team rolled a total of 2550, with scores of 869, 851 and 850. C. Sciple did the best work for the Los Angeles squad, rolling a total of 574. In the first frame Sciple rolled 193. He came back with 211 in the second, but fell down to 170 in the third. Taylor and Platt were the others in the squad to get above the 500 mark. The score: Schufer, 175, 130, 147; Platt, 186, 155, 179; Sciple, 193, 211, 170; Taylor, 155, 163, 203; Ballard, 159, 152, 171; totals, 869, 811, 870; grand total, 2550.

Los Angeles Investment Team

Which rolled last night in Chicago. Left to right, are G. Ballard, C. Platt, Bob Reed, K. Sciple, T. Shaffer and L. E. Taylor.

BUREAU OF INFORMATION.

Times Office, No. 531 South Spring street.

NEWS IN BRIEF.

Carnegie Library Located.

A Carnegie library costing $35,000 will be built at Forty-third street and Central avenue. The Library Board settled the matter Tuesday night.

Down the River.

An illustrated lecture "From the Green River to the Needles," by Emery C. Kolb will be given tomorrow night at 8 o'clock in the auditorium of the Polytechnic High School under the joint auspices of the Polytechnic Social Center and the Men's City Club. No admission will be charged.

About Our Birds.

"Birds of the City Parks," will be the subject of an address to be delivered before the Audubon Society in the auditorium of the Y. W. C. A., building at 2 o'clock tomorrow afternoon by Mrs. Harriet William Meyers. All lovers of birds are invited to be present.

Dr. Trout Funeral.

Funeral services over the remains of Dr. Trout, former Coroner, who died Tuesday evening, will be held tomorrow morning at 10 o'clock at the Peck & Chase chapel, Los Angeles. Lodge No. 99, B.P.E.O., of which Dr. Trout was a member, will have charge of the last rites. Interment will be in Rosedale Cemetery.

Dixie Society Election.

The annual meeting of the Dixie Society will be held at the Women's Clubhouse one week from tomorrow night. Officers and delegates for the ensuing year will be elected, a musical and literary programme rendered and an informal dance enjoyed. An invitation is extended to all former residents of States south of Mason and Dixon's line.

Y.M.C.A. Concert.

The Y.M.C.A. has secured the Williams Jubilee Singers for a concert Saturday night at the Gamut Club. This company last year gave one of the finest and most popular entertainments the Y.M.C.A. ever had. The organization includes four men and four women, with a great variety of programme, having both a male and female quartette, and mixed octette.

No Fraud Shown.

The Commissioner of the General Land Office has affirmed the decision of Register Buren and Receiver Robinson, in dismissing the contest instituted by George C. Hunt against Emma and U. S. De Moulin, involving the right to enter twenty-five acres of valuable land in the Imperial Valley. The dismissal was on the ground that Hunt failed to show fraud, and the Washington authorities affirmed that view.

Going to Wilmington.

The Wilmington Chamber of Commerce has extended an invitation to the Federated Improvement Association to go to Wilmington Saturday afternoon and take a trip around the harbor. This invitation was to have been accepted on the 9th. inst., but owing to the rain, it was deferred. Every local improvement association and the members thereof, as well as citizens of Los Angeles interested in the work of the harbor, are invited to join the association in this trip. Special cars will leave the Pacific Electric depot, Sixth and Main, at 12:45 p.m., sharp.

Falls Far; Severely Injured.

R. R. Childers, No. 712 East Twenty-fifth street, a real estate operator and brother of Officer Childers, of the Metropolitan squad, fell off a second-story porch yesterday afternoon, sustaining a dislocated right hip, fracture of the left arm, a cut over the right eye and several bruises and lacerations. At the Receiving Hospital, where he was given immediate attention, it is thought that he will recover. Childers was attempting to carry a bed downstairs when the railing on the porch gave way and he went over the edge.

BERVITIES.

Mme. Ralston will help every woman who suffers from wrinkles. Preperation discovered by her, when applied once will make you look five years younger. So don't miss this opportunity. Call at No. 321 O. T. Johnson bldg. Lecture and free demonstration every Tuesday, 2:30 p.m. Special appointment for evening parties. Phone F 1118.

Thursday bargain sale, Molasses chips, 20c pound, regular 40c grade. Fosgate & Rees, 449 Broadway.

The Times' Branch Office, No. 116 South Broadway. Advertisements and subscriptions taken.

WILLIAM M'CULLOUGH DIES.

RIALTO, March 20.—[Exclusive Dispatch.] William McCullough, father of E. H. McCullough of Los Angeles, died at 2 p.m. today at the Rialto home of the latter of heart trouble, taken suddenly at 3 a.m. The family was summoned from Los Angeles. The body was shipped to Los Angeles this afternoon. The funeral is to be held Friday at 2 o'clock. McCullough was a resident of Rialto two years, coming from Los Angeles. He formerly lived in St. Louis and was a steamship pilot for many years on the Mississippi River. He was a widower and leaves an only son.

FALL INTO DEEP GULLY.

COLTON, March 20.—[Exclusive Dispatch.] W. E. Carleton and J. Fiselmann fell into a gully on Colton avenue this afternoon, sustaining painful injuries, while making a motorcycle trip from San Bernardino to Colton in an effort to meet the 3 o'clock east-bound Southern Pacific overland. The bridge at the point where the accident occurred was washed out during the recent rains and had not been replaced. A portion of the road being passable, the men supposed it safe and ran into the gully, taking a twenty-foot tumble. Dr. C. P. Whitmer treated them at the Mary Woods Hospital. Carleton was badly cut about the head, his left ear being cut in two. Elslemann suffered an injured chest, besides minor injuries. Both men are from Washington, D. C.

AFFAIRS AT VENTURA.

Salary of Street Superintendent Raised—Summer Chautauqua to Last Three Months.

VENTURA, March 20.—The Board of City Trustees at its last meeting raised the salary of the street superintendent from $25 to $40 per month, making his salary with that of marshal $115 per month.

The celebration of the opening of the Saticoy bridge over the Santa Clara River has been set for April 10. All the county will join in the celebration, which will be made a big affair. Chief Wason of the Saticoy tribe of Indians, will have charge of the big free barbecue.

Rev. Father Domingo of the Plaza church in Los Angeles is this week holding a Spanish-speaking revival in the old Mission Church in this city. The priest is an eloquent and earnest talker and is drawing large crowds to the services which will be held morning and evening daily until Sunday evening. The mass is at 9 a.m. each day with instruction for the children at 3:45 in the afternoon and a sermon at 7:30 each evening.

Registration in the city of Oxnard for the wet-dry election which takes place there on April 15 is more than 1200. The normal registration of the town is between 700 and 800. The increased registration is by women voters.

Ventura Chautauqua will this year open on June 28. Announcement is made that 200 members of the Boys Brigade in Los Angeles together with 200 grown folks will be present at the opening. The session will last this year for three months instead of for only two weeks as heretofore. The association is making extensive arrangements to increase the number of tents in the tent city in order to accommodate the increased crowds. Reservations are already being made.

Burglars entered the Rains shoe store at this place last night and stole thirty-five pairs of men's patent leather shoes. The thieves gained admittance by prying open a back window.

REBEKAHS IN CONCLAVE.

STOCKTON, March 20.—[Exclusive Dispatch.] The annual district meeting of the Rebekahs, a woman's secret order, affiliated with the Odd Fellows, was held here yesterday, more than 400 members attending. There were representatives from sixteen lodges throughout the State. A class of six candidates was initiated by a picked team, headed by District Deputy Gertrude Holman. There was an address by Grand Master George F. Hudson, and a banquet. Delegates from this district to the Grand Assembly, which will be held in San Francisco, were chosen. They are Carrie Jolly, Nora Davine, Georgia Reynolds, Mrs. Hunter, Mrs. Schumacher, Nettie Conklin, Flora Taglio, Mrs. Carrie Clarke and Abbie McNutt. The Grand Assembly of Rebekahs will be held in May.

BOOSTING GOOD ROADS.

FRESNO (Cal.) March 20.—[Exclusive Dispatch.] Two hundred and fifty residents of Fresno county met at Sanger today and took the first step towards boosting good roads for Fresno county, when a resolution was passed instructing the presidents of the various chambers of commerce in the county to appoint committees of five to meet in Fresno on April 1. The present plan is to vote $3,000,000 in bonds for good roads in this county. An oil macadam road at Sanger, which cost $4000 per mile, was inspected. The visitors were the guests of the Sanger Chamber of Commerce. Fresno was officially represented by A. W. W. Phillips of the Fresno Chamber of Commerce.

ODD FELLOWS RALLY.

BEAUMONT, March 20.—The Odd Fellows of District No. 51, which includes all of the lodges of Riverside county and Colton, San Bernardino and Redlands in San Bernardino county, are planning to celebrate the ninety-third anniversary of Odd Fellowship in America at Beaumont on April 26. The lodges will charter special trains to come to Beaumont and hundreds of visitors are expected here for the occasion. An interesting programme is being arranged.

RAISIN DAY PLANS.

FRESNO, March 20.—[Exclusive Dispatch.] A Raisin Day festival in which ancient Spanish customs and pastimes will be featured, is being discussed by members of the Raisin Day Entertainment Committee. Every merchant in Fresno is taking part in boosting, and sending out invitations to eastern firms to celebrate on April 20, which will be Fresno's fourth Raisin Day. A large force of stenographers is busy sending out literature.

WOMAN SUFFRAGE DEFEATED.

BOSTON, March 20.—[By A. P. Night Wire.] Woman suffrage and the election of United States Senators by direct vote were defeated in the State Senate today by close votes.

HIRED HER WORK DONE
But Mrs. McGill Would Very Much Prefer to Do Some Of It Herself.
Jonesboro, Ark.—"Some time ago," says Mrs. A. McGill, of this place, "I suffered a complete breakdown in health. I was very weak, and could not do any work. For years, it was hired help and the doctors, that got all my money. I tried different medicines, but they did me no good.
Someone told me to take Cardui I had seen it advertised but I thought it would be like everything else, and would do me no good. One day, I got a bottle, and one bottle did me so much good, I was surprised and took some more. It cured me.
Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now, I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."
In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui. Such testimony, from earnest women, surely indicates the value of this reliable woman's remedy.
For quick relief from all forms of womanly trouble, you can get no medicine so good as Cardui.
Are you a sufferer? Cardui is the medicine you need. Try it.

CHECKS AND NO CASH A BROKER'S TROUBLE.

Stilson, Head of Company Bearing His Name, Suspended from Los Angeles Stock Exchange on Member's Complaint, and His Financial Affairs Apparently Involved—Says He'll Clear Up Today.

FIELDING J. STILSON, head of the brokerage house of Fielding J. Stilson Company, and one of the most active figures on the Los Angeles Stock Exchange, was suspended from that institution yesterday afternoon by the board of governors upon the complaint of another member that Stilson had given him a worthless check for a large amount.

L. F. Parsons, manager of the stock exchange, made the following statement in regard to the suspension:

"The rules of the exchange are very strict concerning the issuance of checks by the members without sufficient funds in bank to care for them. All I can say is that a member of the exchange preferred the charge that Stilson had given him a bad check and he was immediately suspended from the board. The officers of the exchange have no alternative in such a case. I have received but one complaint, and I cannot say who made it nor give the amount involved. If the money should be forthcoming later to take up the check then the offending member can appeal to the governing board of the exchange for reinstatement."

LARGE CHECKS ISSUED.

When reminded that there were many rumors of other members of the exchange receiving worthless checks from the same source, Parsons refused to make any comment. He said he is concerned only with the one complaint made to him. From members of the exchange who did not care to be quoted the statement came that Stilson owes fellow members a large sum in the aggregate. One man in a position to have information stated that Stilson's checks, aggregating more than $30,000, were turned down by Los Angeles banks. These checks were issued to cover stock exchange deals and were given to members of the exchange.

The complaint that caused Stilson's suspension was made by A. L. Jameson, who was given a check for $12,000, upon which he could not realize. It is also represented that Howard G. Rath holds a Stilson check for $5000 and that other members of the exchange are in possession of paper aggregating several thousand dollars more.

EXPECTS ADJUSTMENT TODAY.

When an effort was made to reach Fielding J. Stilson yesterday afternoon at his home, No. 1044 West Kensington road, it was stated that he was sick and could not be seen. Later he was reached on the 'phone and said he had just been notified of his suspension by the stock exchange. He said he had arrangements under way to handle his liabilities to the satisfaction of his creditors; that he had been ill, but will get busy today.

Last night Stilson, who appeared to be suffering considerably, and was under the care of a physician and nurse, said he will arrange today to settle the transaction which caused the trouble. This, he said, involved only $4000, and his suspension was merely automatic, in accordance with the very strict bylaws which he himself helped to frame.

President Sullivan and two other members of the board of governors offered to call at his home this morning, he stated, and endeavor to make satisfactory disposition of the difficulty. Stilson's physician urged him to talk as little as possible because of his weakened condition.

FAMILY MAY HELP.

Members of Stilson's family and close friends may get together today and raise the money to straighten out the situation for the embarrassed broker.

Carol J. Stilson, who is associated with his brother in the brokerage business, was seen at the office of the company, No. 115 West Fourth street. He talked freely of the suspension from the exchange and of his brother's financial difficulties. He said Fielding J. Stilson had been carrying a heavy load involving several business deals, especially the Oleum Development Company, in which thousands of dollars have been sunk, and that during his temporary illness three or four attempts had been made by creditors to collect money. The inability of Fielding Stilson to be on the job precipitated the trouble, according to Carol's view.

Carl Stilson said the brokerage company has considerable property, and that if given time his brother will be able to extricate himself from the tangled web of indebtedness, that now surounds him. In direct variance with the rosy view of the case, members of the stock exchange, who are more or less familiar with Stilson's business deals, hold the opinion that as more light is thrown on the situation there will be less likelihood of any satisfactory settlement without family help. What the outcome will be aside from Stilson's suspension from the Exchange was not considered yesterday, and no one cared to advance any opinions.

LOSS ON OIL COMPANY.

The Stilson brokerage house has been very active in dealing in stock on the Exchange for several years, and its head has taken a prominent part in the activities of the institution. In addition to his deals in all the active stocks listed on the local board, he has for the past two years tried to bolster up the failing fortunes of the Oleum Development Company, which holds a lease on forty acres of land in the Midway field. Stilson's friends give him credit for making an honest effort to get results in his oil venture, but thousands of dollars have been expended in drilling a well to a depth of nearly 3000 feet without getting enough oil to fill a five-gallon can.

The stock of the Oleum company, which at one time sold as high as 15 cents a share, gradually slumped off to less than 4 cents a share, and every time the bears raided the stock Stilson made desperate attempts to keep its head above water. It is believed that the Oleum load, more than anything else, has contributed to Stilson's financial downfall.

In his operations on the Exchange Stilson has been known as considerable of a plunger, and sometimes his judgment has been in error. Members of the Exchange, it was learned yesterday, have been looking for the climax in Stilson's affairs for some time. Little surprise was expressed by them when the facts came to light.

SOCIA LSENSATION.

In social and other circles the suspension of Stilson from the Exchange proved a decided sensation. His family is conspicuous in society and in club circles, and has always been placed in the class frequented by the wealthy. Stilson is a member of several of the exclusive Los Angeles clubs, and is a vestryman in one of the city's most important churches. Several years ago he married the daughter of William Winter, the well-known New York dramatic critic.

Stilson's father at one time owned the whole of Angeleno Heights, one of the choice residence sections of the city, and the Stilsons still live there.

From the Aqueduct.

RANCHMEN IN A HURRY FOR SURPLUS WATER.

BECAUSE the report of Chief Engineer Mulholland on plans for the distribution of aqueduct water was not formally before the City Council, that body, although it met at 3 o'clock yesterday afternoon for no other purpose than to discuss it, postponed consideration until next Tuesday. Among those in the Council chamber were several ranchmen from the San Fernando Valley who wanted to know at once what the water is going to cost delivered to them and when the city can begin to deliver it. They're in a hurry to get it. The people are only beginning to awake to a realization of the nearness of the aqueduct and that only a few months hence the great system will be finished to the San Fernando dam and 20,000 miner's inches of water, representing the entire surplus of the Owens River flow, will be ready for the distributing system through which it is to reach the consumers.

The aqueduct is built to carry 20,000 miner's inches, but the estimates for each of the five projects submitted by Mulholland in no case call for more than 12,000 miner's inches at this time. The territory, as he explained, will not be ready for the full supply probably for twenty years and it is not necessary to figure so far ahead. In each of the five projects, Los Angeles city is always allowed 2000 inches and the remainder is treated as surplusage.

WHAT THE CITY NEEDS.

Will 2000 inches be sufficient for the city? is a question that was to have been asked yesterday by several of the Councilmen. The chief engineer says it will easily satisfy all the city's demands. Los Angeles now has a supply of about 5000 inches, and this, he has shown, will be enough for years with the addition of 2000 from the aqueduct, because when the aqueduct water shall be used for irrigation and other purposes in the San Fernando basin, it will in time find its way to the Los Angeles River, and thus the present 5000 inches will be materially increased. This is only for the present area of the city. That there will be large annexed areas in the future, Mulholland expects and calculates for in the larger projects. What was described as "Case I" in the report, as summarized yesterday, is the plan for Los Angeles, without regard to any possibility of outside territory joining the city. That can be financed by the Public Service Department of the city.

The question of how the various projects are to be financed has not been determined. Mulholland's report offers estimates and plans for five different projects, each with four or five alternative propositions to be considered in connection with it. But the districts referred to in his report are only on the maps in the engineer's office; they are not really districts as yet. The city is absolutely prohibited by the charter and by the terms of the grants from the government, from selling any water to persons or corporations of a private character for re-sale, but cities can buy the water, and as quasi-municipalities, irrigation districts can do the same. Cities may be part of irrigation districts, even, under the law of California.

COST, PRICE, INCOME.

The view of the Public Service Commission, as brought out in the discussions before that board for months past, is that each municipality or district should pay first as a bonus a fair proportion of the cost of bringing the water from the intake to the San Fernando reservoir; and, second, each such district should pay, in addition, the proportionate share of the cost of constructing the conduit from the San Fernando reservoirs. Mulholland has frequently pointed out that the relative cost per acre will be greatly diminished as the acreage irrigated increases.

The report published yesterday gave figures of the cost of constructing the trunk lines, the subordinate mains, and the laterals in all the districts included in the 195,000-acre territory ultimately to be supplied. The cost for use is an entirely different thing.

Stock Broker in Financial Straits.

Fielding J. Stilson.

Los Angeles broker, club and society man, who was suspended from the Stock Exchange yesterday. His affairs appear badly tangled and he is sick, but he says he thinks all can be adjusted today. Members of the Exchange hold his checks aggregating many thousand dollars and say they are unable to realize on them.

Unhallowed Tomb.

TWO DIE, ARE BURIED, IN STEEL AVALANCHE.

Two Killed, Two Injured, When Steel Falls.

Scene of an appalling accident in the iron shed of the Union Hardware and Metal Company at East First and Alameda streets yesterday afternoon. Hundreds of tons of vertically-piled beams toppled over, tearing a huge hole in the brick wall and burying two workmen beneath it.

TWO men were crushed to unrecognizable fragments and two others injured, one perhaps seriously, when an enormous stack of steel beams, piled vertically, fell from a rack in the iron shed of the Union Hardware and Metal Company at East First and Alameda streets yesterday afternoon. The ends of the great mass struck the opposite wall of the shed and tore through the bricks as though they were wet pasteboard, burying two of the steel gang under hundreds of tons of steel and brick.

C. Wagner, No. 227½ East First street, married, and Edward McBride, who lived near the corner of Fifth and Crocker streets, with a wife and two small children, were instantly killed. They were crushed into mere masses of flesh and bones under the avalanche.

John Golden, No. 1192 East Fifty-fifth street, sustained a slightly sprained right ankle, and Peter Riley, No. 114½ North Los Angeles street, was injured in the back. There is a possibility of internal injuries in his case. Golden sustained his injuries by leaping from a ladder when the mass of iron began to fall.

Roy Beleal, No. 641 South Flower street, and Victor Price, No. 1192 East Fifty-fifth street, escaped being crushed to death only by great agility in leaping out of the way. They were the only members of the iron crew that escaped.

MEN ARE BURIED.

McBride was buried under the middle of the great pile of debris, caught between some barrels filled with heavy chains. Wagner would have escaped had he not stumbled over some obstacle on the floor and fell against a barrel. Before he could recover his footing the steel was upon him and his body was literally torn into shreds.

Had the accident occurred a few minutes before, when a second iron crew was working on the pile of steel, the list of killed and injured would probably have been more than doubled.

When the steel is properly piled, the weight is almost wholly upon the floor. Wagner and his men were working on the north and the east sides of the pile, when a piece of wood fell from the ceiling. The next instant the steel nearest the east end of the frame toppled. The upper ends of the rods and bars were so long that they struck against the brick wall of the building. There was a momentary quiver of the whole structure, and then a section of the wall twenty-five by thirty feet, gave way, and its roar as it fell out onto the loading platform beside the railroad tracks on Alameda street was added to the terrific clatter of steel.

NO ESCAPE.

Wagner and McBride were directly under the steel when it began to fall. Golden was on a ladder leaning against a portion of the pile. As he and the ladder fell the same way the metal did he jumped in the opposite direction and escaped with an injured foot. Riley was running when ends of the steel bars and rods grazed his back. He was knocked down and may have received internal injuries. From the Receiving Hospital he was sent to that of the Good Samaritan. Golden was not sufficiently injured to go to the hospital. Later in the day he helped in the removal of the steel off the bodies of his fellow workmen.

The accident is attributed by the workmen to some of the steel either not being properly piled, or being thrown out of alignment by passing trains shaking the building. Officials

The Waters of Lethe.

TOAST TO DEATH AS LIFE SMILES.

Girl Buys Frock, Matinee Tickets, Chloroform.

Pretty, Loving, Beloved, She Drinks and Dies.

Mind May Have Given Way; Mother Prostrated.

A few hours after ordering her new tailor-made spring suit and making reservations for a jolly theater party at a Broadway playhouse, Miss Beatrice Wolfe, one of the prettiest and most popular members of the large staff of the County Recorder, drank a large quantity of chloroform and died at the home of her uncle, A. J. Wheeler, No. 1423 Lucile avenue.

She had suffered for several years from an incurable ailment and had been despondent and melancholy. Her widowed mother, Mrs. Cora J. Wolfe, lies prostrated at the Wheeler home as a result of her only daughter's death.

Miss Wolfe arose early Tuesday morning, as was her custom, and prepared breakfast for her mother and members of the Wheeler family. She appeared quite cheerful, according to her uncle, and informed him that she had just ordered matinee tickets for a Broadway playhouse. She visited her tailor the day before and attended to the final arrangements for her new spring frock.

After breakfast the members of the household went down town, leaving Miss Wolfe alone in the house. She was employed at the County Recorder's office and seldom left the house before 9 o'clock. She asked Wheeler before he left to be sure and give orders for the dinner and said she would attend to arranging for it.

DEATH DRAUGHT.

Within a short time after their departure, Miss Wolfe went to her room, locked the windows, and door and lay down on the bed, fully dressed. She drank a large quantity of the chlorform and saturated a cloth with the remaining contents of the bottle and placed it over her face.

Shortly after 6 o'clock the members of the family returned and made preparations for dinner. Mrs. Wolfe had occasion to go to her daughter's room and was surprised to find the door locked. She rapped several times but there was no response. Wheeler secured a ladder and attempted to raise the window in her room, but it was securely fastened.

He hastened back to the door of the room and after repeated efforts succeeded in breaking it in. The body of the young woman was found on the bed, life entirely extinct. The room was in perfect order. The empty chlorform bottle was found lying on the floor near the bed.

The Coroner was notified and Deputy Williams responded. He made an examination of the body and stated that she had been dead at least four hours.

Miss Wolfe graduated from the Los Angeles High School nine years ago. A short time after her graduation, she secured her position in the Recorder's office. She was considered one of the most competent employees in the county's copying department and was a faithful and industrious worker. She seldom went out in society and devoted much of her spare time to reading.

WORKERS MOURN HER.

County Recorder Logan placed a magnificent wreath of flowers on Miss Wolfe's empty chair yesterday and her untimely end was sincerely mourned by the many to whom her sunny disposition had endeared her.

"Beatrice had been despondent and morbid for some time,' said Wheeler yesterday afternoon. "She suffered for years from a serious complaint and physicians could do nothing for her. She must have been temporarily insane when she committed the act."

Wheeler holds an important post with the Los Angeles Railway Company, and was for several years clerk to Judge James, of the Appelate Court.

Funeral services over Miss Wolfe's remains will be held Saturday morning at Overholtzer's undertaking establishment. The services will be private.

HIS FAME GOES BEFORE.

Former Mayor of Galveston, Here, Notifies Home Town That Frank Wiggins Is Coming—Big Reception.

When Frank Wiggins, secretary of the Chamber of Commerce, passes through Galveston tomorrow morning he will be the most surprised man in Texas. The veteran booster was hardly on his way on his six-months' trip of well-earned rest, which began Tuesday, before the wires began to sing his praises ahead of him. Notified of his coming by A. H. Landes, ex-Mayor of Galveston, who is now visiting in this city, the Texas city is one of those planning to make memorable the trip of Mr. and Mrs. Wiggins through the Lone Star State. He will be met at the station by a delegation of prominent members of the Galveston Business League, taken in triumph from the train and entertained in regal fashion as long as the resources of Galveston hold out—or as long as he can be made to stay.

Ex-Mayor Landes' message, addressed to J. E. Kaufman, secretary of the Galveston Business League, was as follows:

Frank Wiggins, secretary Los Angeles Chamber of Commerce, passes through Houston Southern Pacific train No. 10 Friday morning. Frank Wiggins, as he is known in the West, is the most successful and effective developer and prosperity builder of the age and his ability has added hundreds of thousands if not millions to the population of Southern California.

Galveston cannot afford to let such a man pass through Texas without an invitation to become her guest, as he will be the most honored in his line you will perhaps ever have the pleasure of entertaining.

Must arrange by wire before his arrival at Houston.

[Signed] H. A. LANDES.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

If Mayor Alexander's first selection of four men for delegates to Washington to urge the harbor claims shall not accept, he will consider the name of ex-Senator Flint.

A decision handed down yesterday by a judge of the Superior Court which seemingly reverses an earlier opinion of the State Supreme Court, is explained by the fact that since the Supreme Court's decision the law has been amended.

At the City Hall.

MAYOR MAY NAME FORMER SENATOR.

HARBOR DELEGATES STILL IN UNCERTAINTY.

Chairman of Council's Harbor Committee Ambitious to Be Named and Fellow Councilmen Not Opposed; Chief Executive Waits to Hear from Four Asked to Go.

Except that Willis H. Booth and T. E. Gibbon, will be two of the four representative men to go to Washington and present the claims of Los Angeles Harbor, nothing is definitely settled, owing to inability of several of those who have been invited to go, to answer whether they can make the trip. It is well-known that Councilman Reed would like to go and that several members of the Council rather favor his ambition, believing that the Council should have a representative. Gen. Chaffee, it is known, has been invited by Mayor Alexander to consider making the trip, if the Council shall approve the plan of sending the committee East. President Osborne of the Chamber of Commerce has been considered, but does not know whether he can accept the appointment, because of the fact that he is a member of the Grand Army of the Republic Committee of Arrangements for the annual encampment this summer and in a few weeks will be in the midst of the preparations.

Several leading men of the city within the last two days have suggested to the Mayor, that ex-United States Senator Frank P. Flint be asked to go, owing to his well-known influence and acquaintanceship at Washington. John T. Gaffey of San Pedro has also been suggested to the Mayor, but Gaffey said yesterday that he thought Senator Flint was the man to go.

"If any of the four that I have asked to consider the matter cannot accept," the Mayor said late in the afternoon, "I shall consider the name of ex-Senator Flint and then that of John T. Gaffey."

There is no hurry about sending this committee East, anyway, as they can do nothing until the Engineering Board receives the report from Maj. McKinstry, in charge of harbor work here, and submit it to the Rivers and Harbors Committee of the House of Representatives. It may be eight weeks before the matter is to come up and seven weeks before Congressman Stephens gives the word that the committee is needed. In the meantime, Stephens is urging the Harbor Commission and every one he can reach by telegraph to be sure of the facts to be presented. No bluff will go, he is telling the Chamber of Commerce people, and the plans, contracts, tonnage receipts, arrivals, departures, and every possible argument in favor of the appropriation that will be asked for must be ready. As soon as the personnel of the committee shall have been definitely decided, the Harbor Commission, City Engineer Hamlin and Chief Assistant Vincent will meet with the Washington delegates and go over the ground.

The order from Washington to Maj. McKinstry to expedite his report which was received yesterday, will be easy to carry out, it is understood, because the data have already been collated to a large extent under former engineers at the harbor.

The Harbor Committee reported the $1400 expense appropriation for the Washington delegation favorably, yesterday, and the matter was sent to the finance committee.

INNER HARBOR BOOSTED.
WILMINGTON WORK ORDERED.

With a delegation of Wilmington residents looking on, the Harbor Commission yesterday afternoon decided to fill from Front to Water street in the former town of Wilmington, this giving them an easy access to the municipal wharf at the foot of the principal street, Canal street. The Wilmington people are pleased with the prospect of having a concrete wharf, 600 feet long, in front of Water street.

The commission received no word from Engineer Goodrich, although some answer was looked for to the dispatch of the previous day telling him of his appointment as consulting engineer.

The Huntington fill contract came up before the Board of Public Works, but went over until today when Special Counsel Hewitt will have ready his reservation-paragraph with regard to the 20-cent charge for dredging the east side of the fill.

The Harbor Commission has decided to provide at the head of the channel between the Huntington fill and the Miner fill a public service wharf at the harbor for immediate use, and has invited the Board of Public Works to advertise for bids for such a wharf.

MAYOR'S NEW NECKTIE.
GREEN DAZZLES EVERYBODY.

There was something strange in Mayor Alexander's appearance yesterday morning as he entered his office. What it was no one could tell at first. Then Secretary Henderson exclaimed: "Mayyor, what has become of your necktie?" The Mayor reached to his collar, and then he chuckled. "Knew there was something I'd forgot but could not think what it was," he said.

Two of the on-lookers in his office looked at each other and left the room. In fifteen minutes they were back with a parcel which they presented to the Mayyor. It is a necktie. And such a necktie. All the glints of the emerald were in it and bright glints at that. But they could not bluff "Uncle George." He laughed and deftly tied the tie in a sailor's knot and wore it all day to the amazement of strange visitors and of people who met him in the street.

Congestion Blamed.

That failure to grant a franchise for an interurban road on San Pedro street is resulting in injury to the business of Los Angeles on account of the difficulty of outside residents reaching the stores, is the argument presented to the City Council in resolutions filed yesterday by the Committee of Eighteen, representing the City Councils and Boards of Trade of Pasadena, South Pasadena and Alhambra. The congestion on Main street interferes with traffic and makes traveling unpleasant, the document says, and the City Council is urged to grant the application for the sale of a franchise on San Pedro street, filed with the Council a year ago by the Pacific Electric Company. Residents of the communities named are willing to trade in Los Angeles, the committee says, but they ask for adequate conveniences.

New Doctor; Small Pay.

Dr. Walter A. Bailey, district physician in the health department, resigned yesterday, and Health Commissioner Powers named Dr. Frank Thomas in his place. The district is south of Seventh and east of Main to the river. The pay is only $25 a month. District physicians look after the indigent.

Insist on Protesting.

Stanley King insisted yesterday on filing again with the City Council his protest and that of other residents against the East First-street storm drain yesterday, and said, if no attention was paid to it, they would take it to the Supreme Court if necessary. The Council returned it originally to the protestants on being advised by the City Attorney that protests are ineffective against storm drain or sewer work.

Object to More Barns.

Residents of the district bounded by Lake Shore and Belmont avenue and Cortez and Palo Alto streets, filed a protest against permitting the erection and maintenance of more feed and fuel barns on Temple street, between Belmont and Lake Shore avenues.

At the Courthouse.

SUPREME COURT SEEMS REVERSED.

BUT LAW HAS BEEN AMENDED SINCE ITS DECISION.

Superior Judge Holds That a City Has Right to Sell the Right-of-Way of a Railroad to Satisfy an Assessment for Municipal Improvements.

In a decision which is in conflict with a decision of the Supreme Court in the case of the Southern California Railway Company against the City of Los Angeles, commonly known as the Workman case, Judge Wood held yesterday that a municipality has the power to sell the right-of-way of a railroad company to satisfy an assessment for municipal improvements made under the Local Improvement Act of 1901.

The suit Judge Wood decided was that of the San Pedro, Los Angeles and Salt Lake Railroad Company against H. L. Pillsbury, Tax Collector of Long Beach, to enjoin him from selling a portion of the railroad's property on Ocean Front avenue. The city wanted to build a retaining wall and laid out an assessment district. The railroad was assessed for this improvement and when it did not pay the assessment the city threatened to sell the company's property.

The company's contention was that a city could not sell a part of a railroad's right-of-way for municipal improvements, and quoted the decision of the Supreme Court in the Workman case, which forbade the assessment and sale for street improvements done under the Vrooman act on the right-of-way of a railroad, although it be situated upon lots and lands fronting on the same improved street and which the statute declares shall be assessable to pay for the improvement.

The theory of the Supreme Court's conclusion was, Judge Wood held, that a wise public policy forbade the sale of portions of the railroad right-of-way in view of its quasi-public function and of the importance to the public that the operation of the railroad should not be interfered with.

Since that decision and doubtless in view of it, the Legislature has specifically declared a public policy to exist directly contrary to that one declared in the Workman case. The Vrooman Act was amended to make assessment thereunder apply to the right-of-way of all other property of any railroad fronting on a street improvement.

OLD SPOT COMES BACK.
NOTE FOUND IN BANK VAULT.

W. C. Weaver, an Eastern financial man who is wintering in Pasadena, was a witness in Judge Houser's court yesterday in a suit brought by the Carnegie Trust Co. against the Alfalfa Feed & Milling Co. covering a promissory note for $37,500 which was found in the vaults of the bank after it went into bankruptcy.

When the receiver took charge he brought suit on various old notes to learn their validity, the note for $37,500 being among them. The case was tried here because of the temporary residence of Weaver, who was secretary of the Alfalfa Feed & Milling Co. and had indorsed the note. The affair had grown out of a transaction with Jack Cudahy.

The defense set up that the note was given on a bank matter and without consideration and it was believed the note had been cancelled and destroyed. The case was submitted.

MILLIONAIRE'S ESTATE.
BANKER FILES PETITION.

Frank C. Bolt, a Pasadena banker, filed a petition yesterday to be appointed executor of the California estate of Charles D. Callery, a Pittsburgh millionaire who died in Pasadena January 29, last. The will, which is dated May 27, 1904, was probated in Allegheny county, Pennsylvania.

The California estate, situated in Pasadena, according to the petition, is valued at $90,000. The devisees and legatees are the widow; Harry Boyle Callery of No. 439 South Grand avenue, Pasadena; John Boyle Callery, a son—for each of whom one-third of the estate is held in trust by the Colonial Trust Company of Pittsburgh; Miss Sarah Wakelin of New Stamford, Ct., $2000; St. Paul's Orphan Asylum, Pittsburgh, $1000; Little Sisters of the Poor, Pittsburgh, $1000, and Father Joseph Seur of St. Peter's and St. Paul's Church, $3000.

ASSAULT IN CORRIDOR.
IN CONTEMPT OF COURT.

Affidavits filed in Judge Wilbur's court yesterday charged Will C. Prather with having attacked J. D. Horter, a witness in a suit, and used violent language toward him. Prather will come before Judge Wilbur tomorrow for contempt of court.

The alleged assault occurred in the corridor outside of Judge Wilbur's department yesterday. While W. J. Sherriff was talking with Horter, they allege in the affidavits, Prather approached and struck Horter in the face, at the same time applying a vile epithet.

The parties were in court in a suit involving a portable house, which, it is charged, was removed from a lot when certain payments were not made. The plaintiff is Sherriff and the defendants are Marion M. Malarky and Will C. Prather.

SUES FOR INCREASE.
PROMISE IS INVOLVED.

H. P. Coleman asks $30,500 as the prospective value of 122,000 shares of the treasury stock of the Midway Southern Oil Company, in a suit filed yesterday against A. C. Zeirath and the Zeirath Drill Company, an oil-machinery supply-house.

Coleman alleges in the complaint that the oil company induced the supply company to find a purchaser for the stock, with the promise by the former to buy machinery. Coleman bought the stock on the understanding that it would be worth 25 cents a share, or more than 20 cents above the purchase price.

According to Coleman, the Midway failed to make good in its operations. He now demands the sum he believes he is entitled to if the stock had advanced according to the promise alleged to have been held out.

JURY CUTS DAMAGES.
AWARDS TENTH ASKED FOR.

Miss Nettie B. Rice, a school teacher, who sued the Pacific Electric for $76,550, alleging that she had been permanently injured as the result of a collision between a Santa Monica train and a Sawtelle car at Sixteenth and Oxford streets June 28, last, was awarded $8000 by a jury in Judge Norton's court yesterday.

The railway company admitted liability, but fought the heavy damages asked, alleging that Miss Rice is not permanently injured. Experts were called on both sides who held a clinic in the courtroom over the injured limb.

Chief Justice Matthew T. Allen, who was injured in the same accident, has a suit pending against the Pacific Electric. He places his damages at $100,400. The case will be tried in April.

FINDS MISSING SPOUSE.
CONDUCTS BIG RABBIT FARM.

The rabbit ranch conducted by Charles A. Love on Compton avenue apparently was not productive enough to support Mrs. Delia A. Love, according to her evidence in a divorce suit yesterday. It was stated that after Love deserted her, she was supported by her mother.

Love had 1000 Belgian hares on his ranch. The peculiar fact about the case was that it was near the home of Mrs. Love's sister, and Love conducted it a long time before the sister learned it was her brother-in-law who conducted it. She told Mrs. Love who her neighbor was. Judge Munroe granted a decree on the ground of failure to provide.

FIGHT FOR CONTROL.
STOCKHOLDERS' SCRAP.

Attorney Beardsley, representing certain stockholders of the Physicians' Hospital Association, obtained an order from Judge Craig yesterday to show cause why stock held by them should not be sold as delinquent. The sale was billed for yesterday. The order is made returnable in Department Five on Monday.

The suit was brought by A. B. Shaw, Clinton Booth, R. C. Shaw, Bruce McDaniel and James Beebe against the association, J. A. McNaughton, Ross Minchall and others. It is alleged that McNaughton and other directors are seeking to force the plaintiffs out of the corporation and to control the management and that stock was issued without consideration and illegally to the defendants.

PRIZEFIGHT ECHO.
SUIT FOR WOUNDED SON.

Emma A. Baker filed suit against the Pacific Athletic Club yesterday for $5000 damages for injuries sustained by her son, Lee Baker, aged 18, who was shot during a disturbance outside of the Vernon arena on the day of the Attell-Kilbane prizefight.

The complaint alleges that Lee was strolling around in front of the arena when shots were fired by Policeman Neiman and Charles P. McHugh, the latter secretary of the corporation. The balls entered Lee's body on the left side near the spinal cord. The suit is brought against the club as owner of the arena.

SUIT COMPROMISED.
AMOUNT KEPT SECRET.

A compromise, the terms of which are secret, was effected in Extra Sessions Three yesterday when the $20,000 suit of Mrs. Adelaide Van A. Collier against Mrs. Lillie, for alienation of her husband's affections, was called. Mrs. Lillie is a fashionable dressmaker.

Mrs. Collier has brought an action for divorce which will be heard April 11. She will name a co-respondent whose name for the present is being withheld.

COURTHOUSE NOTES.
BREVITIES MISCELLANEOUS.

CHILDREN SHARE. The will of Adelaide Hydes Comstock of this city, who died on the 12th inst., was filed for probate yesterday. The estate is valued at $11,130, and is left in equal shares to the two children, Grace Comstock Rankin and Walter H. Comstock. The husband, Hurbert Abijah Comstock, is left during his lifetime the Hyde farm of twenty acres in Saratoga county, N. Y. Among the assets are twenty-two shares of the stock of the Citizens' National Bank and 1400 shares of the stock of the Perseus Oil Company.

INCORPORATIONS. Pacific Home Investment Company, incorporators, George M. Link, J. E. Bass, M. T. Lander; capital stock, $15,000; subscribed, $700. El Molino Company, incorporators, S. M. Haskins, W. A. Barnhill, A. G. Walker, B. N. Jefferson, Albert Crutcher; capital stock, $50,000; subscribed, $500. Interstate Investment Company, incorporators, John W. Sharpe, R. P. Sharpe, Robert B. Murray; capital stock, $100,000; subscribed, $30.

The Man Who Knows.

Travels over the line that offers superior service; fast time, best equipment, unsurpassed dining cars. The Washington-Sunset Route offers all of these and affords a delightful journey through the South, the Land of Flowers and Storyland. T. F. Fitzgerald, Agent, 605 S. Spring st. Phone Broadway 2951.

IN THE INFERIOR COURTS.

Man's Likeness Tempts Man to Commit Theft, and He Lands in Jail—Talkative Friend Tanked.

Blushing and innocent misses who fall in love with matinee idols across the footlights were outdone by Joseph Arguello, who became smitten with the likeness of a moving picture hero.

An enlarged photograph of William I. Santschi, a film actor, was so pleasing to Arguello that he couldn't resist the temptation of lifting it from its resting place as he passed in front of the canned drama emporium at No. 535 South Main street. He slipped the picture under his coat and walked on.

Patrolman Works saw the act and arrested Arguello. Some time later Joe Klein called at the Central Police Station to see his friend, who had given the name of Bush. He raised such a disturbance that he was also arrested. When arraigned before Police Judge Fredericksson yesterday Arguello said:

"I really didn't intend to steal the picture. I want to plead my cause. I want to make good and take it back."

"I plead not guilty because I only came down here to arrange bail for Joe. I talked too much, I guess, and they threw me in," said Klein when he was questioned.

The case was continued until today.

Charges Pile Up.

Mrs. Grace Morton, professional associate of Dr. Carleton, who is a fugitive from justice, was placed on trial before Judge Williams in the University Police Court yesterday.

The woman is charged by the State Medical Board with having practiced surgery without a license. Attorney Herbert Morrow is the prosecuting attorney.

Mrs. Morton will be placed on trial Friday for having maintained a hospital without a permit from the Board of Health. Assistant City Prosecutor Nimmo will appear against the woman.

She will be tried Tuesday on a felony complaint—a criminal operation upon a woman. The three cases against the woman in six days gives her the distinction of being the most prosecuted person who has ever appeared in Judge Williams's court.

May Take All Summer.

John Whitzel, charged with being "an idle and dissolute person," but suspected of being a sneak thief, denied his guilt before Police Judge Fredericksson and demanded a jury trial. His case was set for June 7, and in default of $100 bail he was remanded into the custody of Jailer Shand.

The next defendant was Jack Shay. He denied the impeachment against him, and asked for a jury trial.

"I can accommodate you fellows in time," dryly remarked the court. "We have all summer in which to try your cases."

Shay will remain in jail until June 29.

Pasadena Backsliding?

Lottery drawings have seemingly been transferred from the Los Angeles Chinatown to the Oriental quarters in Pasadena, judging from the arrest of Ton Fay yesterday. He was fined $50 by Police Judge Fredericksson for having lottery tickets in his possession. The Chinese was taken into custody as he stepped from a Pasadena car. Fay formerly operated in this city until the activities of the Metropolitan Squad drove him out of business.

SMUGGLING CASE ENDING.

On account of the illness of —udge J. C. Campbell, of San Francisco, the Woo Wai Chinese conspiracy case was not concluded, yesterday. It will end, so far as the evidence is concerned, today, with the testimony of Woo Wai, the principal defendant. It is possible that the arguments will also be concluded. The outcome of the trial will depend largely upon the instructions of Judge Van Fleet to the jury. If he lays downs the principle that officers of the government were justified in entering into an arrangement with the defendants to commit an unlawful act, provided they did so with good motives and in the interest of justice, without themselves profiting financially by the proposition, there may be little time spent in deliberation by the jury. The defendants have practically acknowledged that they were engaged in the business of smuggling Chinese laborers as charged, but fall back on the legal proposition that the officers were not authorized or justified in law in entering into the conspiracy merely to trap them.

DAMAGE—CLAIM TESTIMONY.

The depositions of Capt. A. H. Parsons, formerly a quartermaster in the army, and Gen. Theodore E. True (retired) residing near Huntington Park, were taken yesterday before United States District Attorney McCormick, in the claim filed by John M. Hill, owner of the old Bennings race track, at Alexandria, Va., across the Potomac from Washington, against the government for $40000, on account of alleged damages to the property by its occupancy during the Spanish war by troops, supply depot, etc. Hill's demand is before the Court of Claims, and the testimony taken yesterday was in behalf of the government.

THEIR THIRD BIG FEAST.

Boys' Don't Worry Club of Big Department Store Gives Banquet. Their Bosses Are Their Guests.

The Don't Worry Club, an organization of cash boys, wrappers and stock boys of the Broadway Department Store, held its third annual banquet last evening at the Y.M.C.A. Several secretaries of the Y.M.C.A. and department managers of the store were invited guests.

There are twenty-two boys in the club, which was organized to promote the physical, mental and moral development of the boys of the store. Roy S. Madden is president, George W. Frisbey, secretary, and Lane W. Perry, treasurer.

H. D. Cross, director of boys' work at the Y.M.C.A.; W. Y. Smither, assistant general manager of the Broadway Department Store; George Frisbey, Lewis W. Foley, assistant director of boys' work at the Y.M.C.A., and Harry Philp, general manager of the Broadway Department Store, spoke at the banquet.

I SECURE RESULTS!

In other words, I make good the claims I make. Otherwise, I could not have a constantly increasing clientage of a splendid class.

Let me show you. You cannot know what progress has been made in scientific dental operations until you have investigated my IMPROVED ALVEOLAR METHOD. It is as far ahead of ordinary methods as an up-to-date electric street railway is of the horsecar system.

Nothing pleases me more than the opportunity to SHOW people who need teeth, what they ought to have, what I can do for them, and what the results will be.

If you have bad teeth, or teeth missing, you owe it to yourself to investigate my method, especially as it costs nothing but a little of your time. Consultation and examination are free.

Don't let fear of dental operations, past unpleasant experiences or anything else prevent you from seeing me.

Filling and extraction are done with the utmost skill and gentle sympathetic care. No matter what your tooth needs may be, I will give you the best service at prices extremely moderate considering the services rendered. I am ready to do my part. Are you ready to do yours?

Office hours 8:30 to 5:30 p. m.
Telephone A1397.

Dr. H. S. Downing

Next to Silverwood's.

Established 1889. Assets Over $1,000,000

Safe and Satisfactory 6%

A satisfactory income and safety of principal are the first requirements of the conservative investor of moderate means.

They are the strongest features of our $100 Investment Certificates, with 6 per cent. interest.

That is why so many hundreds of conservative investors are satisfied holders of these Certificates.

We have been paying 6 per cent. interest to holders of these Certificates since 1889, without once having failed to pay all demands when due.

They combine the greatest possible convenience with absolute stability and safety of principal.

We shall be glad to correspond with you or have you call at our offices.

Benjamin Clothes

Happy Snappy Jaunty Clothes for Young Men

MAKING clothes for young men is an art. The tailors who make Benjamin Clothes are past-masters in this sort of style-craft—as well as in loring technique. They know how to put the dash and ginger in in the right way, besides, these clothes hail from the fashion center of America, New York—the very heart of things sartorial.

Let us show what truly *young men's* attire should be.

YOU can afford them, because, around $20 to $25 we have built the smartest models ever shown on this coast. We have others, not Benjamin made, at $15 and $18, which are surpassing values, but, in $20 and $22 and $25 we certainly are the Big Show.

If you will look around at the really exclusive tailor shops, then see our offerings, you'll realize that you'll wear a Benjamin. Remember they are shown here exclusively. In Tuxedos and Full Dress there's nothing—absolutely nothing, to touch us.

Two Hundred and Twenty Six, Ninety Nine

[44]

Practically the whole capital and surplus, amounting to $1,297,226.99, is on an interest-earning basis, the revenue from which was $7,229 more than sufficient to pay "Home Builders" four quarterly cash dividends last year.

This is a healthy financial condition. This more than a million is invested in mortgages, trust deeds, stocks, bonds, etc., which have also yielded a generous initial profit to "Home Builders" in their building and other operations.

Here is exact proof of the reliability of this enterprise. Here is reason why it has a right to ask you to entrust your money to its keeping—even to the very last cent of your savings.

Above all else, Home Builders" is safe for every man, woman and child to become interested in and before you invest it asks that you verify the truth of this statement.

[45]

Home Builders

We know of no other avenue open to small investors where they may secure greater safety for their principal and still enjoy as large cash returns—where in fact, they can partake of the growth and profit of Los Angeles' prosperity quite as surely as they can by becoming "Home Builders" stockholders.

By the federation or co-operation of the smaller sums of more than 3000 stockholders, the large profits of a gigantic enterprise are being earned, which would be impossible to each investor "hoeing his own row," and, through "Home Builders" plan are distributed in cash dividends and surplus accumulation pro rata for the stockholder's benefit.

You should look into the opportunity it offers you to make your money profitable.

[46]

While "Home Builders" is financially sound, and is in itself assurance of your money's safety, yet, as additional security or protection, the "General Agency" will give you a written guaranty with your shares which provides facilities for conversion of your shares into cash under fair and reasonable conditions.

Let us tell you all about it.

Pioneer ROOFING

WE have spent many years in research, and experiment to bring Pioneer Roofing to its present excellence. Every point that showed in our methods of manufacture was to the advantage of to build up a perfect article. The result is a Roofing that can be used with confidence.

Pioneer Roofing will not warp, shrink, crumble, absorb moisture, catch fire from burning embers. It is the

Best for Every Purpose

Pioneer Roofing is rapidly displacing other materials for roofing. A little figuring shows why. Count up the cost of successive coats of paint necessary in the life of a modern house, and you have the answer.

There is a Pioneer Roofing for every use—from a wood shed to a dwelling.

The Oil Industry.

AGENCY REPORT FOR ONE MONTH.

January Production of Oil in Various Fields.

Members of Organization in Better Position.

Oil News of Interest from Fields of State.

The report of the Independent Oil Producers' Agency for January shows that thirty-eight companies, exclusive of the Nevada Petroleum and American Petroleum, operating in the Coalinga field, had a net production of 191,424 barrels. During the month 94,621 barrels were run from these properties, 197,014 barrels to the Producers' Transportation Company, leaving a net storage of stocks on hand of 165,140 barrels.

Six companies out of the thirty-eight produced 114,603 barrels as follows: Premier Oil Company, 31,500; Traders', 30,960; British Consolidated, 15,687; Esperanza Consolidated, 13,975; Ward Oil Company, 13,000; Ozark Oil Company, 10,600; The Nevada Petroleum Company had a production of 98,800 barrels, and its runs for January amounted to 94,000 barrels.

In the Kern River field there are thirty-eight companies represented in the Independent Agency, and the total January production of these companies was 127,046 barrels. Of this amount 95,927 barrels went to the Producers' Transportation Company and 30,919 barrels to other sources, making a total of 126,846 barrels run and leaving 160,300 barrels in stocks. The largest producers in the Kern River field were the Knob Oil Company, the Tejon, the Nevada County Oil Company and the Del Rey Oil Company.

In the Midway, Maricopa and McKittrick fields there are twenty-eight Agency companies aside from the American Oilfields, and the net agency production, including the American Oilfields, was 430,228 barrels for the month of January. Heading the list of large producers the American Oilfields had a total of 325,467 barrels in the Midway, and 3144 barrels in the Maricopa field.

There are ten Agency companies in the Maricopa field, the Pacific Midway leading with a production of 17,340 barrels. In the McKittrick field the largest agency producer is the San Francisco-McKittrick with 29,430 barrels for January.

Nearly two years ago, in order to strengthen the position of the Independent Oil Producers' Agency by the addition of strong oil-producing companies in the northern fields, the American Petroleum Company and the Nevada Petroleum operating in the Coalinga field, and the American Oilfields Company operating in the Midway field, were taken into the fold with the understanding that they would receive a guaranteed price for their oil. The figure agreed upon was considerably in excess of the amount received by any of the other members of the Agency. Now that the Union Oil Company has agreed to take all the Agency oil in storage at 35 cents a barrel, the unfavored members are in a better position than they have been for some time.

ENGINES EQUIPPED.
USING WYOMING OIL.

On March 15 the Chicago and Northwestern Railroad Company placed nineteen more oil-burning locomotives in commission between Norfolk and Lander and Deadwood. The storage tanks at various points along the line have been completed, and regular service inaugurated. The company has placed an order for ten new 10,000 gallon tank cars to be used in shipping oil from the refinery of the Midwest Oil Company to the various distributing points.

Over fifty tank cars are already in use and new equipment is being added as fast as possible. The Midwest Company has more orders for oil than it can fill because of the trouble in moving cars in the bad weather. The oil industry of Wyoming is beginning to take definite shape.

Buick Elects Officers.

The annual stockholders' meeting of the Buick Oil Company was conducted yesterday afternoon. The following named officers and directors were elected for the coming year: President, D. D. Buick; vice-president, J. B. Lahigh; secretary and treasurer, Fred Van Orman; additional directors, C. C. Merrill, secretary and manager of the Carl Leon Company, and W. H. L. McCourtney, a cement manufacturer of Minneapolis. The financial statement of the company is being mailed to the stockholders.

Town Notes and Personals.

Van Brayman of the Santa Maria oil field made a motor trip to Taft the other day to have a look at the Midway field. He was after a location for drilling.

C. R. Conrick, an engineer formerly associated with the Central Fuel Company of Bartlesville, Okla., has come to Los Angeles and will engage in the oil business in California.

William Miller Graham, the millionaire oil magnate of Santa Barbara, has been in the Midway field inspecting the property of the Continental Petroleum Oil Company which he controls. Graham has interests in several fields of the State.

The Obispo Oil Company plans to start a new well on section 12, 12-23, Midway. The well will be drilled in with a rotary rig and bids have been asked for.

The Kyles-Davies Oil Company, known as the Kadee, has had some hard luck with its well on Section 4, 32-23, Midway. A new string of pipe has been purchased.

Dynamite was used recently by the Kern Trading and Oil Company to dislodge an obstruction in a well in section 13, 32-23. Drilling will now be resumed.

The M. & M. and the M. & J. Companies are drilling two wells on section 36, 32-24 with standard tools. The hole will be started shortly with a rotary rig. The boilers have been set and all is in readiness for work to begin.

R. L. Peeler, one of the prominent operators of the Coalinga field, has returned after several days' stay on business that took him to San Francisco and other points.

Henry Bernay, Jaques Barnay and Mr. Schadle of Paris, France, recently arrived in Coalinga and will make an inspection of the oil fields. They have large interests and before returning home will visit most of the fields of the State.

Simply a matter of choice between a heel that slips and one that won't.

It is only natural that people should prefer Cat's Paw Rubber Heels—because the patented Friction Plug positively prevents slipping on wet sidewalks or pavements—that means *safety.*

But that is not all. The Friction Plug resists wear. And the extra quality of rubber affords greater resiliency—meaning not only comfort but economy.

CAT'S PAW
CUSHION RUBBER HEELS

50¢ Attached All Dealers

Then there is another added advantage which Cat's Paw Heels possess—there are no holes in the heel to track mud and dirt into the house.

Wherever you go—in all walks of life—you will find that the strongest advocates of Cat's Paw Rubber Heels are the millions who wear them year after year

Insist upon Cat's Paw Cushion Rubber Heels of your dealer. The name is easy to remember—and best of all—they cost no more than the ordinary kind.

Free: Send us the name of your shoe dealer and we will send you a Cat's Paw Bangle Pin free.

To The Retail Trade.

It pays to give the public what they want. The majority want Cat's Paw Cushion Rubber Heels. Order from your jobber today.

Extraordinary Sale Of

250 New Spring Suits

In Sizes for Women, Misses and Juniors

Values to $27.50

At $19.75

Plain and Fancy Models

An advantageous purchase by our buyer of 250 Smart Spring Suits, in values up to $27.50, permits us to place them on special sale at the remarkably low price of $19.75 each. These are not the kind of suits ordinarily found in special sales, but are fine garments that maintain the "Ville's" high standard of quality, style and making.

A very low price on Suits is not always the full test of economy—it is the VALUE back of the price that is most important—and that is the feature we wish to emphasize in this special sale of high-class suits at $19.75, which represents the acme of value-giving. This collection of 250 new Suits embraces a great variety of styles and materials, and includes strictly tailored suits and fancy models. The ever popular and fashionable plain serges, in white, black and navy blue; also black or blue, with white pencil stripe; or white serge with black stripe. Other Suits are shown in mannish mixtures with smart touches of trimming in ribbed silk.

Note the accompanying sketches which illustrate two of our smart models.

Railway Company Officers Say They Know Nothing About Eagle Rock Fare Fight.

Charges that the police had intimidated residents of Eagle Rock Valley, who refused to pay a 10-cent fare on the Los Angeles Railway Company's cars, were referred yesterday to Chief Sebastian by the Police Commission. Sebastian says the instructions to the men were not to take sides and he does not believe they did. In the meantime, the railway people allege that they do not know what all the fuss is about.

"No complaint has been made to this company about fares charged on the line to Eagle Rock Valley," said C. A. Henderson, general manager of the railway corporation, yesterday. "No person or delegation of persons has appeared here asking for any reduction in rates or the elimination of the extra fare. We may have good reasons for maintaining the extra fare but we have not been asked to explain them to residents of the valley or before any public body. We would like to be asked about it and would welcome anybody that might come to talk to us about it. The fighting is all outside this office."

Foster C. Wright, who is leading the demand of the Eagle Rock people to make the railway charge only a 5-cent fare, announced yesterday that today there will be a delegation of Eagle Rock residents board the cars, police or no police, and they will not pay more than 5 cents for a ride, either.

GOOD ALLEGED TO BE BAD.

Man Charged With Collection of Rake—Off On Sale of Oil Land by Misrepresenting Price.

While the Federal grand jury was investigating the operations of Earl Standard, former bookkeeper of the American National Bank of Pomona, Capt. J. A. Brady, founder of the institution and vitally interested in Standard's $150,000 defalcation, was a central figure in a criminal case heard yesterday before Justice Summerfield.

E. S. Good, the defendant, is accused of having obtained money under false pretences in an oil deal in Kern county. In the complaint Good is charged with having secured an option on some oil land and then misrepresenting the price at which it could be bought.

In the resulting purchase by Brady and other capitalists, it is alleged that Good pocketed a rake-off of more than $5000.

The defense declares that the money paid in by Brady, G. M. Lathrop and others was for stock in the company that Good organized and which is now operating paying wells.

The examination will be resumed at 9 o'clock this morning.

F. L. Marcey of Honolulu is registered at the Hollenbeck. Marcey is the manager and director of the largest wholesale drug house in the islands

A NEEDED VISION.

Thirty-one million people in Russia are facing starvation. It is about time for the spirit medium who advises the Czar to go into a trance and have a vision about the seven full years.

A ST. LOUIS VIEW.

In his Mirror, William Marion Reedy says that Roosevelt continues to hold public interest without holding public confidence. This is a shrewd comment. It is exactly his failure to understand this which has led Roosevelt to draw upon a popularity he does not possess.

ALL ROADS TO ROME.

All roads lead to Los Angeles for the Shriners convention in May. The last Imperial Council here was overshadowed by a wreck on the way, and it is to be hoped that the happiness and success of this occasion will help obliterate that sad memory.

HAPPY ON THE WAY.

Most people with a garden have been feeling smart this year because they have been bothered by so few weeds. It is not at all because they have been good gardeners but merely that the weather has been too cool since the rains to give the weeds a good start. A weed knows better than to show its head while there is a chance for another cold snap.

PAYING FOR POLES.

Natives of Denmark who live in Los Angeles and other countries may feel that it is a hardship to have to pay the expenses of one of the men who found the South Pole. A sort of half ownership in the scientific credit of a pole of that kind is not much of a possession. We have no doubt that the Lord in His infinite wisdom realized how expensive North and South poles would become and mercifully refrained from placing more than two of them in any one world.

CIVILIZED.

A great African explorer is going to give up the comforts of home at Huntington Beach and take a party of expert engineers, ranchers, physicians and teachers to Central Africa to light the torches of civilization in that benighted land. Africa is about the only portion of the world left where a man could go into the savage business and do any good for himself. It is getting so that an honest barbarian never has any peace. We submit that a cannibal could never eat a missionary if the missionary didn't arrive there to be eaten.

BACK TO THE KITCHEN.

A society is being organized among young women in New York to promote the industries of sweeping and baking biscuits. Its organizers protest that present-day conditions do not give the modern girl a chance to practice housekeeping in the home of her parents before she must practice upon her husband. The argument is unsound. How can there be a back to the kitchen movement when there are no longer any kitchens to go back to? People might possibly go back from the cafeteria to the restaurant and possibly even return from the restaurant to the chafing dish, but that is surely as far as the race dare go in such retrogression.

LOOKING SOUTH.

Prosperous Californians have some wonderful play days ahead of them in the completion of the Panama Canal. It will be tremendous fun to spend one's holidays on a little tramp through the Central Americas or doing South America. Brazil alone is larger than the United States, and is said to contain the only truly charming city on the southern part of the Western Hemisphere. This is Rio de Janeiro, which is something smaller than New York and Buenos Ayres, but it has nearly a million people at that. Persons who have done Europe to death will find no end of interest in the southern country and they will be amply and wonderfully rewarded for their journeying in the fact that they will sometimes be served with a cup of real coffee. This would certainly be an entirely original experience to almost anybody.

"THRIFT, THRIFT, HORATIO!"

"The funeral baked meats did coldly furnish forth the marriage tables," was the satirical comment of the Prince of Denmark on the too hasty marriage of his mother with his wicked uncle. Certainly, even in these rapid days when death and divorce have almost lost their stings, a little month seems rather a short period in which to rush from the winding sheet to the nuptial couch—from the grave cloth to the bridal veil.

Yet San Diego has just witnessed a quick change wedding that makes the marriage of Hamlet's mother look almost like a procrastination. A disconsolate widower of La Mesa married his second before the body of his first had been placed beneath the cold, cold sod. This is a record, we believe, in vital statistics, never before attempted in any country. This is thrift stretched to the breaking point.

To start the honeymoon with Number 2 by attending the funeral of Number 1 is a unique and weird experience. For a bereft widower to post with such indecorous haste from the old dead love to the new living one, though it may not affect the spirit of the departed, must give the new bride food for serious reflection. For human traits, like historical events and refractory decimals, are apt to repeat

THE BEET SUGAR INDUSTRY.

Sugar is no longer merely a luxury, as it was thirty years ago, when it sold for three times its present price. It is a food product, and, at present prices, is cheap as compared with salted meats and other articles of food. In 1880 bacon was 6.7 cents per pound and sugar was 9.2 cents per pound. Now the best bacon is 19 cents per pound, and sugar is 6½ cents per pound.

The reduction in the price of sugar is due largely, if not entirely, to the development of the beet sugar industry.

According to statistics carefully compiled by the Southern California Beet Growers Association, the people of the United States use 2,600,000 tons of sugar per annum, of which we produce but 600,000 tons and import 3,000,000 tons. The imported sugar comes here from the tropics as raw sugar and is refined by the sugar trust, known as the American Sugar Refining Company. Beet sugar is refined in the making and pays no tribute to the refining company. It is to the interest of the sugar trust to discourage the development of the beet sugar industry. It is to the interest of our farmers and sugar consumers to encourage it. The sugar trust has succeeded in passing through the House of Representatives a bill placing raw sugar on the free list. If the Senate shall pass the bill the sugar trust will gain the duties now paid, and, even if it should reduce the price of refined cane sugar by the amount of the duty saved, it would make the same profit as now and so cripple the beet sugar industry as to prevent its development if not to drive it out of existence. It would then have a monopoly of the sugar market, with an opportunity to increase the price to the consumer of refined sugar.

As stated by the Southern California Beet Growers Association we consume one-fourth of all the sugar made in the world, and raise only one-sixth of what we consume. Our sugar growers receive but $36,000,000 while foreign sugars and the sugar trust receive $270,000,000, the larger part of which goes out of the country.

So far from placing raw sugar on the free list the present duty on it should be increased, so as to stimulate and increase the production of beet sugar. Such a policy would not enhance the price of sugar to the consumer, and it would enable us to retain at home and pay to our farmers and workers in beet sugar factories many millions which now go abroad.

The cultivation of the sugar beet is incidentally of great benefit in that the beet can be grown on alkaline lands not available for other crops. Several crops of beets will extract the alkali from the soil and enable grain and fruit to be grown on lands thus redeemed. Old Californians can remember when the land in the Santa Clara Valley, now a network of orchards, vineyard and grain fields, was white with alkali. The valley was redeemed by planting the sugar beet. A similar result was obtained by similar means in portions of the San Joaquin Valley. There are vast stretches of alkali lands in California and Arizona which may be redeemed by similar means.

It is hoped that these facts will be promptly and forcibly presented to the Senate, and that the machinations of the sugar trust to increase its gains at the cost of the beet farmers may be defeated.

RETRIBUTION.

Such a murderous exhibition of lawlessness as the one that culminated in the shooting of Judge T. L. Massie in his Hillsville court, as he pronounced sentence on the criminal, Floyd Allen, is meeting with swift and certain retribution. Before many days the haughty Clan Allen will be probably wiped out by the outraged commonwealth of Virginia.

The feudal blood of some old Scottish chieftain of the Macbeth breed must have been running in the veins of these Blue Mountain autocrats. In a way they are different from the usual run of American outlaws. Poverty did not drive them to crime. They were men of property, some of whom would rank as wealthy in the rural districts of Virginia. Lust of power and a wild desire to show themselves superior to the law that controls ordinary mortals seem to have been their directing motives. In this they resembled the robber barons of medieval Germany or the plundering clansmen of the Grampian hills in the days of the border warfare.

It was their boast that they could hold a countryside in awe, and when at last the law laid hands on one of their number, they resorted to the desperate means of open murder to restore their outlaw authority. In doing so they have sealed their doom. The days of the Clan Allen are numbered.

A parallel to the case of the Virginia Allens is found in the terrorism exercised by the Doones of Exmoor over the western counties of England, over two centuries ago. Yet what the Doones attempted in the stormy days of James II was as fated to end in their extermination as the bloody deeds of the Allens today is leading to the extinction of the clan. When the outrages of the Doones passed all bounds the yeomanry of Devonshire arose, stormed their citadel and killed or imprisoned every member of the outlaw community. An experiment that has always failed in every age, in every country, is certain to end in humiliation and disgrace for any bold adventurer in these days of universal law and scientific progress. Such an outrage as that committed in the Hillsville court of justice will never be repeated.

"PROGRESS"—WHAT IS IT?

President Taft in his Chicago speech on Saturday last gave ex-President Roosevelt credit for inaugurating—while the colonel occupied the White House—a policy of progression along political lines. That policy consisted of "governmental action to deprive corporate capital and undue vested privilege of political power, and to bring about proper popular and governmental control and regulation of the use of capital in legitimate avenues, and for legitimate purposes."

Ex-President Roosevelt, having proclaimed his progressiveness in high-sounding phrases did little or nothing to effectuate the reforms he advocated. Instead of inaugurating a vigorous prosecution of offending corporations, he passed his hat in front of "my dear Harriman" for a campaign contribution, and did not disdain the offerings of several of the loathsome capitalists of New York City. Instead of prosecuting the trusts for violation of the Sherman law, as President Taft has done, he gave his permission to the steel trust to violate the law by purchasing the properties of the Tennessee Coal and Iron Company, thus lightening its grip on a monopoly of steel manufacture.

President Taft adopted the policies proclaimed by his predecessor in office, and, unlike the swift-speaking and slow-acting Roosevelt, he proceeded to "do things." It is unnecessary to recapitulate in detail the acts of President Taft in this behalf. He really "progressed." The obliterated oil and tobacco trusts, and the pending suits against the steel, beef, and thirty-eight other trusts, give testimony louder than words.

Col. Roosevelt, mad with ambition, repudiated his published, reiterated pledges, not to seek a third Presidential term. He lured La Follette into breaking the ground of opposition to President Taft's renomination, and then rudely shoved La Follette aside and, to use his classical and scholarly phraseology, "shied his hat into the ring." He can no longer depend upon his former mouth progressiveness for political capital, for his performances in assailing trusts were of no kin to his promises. So he takes a leap forward and announces the doctrine that the people should have the power to reverse by their votes any unpopular decisions of courts on constitutional questions. His estimate of the American people is that of the Honorable Elijah Pogram—"they must be cracked up." And he "cracks them up," ad libitum, ad nauseam. He believes with plaintiff Pat McLaughlin in the celebrated case of McLaughlin vs. Crozier, "the twelve intilligent citizens of this county, sor, who sat on the jury, disregarded the decision of the Supreme Court because they knew more law than the three damned fools who sat on the Supreme bench."

The proposition to submit judicial decisions to a popular vote for disapproval is a piece of such colossal impudence and so utterly absured that it provokes laughter rather than indignation. Col. Roosevelt launched a boomerang when he announced it. It has returned and knocked his Presidential aspirations a death blow, while they were yet in their infancy.

"All is not beer and skittles" for the colonel even among his own followers. The insurgent Republican press hereabouts have not as yet printed any double leaded editorials in favor of popular repeal of judicial decisions. The "progressive" orators are dumb as canned oysters with respect to this latest intellectual antic of the colonel. Lissner withholds all comments upon it; Lee Gates saws not the air in favor of it. The swinging starboard pedonicum of the Governor is not uplifted in its favor. Even the bray of Rowell is heard not in its behalf.

And La Follette is coming to say to his whilom California supporters: "Why have you used me thus?" In saying it he will probably make some remarks concerning Col. Roosevelt that will add to the gayety of nations. But they will not lessen the good opinion that Roosevelt has of Roosevelt. No force known to nature could do that.

CHANGE PARTNERS.

The inherent defects of the Presidential primary law were illustrated in the North Dakota election. The immense majority which La Follette received over Roosevelt is accounted for by the statement made by Rooseveltians that Democrats by thousands voted for La Follette, in order to promote dissension in the Republican ranks and thus aid to bring about a Democratic victory in November.

This may be true. The temptation which the direct primary offers to the members of a minority party to foist a weak or an unpopular candidate on the majority party is a temptation which Democrats desire to be led into, or at least which they do not feel called upon to actively resist.

There was an illustration of this in this State during the last gubernatorial campaign. The stalwart Republicans, who were in a majority of the party, failed to get together, but scattered their votes between Stanton, Anderson and Curry. The Democrats, who regarded Johnson as the weakest candidate before the people, voted for him at the primaries by the thousand and thus secured his nomination by a plurality vote. Their hopes of thereby securing the election of their candidate, Bell, failed of fulfillment only because the Old Guard—loyal even to those who reviled them and despitefully used them—cast their votes for Johnson, notwithstanding the fact that he obtained the nomination by Democratic help.

The same tactics were adopted to secure the election of Works as Senator. Democrats, knowing that there was no chance whatever of securing the election of one of their own party, voted for Works in the hope of thereby breaking up the Republican organization. Even with Democratic aid the popular vote for Works over Spalding was very small, and the insurgents secured his election only by a brazen defiance of the law which provided for the choice being determined by a majority of legislative districts.

Senator Works has, despite the dishonest methods by which his election was secured, and notwithstanding a tendency to exaggerated self-estimation and bumptiousness, already defied his insurgent associates in Los Angeles by stating that he will vote for President Taft should he be nominated. Neither the local insurgent press nor any of the local insurgent leaders, except Works, have said as much.

The friends of Taft in Dakota organized no campaign and made no effort in his behalf, but left Roosevelt and La Follette to fight it out, with the result that the colonel was overwhelmingly defeated by "Senator Bob." Dakota is one of the least populous States. The action of her voters in defeating Roosevelt is important only in that it sets an example which other States may follow, and that by the time the national convention assembles Pinchot and Brandeis and Johnson will have flopped back again to La Follette, and insurgency will say of them:

"The curious eye their awkward movement tires,
They seem like puppets led about by wires."

Compliments of North Dakota.

UNCLE WALT.

The Poet Philosopher.

Old Rox is worth a million wheels, he has them in the bank. It warms him up from head to heels to hear his bullion clank. His wealth is famous in the town, and all the country o'er, he has his million salted down, and rakes around for more. We point him out most every day to strangers and such ducks, and in an awestruck whisper say: "He's worth a million bucks!" That's the extent of his renown; no natives ever cry: "He is a credit to the town—we'd miss him should he die!" There's old Bill Wax; he ne'er could nail the coin a little bit, and when he gets a piece of kale its always counterfeit. He's always wearing last year's hat; his clothing, all awry, would make an idle plutocrat climb up a tree and die. Yet friends are swarming 'round his track wherever he may go, and people slap him on the back and say he is a Jo. He helps the children fly their kites, and much enjoys the trick; and often he sits up at nights with neighbors who are sick; anon he brings a cheerful yarn to some despondent lads—oh, William isn't worth a darn at salting down the scads, but people bless his blamed old hide, and cry in fervent tones: "He's sure all wool and ten yards wide—he's worth a million bones!"

WALT MASON.

[Copyright, 1912, by George Matthew Adams.]

His Answer Unanswerable.

[Philadelphia Ledger:] The President's answer to Mr. Roosevelt's amazing attempt to get a striking issue by proposing to tear down all the restraints upon the whim of the majority is absolutely unanswerable. What is the judiciary for, and why were the courts created and maintained in a position of broad independence by the people and by the Constitution? For the very purpose of preventing the people, under stress of political exigency or of passion or under the guidance of demagogues, from infringing the fundamental rights of the citizen.

AMERICAN LITERARY CONDITIONS OF TODAY.

By Willard H. Wright.

The annoying problem before the sanhedrin of literary critics today is the short story in America. For many years we have been priding ourselves on our ability to write short stories. The pride was purely an outcome of ignorance. But of late one by one the more sapient of our native critics have begun to question this ability, to inquire into the true status of things, to estimate the values of the short story, to understand the principles and to apply them to the American output. This self-examination was given an impetus by critics overseas. The result was startling. We turned upon ourselves, and for the first time in our critical history began to doubt our own literary omnipotence. Some of the bolder critics even suggested tentatively that we knew nothing of short story writing, that we were babes imitating the giants of an elder day.

The fact that these accusations were true made them all the more offensive to those rural patriots who are always eager to defend American institutions at the expense of truth. Very recently there has been another flurry in the ranks of the critics. The fact that it was precipitated by an Englishman, H. G. Wells, did not in any way disqualify the statements regarding the puerility of the American short story. Several critics tried to find the cause for this degeneration, and there have been many speculations. But if the critics disagree on the cause, they are practically at one on the actual conditions. The lover of literature today who wishes to read short stories turns to the work of departed narrators. Just as lovers of the drama today avoid the theater, so do lovers of the short story avoid the current magazines.

America, with a purblind provincialism, has long prided herself on her superiority in the arts. This sort of stupidity in the end can only do harm. How many times in the last few years have intelligent foreigners come to our shores, inspected our art and our literature, and gone back disgusted and written of the true conditions here! In every instance how eager we were to pounce upon him and denounce him as a marplot, as an invading ignoramus, a jealous and unappreciative critic! It would have been better for us today had we harkened to a few of these criticisms, had we investigated these accusations; and when we found them true, endeavored to better the conditions. But such has not been our attitude, and we have gone serenely on composing anaemic poetry, writing sentimental novels, and producing provincial drama.

However, an awakening seems to have come. We have even begun to question the superiority of our illustrative art. A few critics have called our attention to the fact that when we write novels we pander either to the taste of the matinee girl or to that of the academic moralist. The dramatic awakening in America has made us sensible to the fact that our native playwrights have for the most part been numskulls catering to the primitive-minded. And now a healthy whack is being taken at our native short story. Of all the arts, we are probably most deficient in this, because on the surface it seems to be the simplest of the arts. But the supposition that anyone with a hackneyed plot and an ability to use a typewriter could create a short story, is gradually passing. We are beginning to realize that the art of short story writing is a difficult and exact one, more condensed than that of the drama, more restrictive than that of the novel.

The reason for the paucity of good short stories in America has been traced to the timidity of editors. This in a sense is just. Editors, of course, demand certain things. They stultify literary art for commercial purposes. They cater to the ignorant, because the ignorant are in the majority. They demand platitudinous themes because nothing is so popular as a platitude. They demand "action" because the average reader is interested primarily in action. Whether the action is logical or leads to an inevitable conclusion is not to the point. In fact, inevitability is a thing against which the ignorant reader revolts. The result is that the short story writer in America who would make a living with his art must either preach an inane doctrine of uplift or else rip-snort. The author who deals with life truthfully, who paints with verity the actualities, who probes into the weaknesses and the follies of human nature, who follows the inevitable scheme of events to an ending which is neither "happy" nor theologically inspiring, finds no favor with magazine editors.

But on the other hand, the editor is not altogether to be blamed, for it has been demonstrated more than once that a magazine which aspires to the best will shortly find itself bankrupt. It would almost seem that in America there is not a sufficiently large number of people intelligently interested in the best literature to support a magazine whose standard is the highest.

What, then, is the matter? And we come to the inevitable answer: namely, the scarcity of intelligent literary criticism. I have commented more than once, in the columns of this paper, on the futility of the panegyrics which usually pass as criticism in America. Few indeed today are the papers in which one may find a literary opinion not obviously dictated by some desire other than that of telling the truth. The state of affairs is shown by the fact that there is scarcely a publisher in the United States, from the highest to the lowest, who does not send out laudatory notices written in his own office for the use of any paper cowardly or stupid enough to print them.

Things stand in dire need of change. In closing let me say that there are intimations of this change. There are a few critics in America who have found editors sufficiently independent to print honest opinions. That their influence is felt is evidenced occasionally by the fact that a good book will sometimes reach the 50,000 mark. It is no small sign of a dawning intelligence that the recent discussion of the degeneration of the short story should have taken place on these benighted shores.

Old Conundrums with New Answers.

[By William J. Burtscher in Judge's Library.]

Why does a chicken cross the road? Because an auto is coming.

What kind of a hen lays the longest? A dead hen, of course. But what about this one: What kind of a dead hen lays the longest?

What was the first thing Adam put in the Garden of Eden? He put the blame on Eve.

How long can a goose stand on one leg? As long as one leg can hold up the goose.

What is the difference between an old penny and a new dime? One goes to church and the other to vaudeville.

What table has no legs to stand on? The railroad time table—in fact, it doesn't seem to stand for anything much but unreliable information

Pen Points: By the Staff.

The demand for Col. Roosevelt so far has not kept pace with the supply.

In case of doubt as to who really found the South Pole, why not leave it to the man?

It does not seem that a corps of London militant suffragettes could add to the discord in China.

We do not understand that Col. Roosevelt is enjoying a "corking good time" at the present writing.

A dinner costing $30,000 was given in Washington City the other night. Probably had ham and eggs.

It now looks as if the Panama Canal would be completed without any more advice from Poultney Bigelow.

Now the aluminum trust is to be attacked by the government. So Uncle Sam is also after the light-weights.

The Arizona Legislature is in session, and the little dictograph is expected to be busily engaged for quite a while.

The edict for small hats for the ladies this spring will probably result in their getting less hat for last year's price.

There must be an end to everything. The lawyers in the beef packers' trust case in Chicago have begun to address the jury.

If the Andrew Carnegie peace bird is not overwhelmed with orders, it might get a job looking after things at the Balkan convention.

Two of the worn-out Los Angeles horses have gone on the stage for a benefit engagement. If anybody rings the fire alarm there will be trouble.

Of the proposed employment of experts to show the municipal bodies of Los Angeles how to conduct their business there appears to be no end.

There will be forty delegates to the National Republican Convention from Texas. Who was it that said there were no republicans in the Lone Star State?

Now is the time for all good housewives to plant sweet peas, and it is not necessary to dynamite the ground to put the vine in either, in sunny Southern California.

Up to the hour of going to press Woodrow Wilson has not explained to the public why he is so awkward handling a fork with his left hand. This is important.

And what an old-fashioned Democrat Grover Cleveland was! He was modest for a third term in 1904 and refused to consider the proposition. His hat was in the ring.

The statement of Bernarr McFadden, famous millionaire physical culture expert, that the less clothes worn the higher the standard of morals, will be enthusiastically indorsed by Mary Garden.

What has become of the old-fashioned man whose sole amusements consisted of attending an occasional performance of the Berger Family Bell Ringers, or a panorama of the Arctic expedition of Dr. Elisha Kane?

It might as well be stated now as at any time, that the candidate nominated by the Baltimore convention is not likely to seek an injunction to restrain William Jennings Bryan from supporting him. They all need Bryan in their business.

Los Angeles extends the right hand of fellowship to Gov. Spry and the entire Utah delegation in attendance upon the Land Show. No charge for say pictures they may pick up as to how a real up-to-date exhibition should be conducted.

If Senator La Follette and Col. Roosevelt should happen to meet during the expected visit of the pair to Los Angeles there ought to be an opportunity for Chairman Tom McCarey to pull off something in the shape of twenty rounds for points.

It is entirely proper that the Democratic Club should celebrate the birthday of Grover Cleveland, even if some of the members did shy a few bricks in his direction when he was in the flesh. Posthumous honors sometimes serve to indicate the inconsistency of men.

President Taft favors a Presidential primary in States where the Constitution permits it being made applicable to the present campaign. The declaration is no doubt a surprise to Chairman Hilles, who thought the President was afraid to trust the people on the proposition.

It is not at all likely that the Champ Clark friends of Champ Clark will use the loud pedal on the fact that the Speaker insisted upon having his vote recorded in favor of the bill placing sugar on the free list, and thus contribute his share to the destruction of the sugar interests of this State.

VOX POPULI.

It matters little what he has to say,
Or where he says it, be it there or here,
He may reverse himself and say today
The opposite of what he said last year.
Standpatter or progressive, either one
Whichever doctrine happens to be in,
No matter what he says, the cry will run
And jump and howl and cheer him—
it's Teddy.

Just let him wear that old Rough Rider hat,
That rakish lid which set poor Cuba free,
Just let him wave it as he has done that
First thought he'd make a bully speech to be,
Just let him show his teeth and his
smile—
It matters little if his speech be long
Or broad, or deep, or shallow—all the while
The crowd will whoop 'er up for—
it's Teddy.

The nomination? We decline to prophesy.
He may be chosen, and he may be not,
We pass this up to persons who can't lie
A certain knowledge as to what is what.
But here's a hunch: If on Chicago's way
They pick T. R. to be his party's head,
'Twill matter little what he has to say,
He'll get some votes, at least, because
he's Teddy.

—[A. H. Folwell in

Information

To Newcomers, Inquirers, Subscribers and Advertisers, Agents and the Public About the

Los Angeles Times

SCOPE AND AIMS:

THE TIMES REGULARLY more pages of news and other reading matter and a greater volume of advertising than any other paper extant.

OUTSTANDING FEATURES: Independent, uncompromised, unshackled, unpurchased, unmuzzled and unencumbered. THE LOS ANGELES TIMES is devoted to the great principles of Liberty and Equal Rights in all fields of lawful endeavor, Industrial Freedom, and the upbuilding of Los Angeles, the State of California and the great Southwest.

TO LABOR: The Times is the consistent friend of all honest toilers, of all unshackled law-abiding workers everywhere; and while never denying the right of workmen to organize, favors in the unyielding foe of lawless, vicious, monopolistic and exclusive labor organizations, because they are the enemies of their own class and of common industrial weal. Our position is unmistakable and will be maintained.

CIRCULATION: Daily net average for the long record of The Times as a trustworthy and reliable paymaster is unassailable. During the period between August 4, 1890, and December 30, 1911, there was paid to loyal and well-satisfied non-union labor, in salaries and wages, the tell-tale aggregate cash sum of $4,254,313.17—a tribute to skilled labor.

CIRCULATION: Daily net average for 30 days, Sunday included—for 1898, [illegible]; for 1897, 19,258; for 1898, 26,134; for 1899, 30,731; for 1900, 34,733; for 1901, [illegible]; for 1902, 38,600; for 1903, 36,346; for 1904, 37,702; for 1905, 43,159; for 1906, [illegible] copies; for 1907, 52,311 copies; for 1908, the copies; for 1909, 54,654 copies. Daily average for 1910, 55,123 copies. Sunday and Sunday average for 1910, 57,328

OFFICES: Eastern Agents, Williams, Lawrence & Cresmer Co., Brunswick Building, 225 Fifth Ave. and 26th St., New York; 824-25 Tribune Bldg., 111 West Monroe St., Chicago. Washington Bureau, 16 Frost Place. (THE TIMES on file.) San Francisco Office, Room 1296 Call Building; R. J. Bidwell, Representative.

THE LOS ANGELES DAILY TIMES as well as the Illustrated Weekly will hereafter be on file for the use of TIMES readers in the offices of the American Express Company as follows: Berlin, 65 Charlottenstrasse. Paris, 11 Rue Scribe. London, 30 Haymarket. THE TIMES will also be on public file at the agencies for Wells Fargo Express Co. in Europe at the following addresses: London, 29 Cannon St.; Paris, 16 Brunswick St.; Paris, 11 Rue Scribe; London, 16 Haymarket; Berlin, 65 Charlottenstrasse; Hamburg, 32 Ferdinand Strasse; Rome, 6 Piazzi di Spagna.

THE ILLUSTRATED WEEKLY: Published Sundays; 40 pages; distinct and complete in itself. "The Ultimate Magazine of the famous Southwest." Mailed to subscribers separately from the Daily Times at $1.50 per year, postpaid. Single copies 10 cents, postpaid.

TELEPHONES: Counting-room, Subscription Department, Editorial Rooms, City Editor and Local News Rooms—Sunset, Main 8600; Home 10391.

PRICE: Daily and Sunday, 75 cents a month, or $9.00 a year. Daily without Sunday, $7.50 a year. Sunday alone, $2.50; Daily and Illustrated Weekly, $9.50 a year. The Sunday issue is mailed, the Illustrated Weekly is mailed separately, postage in advance.

POSTAGE: On the regular week-day issue (16 pages) 2 cents; on the Sunday issue (8 parts) 2 cents; on the Sunday issue (9 parts) 3 cents.

MUSIC AND THE STAGE.

For several weeks of careful preparation and two weeks of rehearsal under the personal direction of the author, "Captain Lafitte," the new play by T. Dewey play, which has been given little publicity, will on next Monday afternoon be given its first production on any stage at the Burbank Theater.

The Burbank management has made unusually elaborate plans for the production of "Captain Lafitte," and those of the magnitude of the undertaking may be gained from the fact that while the piece not only requires the services of the entire Burbank organization, it was necessary to engage two new actors, while nearly a hundred auxiliary players are employed in some of the big scenes of the piece.

Mr. Dewey has selected as his hero, the famous Louisiana pirate, Lafitte, who with his three thousand devoted followers offered their services to Gen. Andrew Jackson for the protection of New Orleans against the British, and

Oscar Ragland,

a leading player who has been appearing very successfully in the role of the Turkish father in Janis's production of "The Princess."

The story of Lafitte's redemption through the love for a fascinating American, and his efforts in the battle of New Orleans as a stage limitation will allow, which shows one of the most notable characters all taken from history, Lafitte, which will be in the Forrest Stanley, Gen. Andrew Jackson, which will afford exopportunities to David M. Casa Calve, former Governor Louisiana, in which Franklyn company, will make his first Company will make his first Capt. Neill Shannahan, in Clifford Robertson, another leading player, will make his appearance.

In "Seven Days," the famous play that now occupies the stage, in a second successful season to crowd the Mainstreet house, it will nevertheless next Saturday night, owing to the anxiety of the Burbank to give local theatergoers opportunity of seeing "Captain Horrocks, who returned yesterday from San Francisco, where he has secured John Alexander Bisson drama,

LOST IN EASTERN BLIZZARD

Carload of Merchandise Arrives In Los Angeles After Many Days' Delay

When the Monroe-Davis-Herington store at Sixth and Spring streets arranged to take over the men's clothing and furnishings saved from the big train wreck, they expected to receive five carloads. Only four cars arrived, however, and the owners of the store decided they had the entire stock.

Quite a surprise was in store for them when they were notified yesterday that the fifth car had arrived. This car had been lost in the blizzard after the big wreck. It had been side-tracked and stalled in some forgotten corner of one of the large freight yards.

The contents of the car were unpacked and delivered to the store at once. It contained 700 suits in the newest spring styles and fabrics, and about $4000 worth of extra fine furnishings, such as shirts, hose, underwear, ties, etc.

Coming upon Monroe-Davis-Herington in this unexpected manner, they were at a loss to know what to do. It was finally decided to cut the prices down to cost on all the items, including the suits and overcoats, and get rid of the whole carload by Saturday night.

Realizing that with only three more days of the sale, extra efforts would have to be made, the big store at Sixth and Spring sts., has been turned into a veritable feast of bargains.

Without question this is an exceptional opportunity for the men and boys of Los Angeles to purchase their spring and summer suits and furnishings at wonderfully small prices.

It is doubtful if such big values at such low figures will be offered again for many years.

Among the stock are men's $15 suits and overcoats, $5.45; the $18 ones at $6.85; good $25 values at $8.75, and $27.50 values for $9.65.

Boys' $2.50 suits, 98c; $4.50 suits, $1.65; $5 suits, $2.35; sweater coats, $1 values at 49c, $2 values at 98c, $3 values at $1.50, $4 values at $1.95, and $5 values at $2.35. Then there are $2 and $3 hats at 98c, and $3.50 and $4 hats at $1.75.

Fine underwear in 25c, 50c and 60c grade, 23c; $1 and $1.25 values at 49c, and $1.50 values at 69c; ties are on sale in 25c, 35c and 50c values for 15c; 60c and 75c ties, 19c.

Men's work shirts, 75c values at 39c, while $2 fine shirts in madras, percales, etc., are 85c. Then, too, 15c, 20c and 25c hosiery is 8 1-3c. Men's pants, $3 values at $1.45, $5 values at $2.35. The $2 union suits are 93c; $3 grades, $1.25; $1 night shirts for 49c; $2 night shirts and pajamas, 98c; $2.50 grades, $1.25; handkerchiefs, branded and marked 12½c by manufacturer, 5c, and 25c white foot hose, 8 1-3c; 33 1-2c hose, 12½c; 50c caps, 18c.

These are only a few of the thousands of bargains in the big store at Sixth and Spring sts.

"Los Angeles' Oldest Dry Goods House" Coulter's "The Best in Dry Goods Since 1878"

—ON SALE TOMORROW—

Silks for Spring That Have Never Been Shown; Silks That Are Worth to $1.25, But 65c Yd.!

These 50c Dresden Taffeta Ribbons, 25c

—just HALF their usual pricing!—

—beautifully designed in soft-toned floral effects—delicately, exquisitely figured into the taffeta by the warp-print method, giving a shadowy-touch to the "all"—

—they were 50c, priced 25c today.

—And Brocaded Taffeta Ribbons, with edges and centrical "bordures" of moire—

—splendid values for 35c—truly exceptional values, at 25c the yard—Today!

—Upper Main Aisle, First Floor—

An Infants' Hose in Silk Lisle at Reduced Pricings

—a hose that sold regularly for 25c, is marked for today's selling at 15c, or two pair for 25c. It's a fine-woven, plain hose of silk-lisle, in pink, sky and white—

—in nearly all sizes, from 4 to 6—

—at 15c, or the two pair for 25c.

Also an Infants' Ribbed Hose: Half

—a broken line of sizes in this lot actuate the pricing of values that were 25c, to two pair for the quarter!—

—both black and colors.

Infants' 35c Hose Priced 20c Pair—

—or you may have any two pairs for 35c—just half their regular cost—two pairs where formerly you bought but one. A durable weave of silk, wool-warped—

—but: in pinks and blues only—

—that's WHY a perfect 35c quality must be sold for HALF its legitimate value.

—Upper Main Aisle, First Floor—

—they're here!—

—they're to be seen today in our Broadway windows—a representative assortment of patterns selected at random—for it's practically impossible to choose, unless one has partial preferences—so beautiful are the effects!—so varied and seasonable the shadings!—

—SO seasonable are they, in truth, that not a yard has been shown upon our counters since their recent arrival—and not a yard has been, or will be, sold until 9 in the morning, tomorrow—and then the entire purchase of Silks—thousands of yards of Spring fabrics of delightful sheerness and dependable quality—

—silks just such as you'll be paying more for — and much more—as the season progresses—

—we repeat: the entire lot will be sold at 65c the yard!

—in any of the weaves, or patterns you like; that should sell to $1.25, under ordinary circumstances.

—A hint as to their very recent stylishness may be realized by a glimpse down this list—

SOCIETY

Mrs. S. H. Bradley,

A former Santa Ana society girl, who stole a march on her father and friends yesterday by being quietly married in Palo Alto, where she had gone on a visit.

SLIPPING away from their friends after having planned an elaborate church wedding, Miss Georgia Maurine Barnes, a Santa Ana society girl, was married yesterday at Palo Alto, to Samuel H. Bradley, a well-known broker of Los Angeles.

The wedding was originally planned for June. Several weeks ago Miss Barnes went to Palo Alto to visit Mrs. Hubert Jenkins, a young society matron of that city. Her fiance quietly left his business early last week, without apprising his friends, and went to the northern city, where the two were quietly married.

After a wedding tour in the Northwest, Mr. and Mrs. Bradley will take apartments in Los Angeles until their beautiful bungalow in the Wilshire district is completed.

Mrs. Bradley is the daughter of Dr. H. E. W. Barnes of Santa Ana. Her husband is a member of the brokerage firm of F. W. Stith & Co. Before leaving for Palo Alto the bride was the guest of honor at a number of smart functions, given in Los Angeles, Hollywood and Santa Ana.

—o—

At the Angelus.

T. J. Norton, general attorney for the Santa Fe, Chicago, accompanied by his sisters, the Misses Katherine and Sarah Norton, are at the Angelus for a few days. Mr. Norton was formerly an attorney here, and his sisters are popular in society.

—o—

Married Yesterday.

Miss Cassie Altherr, daughter of Mrs. Mary Green of Kingsley drive was married yesterday, to Henry Boos, a young business man of the city. Rev. J. M. Schaefle read the ceremony at the Hotel Alexandria, in the presence of twenty-four guests. The room was aglow with bride roses, and where the young people stood a forest of palms was effective. Luncheon was served from a table, enhanced with a beautiful centerpiece of bride roses. A three months' trip through Florida, Cuba and the East will be enjoyed before making this city their home.

—o—

Miss Stewart a Bride.

At the attractive home of her parents, Mr. and Mrs. John J. Stewart of North Soto street, Miss Irene Lucy Stewart became the bride last evening of Ernest Sidney Ford, a young man associated with the Security Trust and Savings Bank.

Miss Stewart, a vivacious young girl, wore a gown of white satin with an overdress of lace, trimmed with pearls. She carried a cluster of Easter lilies. Her only attendant was her small sister, Miss Esther, who wore a creation of pink silk, trimmed with lace. She carried pink hyacinths.

Rev. Mr. Hadden was the officiating clergyman, and the wedding marches were played by Miss Ethel Joyce and Miss Nielsen sang "Because God Gave Me You."

White flowers were used entirely where the service took place, while in the dining-room where supper was served, pink roses lent their beauty. The light was cast from pink shaded candelabra.

At the conclusion of a two weeks' trip Mr. and Mrs. Ford will make their home in this city.

—o—

Musical Evening.

Members of the Musicale Salon entertained with a delightful evening of music Tuesday at the Westonia Apartments, which were decorated with choice flowers in honor of the occasion.

—o—

Surprise Party.

Complimentary to Miss Agnes Cox, a pleasant surprise party was given at her home, No. 890 East Thirty-seventh street, by the Misses Kate Darcy and Marion Brown. Covers were laid for Mr. and Mrs. Ross E. Hyde, Mr. and Mrs. W. Darcy, Mr. and Mrs. W. H. Snider, Miss Julia Reh, Miss Florence Meadows, Miss Mattie Smith, Miss Margaret Beers, Miss Caroline Brown, Miss Alice Brown, Miss Lydia Maurice, Mrs. M. Cox, Frank Reh, E. W. Welty, John Darcy, William Powell, Earle F. Boris and Theodore Frickstad.

—o—

Trip Planned.

Mrs. James S. Phillips of No. 512 Virgil avenue, who will leave soon for San Francisco, where she will reside permanently, is the house guest of Mrs. Dana Weller of No. 1090 West Thirtieth street, where she will be at home to friends Friday afternoon from 2 to 5 o'clock.

—o—

Engagement Announced.

News of the engagement of Miss Daisy Dawson, daughter of Thomas Dawson of South Grand avenue, to Edward Schubach, was told at a St. Patrick's party given at the family home by the young bride-to-be.

An elaborate colation was served and the table was attractive with pink carnations, hearts and Cupids. The wedding was announced for June.

The secret was shared with Miss Lalla Reis, Miss Biela Stevenson, Miss Ruth Kellogg, Miss Violet Dawson, Miss Edith Holmes, Miss Myrtle Dawson, Miss Pearl Arnold, Miss Ivy Dawson, Miss Rose Dawson, Albert Amy, Earl Means, Hartford Turner, Donald Carmichael, Joseph Kellogg, George Ingham, Thomas Pelt, Ellison Leake and Frank Dawson.

—o—

Another Wedding.

Another bride of the week was Miss Berenice Irene Fletcher, daughter of Mr. and Mrs. John F. Fletcher of this city. The young groom is James A. Perry of Huntington Park and the service was read in their pretty new home by Rev. I. Iler.

The bridal gown was of white silk chiffon over white satin and a veil of lace fell to the hem of this pretty creation. The home was attractive with choice flowers, which were combined with ferns.

—o—

From San Francisco.

Mr. and Mrs. E. S. Highley and their daughter, Miss Blanche, of San Francisco, are guests at the Hotel Alvarado.

—o—

Charity Ball.

An enthusiastic meeting of the Candy Booth Committee of the Barlow Sanatorium benefit was held one day this week at the home of the chairman, Mrs. Lee Phillips of Berkeley square. The members are Mrs. Newton Russell, Mrs. Harry Comin, Mrs. W. H. Davis, Mrs. George I. Cochran, Mrs. Horatio Cogswell, Miss Virginia Nourse, Miss Florence Moore, Miss Angelita Phillips, Miss Josephine Lacy, Miss Mary Belle Peyton, Miss Elizabeth Bishop, Miss Erickson, Miss Mary Richardson, Miss Georgia Johnson and Miss Gladys Pollard.

—o—

Recent Party.

Walter Fuselahr entertained recently at the home of his parents, Capt. and Mrs. Quierolo of No. 628 East Twenty-second street, with a St. Patrick's party. The home was decorated entirely in green. Supper was served in the dining-room, where a mound of shamrock rested in the center of the table. Covers were laid for twelve.

—o—

Engagement Announced.

Mr. and Mrs. Charles F. Rocque of No. 407 East Washington street announce the betrothal of their daughter, Miss Constance, to Irwin Painter Gates. The wedding will be solemnized in April.

—o—

Five Hundred Party.

Miss Hazel Metz entertained with a five hundred party at her home, No. 1622 West Forty-ninth street recently in honor of members of the Embroidery Club, of which she is a member. An elegantly-appointed luncheon was served in the dining-room, which was aglow with white flowers and greenery.

—o—

A Simple Marriage.

Mrs. Carolyn von Benzon and George H. Matthews were married yesterday in the Immanuel Presbyterian Church. The service was marked by simplicity.

HEADING FOR CITY'S PAPER.

Thirty-nine Designs Submitted to Commission and that of a Park Department Man Selected.

Out of thirty-nine designs submitted by thirty-three artists and others to the Municipal Newspaper Commission for a headline for the city's weekly journal, the first number of which will be published on April 17, only five or six were found practicable last night when the commission met to select the best and to award the prize of $25. Out of these, after studying them from all points of view and calling in expert newspaper advice, as well as artistic counsel, that submitted by W. G. Rutledge of the Park Department was decided to be the best. He was awarded the money and his design will be used. It is plain lettering, with the arms of the city in the center, and a suggestion of the old Plaza and the new outlined around the arms.

Honorable mention was accorded to the designs submitted by Arthur D. Clough of No. 401 East Fourth street, and R. W. Ritters, a fireman in Engine Co. No. 9. The commission wavered toward Clough's design several times. Ritters's is a remarkable piece of work, and the only criticism against it was that it was too heavily filled with drawing.

Harvard University has asked to be placed on the new paper's mailing list.

Bring Your Friends to California.

From March 1 to April 15, Colonist tickets will be on sale from many points in the East at greatly reduced fares. Deposit money with our agents and we will furnish tickets and arrange for their trip. Southern Pacific

CAN'T EAT, CAN DRINK.

Yet He Can't Drink, Either, for Court Sends Alleged Bo[illegible] to Jail, Where Drinks Aren't Served.

A man may be too nearly dead to eat and yet relish a wee-sma' drink, according to the yarn John O'Brien told Police Judge Frederickson yesterday.

O'Brien was arraigned on a begging charge, which he protested to be untrue.

"I'm a plasterer and live in Long Beach," he declared. "I came to Los Angeles to buy some tools and was robbed of my all, including my ticker."

"The man took up a collection on the sidewalk," the arresting patrolman asserted. "Then he went into a saloon and spent every cent he had collected.

"Had you been drinking?" demanded the court.

"Some, sir."

O'Brien declared he was half-dead because he couldn't eat, and added that a drink was necessary to his constitution.

He demanded a jury trial. The court fixed bail at $100, and as the man couldn't produce, he was sent to jail, where he won't be able to get a drink until after June 19, when he will be tried.

HE GETS NO RELIEF.

Musician Who Lends Fifty Dollars to Friend Has No Redress Because He Knew Other Had No Funds.

When is a fictitious check not a fictitious check?

Justice Young answered that riddle yesterday. His solution of the problem released Sam Berkowitz from a serious charge.

Berkowitz, according to the testimony given in the Justice Court, borrowed $50 from Harry Girard, a musician. Girard cashed the check and it was returned to him.

Girard was called to the witness stand. What he said caused the court to sit up and observe.

"I told him if he didn't have the money to meet the check he would get into trouble," Girard asserted.

"Then you knew at the time you cashed the check that this defendant had no money to meet it?" asked Deputy District Attorney Graham.

"That is true," Girard admitted. "He said he would have $400 in the bank before I presented the check."

The court examined the complaint and dismissed it.

In the Corridor, Girard reproached Berkowitz, but the latter only smiled an inscrutable smile.

MUNICIPAL PUBLICITY.

Demanded for Every Branch by Charter Revisers if Commission Form of Government is Decided on.

Thorough publicity for every branch of the city government was demanded at the meeting of the Charter Revision Committee last night. The need of it, in view of what was said the tendency of several branches of the present government was asserted to be exceptionally strong, if a commission form of government should be decided upon. The committee has also agreed on the initiative, referendum and recall, non-partisan elections and civil service protection in all directions.

The plan was declared to be to provide a brief charter under which there will be a small Board of Commissioners elected at large. The resignation of E. O. Edgerton was received and Lewis R. Works was chosen in his place. Subcommittees were appointed for the several branches of the proposed city government.

WAGON KILLS LITTLE BOY.

While riding his bicycle near Fortieth and Ascot streets yesterday Herman Moxen, aged 9 years, lost his balance and fell in front of a team drawing a heavy load of sand. Before the driver, Carl Hewsted, could stop the horses one of the front wheels had passed over the boy's head, killing him instantly. Mr. and Mrs. William H. Moxen, the parents, who reside at No. 1462 East Forty-second street, were notified and a physician sent for, but in vain. The boy's skull was crushed. The body was taken to the Bresee morgue.

70,000,000 Times Angelus Durability

Special Sale of Music Rolls Now On All Kinds 25c and up

The Scientific American of the date of Dec. 1, 1906, contains the following:

"By way of testing the rapidity and durability of the Diaphragm Pneumatics used in the Angelus, an Angelus was recently installed in an exhibition in a room in New York City and run continuously for ten hours daily for several months, during which period each of a dozen pneumatics were operated over seventy million times at an avefage speed of over six hundred strokes per minute, without showing at the end of that time any appreciable evidence of wear."

The Diaphragm Pneumatics have been used exclusively by Angelus manufacturers since 1888, first in the Symphony self playing organ, manufactured by them, and later in 1895, in the Angelus, and we have never known one to wear out.

We are Coast Agents for the Knabe-Angelus, Emerson-Angelus, Angelus Piano in both grands and uprights.

MANIPULATIONS OF EMBEZZLER.

Vice-President of the Looted Bank Explains.

Tells How Standard Managed the Ledgers.

Unsuccessful Efforts to Get Bond Reduced.

How Earl Standard, wizard of [illegible] finance, managed to jungle [illegible] in such a manner as to steal [illegible] of $150,000 of the funds of the American National Bank of Po[illegible], was told by the vice-president of the looted bank yesterday.

The young man's wife and R. M. [illegible], vice-president of the bank, and [illegible] United States District Attorney Regan held conferences. Mrs. Standard made two unsuccessful efforts to secure a reduction of her husband's bond.

The interview with Davis lasted [illegible] of the afternoon, and at its conclusion Davis was served with a subpoena to appear as a witness before the Federal grand jury, when needed.

It is understood the subject of discussion was the bank's method of doing business, the part young Standard had in the handling of the funds, together with his individual responsibility for a proper accounting.

Davis was asked if he would explain to the public just how it was possible for Standard to take such a large amount from the bank without discovery.

"It was accomplished by Standard during the growth of our business," he said. "For instance, say that in a certain period our deposits increased $200,000, when the books showed but half that amount. Standard got away with the difference. In a general way, the amounts to the credit of individuals were placed on the individual ledgers by Standard, but on the general ledger, so that the individual ledgers showed only what was due individuals, the general ledger did not."

A GENUINE SURPRISE.

Concerning, Davis said: "I can fully understand why some of the officers of the bank are subject to criticism on account of the Standard defalcation, but to one on the inside, who understands thoroughly just how it was done, it is not a mater of surprise.

"It was no business of Bank Examiner Gatch to audit the books of the bank and he could know nothing of the shortage. In fact, the conditions were not dreamed of until the discovery came."

Were you interested with Standard in any of his business propositions? was the next query.

"I was not. We knew that the young man's father was interested in a permanent land in Kern county, but no knowledge that he was putting a large slice of his money in the proposition."

"What do you think he sunk it all in that for?" Davis was asked.

"I don't know, but you know a man can spend a lot of money trying to keep up if he cares to do so."

"Where do you suppose the men in Standard's employ imagined he got all the money, when he was only receiving $125 a month?"

"I don't know," he replied. "I suppose as long as the money was on hand and bills they did not ask any questions."

Attorney of Mrs. Standard to Assistant United States District Attorney Regan's office, where she was closeted on two occasions, created considerable interest. At the conclusion of the interview, Regan said that he had been pleading for a reduction of bond, but that he would not accede.

TALKS AT PRICE.

Early in the afternoon she again called some friends that she had nothing further toward settlement or release of her husband on bond. It is understood that within the next twenty-four hours she has a conference of the bonding companies and seriously contemplated the bond of that character, but was demanded for the accommodation of a $20,000 bond.) was $400, declined to do any business with her agent. She said that as the federal grand jury would soon return an indictment against her husband another arrest would follow and she would be compelled to [illegible]

WANT COLORED BISHOP HERE.

Interdenominational Federation Indorses Los Angeles Man for High Office—Is Well Supported.

Members of the Colored Ministers' Interdenominational Federation yesterday indorsed the candidacy of Rev. F. Jesse Peck, No. 1466 Griffith avenue, pastor of the First African M. E. Church, for the office of Bishop of the African M. E. Church.

Friends of the minister throughout the Southwest will rally to his support at the general conference of the church, which is to be held at Kansas City in May. The Southern California delegation to the conference will ask that Los Angeles be designated as a place for an Episcopal residence.

Colored ministers of fifteen churches met at the Young Men's Christian Association, colored men's branch, No. 941 South San Pedro street, yesterday to unanimously indorse the Rev. Mr. Peck's candidacy, and to pass resolutions insisting that, because of the growing importance of Los Angeles, a bishop of the African M. E. Church should be stationed here.

The Revs. J. D. Gordon, E. W. Kinchen, J. Gordeon McPherson, Joseph L. McCoy, C. H. Anderson, Joseph T. Hill, W. J. J. Byers, James A. Stout, S. L. Harris, D. L. McMickens, W. T. Cleghorn, R. W. Holman, G. M. Tillman and J. H. Wilson, the latter a presiding elder of the Southern California conference, signed the resolution of indorsement.

The ministers urge that, although Los Angeles is far removed from the center of the scope of denomination, hundreds of colored persons are arriving weekly in this city from the South, and these should be taken care of by a resident bishop.

Rev. Mr. Peck comes from a family of ministers. In 1840 his grandfather, Rev. Nathaniel Peck, was a delegate to the general conference at Baltimore, the birthplace of the candidate for bishop. He received his education in a Catholic school in Baltimore, the Storer College at Harper's Ferry, Oberlin College and Howard University. His first appointment was to Cattlesbury, Ky. He was sent by Bishop Grant to Los Angeles and has been pastor of the First African M. E. Church ever since. He has doubled the membership since his incumbency.

A CHINESE HOME.

Difficult to Reach the Real Abode of the Palace Dwellers of the Flowery Kingdom.

[Christian Science Monitor:] It is difficult for the occidental to picture the wall-within-wall life of a Chinese home. Down a narrow lane one passes between two walls behind which may be hovels or palaces, there is no telling which, since the one-story roofs beyond are invisible.

One pulls a string at a gateway, the address of some family of high degree. A servant appears, leads through another gateway, a flowery courtyard, a passageway, perhaps another courtyard, a little room or two, and finally into a reception room, with its carved wood wainscoting and furniture, its porecians and jades and brasses, its blue-and-green-and-gold ceilings, and its window pattern of paper panes, says a writer in the Century.

Here the hostess may lead one through other courtyards, all with the usual one-story rooms around them, and into her secluded garden of rocks and pools, of pretty paths and bridges, of clustering trees and flowers.

In such a palace as this each courtyard, with its surrounding rooms, may be the special home of one of the sons and his wife and children; but somewhere in the mass of walls, under one of the low, tiled roofs, is the common dining-room, with the kitchen beyond. Here the men of the family eat together twice a day, and afterward the women and children.

RANCHMEN IN A HURRY.

(Continued from First Page.)

in the opinion of the water authorities. They figure that they will have to consider what the farmers and horticulturists can afford to pay, and they have found that the present average cost per acre for water for irrigation in Southern California is $10. In the discussions before the Public Service Board these figures for charges have been tentatively suggested: In cities, per miner's inch, $375 bonus, $75 a year; for irrigation, per miner's inch, $50 an acre as a bonus, and $10 a year.

On the basis of these figures, Chief Engineer Mulholland calculated some months ago that, when the entire system is completed and all the territory shall be served to the extent of 135,000 acres, the city will have received from bonuses $6,750,000, and the annual revenue will be $1,350,000.

Chief Engineer Mulholland, however, has purposely avoided entering, in his report now before the Council, into the financial side of the question, preferring that the physical side of it should be thoroughly understood before another step shall be taken.

STORIES WELL TOLD.

A Tory's Real Motive.

[New York Tribune:] Gen. F. D. Grant, at a Washington's birthday dinner in New York, told a story about a young Boston Tory.

"This Tory," he said, "fought during the revolution, neither on one side nor on the other. He took a pleasure trip on the continent, and he didn't come back home again until the war was over.

"He was treated very coldly by society on his return, and this grieved his good old mother to the heart.

"The dear old lady tried to explain the matter one afternoon to a Boston belle.

"'Naturally, as the head of the family,' she said, 'my son could not take part in the war. To him fell the duty, perhaps the more arduous duty, of protecting his mother and sisters and looking after the interests of the estate.'

"'Oh, madam,' said the belle with an icy smile, 'you need not explain. I assure you I'd have done exactly as your son did—I'm such a coward!'"

An Educative Sermon.

[Cincinnati Commercial Tribune:] Representative Baker, in an interview in Washington, was rebuking the ignorance of a certain sugar expert.

"The man is as far at sea on this subject," he said, "as old Cornelius Husk.

"Husk shook his pastor warmly by the hand one Sunday morning after church.

"'Mr. Tenthly,' he said, 'I want to congratulate you on that sermon of yours. It was grand. It was just grand. I liked best, I think, the part about Sodom and Gomorrah. But, do you know, sir, I wasn't aware before that Sodom and Gomorrah were the cities of the plain. I thought they were man and wife.'"

The Intelligence of Women.

[Washington Star:] Rudolph Blankenburg, the Mayor-elect of Philadelphia, was praising, at a dinner, the intelligence of woman.

"Woman," he said, "is a realist. She has no illusions. She sees the truth, and, no matter what ideals it shatters, she accepts the truth bravely.

"She accepts it wittily," Mr. Blankenburg continued, with a smile. "In Germantown one evening, as a family sat grouped about the library table, the little son looked up from his book and asked:

"'Papa, what is an egotist?'

"'An egotist,' the father answered, 'is a man who thinks he is cleverer than any one else.'

"But the mother, laughing coldly, appended:

"'No, my son, that is not quite right. An egotist is a man who says he is cleverer that anyone else—every man thinks he is.'"

Won Case and Compliment.

[Pittsburgh Dispatch:] Years ago, when Senator Sutherland first began the practice of law in Utah, there was a judge on the bench in one of the judicial circuits who was noted for two things. One was his lack of information on legal matters, and the other his tendency to form strong likes and dislikes for lawyers who appeared before him.

When Sutherland tried his first case before this judge, his friends warned him. "Try to rub the old chap the right way and make a hit with him," they said, "or you'll have no chance at all."

Sutherland said he would state his case without needless palaver and take his chances. Now it happened that Sutherland had a concise way of putting a legal point that enabled even this judge to see it. This caused the judge to warm right up to Sutherland. At the close of the case, he called Sutherland to the bench, and said with much dignity:

"I have determined to decide the case in your favor, but I'm quite busy. Kindly prepare the opinion and let me have it at once."

Thirsts in Kentucky.

[New York Herald:] Ollie James of Kentucky, recently a Representative, but now a Senator, tells of the time when he was driving through a hilly section of his native State, partly for pleasure and partly on business connected with his political hopes. He came to a farmhouse where there was a nice looking well and windmill, and he pulled in and asked the farmer if he might have a drink.

"Ah'm sorry, sah," said the farmer. "Ah'd suttenly like to 'comadate you, but I cyant. Ef you all 'll jest drap into Jones's place, 'bout a mile further on, maybe you can git somethin'."

"But I thought I noticed a fine well here on your place," said the Senator from Kentucky.

"Why, that's water! I didn't know you wanted water. I thought you asked me for a drink. You sure can have all the water you want."

An Interesting Discovery.

[New York Herald:] Highly interesting discoveries have been made in connection with the excavations in the ruins of Pompeii.

A street leading to the Forum, which was closed at both ends by stone pillars for the purpose of excluding carriages, now proves to have been one of the chief thoroughfares of the city. It is lined with shops, the walls of which show inscriptions and marble tablets which are well preserved.

A great quantity of archaelogical treasures of great historic value has been found, and the investigators have gathered up a quantity of petrified fruit and meat.

In one shop a large terra cotta kitchen range was discovered, on the top of which rested an oval copper boiler in perfect condition, containing water, which, the scientists say, has been there since the time of the eruption, nearly 2000 years ago.

of the company, when asked for an explanation, professed to be utterly at sea as to the cause, unless, as they said, some of it had been poorly piled and something gave way, starting one piece.

For several hours it was feared other hundreds of tons of steel leaning against other racks in the same building might fall, and gangs of men were employed for hours in lessening the pressure on these frames by throwing the steel on the ground. Meantime electricians were stringing wires so that arc lamps might be used after dark to light the removal of the steel from the bodies of Wagner and McBride.

The Coroner said a thorough investigation will be made.

Bullock's

Exposition of Economy

500 Rolls of New Japanese Matting-that's over 20,000 yds.

—This great shipment came in a few days ago, to help make this Fifth Inauguration Month a notable merchandizing season. A special shipment, from far off Japan, to Bullock's. New Spring Mattings in plain white, white with fancy art designs and even popular carpet designs as well—and, see some of it is priced as low as 17½c a yard. We're going to tell of some of these new mattings—every housekeeper will want to see them. That is why this is going to be a big day in the Matting Section, at Bullock's.

2000 yds. of White Matting 17½c

—Genuine Japanese matting and very good quality. It will give remarkable service. Very attractive, 17½c yard.

Heavy Grade Mattings at 20c

—2000 yards of these, in white with small colored figures, also in a large number of carpet designs. Priced 20c yard.

Then there are Japanese Mattings at 25c a yard in over 20 patterns, and at 35c yd., especially good mattings for bedrooms.

Finest Quality White Matting 50c

—Plain white with heavy linen warp—soft and pliable and will give great wear. A big value, 50c yard.

Heaviest and Best Mattings 65c

—These have linen warp with patterns woven almost solid. The most artistic colorings and patterns in these. 65c yd.

S.S.S. CURES OLD SORES

Every old sore is due to the ulceration of flesh tissues. The superficial abrasion or opening may have come as the result of a scratch, burn, cut, or some other wound, but the place remains open and of a chronic nature because the tissues and flesh fibres beneath the skin are in an unhealthy condition from a polluted blood supply.

Even if it were possible to subdue the ulceration of the flesh and produce an antiseptic and cleanly condition of the sore with medicines applied to the external opening, such treatment could not bring about any permanent curative results. Deep down in the blood there is a continual cause at work to prevent the place from healing.

If we expect a permanent cure it is not the *SORE* but the *BLOOD* which must be cleansed. Then the morbid matter and infectious germs will be destroyed, and the flesh, becoming healthy, will knit and join together, and the ulcer can no longer exist. We do not mean to say one should never use any external treatment for an old sore, for we realize that some salves, lotions, etc., are often very soothing to the irritated and painful flesh. But the person who depends on such measures alone, and makes no effort to purify the blood, will never find a cure, and the place is sure to grow worse and enlarge.

In 1877 I had my leg badly cut on the sharp edge of a barrel. A great sore formed, and for years no one knows what I suffered with the place. I tried, it seemed to me, everything I had ever heard of, but I got no relief. At last I began the use of S. S. S., and continued it until it removed all the poison from my blood and made a complete and permanent cure of the sore.

JNO. ELLIS.
108 Wyckoff St., Brooklyn, N. Y.

Only by cleansing the blood of the poisonous cause can old sores be cured. S. S. S. heals them by going down into the circulation and removing the cause from the blood. When this has been done there is no longer left any inflammatory impurity or infectious matter to irritate the place, and nature causes the natural and certain healing of the ulcer. When S. S. S. has purified the blood and the place is once more nourished with pure, rich blood, then every symptom disappears, and it is not a temporary cure, but the place is firmly and solidly healed from the bottom to the outer skin. S. S. S. is recognized as the greatest of all blood purifiers, and therein lies its ability to cure old sores. It is purely vegetable, containing no mineral in any form, and its fine tonic effects are always helpful in overcoming the impure systemic effects of an old sore.

We have a special treatise on Old Sores which we will be glad to send free to all who desire it. It contains the statements of many cured persons as to the value of S. S. S. We will also be glad to send you any medical advice you desire free of charge.

... Los Angeles; Ed Par... Cal.; Ben Corbett, Los ... Flagstaff, Ariz.; ... Phoenix, Ariz.; Hazel ... Ben Campitt, Los An... Kansas; Mrs. ... Oregon; Dell Blan... Dell Eagles, Missouri; ... Paris, Cal.; Wiley ... Monte, Nevada; Lee ... "Roscoe" Bris... Billie Braham, Mon... New Mexico; ... and others. As ... not completed up to ... impossible to get ... those are among the ...

... standing half-mile ... race, which began the afternoon's elimination tests, the three riders who came in the money aroused the crowd to boisterous encouragement by thundering into the stretch, neck and neck. A. J. Stanley jockeyed to the rail, held it and, standing upright on his horse, rode a beautiful finish. He made the distance in 48s.

Joe Isabel, of Flagstaff, Ariz., took first honors in the steer-roping elimination contest, making a wonderful catch in 18 seconds, although the steer had a handicap start of 60 feet onto the field.

The Maverick race, with one steer given 100 feet start of forty ropers, was taken by Harry Knight, of Phoenix. From the moment the steer sprinted across the line and the pistol cracked the start it took Knight just 22 seconds to get his riata over the horns, although he was jostled and crowded by his opponents.

Ben Corbett, the favorite in the standing two horse race, lost to Joseph Rickson, with Lee Nevius third. It was a half mile, nerve-racking exhibition which warmed the heart of every hippodrome enthusiast present. Although Corbett lost, he was a game loser, and did not recourse to the cry that his injury several days ago had anything to do with the race.

"Rickson made a beautiful ride," said Corbett. "I guess he deserved to win. I did my best, and the only other thing I can do is beat Joe in the finals."

Decisions in both the principal events for cowgirls—the bucking championships for the southwest and for California—will not be made public until the opening of the finals. In the bucking contest for men, however, "Happy Jack" Hawn succeeded in riding the outlaw horse, "Cyclone." But "Cyclone" didn't have his bucking spirit working and the odds still stand two to one that Hawn can't repeat the exhibition

Off in a Bunch.

TIGER HITS NORTH TRAIL.

OCCIDENTAL BASEBALL TEAM LEAVES TODAY.

Two Games With Stanford and Two With Santa Clara—Foster and Allen Will Leave on Trip. Kirkpatrick Back at Short, and Rest of Team in Fair Shape.

The Oxy Tiger baseball team leaves this afternoon on the good ship Yale with the U.S.C. Cohorts for the North, for a return series with Stanford. There will be seventeen Presbyterians shut up with the fifty-three Trojans on the trip and some large times are expected before the Golden Gate is sighted.

The Tigers will meet Stanford on Saturday afternoon, on the latter's field, and the following Monday will play the second game. The team will then leave for Santa Clara, where it will meet the fast Catholic aggregation on Friday and Saturday.

Foster and Bill Allen will do the heaving all alone on this trip for the Tigers, and will have to stand to the guns, as there are no more slabsters on the reserve list. Foster has proven his worth against the Stanford bunch in the game played here on March 8, when he held the northern collegians and nearly caused their downfall. Allen is untried as far as the Stanford bunch goes, but has been doing some good work in the opening games of the season. He is a left-hander, and, unlike so many of that type, has splendid control with good curves and fair speed.

Yesterday afternoon the Tigers were given a bad trimming by the Los Angeles league team, but it is a good thing to have the slump hit them in this game and not in the affairs with Stanford. Anyway, they will be getting onto their own class with the Cards and will not be suffering with stage fright as is the case every time a college club goes up against a professional squad.

Harry Kirkpatrick will be played at shortstop in the games with Stanford, which fact will materially bolster up the infield, as Lawson is something of a weak sister at short, being able to cover about two feet of ground. The rest of the team will be practically the same as that which faced Stanford in the last series, and if the gang can hit in the breezy North as well as they hit here, some of the red beans are in a fair way to be spilled.

Anthony Trollope, Smoker.

[London Chronicle:] Trollope was a great smoker and made no attempt to conceal the store of cigars in his library. One wall of the room was devoted to a row of separate cupboards, or bins, each with a separate glass door and filled with cigars stacked across each other like timber, so as to allow free circulation of air. On wet days the doors were kept closed, and on fine days were left open. A pointed stud was stuck into the wood above the door of the bin in use. As soon as a bin was emptied the stud was moved to above the next door, and the empty receptacle refilled from the big chests of cigars which Trollope obtained direct from Havana.

MUSIC AND STAGE.

(Continued from Fifth Page.)

"Madame X," and James Forbes's comedy, "The Commuters," for first time stock company production at the Burbank or Belasco theaters. These new plays will doubtless be seen in the very near future, and are all unusually important plays for stock production at such an early date after their "touring" success.

With every preparation made to care for the great line this morning, and an advance interest without precedent to stimulate the call, nothing remains but to open the box-office of the Mason Operahouse this morning for a record-breaking advance sale for the engagement of Klaw & Erlanger's brilliant musical comedy hit "The Pink Lady," which is to be seen in California for the first time next Monday night, and remains at the Mason for two weeks, with matinees on Wednesday and Saturday afternoons.

This reigning hit is to be offered here by a company of 100 people, and in the list will be found thirty selected musicians, who played the score of "The Pink Lady" during its memorable run of over 400 performances at the New Amsterdam Theater, New York City. There will also be seen in the big concerted numbers the pink of perfection chorus, which is a feature of this artistic and delightful presentation.

The sixth and positively the last week of "The Girl and the Boy" will begin at the Grand Opera House Sunday afternoon with the matinee performance. A brand new musical comedy will then be offered, announcement of which will be made later.

Saturday afternoon, the fiftieth performance of "The Girl and the Boy," will be celebrated by the Ferris Hartman Company. Appropriate souvenirs will be given to each lady and child attending.

With comedy the predominating element of the current Empress bill, it is proving one of the most popular lists of attractions that has yet occupied the stage of the popular priced Sullivan and Considine vaudeville theater.

Bersac's comedy circus, with "Maud," the bucking mule; Harry Van Fossen, the minstrel man, and the Four Baseball Players in "Twenty Minutes in The Club House" are seldom excelled as features of one popular priced bill and there is good reason for the present week's overflowing audiences.

The next week's programme will be headed by Ruth Francis and her company presenting "A Touch of High Life;" Sidney Grant, one of the best known and most successful of present day monologists, and Holmes and Buchanan in their novel musical offering.

"The Wizard of Science" who has caught nature napping, is the title which has been bestowed upon Charles Urban, the Young American-born inventor who has revolutionized the field of photography by his marvelous invention of Kinemacolor, which reproduces in motion and all original colors of nature, any scenes or incidents upon which the camera man may turn his machine.

The first introduction of the Kinemacolor pictures into this country was that of the events of the Coronation of King George in London last year. These were taken by command of the King, and so delighted was England's monarch with these marvelous pictures, that he commanded Mr. Urban to proceed to India with a corps of assistants and take the views of the Durbar coronation, whereby the King was proclaimed the Emperor of India, conceded by all to be the greatest pageant in the world's history. These Durbar pictures in Kinemacolor are now being presented at the Auditorium Theater where they are creating an unprecedented sensation.

Louise Dresser, than whom no more popular star ever scintillated in musical comedy, comes to head the Orpheum bill next week, opening Monday matinee in a repertoire of her old and new song successes. Miss Dresser has personality, wit, unction and magnetism, and wins her audiences by sheer force of worth, adding to herself and her ability a clever line of songs that are her own.

"La Somnambule," a huge French pantomimic dancing act, is another sensational act due Monday, with Nina Payne, R. St. Elia and a company of a dozen to interpret it. A feature is the somnambulistic dance done by two principals—a new diversion in terpsichorean annals. Donovan and McDonald, two "tads" from the ould sod, will have an Irish skit, "My Good Friend," and Claude M. Roode will show some sensational feats on the slack wire. Pouchet's lovely flying ballet, Harry Beresford and company in "In Old New York," Julius Tennen, chatterbox, and Ida O'Day & Co. in "Betty's Bet," are also on the bill, with the fine symphony concert and the usual news in motion views.

That there would be a second week of "The Neverhomes" and "The Song Birds" by the Fischer's Follies Company at Fischer's Lyceum, was a foregone conclusion reached by everyone fortunate enough to get in during the first few nights of its premier. The announcement that both shows will be continued next week therefore comes not in the nature of a surprise, but as a confirmation of universal judgment, and in reply to general demand by the many unable to secure seats so far—for every performance has witnessed a packed house.

The entire cast, company, orchestra, features and all, will be retained, of course, and what with a full week of public performances, it is no trick to guess that the second week will be even finer in detail than this has been—good as the double shows are now. The company has "found itself" by now; all are working as parts of a component whole, and the ginger and agility of the performances impreves constantly.

A musical comedy novelette by Harry C. Lyons, and the Stanley Girls will be the special feature of the incoming Pantages show, starting Monday afternoon. This is described as one of the daintiest and cleverest musical acts in vaudeville. They bring special scenery, which, with brilliant costuming and lighting effects combine to make them favorites wherever they have appeared along the line of the Pantages circuit. There is an even half-dozen girls in the act, and Mr. Lyons has a standing challenge to any other vaudeville act to produce their equal for good looks.

The other acts on the new bill will be Sully and Hussy, Hebrew comedians; Helen Pingree and Co in "The Girl and the Coach;" Moore and St. Clair, singers and dancers; Rapoh, the famous European juggler; McGee and Reece, clog specialists; new pictures and ragtime music.

Graham's rat, cat and dog circus will headline a twenty feature bill at the Adolphus Theater, commencing Monday at 1 o'clock. It brings together species of animals which ordinarily are hostile to one another. The circus features Jumbo, the only rat aviator in the world.

Tower Brothers and Darrell will entertain with new songs and new jokes. Truxell and Winchell, those Irish millionaires, will present a satire on the stage, "Vaudeville Siftings." Ralton and La Tour, a singing, talking and dancing duo stands in a class by itself. Hall and Hall, novelty sharpshooters, will present and feature rapid sharpshooting. Cornell and Carbonette, those classical singers have a varied and wide repertoire. Edo, the "juggling kook," is in an act in pantomime. Leonard and Cooper, will present a new musical act with several new features. Twelve other splendid features will bring the week's offering to twenty stellar attractions.

"The Landslide," Austin Adam's new comedy of day-after-tomorrow, is attracting no little attention at the Belasco Theater, where the current week's presentation of this brilliant, epigrammatic piece is arousing a great deal of comment for its clever treatment of the vital and somewhat ticklish question of socialism.

Although the company was somewhat criticised for the showing last Monday night, the performances are now running smoothly in every particular and curtain call after curtain call is the rule after every act of the play.

The company now have in rehearsal to follow "The Landslide," Lottie Blair Parker's famous success, "Under Southern Skies," a play which achieved almost as much popularity as her "Way Down East," and which has never been given in this city by a stock organization.

With the programme now complete containing twenty big acts, the pick of the talent from all of the Los Angeles theaters, and an orchestra of twenty-five selected from the various local theater orchestras, practically all of the arrangements for the mammoth benefit at the Majestic Theater next Sunday afternoon for the family of the late George Fuller Golden are completed, and every indication points to the biggest and most successful benefit performance, both artistically and financially, that has ever been given in this city.

The programme, which has already been announced, is unquestionably the finest array of artists that have ever offered their services for a performance of this nature and this was made possible only through the great regard that everybody in the theatrical profession held for Mr. Golden.

The sale of seats is progressing rapidly and there is every indication that Sunday afternoon will find every seat in the Majestic Theater filled.

Numerous telegrams have been received from all parts of America from prominent vaudeville artists and stars of the legitimate stage for boxes, loges and seats at the performance. Among these was a telegram from George M. Cohan sending one hundred dollars for a box; another from Montgomery and Stone for an equal amount for a box, while yesterday James J. Jeffries sent his check for fifty dollars for a loge for the performance.

This only goes to indicate the widespread interest being taken in the affair, and gives further indication of the success.

RAIN AT REDLANDS.

REDLANDS, March 20.—[Exclusive Dispatch.] Light rain began falling this evening about 7 o'clock. Indications for a heavy rain are good. Temperature fell several degrees.

FOR SALE—This magnificent, nearly new and modern residence (East front) 681 Berendo Street, between Wilshire Boulevard and West 7th Street, in the part of the restricted district, on high ground. Twins of Fame.

SUN DAUGHTERS GLOW BY NIGHT.

California and Society Are One at Land Show.

Brilliant Throng of Light and Beauty There.

Imperial Valley Comes Out in Force Tomorrow.

California unblushingly drank a toast to her lovely self at the Land Show Beautiful yesterday. In the evening society made the celebration of an incomparable State a fete of unrivaled brilliance. The wine which the Californians quaffed to their radiant land was the wine of life. It was made of the gold of poppies, the nectar of oranges, the ruby and purple of grapes and the scarlet of flame-cheeked apples.

Everything exhibited within the wide canvas added something to that riot of color and of light attesting the richness of California. There was about the entire day a sort of added luster as if each object was imbued with the spirit of a rich occasion. People who have had to do with the making of California's golden past and those who are taking a part in its splendid present drama mingled freely yesterday amidst all this glowing evidence of their State's development and prosperity, while at night many of those most favored by the gifts graces of wealth and leisure went sparkling through the superb exhibits with light laughter and sunny greetings.

Society was never happier than last night when shaking hands with itself over the brilliant spectacular effect of this assemblage of California products. As for the men, they looked from native daughters to native fruits and flowers and knew that on the earth at least neither sun nor stars have shown upon creation in a finer mood. It was as if time had reached its flower and its fruitage in a night. Between these three—California's flowers, California's fruit and California's women the world's excellence lay within a sparkling canopy.

A notable feature of the evening's programme was the distribution by The Times of 7000 cut flowers, grown by the Wright Floral Company of No. 344 West Fourth street, this city. Each lady present was the recipient of a beautiful bouquet, together with the compliments of The Times, and the pretty offerings added greatly to their enjoyment of the brilliant occasion.

Mingling with the men who thronged the exhibit-studded avenues of the show yesterday were Peter B. Kyne of San Francisco, who has told much of the State's lusty wealth of commerce in his exceedingly clever fiction, and John G. McGroarty, the gentle Los Angeles poet, who has caught the pristine glory of California's early days in a bouquet of words which have a melody like the song of happy waters.

Among the 15,000 persons who contributed to the day's fine attendance were men of vast enterprise and tireless energy who have pitted fortune and brains against the rough natures forces of California and have by the application of capital and genius wrested from these forces the glittering achievements of industrial and commercial success.

Different suburban places sent large delegations to the show. Among these was Burbank, whose people came 100 strong, wearing buttons which had for their legend "The Dawn of a New Era."

In the day there was no programme other than the music by Creatore's famous band, but at night the programme fairly overflowed with magic when Creatore and his great band were at their best and after a word of welcome to society and to the thousands present by Lieut.-Gov. Wallace, the night was given over to a riot of music and a carnival of song.

Thomas Taylor Drill and his superb band chorus of 200 voices sang Harling Harlingame's "Song of California" and "Song of the Soil," by Kathryn Turney and Homer Tourjee. The final last night also included Handel's "Hallelujah Chorus," the Sextette from "Lucia" and Rossini's "Inflammatus."

A feature of the evening was the presence of Miss Agnes Woodward with a chorus of forty whistling girls. Her programme included "The Land Heart's Desire," Tzigani "Gipsy Love" and "Carmia." All of the boxes stand and the boxes for evening were engaged by society and there was a pretty confusion of flashing gems and lovely gowns under the thousands of incandescents. The attendance scored the high water mark of the show's calendar.

Today will be devoted to San Diego, San Bernardino and Redlands. The three cities will be represented by delegations and San Diego will have in a special train 200 strong. Creatore will give King Humbert's favorite programme, including "Aida" Sextette by six soloists, three rare compositions by Creatore himself, one of them being the famous "Beautiful March," composed for this occasion. Tomorrow night to Imperial Valley and every effort will be made to make the day a rousing success.

REDONDO BEACH ITEMS.

All Candidates for Office to Appear Before Mass Meeting and Explain Their Platforms.

REDONDO BEACH, March 20.—A mass meeting will be held in the city hall tomorrow evening, called by the Good Government Progressive League for the purpose of giving the people particularly the women of the town, an opportunity to see and hear the various candidates for office for the coming municipal election. All of the candidates for office have been invited to be present and to state their platforms.

A called meeting of the league is to be held this afternoon, at 4 o'clock, at which the members will discuss the candidates and their platforms with a view to endorsing the candidates whose platforms meet their approval. The City Council evening heard the protests of a number of property owners against improvements for street work on Catalina and Camino Real. A number of property owners protested that improvements were excessively high. One property owner stated that it would be better for him to let the property go than pay so high an assessment. One of the causes for complaint was that part of the property for which the people were assessed fronted on a park owned by the

Twins of Fame.

SUN DAUGHTERS GLOW BY NIGHT.

California and Society Are One at Land Show.

Great Throng of Light and Beauty There.

Imperial Valley Comes Out in Force Tomorrow.

California unblushingly drank a toast to her lovely self at the Land Beautiful yesterday. In the evening society made the celebration of an incomparable State a fete of splendid brilliance. The wine which the Dutchmans quaffed to their radiant host was the wine of life. It was made of the gold of poppies, the ruby of oranges, the ruby and purple of grapes and the scarlet of flame-colored apples.

The dazzling exhibited within the spacious canvas added something to that symphony of color and of light attesting the glory of California. There was about the entire day a sort of added brilliance, as if each object was imbued with the spirit of a rich occasion. Those who have had to do with the pageantry of California's golden past and those who are taking a part in the splendid present drama mingled yesterday amidst all this glowing evidence of their State's development and prosperity, while at night the things most favored by the dreams of wealth and leisure were revelling through the superb setting with light laughter and sunny jest.

No one was never happier than Governor when shaking hands with the brilliant spectacular effect of the assemblage of California beauty. As for the men, they were from native daughters to native sons and flowers and knew that the sun is such at least neither sun nor flower shows upon creation in a day and. It was as if time had stood still between these three—California flowers, California's fruit and California's women the world's excellence—within a sparkling canopy. Another notable feature of the evening's entertainment was the distribution by the Pasadena Tribune of 7000 cut flowers, grown by the Wright Floral Company of No. 1000 West Fourth street, this city. Nearly every present was the recipient of a beautiful bouquet, together with the compliments of The Times, and these offerings added greatly to the adornment of the brilliant occasion.

Starting with the men who thronged the exhibit-studded avenues of the show yesterday were Peter B. Kyne of San Francisco, who has told many of the State's lusty health of romance in his exceedingly clever stories, and John G. McGroarty, the well-known Los Angeles poet, who has sung the glorious glory of California's many days in a bouquet of words that have a melody like the song of the waters.

Among the 15,000 persons who contributed to the day's fine attendance were many of vast enterprise and tireless energy who have pitted fortune and fate against the rough nature of California and have by the magic of capital and genius changed these forces the glittering elements of industrial and social success.

Many suburban places sent large delegations to the show. Among these was Berkeley, whose people came 100 strong, wearing buttons which had for their motto "The Dawn of a New Day."

Nor was there was no programme without the music by Creatore's famous band at night the programme was overflowed with magic music by Creatore's band and his great band of flute beat and after a word of welcome to society and to the throng present by Lieut.-Gov. Wallace the night was given over to a concert and a carnival of song. Creatore's Drill and his superb band of 200 voices sang Harrison's "Song of California" and "Song of the Soil," by Kathleen and Homer Tourjee. The programme also included Handel's "Hallelujah Chorus," the Sextette from "Lucia" and Rossini's "Tancredi Overture." Among the features of the evening was the presentation by Miss Agnes Woodward with a corps of forty whistling girls. Other numbers included "The Land of Desire," Trigant "Gipsy Dance" and "Germia." All of the numbers and the boxes for evening were occupied by society and there was a pretty confusion of flashing jewels and lovely gowns under the soft incandescent glow. The attendance scored the high mark of the show's calendar.

Tomorrow will be devoted to San Diego, Riverside and Redlands. The cities will be represented by their mayors and San Diego will have a special train 300 strong. Creatore will give King Humbert's Serenata by six soloists, and there will be competitions by Creatore's band, one of them being the "Blue Danube Beautiful March," composed on this occasion. Tomorrow the Imperial Valley and every effort will be made to make the day a great success.

BEACH ITEMS.

Nominations for Office to Appear Before Meeting and Explain Platforms.

REDONDO BEACH, March 20.—The meeting will be held in the city hall this evening, called by the Improvement League for the purpose of giving the people particular information of the town, an opportunity to see and hear the various candidates for office for the coming election. All of the candidates have been invited to be present and to state their platforms. The meeting of the league is to be followed by the following afternoon, at which the members will hear the candidates and their views with a view to endorsing those whose platforms meet with approval. The City Council has heard the protests of a number of property owners against the paving for street work on the Pacific Coast Camino Real. A number of property owners protested that the assessments were excessively high. The council has stated that it is willing for him to let the contract pay as high an assessment as one of the causes for complaint that part of the property owners were assessed on a park owned by the

Charles H. Dunsmoor,

Seven years County Clerk of Los Angeles county and eight years State Bank Commissioner, who died yesterday morning at the home of his daughter, Mrs. Alfred W. Hare, in Eagle Rock.

The End.

DEATH STRIKES FINAL BALANCE.

FORMER STATE AND COUNTY OFFICIAL NO MORE.

Seventeen Years Bank Commissioner and Long in Local Service, Charles H. Dunsmoor Is Called to Rest After Illness of Two Years.

Following an illness of two years from cancer of the stomach, Charles H. Dunsmoor, for seven years County Clerk of Los Angeles county and seventeen years State Bank Commissioner of California, died at 12:15 o'clock yesterday morning at the home of his daughter, Mrs. Alfred W. Hare, on Ridgway avenue, Eagle Rock.

Dunsmoor had held many offices in the gift of the county and State and, through his unfailing efficiency and sterling integrity in the discharge of heavy responsibilities, had earned for himself the name of one of the first citizens of the community. Much of his sixty-two years of life was spent in Los Angeles itself and he left his impress upon it in business as well as in official circles.

He was a native of Temple Mills, Me., born in 1850. When he was two years of age his parents removed to Minneapolis and it was there that he was educated. He came to Los Angeles at the age of 22 and taught school for a year at Florence and Green Meadows. In 1873 he and his brother, I. H. Dunsmoor, launched the first and only "dollar store" in this city. Later he accepted the position of City Tax and License Collector and served during the administration of the late Mayor Toberman. Still later he served as Chief Deputy County Recorder under Charles G. Lamb.

In 1882 he was elected County Clerk and was re-elected at two succeeding elections. He resigned, however, in 1890 to accept the position of State Bank Commissioner under the late Gov. Waterman. Under Gov. Pardee he became secretary of the commission and was later again commissioner.

He retired from the service of the State in 1907 and engaged in brokerage business in San Francisco until ill health compelled him to leave active life. For some years past he had resided in Oakland, at the home of his son, Charles F. Dunsmoor.

He leaves a widow, Gertrude Crane Dunsmoor, daughter of the late Judge Crane, of Alameda county; Mrs. Hare, a daughter; the son in Oakland and five brothers. Of these, Irving A. Albert W. and Dr. John M. Dunsmoor reside in this city, Dr. F. A. Dunsmoor in Minneapolis and James F. Dunsmoor in Lancaster.

He was a Past Master of Pentalpha Lodge, No. 202, F. & A. M., of this city, a member of Los Angeles Commandery, Knights Templar, and a charter member of Al Malaikah Temple of the Shriners. In politics he was a stanch and lifelong Republican of conservative principles.

The funeral will be held probably from the morgue of Bresee Brothers. The details have not as yet been arranged.

MINISTER GETS SIX MONTHS.

That Is, the Court Gives Him that Long to Prepare for Naturalization Examination.

FRESNO, March 20.—When Rev. Samuel Hughes, pastor of the Grace Methodist Church of this city and a subject of Great Britain, applied for final citizenship papers to Judge H. Z. Austin of the Superior Court, yesterday, he was told to study up on the laws of the United States and of California and come back again after six months.

He failed to show sufficient knowledge of how the President of the United States and State Legislators are chosen and displayed ignorance on other points that the court considered essential.

As Hughes has been prominent as an agitator for local option in this county and has spoken widely in preparation for anti-saloon elections next November, the incident has caused considerable comment.

In a statement today, Hughes declared that he considered a knowledge of needed reforms to be more important than out of date facts about the machinery of government.

UNITARIAN CONFERENCE.

The Pacific Coast Unitarian Conference got down to business this morning. Committees were appointed, that on resolutions consisting of George H. Murdock of Alameda, Dr. Bessie E. Peery of San Diego, and Rev. B. A. Goodridge of Santa Barbara. On the committee of nominations were Mrs. Lloyd Baldwin of San Francisco, Rev. E. S. Hodgin of Los Angeles and Mrs. Crocker of Fresno.

The delegates were taken on an automobile ride to Kearney Park. At the business session Mayor Rowell, president of the conference, welcomed the visitors. Tonight David Starr Jordan of Stanford University delivered an address on "The Movement for International Peace."

PERSONALS.

Frank Davis, a mine owner and engineer of Sonora, is at the Hollenbeck.

Fred W. Neeson of St. John's, Ariz., is staying at the Hollenbeck. Neeson is a business man and owner of a mine and ranches in the new State.

Rev. Alfred Quetre and Frank Duprez of San Juan Capistrano are at the Hollenbeck for a few days.

Miss Anna C. Eagan of Ft. Yuma, one of the few woman Indian agents employed by the government, and who has been successful in her work, is at the Hollenbeck.

M. J. Gaumont of New York is registered at the Alexandria. Gaumont is part owner and American director of the Gaumont Film Company, which maintains branch houses and factories in sixteen countries.

Mr. and Mrs. J. H. Wesson of Springfield, Mass., are staying at the Alexandria for a few days. Wesson is a member of the firearms manufacturing concern of Smith & Wesson.

James G. Berryhill, an attorney and capitalist of Des Moines, is registered at the Alexandria. Berryhill has a place in Iowa politics.

Frederic J. Haskin of Washington is at the Alexandria. Haskin is a journalist of reputation and author of several books of travel and civil government.

W. D. Wilson and J. W. Edea of Hamilton, Ont., are registered at the Alexandria. Both men are business men.

J. M. Frothingham, an official of a Chicago advertising agency, is at the Alexandria to remain several days.

H. N. Kuchler of San Francisco is at the Van Nuys. Kuchler is an official of the Standard Oil Company in this State.

Mr. and Mrs. William Scarlett of Columbus, are staying at the Van Nuys. Scarlett is a manufacturer in Ohio.

Mr. and Mrs. Henry T. Rogers of Denver are staying at the Angelus during their annual visit to Los Angeles. Rogers is a retired banker.

Dr. A. W. Woodman, a specialist of Hartford, Ct., is at the Angelus.

Guy Leroy Stevick, an official of a San Francisco trust company, is at the Angelus.

J. L. Stubbs of Denver is at the Hayward. He is a realty broker and capitalist who is interested in the California land market.

J. O. Davis of Berkeley is staying at the Hayward. He is the national lecturer and organizer of the Modern Woodmen of America and will visit several camps while here.

Dr. V. V. Alexanderof of Chicago is registered at the Hayward. Dr. Alexanderof is a specialist in the medical field and a leader of the Russian colony of his home city.

POSTAL BONDS REDEEMABLE.

Will Be Purchased at Par by the Government—Night Mail Service Received Serious Setback.

An important notice has been received by Postmaster Harrison relating to the redemption of postal savings bonds, to the effect that the board of trustees of the postal savings bank system, consisting of the Attorney-General, Secretary of the Treasury and Postmaster-General, will purchase the bonds at par on the application of any person.

The bonds must be sent by registered mail and directed to the board of trustees. The assignment may be acknowledge before the postmaster at the depository office without cost.

The plan of the Postoffice Department to have night collections of mail by automobile in Los Angeles is hanging fire, on account of the refusal of local automobile dealers to furnish autos according to the plans drawn and approved by the department, for the money offered, $900.

It may be necessary for the Postmaster-General to increase the appropriation for the purchase of the machines, unless there is a change in the attitude of dealers and manufacturers willing to compete for the contract. At the present time the matter is at a standstill, but Postmaster Harrison hopes that some way will be found whereby the proposed innovation in the collection of night mail may be carried out.

IT DOESN'T RING TRUE.

Creole Is Arrested on Charge of Having Passed Bogus Dollars, and One Is Found on His Person.

Frank Fisher, a Creole from the Bayou Teche country, back of New Orleans, who looks like one of the characters in George W. Cable's "Misto Itchlin'" stories, was before United States Commissioner Van Dyke yesterday, charged with having passed and having in his possession three counterfeit dollars. His preliminary examination was set for next Monday afternoon, and in default of $1000 bail he was committed to the County Jail.

Special Agent Hazen of the United States Treasury Department, who has investigated the matter, says Fisher passed two counterfeit dollars on M. Kosugi, a Japanese, who has a grocery and fruit stand at the corner of Ninth and Hemlock streets. When taken into custody another bogus dollar was found in his pocket.

Fisher asserts he gave the Japanese a $5 bill to change and that the storekeeper tried to pass the spurious dollars on him. He says another party saw the Japanese hand him the coin, but he never saw the man before and does not know his name.

CASE IS DISMISSED.

The non-support case against William Oster was dismissed in Justice Young's court yesterday upon representations made by a deputy District Attorney. The complaining witness is living at the Lankershim Hotel, while her husband is rooming on Maple avenue. Mrs. Oster told one of the constables that she was considering filing a divorce suit. She declares her husband has not tried to support her since their marriage and that he misrepresented his financial standing to her when they became engaged.

AMONG THE MISSING.

Henry Rose, No. 118 North Rio street, is missing from his home, according to a report made to police headquarters yesterday. He has not been seen since the 14th inst. The police have also been asked to find Earl Worden and Max Watt, two small Sherman boys who announced their intention to visit Kansas City before they disappeared.

THEY HELP THEMSELVES.

Three minor robberies were reported by the police detectives yesterday. Mrs. Ward Moody, No. 2202 West Thirty-first street, says a man robbed her house of $30, a $350 diamond ring and a quantity of jewelry. C. E. Peoples, No. 1544 West Fifty-eighth street, reported the loss of $155 worth of jewelry. Charles Benoist, St. Anthony Apartments, is minus a watch and some trinkets taken from his room

HIS FACE IS A PUZZLE.

Also the Manner in Which He Was Injured—Police Can't Account for Hurts Received by Prisoner.

A man about 65 years old was taken to the Receiving Hospital from the City Jail at 8 o'clock yesterday morning, suffering from a fracture of the skull. His face, from the nose to his hair, was discolored. There was a slight abrasion and puffing of the skin over the left eye. Both eyes were swollen shut, and the nose was puffed. Later in the day the man was removed to the County Hospital. His name is not known, neither could it be learned how he received his injuries. He was arrested Tuesday night. As he acted a bit queerly, he was taken to the Receiving Hospital. He could not talk sufficiently to give his name, and was recorded as "John Doe."

The man's face was at that time in a normal condition, according to the hospital authorities.

Lieut. Adams discovered the man's condition when the Sunrise Court was convened and ordered him again taken to the hospital.

Jail inmates said the man fell on the concrete floor and was injured, while another story was that he walked into the iron grating in the bull pen, being almost blind, and was injured in that way. There were no letters or papers on the man's person by which he could be identified.

TO ANNEX SCHOOL DISTRICT.

County Superintendent Favors Belvedere Proposition—Assent of Board of Supervisors Is Necessary.

There was a hearing yesterday at the office of County Superintendent Keppel in regard to the proposed annexation of the Belvedere school district by the city of Los Angeles for school purposes only.

Keppel favors the plan inasmuch as the Board of Education has signified its willingness to let the schools of Belvedere become incorporated with the local ones.

Before the matter can be finally disposed of, the Board of Supervisors must assent to the plan upon the County Superintendent's recommendation.

PLACE SAME, OFFICERS NOT.

Fifteen Freeholders Who Are to Revise Charter to Be Elected at Time of Presidential Primaries.

The Supervisors are expected to pass an ordinance next Monday providing for an election of a board of fifteen freeholders who are to frame a new county charter. The ordinance calling for the appointment became effective yesterday.

The election will be held May 14, at the same time and same polling places as for the Presidential preference primary, but there will be separate sets of election officers and separate ballots.

Any freeholder who is a property owner with a residence of five years in the county, may become a candidate for the board by filing his nominating petition with the County Clerk, which must contain at least 3 per cent. of the total vote at the last election within the county.

After the fifteen members are elected in May, the framework of the proposed new character will be constructed and submitted to the vote of the people at the November elections. It will then be submitted to the Legislature for final adoption before becoming operative.

REVENUE CUTTER NEEDED.

Recent Trips of the Bear Have Shown What Could Be Done Here in Apprehension of Smugglers.

The need of a revenue cutter to patrol the coast, from Santa Barbara to San Diego, is shown in the work accomplished by the Bear, a revenue cutter, which has made two trips to this Coast recently, to secure an enforcement of the maritime and navigation laws, say customs officials.

Fines amounting to $2360 have been levied by Collector Pendelton as the result of the espionage of Capt. J. G. Bollinger and his crew of the Bear, and unless good cause is shown to the Secretary of the Treasury, every dollar will be collected, on pain of a forfeiture of license. The violations include failure to have on board a sufficient number of life preservers, a lack of means to extinguish gasoline, or display of lights as required by the maritime regulations.

A fine of $450 was levied on the motor boat Lottie S. yesterday, for alleged infractions of navigation rules.

Unsuccessful efforts have been repeatedly made to secure an appropriation for the purchase of a revenue cutter for the better enforcement of the laws relating to the coastwise trade, and especially, to catch the smugglers of Chinese and opium. The smugglers employ high-powered and fast boats, while the revenue officers have only tubs in which to pursue them.

JUSTICE AS A HORS, DOCTOR.

Justice Young will be called on to qualify as a veterinarian today and determine whether a horse is sound or is afflicted with spavin, ringbone, heaves, curby hock, and other equine ailments. The case is that of Bishop against Chase, to recover the price of a horse sold the defendant. The defence set up is that the animal is unsound. Experts testified that they found no symptoms of disease. It is now up to the court to decide. The horse will be driven to the Temple-street side of the Courthouse this morning.

FRIENDS RALLY TONIGHT.

A Friends' rally and luncheon in connection with the Men and Religion Forward Movement will be held at the First Friends' Church, Third and Fremont streets, this evening at 7 o'clock. Robert C. Root will be toastmaster and the responses will be as follows: "The Men and Religion Forward Movement and Its Application to the Friends' Church," Wallace E. Gill; "The Quaker in Politics," Timothy Nicholson, Richmond, Ind.; discussion, led by Andrew Mitchell; "Evangelism and Community Extention by the Friends' Church," Dr. Sylvester Newlin; "What Will the Boy Do?" President Thomas Newlin.

COMPROMISE IS OFF.

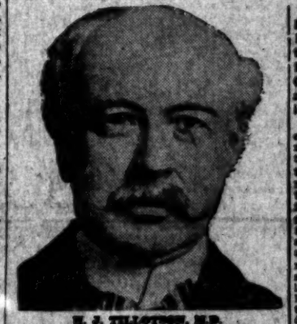
W. H. Dehm, one of the lawyers in Earl Rogers's office, who is connected with the Darrow defense, paid a visit to the District Attorney yesterday. He would not discuss the object of his visit. Negotiations for any possible compromise have been broken off and according to present plans Darrow will stand trial May 15, the day after the Presidential primaries.

STATISTICS WANTED.

County Superintendent of Schools Keppel is sending out circular letters to the clerks of the various high school districts within the county, asking them to file certified notices of all adoptions of text books made since September, 1909. In making the reports, the name of the publisher, author, price, date of adoption and other data are required.

CURED IN FIVE DAYS

Hernia, Piles, Fistula and Varicose Veins



H. J. TILLOTSON, M.D.
[Established 31 Years. Copyrighted.]

I publish my true photograph, correct name and personally conduct my office. I am the longest established, most successful and reliable. All medical credentials and press records prove. Imitation of my copyrighted announcement is an evidence that I am a bona-fide specialist. I make this statement that you will know you consult a Specialist who best and treats patients personally. I possess skill and experience acquired in such a way that no other can share. Experience is the safe standard by which judgment may be valued and results obtained.

A thorough investigation should be made by every ailing person as to the specialist he consults. Duty and destiny to self and those who depend upon you demand the best medical attention. I have the ability and can give you this service. I have always charged a very reasonable fee, so that my services may be obtained by any man who sincerely desires to be cured. I make no misleading statements or unbusinesslike propositions; neither do I desire to be particularly independent, and I would like to have you for a patient, if you will come to me on a strictly professional basis, and the inducements that I offer, which are my ability and thirty-one years' successful experience. Time-saving treatment and guarantee of cure of certain diseases.

NO MONEY REQUIRED TO COMMENCE TREATMENT. Many patients have no confidence in their doctor, because he demands pay before a cure has been effected, and there are many who have been misinformed about their condition, or through unsuccessful treatment have become skeptical and think there is no cure for them. I want an opportunity to treat such cases. It makes no difference about the financial part, as I accept pay for my services as benefits are derived, when I am satisfied the patient is reliable. Health is capital at interest. I will prove my ability to cure you before asking pay for my services.

WRITTEN GUARANTEE.

Dr. Tillotson's written guarantee means a cure or no pay for services. I guarantee to cure certain diseases or refund every dollar you have paid me for my services. My services cost you nothing unless I cure your Varicose Veins, Hernia, Piles, Fissures, Fistula or any disease I guarantee to cure. My terms are reasonable and no more than you are willing and able to pay.

READ MY BOOK — It contains information every young man, husband and father should have regarding himself. Book Sent Free to those who, in my opinion, will be benefited by it. Call or write before treating for disease or disorders.

Many Cases Cured Permanently in FIVE DAYS. Most Time-Saving, Most Natural, Most Safe. No Detention from Occupation, Family or Home. A Radical and Permanent Cure. I Will Give $500 to Any Charity as a Guarantee That Every Statement in This Announcement Is True.

I cure rapidly, painlessly and at small expense. Cured patients are my testimonials; however, I do not make patients' names merchandise by publishing them. I will give conclusive evidence of my merit, which is obtained and maintained by ability. I invite you to come to my office. I will explain my treatment for Hernia, Piles, Fistula, Varicose Veins, Pelvic, Nervous, Blood, Kidney, Bladder and Rectal Diseases. I will give you free a physical examination; if necessary a microscopical and chemical analysis of secretions to determine existing pathological and bacteriological conditions. Every person should take advantage of this opportunity to learn their true condition. Certainty of cure is what you want.

VARICOSE VEINS.

In the cure of Varicose Veins, Rupture and Associate Diseases of the Pelvic Region, I am successful in bringing to bear the curative power of Nature's forces in such a manner as to supplant the old-time, wide-open surgical operation. Once it required several weeks to cure these conditions and the method which some still use is such as to endanger the life of the patient and requires a long period of convalescence. Now an absolute cure can be accomplished in a few days and with perfect safety.

TRUSSES SELDOM CURE RUPTURE.

Disregard for existing Hernias has cost many lives. The smallest hernias are the most dangerous to life, because of the increased liability to strangulation. I am aware that a great deal of fraud has been practiced on the public in connection with the alleged cure of ruptures, and when I say positively that I cure Rupture, to stay cured, I do not expect any one to accept my statement without investigation of my professional work. My claim to your confidence is based on absolute facts, accomplished results. A personal consultation. I will make a free examination and can explain every detail of your Hernia and demonstrate to you the curative value of the method I have discovered. I invite the careful investigation of any person who sincerely desires to be cured. I cure Rupture, in selected cases, with perfect safety, and entail no suffering, and do not detain you from occupation under Written Guarantee. Many cases cured to stay cured by a few treatments.

PILES, FISTULA, RECTAL DISEASES.

These diseases are very common; most frequently found in persons of middle or advanced age; are exceedingly annoying, often very painful, and sometimes very dangerous, and frequently unfit one for pleasure or occupation. My treatment and successes are the result of years of experience; my treatment is kindly applied. I cure Piles without cutting. Some cases are cured by one or more treatments. If I do not cure your Piles, Fistula and other Rectal Diseases, my treatment does not cost you anything. Gentleness in treatment comes from treating many cases, so I guarantee a cure of Piles, Fistula, Fissures, Ulcers and all curable Rectal Diseases.

KIDNEY AND BLADDER DISEASES.

With these diseases you may have more complications than are presented by any other diseased organs. By my searching illumination of the bladder I determine accurately the diseases and by my microscopical examination and urinalysis, make sure of the condition of the kidneys, thus laying foundations for scientific treatment.

I OFFER A FREE CONSULTATION AND EXAMINATION.

Traffic Record.

ALL ROADS LEAD TO LOS ANGELES.

Fourth Transcontinental Line Heading This Way.

Entrance Via the California-Nevada Route.

Will Avoid Central Pacific's Heavy Grades.

Plans are being formulated for the entrance into this city of another transcontinental railroad.

Three direct lines now reach here, the Salt Lake route, the Santa Fe, and the Southern Pacific, from El Paso. The Southern Pacific route from Omaha and Kansas City to the Pacific Coast reaches Los Angeles by way of San Francisco.

The new direct line will be created by the completion of a standard gauge line from Hazen, Nev., on the Southern Pacific by way of Tonopah Junction and Owenyo, giving the north lines of the Harriman system a direct line here. This will be accomplished by standardizing the 144 miles of narrow gauge track between Minna and Owenyo, on the California-Nevada Railroad, which is part of the Southern Pacific system.

This line is standard gauge from Hazen to Minna, a distance of 129 miles, narrow gauge from Minna to Owenyo, and standard from Owenyo to Mojave, 144 miles. At Mojave connection is made with the valley lines of the Espee from San Francisco to Los Angeles.

The completion of the line from Hazen to Mojave as contemplated will not only give Los Angeles a direct line from the East, over the Harriman northern lines, but will furnish a route 130 miles shorter than the present route by way of San Francisco, besides avoiding the extremely heavy mountain grades at Truckee and over the Tehachapi range, which is always a vital consideration in expense of operation and the ability to make the fast schedules demanded in modern travel.

The Central Pacific has been incorporated to take over and operate the lines between Hazen and Mojave, and to do the necessary construction work to link with the new direct transcontinental lines to Los Angeles. The company is controlled by the Harriman interests.

In connection with the recent incorporation of the San Diego, Riverside & Los Angeles Railroad, definite announcement of the purpose of the company to build north from the southern city by way of Riverside to Los Angeles is expected.

LEMON CASE AGAIN.
HEARING HERE TODAY.

The lemon-rate fight is to be resumed today. The protracted controversy between the citrus growers and the railroads will be made the subject of a hearing before the United State Commerce Court, the inquiry being opened at 10 o'clock this morning in the Federal building.

Judge Julian W. Mack will conduct the hearing. T. J. Norton, general solicitor of the Santa Fe at Chicago, James Peabody, statistician of that company, C. W. Durbrow, of the Southern Pacific, are here for the hearing. A. S. Halstead will represent the Salt Lake route, and A. F. Call, the Citrus Protective League.

The railroads are the plaintiffs in the case, which is an application for a permanent injunction to prevent the government from enforcing the blanket rate of $1 a 100 pounds on lemons from California to all transcontinental territory.

The railroads were denied a temporary injunction in January and the $1 rate became operative February 25. The railroads now seek the restoration of the $1.15 rate.

SERVICE TO PANAMA.
FIRST STEAMER TODAY.

The City of Para, the first of the Pacific Mail steamers to make the port of Los Angeles on the regular schedule hereafter to be maintained, will arrive here this morning and will sail at noon for the canal zone.

The new service establishes the first direct connection between Los Angeles and Panama for passenger traffic, although freight service has been long in use. The Pacific Mail Steamship Company will have a passenger ship for the South on the 17th of each month, the Pennsylvania alternating with the City of Para.

The City of Para has 100 passengers from the North, and will take on twenty-five more at Los Angeles. There is also a big freight cargo to be taken on here, including 200 tons of tallow for Marseilles, France.

On the Wing.

T. L. Larke, passenger agent for the Pacific Coast for the American, Red Star and other steamship lines, is here from San Francisco.

H. M. Lewis, assistant general passenger agent for the Minneapolis, St. Paul and Sault Ste. Marie Railroad at St. Paul, is in Los Angeles.

John Sebastian, vice-president in charge of traffic, and J. A. Stewart, general passenger agent of the Rock Island Railroad, are here from the East on a tour of inspection of the Pacific Coast. They arrived yesterday in the company of F. W. Thompson, representative of the company at San Francisco.

W. J. Black, passenger traffic manager of the Santa Fe, left for his headquarters in Chicago yesterday. He will be accompanied as far as the Grand Canyon by J. J. Byrne, assistant passenger traffic manager at Los Angeles.

Delegates Are Coming.

Two carloads of delegates to the national meeting of the Poster Advertising Association to be held in Portland, are expected to arrive in Los Angeles over the Santa Fe on Saturday.

HARMONY BETWEEN CITIES.

Several former San Francisco men met at Levy's yesterday at luncheon to form the San Francisco Lunch Club. The club proposes to meet Wednesdays and its purpose is to promote harmony and community of interest between the two large California cities. At yesterday's luncheon were Dr. C. W. Hibbard, F. V. Owen, A. G. Hemming, Norton C. Wells, William H. Vatcher and Thomas D. Broyn. Information as to the club may be had of Mr. Brown at No. 911 Trust and Savings building.

Have You Seen Him?

This is Charles D. Lewis of this city, who disappeared more than a month ago and of whom no trace can be found.

WHERE IS HE NOW?

Foreman of Orange Pickers Goes and Does not Return—Wife Fears He Has Been Done Away With.

After kissing his wife good-by and promising to return March 1 from San Dimas, where he had accepted a position as foreman of a gang of orange pickers, Charles D. Lewis, 52 years old, living at No. 645 South Clarence street, disappeared. He was last seen in a store at Third and Main streets, on the afternoon of February 10.

Mrs. Lewis, who is left with the care of six small children, fears foul play and has appealed to the police to aid in the search for her husband. Friends of the family have scoured the neighborhood of San Dimas, but have been unable to locate him.

Lewis had been in Los Angeles only six months, having moved here from Riverside county. He had about $6 in cash and carried his working clothes in a suitcase when he left.

According to the wife, he was a man of temperate habits and when absent from home always wrote frequently.

COMMITTEE TO ASSIST.

South Pasadena Represented In Charter Convention—Also To Aid Mail Clerks.

SOUTH PASADENA, March 20.—The Chamber of Commerce directors have appointed J. D. Reavis, Jonathan Dodge and D. S. Gates to attend the county charter convention, to be held Thursday on call of the Los Angeles Chamber of Commerce to nominate fifteen freeholders to be elected at the primaries May 14 to draft a charter for Los Angeles county.

The resignations of W. L. Cox and C. W. Sears as directors of the Chamber have been accepted, and Supervisor R. W. Pridham and Jonathan S. Dodge, president of the First National Bank, were appointed to fill the vacancies.

Another committee has also been appointed, consisting of Prof. George C. Bush, N. Ledgerwood, E. E. Thompson and W. B. B. Taylor, to confer with a like committee from the Women's Improvement Association to arrange for a "clean-up" day for South Pasadena, the two committees to set the date.

A resolution has been adopted recommending that railway mail clerks be given an expense account while they are absent from home and an increase in salaries, and the use of standard steel mail cars for the protection of the mail clerks from accident and robbery, and a through trans-continental mail train from Los Angeles to the Atlantic Coast for rapid mail service. This resolution is to be forwarded to Congressman Stephens representing this district.

Miss Anna Beckley told the Woman's Improvement Association of the "Wild Flowers of California," this afternoon, the lecture being illustrated by a pressed wild flower exhibit. Miss Mary Mann Miller spoke of "Birds of California," Mrs. E. E. Washburn commented on current events, and Mrs. E. L. B. Godfrey was hostess for the afternoon.

The Association has decided upon April 17 as the date for holding their annual banquet, and it will be at Hotel Raymond. The committee having the event in charge is arranging a fine programme of toasts, and the hotel orchestra will play during the evening.

MEXICAN BOUND OVER.

Denies Killing of Countryman Though Circumstantial Evidence Seems Strong.

REDONDO BEACH, March 20.—Consuelo Negrete, a Mexican, charged with the murder of Petronilio Torres, after a preliminary hearing this morning before Judge L. F. Wells, was bound over to the Superior Court without bail. As he could neither speak nor understand English the trial was conducted through an interpreter.

Torres was found dead with seven bullet holes in him March 11, in a field of barley about two miles east of Clifton. Soon after, Negrete was arrested in his little cabin on the Vetter ranch. At that time had in his possession a .41 Colts' revolver. Cartridge shells from a .41 revolver were found near the dead man's body and foot-tracks about the body fitted Negrete's shoes.

Negrete denies knowledge of the shooting and no reason has been learned for the murder. Torres, who had been working on the wharf earlier in the day, was evidently killed while asleep as he had a pipe in his hand and one of the bullet holes was in the top of his head.

Joseph W. Weishons, aged 62 years, died this morning at his home on Catalina avenue, from cancer of the stomach. He was a native of Pennsylvania and a retired miller. The body will be buried at Inglewood cemetery tomorrow.

The Woman's Progressive League will meet Friday afternoon at 3 o'clock in the City Hall when Miss Converse will address the members. An instruction and demonstration of balloting will be given.

HE'LL APPEAR NOW.

Arthur West, who neglected to appear in Judge Monroe's court in a divorce action, was arrested in Santa Barbara yesterday. He will be taken into Department Six to show cause why he should not be punished for contempt

Meritorious.

UPLAND WOMAN WINS CONTEST.

Gets Prize in Advertising Answer Competition.

Bullock's Ad Declared Best in "Times" Fashion Number.

Four Other Prizes Made from Numerous Letters.

Bullock's advertisement in the Fashion Show Number of The Times, March 14, was selected as the best by Mrs. John D. Howe of Upland, whose letter was decided upon by the committee, as best covering the points according to the rules of the prize contest, instituted by The Times to attract attention to the advertising in this special edition.

R. W. Allison of 1353 West Thirtieth street, Los Angeles, wrote the second best essay, according to the judgment of the committee. Mr. Allison averred that Hamburger's advertisement was best in its manner of covering all the points in demand.

Lloyd L. Staggers, No. 311 East Fourth street, city, saw in Coulter's display of printer's ink, the ideal setting forth of merchandise.

Florence A. Reily, No. 1257 West Eighth street, voted for Bullock's.

Mrs. Nathan P. Bailey, Melrose avenue and Gower street, stated in her answer that she believed Hamburger's to have made the strongest appeal to readers of advertising.

The Times readers had scarcely finished their breakfast on the morning of the grand opening of the Fashion Show before they began sending in letters as to which of the many display advertisements in the special Fashion Show Edition made to them the strongest appeal in the ways mentioned in the rules of the contest. From that hour until the last one before the close of the contest, the mails were filled with letters addressed to The Times Fashion Editor.

When on Tuesday morning the committee met to pass upon the prize winners, they were confronted with no small task.

Hundreds and hundreds of letters lay before them, and moreover, so many of those letters were so good, that it was difficult to select from among them the first, to say nothing of the second, third, fourth and fifth.

While, as a rule, the writers adhered quite closely to a discussion of the points set forth as those for consideration, there were some who wandered far afield, and of course, no matter how excellent such answers they were by their own construction, precluded from consideration.

The points considered were: First—The artistic standpoint. Second—Logic in text. Third—Directness of appeal.

To the writer of the essay which, according to the decision of the committee, chosen from the high-class advertising agencies of the city—and in no way connected with the advertising writers or managers of the stores—best covered all the points called for in the rules of the contest, a first prize of $20 was presented; to the second selection, a second prize of $12.50; to the third, $10; to the fourth, $5; and to the fifth, $2.50.

The letter decided upon as the winner of first prize is herewith given.

THE LETTER.

UPLAND, March 16.—[Fashion Editor, Los Angeles Times:] Dear Sir: The Bullock advertisement was the most attractive in your Fashion Edition.

My attention was at once called to this advertisement by the exceptionally fine drawing of an appropriate subject: one that appealed to me, and the catch lines "Visions in White" and "Fashion's Dreams" held my eye.

I observed that the beautiful illustration in its fine detail was pleasing and perfectly balanced to the rest of the advertisement. At this point I was struck by the easy reading type used; it was such a clean-looking advertisement, the splendid effect of the whole thing evidently produced by the white space employed.

The explanation of what it was all about followed in a smooth, logical, human appeal to the women of the Southwest and I knew it was intended for me, so I continued to read. I was interested.

When I had finished I found a strong desire to see the exhibit had been created, and I am persuaded to go to the city.

I bought some merchandise and so the advertisement fulfilled its mission in my case.

I liked the illustration. The advertisement was easy to read. The simple, yet convincing, style employed carried a strong argument; I must not miss the unique inducement of "the great chorus of canaries."

I was persuaded in a dignified way and really wanted to go, because I knew there was no misrepresentation; that Bullock's had actually gone to big expenses to interest me, and that I was welcome.

I felt that the advertisement was intended for me, and it was. Yours truly, MRS. JOHN D. HOWE.

The sixth paragraph of this letter was the point upon which the judges seemed to hinge their decision: "I bought some merchandise, and so the advertisement fulfilled its mission in my case."

Since, as everyone will concede, it is the mission of advertising to bring tangible results, this point is well taken.

SECOND PRIZE.

The salient points of superiority in the winner of the second prize lay in its conciseness and in the pointed manner of its statement. The writer divided his essay into three parts under the headings: "Attention Power," "Interest Power" and "Convincing Power." Under "attention power" he grouped the setting, composing and arrangement of figure, background and text, with liberal space, carrying character and dignity, and thus distinguishing from the commonplace. Under "interest power" he laid stress upon the earnest invitation to visit, which he declared pervades the readily decipherable and correctly brief text, and a still further interest created by the impression of the great scope of the house which can supply all features of proper dress to supply any need. Under "convincing power" he called attention to the tone of honest endeavor to please and satisfy, which, as he says, carries a conviction of safety to the buyer.

THIRD PRIZE.

The winner of the third prize made a point, in his essay, of the adaptation of the Fashion Show poster as the chief illustration in Coulter's advertisement, thereby giving that establishment a valuable connection with that event. Commending still further, the artistic appearance of the advertisement, he continued his commendation into the text, where, as he stated, the description, although elaborate, is not verbose, and combines style news and merchandise values—unobtrusively priced—in a manner that must have brought direct as well as cumulative returns.

FOURTH PRIZE.

The essayist who carried away the fourth prize brought out strongly the feeling which pervades the advertisement that "at Bullock's a gracious host extends a hospitable invitation which it will be well to accept."

The winner of the fifth prize waxed enthusiastic over the Hamburger advertisement, especially with regard to "its artistic harmony of drawing and text, and the clear, concise statements, short sentences replete with information," and the fact that "He who runs may read the answer to many perplexing questions which quickly arise—in the one word—Hamburger's."

While it is sometimes easy to decide as to the letter or essay first in excellence, it becomes more difficult to narrow the matter down to further choice and the committee found it so in this case.

There is always a tendency to allow the mind to be lured away from the main and in fact the only points to be considered, when the letter or essay under consideration shows many points of interest and excellence quite aside from those demanded.

That this committee, trained judges of advertising though they were, found this true, there is no doubt.

For instance, there was the Man's Point of View, presented in verse, as follows:

THE POINT OF VIEW.

She said the gowns were "simply fine,"
My little wife, Marie,
When we went strolling down the row
Of windows trimmed for Fashion Show,
And clapped her hands in glee;
(I only know the price-marks leered
At me in manner wild and weird.)

She said the lingerie was "swell,"
My little wife, Marie.
How she enthused about the things!
All made of ribbons, lace and strings.
And placed for all to see;
(I only knew the price-marks seemed
Like monsters grim of which I'd dreamed.)

She said the hats were "Works of Art,"
My little wife, Marie,
And raved about the shape and style
Of each beribboned velvet tile,
From London and Paree;
(I only know the price-marks grim
Made my poor eyes with tears grow dim.)

JAMES C. THRELFALL.

Delicious, as any reader must admit, but—wide of the mark, and so ineligible, of course.

Then there was the Irish poem. You can just see Pat being dragged down Broadway by his persuasive, blarneying wife, on the evening of the opening of the Fashion Show! But, alas! the writer said "niver a wurrud" upon some of the vital points called for in an analysis of the advertisement.

But here is the poem: enjoy it yourself, as did the judges of the contest.

THE IRISH POEM.

This is by Mrs. T. A. Wicks, Mayfair, No. 40 St. James Park.

"Now Patrick—done wid wurrk!
On Broadway, ind the day!
Ye're duty ye'll not shirrk—
Of must see the dishplay!

"Ol've read The Toimes an' know
What Ol'll see on Broadway;
'Twill be the foinest show—
Ol'll tell ye what they say!

"Some, prices hitch to wurrds—
Some, Frinch words Oi can't rade—
Some mentions spring-toime, birrds—
Much, wan forgits, indade.

"Some garments suit the toime
Whin ye'll be Mayor, dear,
Of Oirish laces foine,
Wid flowers feshtoonin' rear!

"But wan plain ad. just says
'White dresses, dreams in white'—
'Tis Bullock's and Oi guess
We'll buy was there, tonight!"

THE JUDGES.

The judges of the contest were: C. V. Barton of the Barton Advertising Agency, A. C. Smith of the Newitt's Agency, F. J. Baum of the Baum-Miner Advertising Agency, A. W. Holmes of the Holmes Advertising Agency, J. D. Cassatt of the Schumann-Cassatt Corporation, A. H. Clarke of the H. W. Clough Advertising Agency.

DELICATELY FORMED

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the one simple, wholesome laxative remedy which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that true delicacy of flavor which is so refreshing to the taste, that warming and grateful toning to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is desired.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only; price fifty cents per bottle

Tightens Her Skin—Loses Her Wrinkles

(From Social Mirror.)

"I want to tell you how easily I got rid of my wrinkles," writes Luella Marsh. "While in London a friend, much envied because of her youthful looks, gave me a formula for a home-made preparation which has the effect of instantly tightening the skin, thus smoothing out wrinkles and furrows.

"The principal ingredient is powdered saxolite, which can be had at drug stores here. An ounce of saxolite is dissolved in a half pint witch hazel. After bathing my face in this but once the transformation was so marvelous I looked years younger. Even the deep crow's feet were affected, and the annoying creases about my neck. It seems difficult to believe anything could produce such results. Several to whom I recommended the recipe have been similarly helped, one an elderly lady whose cheeks had become quite baggy."

Beautiful Diamond Pieces

The real value of this store to this community has never been so conspicuously emphasized as in the present unusual showing of new diamond creations.

There are but few cities in this country in which a jewelry showing such as we present can be found. All that is new, correct and fashionable in diamond jewelry is here—the new flexible diamond paved bracelets—the new flexible finger rings, closely set with perfect diamonds—the beautiful new combination pendants, watches, and lockets with interchangeable colored enamels.

We cordially invite you to come and see the many exquisite and unusual diamond pieces we show.

THE EQUITABLE
LIFE ASSURANCE SOCIETY OF THE U. S.

165 BROADWAY, NEW YORK.

The 52nd Annual Report of the Equitable Society, embodying its *Financial Statement*, and full details regarding its progress during the year 1911, will be sent to any address on application.

This Statement shows that the interest rate is higher and the expense rate lower than for the previous year. Increases are shown in Premium Income, Total Income and other important items including the following:

		Increase
ASSETS, DECEMBER 31, 1911	$ 506,416,814	$11,709,291
POLICY FUND (OR RESERVE) $411,166,221 AND OTHER LIABILITIES 9,492,304	419,658,525	10,038,391
SURPLUS (INCLUDING DEFERRED-DIVIDEND FUND)	86,757,989	1,662,900
NEW INSURANCE, 1911	125,053,698	13,573,572
OUTSTANDING INSURANCE DECEMBER 31, 1911	1,375,441,480	28,282,788
PAID TO POLICYHOLDERS IN 1911	54,921,301	3,088,786
REFUNDS (OR DIVIDENDS) TO POLICYHOLDERS 1911	12,387,227	1,792,076

Of the Society's domestic Death Claims paid during the year nearly 99% were paid *within 24 hours* after receipt of complete "proofs of death."

Its policies are simple, direct, and liberal, and are issued in great variety, for the protection of individuals, families, partners, corporations, and the employés of business organizations. Particulars will be sent on request.

Old Time Sanitation.

PLUMBING OF THE ANCIENTS

TERRA COTTA PIPES IN PALACE OF CRETAN KING.

Discoveries Show That Sanitary Conditions Were Carefully Taken Care of by the Plumbers of Three Thousand Years Ago—Believed "Labyrinth" Has Been Discovered.

[Chicago Record Herald:] In the Rev. James Baikie's new book "The Sea Kings of Crete," there is an interesting account of the sanitary sewers and drains in the palace of Broad Knossos. He says in part:

"In the northeastern quarter, under the corridor of the game board, are still preserved some of the terra cotta pipes which served as connections to the main drain. They are actually faucet jointed pipes of quite modern type, each section two and a half feet in length and six inches in diameter at the wide end, narrowing to four inches at the small end. Jamming was carefully prevented by a stop ridge that ran round the outside of each narrow end a few inches from the mouth, while the inside of the butt, or broader end, was provided with a raised collar that enabled it to bear the pressure of the next pipe's stop ridge and gave an extra hold for the cement that bound the two pipes together.

"Indeed, the hydraulic science of the Minoan architects is altogether wonderful in the completeness with which it provided for even the smallest detail. On the staircase near the east bastion, on the lower part of the slope, a stone runnel for carrying off the surface water follows the line of the steps. Lest the steepness of the gradient should allow the water to descend too rapidly and flood the pavement below, the runnel is so constructed that the water follows a series of parabolic curves and the rapidity of its fall is thus checked by friction.

"The main drains are duly provided with manholes for inspection, and 'are so roomy,' says Dr. Evans, 'that two of my Cretan workmen spent days within them clearing out the accumulated earth and rubble without physical inconvenience.' Those who remember the many extant descriptions of the sanitary arrangements, or rather, the want of sanitary arrangements, in such a town as the Edinburg of the end of the eighteenth century, will best appreciate the care and forethought with which the Minoan architects, more than 3000 years earlier, had provided for the sanitation of the great palace of Minos.

"Turning from the material to the spiritual, evidence as to the religious conceptions of the inhabitants of the palace was forthcoming. In one earlier chamber, along with the usual 'horns of consecration' and sacred double axes, were found three figures of a goddess of very archaic form on the head of one of which there was also perched a dove.

"The double axes in the shrine emphasized the importance in the palace worship of the Labrys, and undoubtedly lined the suggestion that the palace of Knosses is nothing more nor less than the legendary labyrinth of Minos. That the "Labrys" symbol should be the distinguishing cult sign of the Minoan palace makes it more and more probable that we must, in fact, recognise in this vast building with its maze of corridors and chambers and its net-work of subterranean ducts, the local habitation and name of the traditional 'Labyrinth.'"

NEW YORK'S SCHOOLS.

Over Thirty-six Millions Annually Paid in Salaries to Teachers of Million and a Half Pupils.

[New York Globe:] New York State spends somewhere between seventy million and eighty million dollars a year on education. (The figure for 1910 was $72,520,855.) The annual report of Dr. Draper, State Commissioner of Education, just issued for 1910-11 shows that during the twelve months $53,328,139 of the total went for the public school system. This was an increase of $2,662,607 over the previous year. The expenditure on public schools in 1895 was $820,614.

There were on the pay roll last year 46,366 teachers, 40,280 of whom were women. Their salaries amounted to $36,169,820, an average for each teacher of $823.86. In 1895 the average annual salary was but $484. There were eighty less men teachers and 646 more women teachers than during 1909-10. The increase in the salary list over the previous year amounted to $1,368,207. The number of pupils in attendance was 1,436,2[illegible] last year, an increase of 18,923 over 1909-10. The total of pupils in the public schools ten years ago (1901) was 1,242,416. There were 12,[illegible] schoolhouses in use in 1910-11, an increase of twenty-seven over the previous year.

RADIUM IN ARKANSAS.

State Geologist Describes Its Discovery and the Use of the Mineral in Production of a Photograph.

[Nashville Democrat:] Hot Springs and many others of Arkansas may be highly supplied with radium, the wonderful mineral scientists have been spending earnest energies during the past two decades, according to Dr. A. H. Purdue, noted Tennessee State Geologist, former with the University of Arkansas, Fayetteville. The announcement that gems of minerals has been discovered in springs, lakes and caves in Arkansas was made about two weeks ago, just before Dr. Purdue came to Nashville. The investigations being carried on have not brought definite results, and so far it is not known how valuable the discovery is.

Only a few grains of the mineral have ever been discovered, and probably not more than half a hundred persons ever saw the actual radium [illegible] bits of it have been found combined with other minerals in Cornwall, England, and one or two others, but even in their fondest dreams the men giving the mineral study have never dared to hope for any quantity of it.

Dr. Purdue said: "That wonderful substance has really been found in Arkansas, but so far I can say what the discovery will amount to. Even if only a few grains are [illegible] being gathered the work of testing them will be infinite compared to the worth of the mineral. A Mr. Leib of Bentonville, Ark., brought a photograph, a remarkable one indeed, to me just before I left which had been taken in a perfectly dark room. A cigar box, [illegible] gathered from a cave near town, tied with a string, was photographed after being exposed [illegible] for about ten hours. [illegible] whatever was let in the room except the fact that the picture of the

NEW YORK'S SCHOOLS.

Over Thirty-six Millions Annually Paid in Salaries to Teachers of a Million and a Half Pupils.

[New York Globe:] New York city spends somewhere between seventy million and eighty million dollars a year on education. (The figure for 1910 was $72,520,858.) The annual report of Dr. Draper, State Commissioner of Education, just issued, for 1910-11 shows that during that twelve months $53,328,139 of the total went for the public school system. This was an increase of $2,662,607 over the previous year. The expenditures for public schools in 1895 was $320,-

There were on the pay roll last year 31,[illegible] teachers, 40,280 of whom were women. Their salaries amounted to $30,810,810, an average for each teacher of $[illegible]. In 1895 the average annual salary was but $464. There were eighty less men teachers and 1,[illegible] more women teachers than during 1910-11. The increase in the latter year over the previous year was $1,348,207. The number of pupils in attendance was 1,436,220 last year, an increase of 18,923 over 1910. The total of pupils in the public schools ten years ago (1901) was 1,342,416. There were 12,094 school houses in use in 1910-11, an increase of twenty-seven over the previous year.

FARMING IN ARKANSAS.

State Geologist Describes Its Discovery and the Use of the Mineral in Production of a Photograph.

[Little Rock Democrat:] Hot Springs and many others of Arkansas may be supplied with radium, the world's most mineral scientists have been making earnest energies in the past two decades, according to Dr. A. H. Purdue, now United States Geologist, formerly with the University of Arkansas, at Fayetteville. The announcement that large deposits of minerals has been discovered in hot springs, lakes and caves of Arkansas was made about two weeks ago before Dr. Purdue came to Washington. The investigations being made have not brought definite results so far it is not known how valuable the discovery is. Only a few grains of the mineral have been discovered, and probably more than half a hundred people saw the actual radium. Some of it have been found combined with other minerals in Cornwall, England, and one or two other places, even in their fondest dreams has the man giving the mineral ever have never dared to hope for the quantity of it.

Dr. Purdue said: "That wonderful substance has really been found in Arkansas, but so far I can't say what the discovery will amount to. Even if only a few grains are found, the work of gathering them will be infinite compared with the worth of the mineral. Mr. Loh of Bentonville, Ark., has a photograph, a remarkable picture, which was sent to me just before I left Little Rock, and had been taken in an old cotton gin room. A cigar box was suspended from a cave near Bentonville by a string, was taken out after being exposed to the air about ten hours. No artificial light was let in the room, and when the picture of the box, as well as the string tied around it and the knots of the string, were plainly and perfectly reproduced on the sensitive plate in the camera. Had radium not been in the mineral the camera plate would not have been changed in any manner, as the photograph was produced by the rays of light from the power confined in the few rocks.

"In all probability the field containing the radium not only included northwest Arkansas, but sections of Missouri and Oklahoma, as the geology of parts of those States is the same as that of Arkansas."

FARMING FOR INEBRIATES.

An Industrial Method to be Established near Atlanta for the Cure of Drunkenness as a Disease.

[Atlanta Constitution:] The plan of the Atlanta Associated Charities, advanced at its recent annual meeting, to establish a farm near Atlanta for the treatment of inebriety is a thoroughly practical one and is likely to receive the indorsement both of city and county authorities. In several other American municipalities they have tried the system, and it has amply demonstrated its efficiency. New York City is now contemplating a farm cure for habitual drunkards on a scale yet unapproached in this country.

The treatment of inebriety as a disease rather than as a crime is the twentieth-century principle back of the proposed local institution. The reasoning of the old days condemned the drunkard as a willful wrongdoer in like manner with the person of unsound mind—and subjected both to such drastic penalties as aggravated rather than lightened their condition and the probability of recovery.

We have since learned that with the inebriate more especially the habit has more a physical than a moral basis, though it may be contracted by the first thoughtless yielding to the convivial instinct. Given the proper surroundings—fresh air, healthful occupation, cheerful companionship and medical attention where it is needed—the inebriate in a large percentage of cases is returned to the normal condition and becomes a support to his family and a contributor to society rather than a drain upon both.

THE SOUTH POLE.

Even If It Be Discovered Scientists Will Have a Plenty to Do Regarding That Part of the World.

[Scribner's:] We will look forward to hearing what wonderful news the spring will bring us from the South, says Fridtjof Nansen. Whatever that news may be, the task of Polar explorers will be far from ended. It will only have entered on a new stage. I shall be glad to hear that the South Pole has been reached, whoever gets there. The farthest south and the farthest north points on the earth's surface will then both have been attained. There will be no more temptation to make other objects subservient to record-breaking. I do not disparage the sentiment which has led men to try to reach the Poles. It is a natural sentiment. It is inevitable that it should have played a large part in polar exploration. But now the time has come to give first place to the needs of science.

Much remains to be discovered geographically in the polar regions, especially in the South; and geographical discovery—the actual unveiling of the geographical conditions, as opposed to more or less ingenious speculation—must be the basis of all sound knowledge of the polar regions, as of every other part of the world. It is not the completed structure. It is the foundation on which to erect careful investigations into phenomena that play an important part in determining the life of the outside world.

Problems in meteorology, in terrestrial magnetism, in the flow of ocean currents, in the physical history of the earth, problems of practical moment as well as of scientific interest, depend for their solution on a fuller and more accurate knowledge of the conditions which are still the secret of polar lands and seas. No—the conquest of the Poles does not mark the end of polar exploration; we are only on the fringe of the work which has to be accomplished.

In looking to the future, we find a valuable subject for consideration in the equipment of polar expeditions and the possibilities of improving on past experience. If it be true of warfare that the battle is half won before it begins, it is no less true of polar expeditions that their success is determined very largely by the preparations made before they start.

TO DETERMINE VALIDITY.

Suit to Test Legality of Santa Ana School Bonds Reaches Court of Appeal—Carry by Large Majority.

The convention regarding the legality of the bond issue proposed in Santa Ana for the erection of a Polytechnic High School and a common school building has reached the District Court of Appeal.

The voters of Santa Ana recently voted an issue of $200,000 bonds for the erection of a Polytechnic High School building and a common school building, to cost $200,000, and T. B. Talbert, chairman of the Board of Supervisors of Orange county, refused to sign the bond issue, charging irregularities in the election.

A petition was filed yesterday in the District Court of Appeal praying for a mandate compelling Talbert to sign the bonds, and the matter will be argued next Monday.

It is understood that the suit is a friendly one, in order to place the bond issue on a firm legal basis, with no chance for future dispute or trouble, and to clear up any cloud that might rest on the proposed issue. There was but little if any opposition to the bonds among the voters of Santa Ana, but a question arose as to whether the ballots legally stated the various proposals that were voted on and approved by a large majority.

LARGE SUBDIVISIONS.

Santa Monica Real Estate Booming and Contracts Are Let for New Home Sites.

SANTA MONICA, March 20.—Santa Monica's lima bean acreage will suffer material reduction this season through the conversion of many fertile acres lying on the mesa in the northeastern part of the city into home sites. This development will mark the first home-building operations east of Seventh street and north of Nevada.

Already the surveys are being made and within a few days extensive operations will be under way. One private contract involving an outlay of $48,000 for street grading and paving and for concrete walks and curbs, has been let to J. D. Kneen by J. J. Davis, who has laid out a new Palisades tract.

Coincident with these improvements the tract will be equipped with sewer and water mains. The Bundy, Ethylwyn Manor, Chelsea Green and several other tracts in the eastern portion of the city are also to be improved at once. The erection of a large number of handsome homes is only awaiting the completion of the

Annandale Tourney.

GENTLEMAN FROM JERSEY OUT-PUTTS CHAMPION.

BY ALMA WHITAKER.

TODAY'S GOLF.

Annandale Country Club—Invitation tournament: Semi-finals, morning and afternoon.

Los Angeles Country Club—10 a.m., finals for championship, Mrs. Kennett and Mrs. Van Dyke; 1 p.m., eighteen-hole match play against bogey California Women's Golf Association.

The outstanding feature of the day at the Men's Invitation Tournament at Annandale was the defeat of E. S. Armstrong, the champion, by F. H. Upton of New Jersey in the first round match play of the tournament.

It was a closely contested match from start to finish, twice did Upton have Armstrong 2 down and twice the champion covered his ground. But the putting of Mr. Upton was a deadly affair and his driving in every case was a matter of successful calculation. Mr. Upton is a comparative stranger to Californian golf, but he is evidently very intimate with his own style and capacity of play, for, throughout, his game was conspicious for its judgment. The weakest part of his play was in the approach, in which department Armstrong was also poor. The elusive putt also dogged Armstrong's steps yesterday, but by sheer perseverance he carried the game to the last hole, where he was defeated by a putt.

It made us wonder what sort of fate the Rev. W. H. Cornett would meet when he played Mr. Upton in the second round, but discretion proved the better part of valor and Upton wins by default.

The other first round matches were those between McLaughlin and Armine Brand, the former winning by 6 up and 5; Jewett defeating E. P. Gates by 2 and 1; Braly defeating Hixon by 3 and; Cornett defeating Cady by 5 and 4; and Rober Hunter E. R. Williams and E. N. Wright, all came through by default, Macbeth, Edwards and Bradford of the Los Angeles Country Club being unable to attend.

The second rounds saw McLaughlin defeat Jewett by 6 and 5, and, sad to relate, the conquest of Arthur Braly by Robert Hunter by 4 up 2. When we saw Mr. Braly praticing industriously for over half an hour behind the caddie house, we felt there was moething in the wind. Robert Hunter is a well known golfer of established reputation, and his match today with McLaughlin, who is playing a finer game than ever before, will be watched with keen interest.

E. R. Williams defeated E. N. Wright by 3 and 1, which leaves Mr. William to wrestle with the formidable Upton today in the third round.

THE SECOND FLIGHT.

In the second flight matches, Patton defeated Ormsby by 6 and 5, N. W. Williams defeated Horner by 2 up and 1, Joseph Ball came through by default, Chaffee defeated H. L. Thompson by 2 up, A. A. French defeated Lincoln Clark by 6 and 5, Lockwood came through by default, Stanton came through by default, and Graves defeated Truett by 2 up and 1.

In the second round N. W. Williams defeated Paton by 3 and 1. The match between A. A. French and E. H. Lockwood was a good one and resulted in the win of the former by 1 up. Graves and Stanton also had a good close match in which the former won by 2 up.

THE THIRD FLIGHT.

In the third flight Mears of Santa Barbara defeated J. P. Graves by 5 and 4 and was then himself defeated by Conde Jones of San Gabriel by 4 and 3. Mr. Jones had previously accounted for F. G. Allen by 5 up and 3, and had announced himself as too dreadfully tired to beat the veriest dub. All the same, if you please, Conde Jones, formerly a golfer of considerable repute, has come back to form. For four years he and golf were strangers, and for the past few months he did not exactly call for banner headlines in the Pink Sheet. But yesterday things were different.

Although he had played 54 holes on the previous day—and probably went to bed late, as is the way with "invitation" golfers, he nevertheless went out in a splendid 38—6, 4, 4, 4, 5, 5, 3, 3, 4. His match finished at the sixteenth but till then his figures were 3, 7, 3, 3, 5, 4—25 for the six holes. So that is good news for San Gabriel, since he is a member of the team that goes up to attack Redlands and Riverside on their own links next week.

The match between A. S. French and A. J. Agnew was another well-contested one, French winning by 1 up, after defeating G. G. Gatch by 3 and 1 in the first round. Agnew had previously accounted for Mr. Newby by 2 up and 1.

F. Wilson defeated Mr. Gilchrist by 6 and 5 in the first round and then played Leistikow, who had come through by default, winning his match by 3 and 1.

Mr. Beekman and C. S. Byington, who both came through by default, met in the second round, the latter winning by 3 up and 1.

THE FOURTH FLIGHT.

The first round saw G. A. Weber defeat Wing by 3 and 2, and then being himself beaten by Winegar 3 up and 2, the latter having come through by default. C. K. Alley and Cotton met in the second round, the latter winning by 1 up. Crosby and Taylor also met in the second round, having drawn byes in the first. Crosby proving the victor by 3 up. Potter of Santa Barbara defeated Scott in the first round by 2 and 1, and then accounted for Mr. McKee by 7 and 6.

Today the semi-final matches will be played off and the finals are set for Friday. The mixed foursomes have been discarded, as they conflict with the various women's events at the other clubs.

PERMANENT IMPROVEMENTS.

Plans have already been accepted for a number of these and for others the designs are now being drawn.

Frank Stewart has been appointed to occupy a chair with Mayor Dow's cabinet of advisers and Superior Judge G. H. Hutton has been appointed to membership on the Water Commission, whose duty it will be to investigate the Owens River aqueduct question to determine upon what basis Santa Monica may be able to secure an adequate supply of the water.

THE EARTH'S GREAT AGE.

A French Scientist Figures that Our Globe Is a Billion of Years Old—The Sun Is Much Younger.

[New York Times:] What is the age of the earth? An answer to this question, which has baffled human intellect since the beginning of thought, was attempted in a lecture given last week before the Paris Astronomical Society by M. Jean Boeler, one of the most distinguished scientists of Europe. After running over the older methods of attacking the problem, based on the deposit of sediment in river beds and the saltiness of the sea, and showing that the results of these dated the origin of the globe not less than 100,000,000 years ago, M. Bosler made statements of the greatest scientific importance based on the evidence of radioactivity in rocks.

He pointed out that if uranium, for instance, gives out helium at a speed which can be determined, the presence of these two elements in the same rock gives the latter's age as soon as the relative quantity of each is measured. Investigating along these lines, it has been calculated that a specimen of primary igneous rock examined in the Paris laboratories originated as far back as 710,000,000 years ago.

Another series of investigations which has been utilized in attacking the problem is connected with the microscopic colored circles found imbedded in primitive granites and other rocks. These, which have for a long while received no explanation, prove to be the efflorescence of the "alpha" rays from minute specks of zirconium, and it is certain that millions of centuries have elapsed while the rays have been penetrating the surrounding rock. Altogether, the lecturer declared, we should be wrong in regarding the world as less than a thousand million years old.

In conclusion, M. Bosler dwelt on the light which these facts threw on the origin of the sun. If the solar heat is only due, as has been thought for the last twenty years, to the concentration of its mass, the sun cannot be more than 20,000,000 years old. But since this would make it an infant compared with the earth, its energy must have some other origin. But what? Whether radium, or the interior force of atoms, or some other source now undreamed of, remains, said the lecturer, one of the great mysteries of science which it may be reserved for our descendants to unveil. The address has caused considerable discussion in scientific circles.

Too Much June.

[New York Herald:] Mr. Attwill, City Clerk of Lynn, Mass., looked suspiciously at a young man who applied for a marriage licence, for he seemed to be able to say nothing except "June." The man gave his name as Albert June, said he was born in June, Fla., and asked for a licence to wed Ethel June Hadaway of Hudson Falls, N. Y. The wedding was to have taken place in June, but other arrangements had to be made.

PUBLIC ROADS OF NATION.

Over Two Million Miles in the Several States and Improved Methods of Construction Adopted.

[Christian Science Monitor:] Even with a high-powered automobile that could keep up a pace of ninety miles a day indefinitely, it would take a man more than sixty-five years to cover all the public roads in the United States. A young man of 20 starting out to accomplish this tremendous task would be 85 before he had covered the last mile of highway in this country.

After an investigation extending over many months, Logan W. Page director of the office of public roads, has ascertained that there are now 2,199,645 miles of public roads in the United States. The figures include all the new roads built up to the year 1899. In 1904 there were exactly 2,151,379. It is apparent, therefore, that the increased mileage of new roads within a period of about five years has been 48,266.

"The investigation just concluded," said Director Page in an interview, "shows conclusively that the movement for the improvement of public highways has obtained a firm grip on the country. The percentage of roads which were really improved, amounted to 7.14 in 1904, while in 1909, to which year statistics are now available, was 8.66.

"It is interesting to observe the growth of improved methods in road construction. For instance, the total mileage of stone roads in 1904 was 36,818, while in 1909 it was 59,227. The total mileage of gravel roads in 1904 was 109,905, while in 1909 it was only 102,870. This decrease in gravel roads, however, was due to a reclassification of roads. Many of those reported in 1904 to be of gravel proved to be of some other substance, while exaggerations were eliminated.

"The total mileage of sand-clay, brick, bituminous-macadam and other improved roads in 1904 was 6806, while in 1909 the mileage reached 23,372. The office of public roads has just issued a table showing the States having the largest mileage of improved roads:

	1904	1909.
Indiana	22,877	24,955
Ohio	23,460	24,106
New York	5,876	12,787
Wisconsin	10,633	10,167
Kentucky	9,486	10,114
Illinois	7,924	8,314
California	8,803	8,587
Massachusetts	7,843	8,463

BIG TAFT RALLY.

Riverside Republicans Praise President and Roast the Wielder of the Big Stick.

[BY DIRECT WIRE TO THE TIMES.]

RIVERSIDE, March 20.—[Exclusive Dispatch.] The Riverside County Taft Club was organized this afternoon at a meeting held in Grand Army Hall and attended by 100 representative men and women. The following officers were elected: President, L. C. Waite; vice-president, S. S. Patterson; secretary, Frank D. Lewis; treasurer, M. M. Milice; Finance Committee, W. B. Clancy, I. S. Logan and W. H. Robinson.

The chair was authorized to appoint a committee for the county containing representatives from each voting precinct. Hon. C. C. Chapman of Placentia, who has been taking an important part in the formation of Taft clubs throughout this section, was the principal speaker and he lauded the stand-pat Republicans, declaring the so-called progressives had better be called radicals and warning the people against aligning themselves with radicals.

The third term business was attacked in no uncertain terms by the speaker, who also declared that while Roosevelt waved his big stick about a great deal and did much talking, he made but seven prosecutions, while Taft, with no blare of trumpets, made seventy-eight prosecutions, among these being the Standard Oil trust, which was finally dissolved.

"If for no other reason he is worth honoring for taking that great forward movement toward peace. Anybody may be a pugilist and a fighter, but one who can end war is much greater. How can California stand for a party that disrupts its industries. The House has put lemons on the free list and that is where they will go. How can California expect support of her industries from the eastern protectionist, if we oppose the very measures they must obtain."

Others addressing the meeting were W. W. Hibbard, E. W. Holmes, S. S. Patterson, C. F. Streight, Harvey Potter and Frank A. Miller.

GOLD IS FOUND IN HARBOR JETTY.

[A. P. NIGHT NEWS REPORT.]

SAN DIEGO, March 20.—There was excitement at Ft. Rosecrans today when Sergt. Larsen of the garrison arrived in camp with two large pieces of gold bearing ore found on the jetty. The rock was crushed in a mortar and showed gold. When he made his discovery, Sergt. Larsen, with a squad of soldiers, was engaged in salvaging lumber which had been lost from a schooner.

It is said that for nearly 2000 feet the jetty is composed of much the same rock as that found by the artilleryman. It is at the entrance of the harbor and was completed many years ago with rock from quarries far in the interior.

UNDELIVERED TELEGRAMS.

There are undelivered telegrams at the Western Union office for: Miss Marian Bullard, Mrs. C. B. Hibbard, Mrs. Sadie Mong, Mrs. M. McClellan, Mrs. Helen Sarbor, Leo Ballenger, David Bullock, J. M. Cartwright, Loch Cole, J. S. Coleman, A. I. Darrow, E. B. Dutton Alex Eagleson, A. R. Ellert, F. Groshen, John Gardner, B. and M. Goldaman Company, George F. Heidel, Henry Licht, Baxter Lewis, E. L. Miller, F. W. Roberts, Frank Stagg, W. Sanderson, W. J. Stewart, J. E. White, A. G. Wilkes.

Chinese Cheerfulness.

[Brooklyn Eagle:] "Cheerful to the last" is written under a photograph which was recently taken in China. It shows ten Chinese rebels, all hobbled and chained, seated in a circle around a crude table on which stands a large oakhen pot. The manacled men have each a cup from which they are taking their last meal. When the photograph was taken the unfortunate ones were awaiting the call to the place of execution where they were beheaded. "See the faces," writes the sender of this remarkable picture, "and mark the expressions. There is no indication of fear and there are more smiles than scowls. But for the fetters the group might be mistaken for an athletic team waiting to 'go on.'"

Not Guilty—Get Out.

[San Francisco Chronicle:] The old-timer looked up from his rickey and asked:

"You think that story on Bill Simms is a good one, eh?"

"Good or bad, it's true."

"Well, so is this," said the old-timer, "and it happened down in Texas by the Rio Grande. I used to live down that way for a while, and in the village which I graced with my presence a certain old horse doctor was elected justice of the peace. What he didn't know about the law was sufficient. He knew nothing; he should have made an ideal justice of the peace.

"His first case, however, was that of a man arrested for stealing a horse.

"'Guilty or not guilty?' asked the justice.

"'Not guilty,' answered the prisoner.

"'Then what the deuce are you doing here?' demanded the justice of the peace. 'Get out!'"

A Long Family.

[Omaha Bee:] The birth of a son to Mr. and Mrs. Fred Schweigert of La Crosse, Wis., adds the fifth generation to the family of Mrs. Caroline Akerman of Elterysk. The great-great-grandmother of the child will celebrate her one hundredth birthday in February. Despite her age Mrs. Akerman is able to care for the poultry in her farm and is in good health.

How Is Your Weight?

While it is true that too much weight is not to be desired, yet the fact remains that many men and women are thin to the point of danger. This danger lies in their having no reserve force or nerve power to combat deadly diseases. A little extra flesh is needed by all to feel well and to look well, and this calls up the question of how best to increase the weight. Physicians and chemists, by experiments have solved the problem of increasing the white and red corpuscles of the blood by the administration of 3 grains hypo-nuclane tablets, and this is always followed by an increase of weight. Obtain in sealed packages, and take for a period of several months according to directions with package.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

Pasadena.

CHICKEN SHOW BEGINS TODAY.

Blue-blooded Fowls Placed on Exhibition.

Mattison Cannot Accept the Honor of Delegate.

Throwing of Dice Prohibited One Day of Week.

[Office of The Times, No. 83 S. Fair Oaks Ave.]

PASADENA, March 21.—Now that the blue-blooded dogs have had their inning, it is the chickens' turn to monopolize the spot-light in Pasadena. The first show of the Pasadena Poultry Association, to be given in twelve years will open this morning at No. 19 West Colorado street to continue the remainder of the week. Fowls from all parts of the State have been collected to make an unparalleled showing.

It was estimated last night by J. E. Pearson, superintendent of the show, that the aggregate value of birds already in exhibition coops, counting both chickens and pigeons, is $100,000, and more are to be taken to the place early this morning.

There are chickens on exhibition whose feathers are literally worth their weight in gold. W. S. Macy, of Santa Barbara, has a $5000 buff Orpington, which has traveled over much of the country and created a sensation wherever it went. Pearson has a black Orpington cock that he values at $2500. And there are a score of close competitors, when it comes to values and fine points.

And the pigeons hold their own. J. Brahton, of Los Angeles, has the most valuable one, a blue dragoon cock, which an even $100 will not buy. It is the winner of seven cups, besides many special prizes.

The judging of entries will begin today and continue through Saturday. There is not a chicken in the hall worth less than $5, and there are many that run far up into the hundreds. There are in all 500 chickens, representing practically every variety, and 300 pigeons.

UNABLE TO ACCEPT.

Dr. F. C. E. Mattison, who is one of the most enthusiastic Taft men in the city, and who has been asked by the Republican County Committee to become a candidate for the first delegate to the National Republican Convention ever to have gone from Pasadena, stated last night that, owing to other arrangements, he will probably be unable to accept the honor.

"I do not see how I can do it," he said. "I have made plans to attend several important medical conventions in the East, and I find that to go to the Republican convention in Chicago would seriously interfere with these arrangements. I am first, last and all the time for President Taft. But, interested as I am that he should be the Republican candidate for President, I cannot well neglect my medical duties, which come before politics. I do not see how I can possibly go."

FIGHT FOR DIGNITY.

What's in a name?

Property owners on McDonald street say that everything is in a name, especially when the thoroughfare they live on has always been known as a street, and now would become a mere alley, if they were to allow certain petitioners to the City Council to have their way. They have themselves presented a petition, which runs:

"As property owners along McDonald street, we protest against the Council's taking action toward making this thoroughfare an alley. It is fifty feet wide and as much entitled to the dignity of the name of a street as any in our beautiful city. All the lots front on McDonald street, that being their only means of entrance."

NEW FLAG STAFF PLANNED.

Library Park is soon to have a new ornament in the form of a handsome flag pole, which is to be a gift of local members of the Grand Army of the Republic. The first flag will probably be raised Memorial Day.

The pole will be set in a cement base, handsomely modeled, with a balustrade about it. It will bear the letters, "G.A.R.," while at the joint of the mast, which will be in two sections, will be inscribed "Liberty and Union."

GIVE FIRST ANNUAL BALL.

The first annual ball of Pasadena Lodge No. 643, L.O.O.M., was given last night at Maccabee Auditorium. The hall was brilliantly decorated in rose and there was a large attendance.

The lodge now has a membership of 150. The ball was a success and will be repeated annually.

NO MORE SUNDAY DICING.

No longer may purchasers of cigars shake dice at cigar stands in Pasadena on Sunday. An order prohibiting the practice on this one day of the week was issued yesterday by Chief of Police Wood.

The order resulted from numerous complaints which recently have been made to the police department. Chief Wood declares that arrests will result wherever the order is disobeyed.

CITY BRIEFS.

The first day of the spring opening of the Pasadena merchants brought many residents downtown yesterday afternoon and last night. Store windows were handsomely decorated and the streets were brilliantly lighted.

The Board of Education has received over 200 applications from school teachers in different parts of the United States who desire to make Pasadena their home.

Dr. George Holford Cowles, a leader in the Wesleyan Methodist Church, in Australia, and a student of political conditions in different countries, is a visitor in the city. He lectures tonight at the Young Men's Christian Association building.

News was received in the city yesterday that Ralph Owen, son of Mr. and Mrs. C. W. Owen, of No. 249 North Euclid avenue, is seriously ill in Arizona.

The programme for today's concert of the Pasadena Municipal Band at Central Park, follows: March, "Sounds of Peace" (Von Blon;) selection, "The Wizard of the Nile" (Herbert;) cornet solo, Will E. Bates; intermezzo from "Les Contes d'Hoffman" (Offenbach;) "Police Patrol" (Merritt;) overture, "Berlin in Joy and Sorrow" (Conrad;) waltz, "Puszta Maiden," from Hungarian Melodies (arranged by Charles J. Roberts;) "A Hunting Scene," characteristic (Buculossi;) finale, "Daughters of America" (Lampe.)

Hotel Vista del Arroyo, Pasadena. Rare and beautiful Indian baskets. Wigwam, 61 North Euclid.

Marvelous black opals at Grace Nicholson's.

Buy rugs and baskets at 46 Los Robles avenue.

Foothill ranches in beautiful La Canada Valley. H. L. Hayman.

Choice rooms with board at El Morera, No. 158 N. Euclid.

Rev. Robert J. Burdette will speak this evening in the Throop Institute lecture course at the Shakespeare Clubhouse on "Rainbow Chasers." Admission 50c.

Wadsworth sells paints.

ELECTION FOR RECALL.

Watts Citizens Asks That Two Trustees Be Ousted, Alleging Illegal Award of Contracts.

WATTS, March 20.—The City Trustees took up last night the matter of ordering a special election demanded in the petitions for the recall of Trustees Perkins and Clever. It is contended in the petitions that Perkins and Clever have not served the best interests of the people of Watts in that they were partial in the matter of allowing certain contracts for street work to be awarded to others than those who offered the best bids. Trustees Johnstone and Rerke, who are charged by those seeking the recall of Perkins and Clever of being guilty are not made subject of recall by reason of the fact that their terms expire on April 8.

An endeavor was made to fix the time for the election called for in the petitions for April 8, the time of the regular election, but City Attorney Hart rules that thirty-five days will have to pass after the making of the order for the election, and so the date was fixed for April 24. This will give those opposing the two Trustees five days in which to file the nominations of two men to make the race against them at the recall election.

G. G. Moorhead, of Cambridge, O., was in this city today seeking a location for the installation of a linotype plant.

Only the best at Coronado Beach.

Long Beach.

YOUTH BURNED BY EXPLOSION.

Flees a Living Torch With Clothing Aflame.

Police Chief Visits City to Examine Suspect.

Transfer Man Run Over by Touring Automobile.

LONG BEACH, March 20.—Screams coming from the home of Fernando Munos on Walnut avenue this morning attracted the attention of neighbors in time to see Munos's son, Joseph, 16 years old, rush from the house a living torch. With his burning clothes dropping from him he fell writhing to the ground. Ready assistance was given and the flames were extinguished, but the boy was so badly burned that little hope is entertained of his recovery.

The lad was the sole support of his family. This morning he arose early and in an effort to hasten the slowly burning fire he had started for breakfast, poured kerosene on from a can. The flames ran up into the can, which exploded, scattering the burning oil over young Munos, who fled to the outside. The oil also set fire to the kitchen, but this blaze was extinguished by the neighbors with little loss.

STILL A MYSTERY.

The mystery surrounding the murder Sunday night of Officer Thomas Borden is seemingly as far from solution as ever. One or two leads which seem promising are being followed, and the Chief, accompanied by C. R. Rowett, went to Los Angeles today to inspect a suspect picked up in that city, who favored the description, but outside of this there have been no new developments. Thomas Monahan, one of the suspects, was released today, and unless there is something new in the case of young Davies in a few hours he, too, will be freed. The presence throughout the city of plain-clothesmen patroling in pairs has aroused the fears of timid housewives and nightly there ar es score of calls which prove to be groundless.

Coroner Hartwell held an inquest today and examined several witnesses, no new evidence being developed, the jury simply returning a verdict that the deceased came to his death from gunshot wounds inflicted by parties unknown. Mrs. Borden is still suffering from shock and was unable to attend the inquest.

The funeral of the dead officer will be held tomorrow from the Presbyrian Church.

AUTO RUNS OVER MAN.

A. M. Cook, a transfer man, was run over and perhaps fatally injured this morning near Compton. Cook started from Long Beach with an auto truck to bring a load of goods from Monrovia. Near Compton a heavy touring car made a sharp turn and, without giving the truck a chance to get out of the way, crashed into it. Cook was knocked from his seat by the impact and, falling directly in front of the touring car, was run over, sustaining four broken ribs and internal injuries.

BANK BALANCE.

As a final step in the affairs of the late Citizens' Savings Bank, Attorney Daly today filed an application in the Superior Court asking for the dissolution of the bank and expects the necessary order will be issued early. All debts of the bank are paid and there is a good balance left for the stockholders, who, under the name of the Pacific Coast Investment Company, take over the bank property and unsalable assets and assume the liabilities.

FRANCIS TALKS.

The federated church brotherhoods of Long Beach last night elected as officers Ralph B. Snively, president; C. F. Sholes, vice-president; L. B. Morgan, secretary; G. E. Hadley, treasurer. The brotherhood also passed resolutions condemning capital punishment and recommending its abolishment in California. Following the business session a banquet was given, at which Superintendent Francis of the Los Angeles schools spoke on the education of the young.

A Coroner's jury in the case of Charles Kauffman, the Long Beach man killed in San Pedro Monday, today returned a verdict that death was caused by being run over by a train while deceased was attempting to climb between two cars of the moving train.

Levi M. Langstaff, died this morning at the home of his daughter on East Ocean avenue. He was a native of Pennsylvania and 71 years old.

Coronado agency 334 S. Spring st.

Ingenious Electrical Machine.

[Harper's Weekly:] A professor in a private school in Spain has invented an instrument to facilitate instruction in writing. The apparatus is designed to educate the hand to move in accordance with the will.

First of all metallic sheets are cut in such manner as to afford graphic designs most difficult for the untrained muscles; angles, loops, straight lines, crooked lines, vertical and horizontal lines, etc. The sheets, when used by the child, must be so arranged that they may easily be brought together or separated, as desired, and this is necessary also in order to make the lesson difficult or easy, as desired by the instructor. These sheets, consequently, are fastened down with screws so peculiarly made that a certain pressure may cause them to give a bit to one side or the other.

Under the desk is an electric bell connected with the sheets above by a copper wire. Below these and entirely isolated is another system of sheets.

The child is brought before the instrument and told to place his paper between the free spaces of the sheets mark his outline and then punch a key. This contact will open the electric current and make the bell ring. If the pressure he exerts does not make the metallic outline precisely cover the one on his penciled paper the bell below rings, giving immediate notice of his error. The child enjoys the "game" and is stimulated to make his loop or curve exactly match that of the metallic sheet.

ERRORS HELP CUBS.

NEW ORLEANS, March 17.—[By A. P. Night Wire.] Errors and the wildness of the New Orleans pitchers aided the Chicago Nationals in winning by a 4 to 3 score here this afternoon. Martina and Maple gave a total of eight bases on balls.

Venice.

BOULEVARD LIGHTS FROM THE CITY TO THE BEACH.

VENICE, March 20.—The municipal campaign has opened in real earnest. The Good Government League, which has placed a full school and city ticket in nomination, today opened campaign headquarters. These will be in charge of City Trustee H. B. Eakins.

Further delay and other inspections of the local postal situation are to be made by the government before a decision is reached relative to the inauguration of the free mail delivery system here. Recently a protest was forwarded to Washington against any postal consolidation which would rob the business center of Venice of its postoffice. A letter in reply to this protest has just been received from Asst.-Postmaster-General Granfield. He stated that the postal department wanted to be just and do the right thing for this beach, but that an investigation would have to be made before any decision could be reached as to free delivery.

County Supervisor Nellis, replying to the request of the Good Government League for the immediate opening of the proposed new boulevard through Palms and Royer Grove, paralleling the double tracks of the Pacific Electric, said the road would be improved as requested, but just how soon cannot be said, although it is believed that the Supervisors will order the work to be done at an early date.

In a communication to the Good Government League, Supervisor Nelhe said that the road would be paved with asphalt and would be made into one of the finest boulevards in the county. The boulevard will start at Fredericks station and reach to Pico street, Los Angeles. This will give Venice a through road from the beach into the city and if the Supervisors should consider with favor the project of lighting Washington boulevard from the beach to Los Angeles, the twin improvement will prove of great convenience to both Los Angeles and the settlements by the sea.

The cowboys and cowgirls of the 101 Ranch Wild West Show are putting in busy hours, this week, getting ready for their tour of the country, which begins next week. The practicing is held on the athletic grounds and every day the men and women are performing all kinds of daring and thrilling feats on horseback.

Glendale.

CITY OFFICERS MOVE INTO NEW BUILDING.

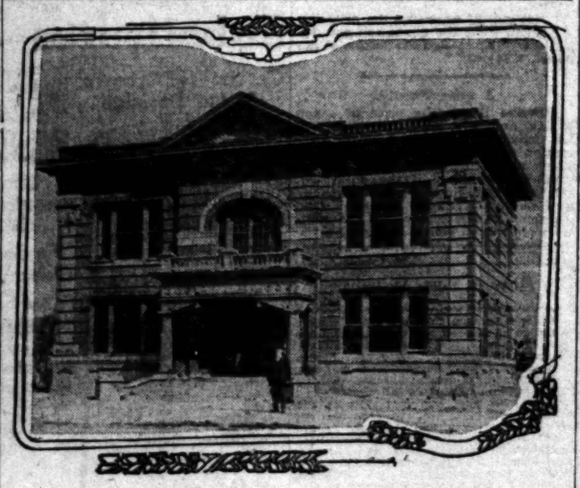
GLENDALE, March 20.—The handsome new City Hall was taken possession of by the city yesterday, which was "moving day" for the various municipal departments, and now all the officers are comfortably situated in their new home and everyone is happy.

At a bond election held about three months ago, bonds were unanimously voted for the erection of the City Hall and since that time work on the building has been rushed and the city officials, who were at a big disadvantage in their cramped quarters in a small room in the postoffice block on Fourth street, have impatiently awaited the completion of the new hall.

When the word was passed that the hall was ready for occupancy, a grand stir took place, the officials started to pack up, ready for the change. Justice Whomes, City Recorder, being the first one to move his "traps" into his finely-finished office. Other departments followed in rapid succession.

The City Hall is one of the finest buildings in the city. It is built of red pressed brick with exception of the white pressed-brick trimmings. The gutters and cornices are of heavy sheet iron, painted and sanded. Around the building, extensive cement work is being laid. The building is 38x53 feet and is two stories high.

The city officials are planning a formal opening for the new structure which will be in the form of a "get together" affair and will be held the latter part of this month or the first part of April. At this affair there will be speeches by prominent local men and others. The programme will consist of selections by the Glendale municipal band and vocal and instrumental numbers by other local and out-of-town talent. Refreshments will be served.



New City Hall of Glendale,
Into which the city officials moved yesterday, from former cramped quarters

Drives Sallowness from the Skin

Ladies, imperfect complexion is caused by a sluggish liver. A few days treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty creams in creation.

Cures constipation, unclogs the liver, clears indigestion, biliousness and dizziness. Purely vegetable—never fail.

Small Pill, Small Dose, Small Price.
The GENUINE must bear signature

5¢ THREE DIRECT CARLINES.

A Bungalow Subdivision

I know whereof I speak when I unreservedly advise you to go to ARLINGTON SQUARE if you are looking for some of the choicest residence property in the city at the price. ARLINGTON SQUARE lies in the direct path of the city's southwest development, and you know what that means. There are beautiful parkings, cement walks and curbs, gas, and electricity.

Arlington Square

MR. INVESTOR:
Wouldn't you like to put your money into a lot where it will be absolutely secure and which gives every indication of an early and rapid increase in value? Southwest values are growing in leaps—prices are rapidly becoming prohibitive. Buy where development is most active and improvements most substantial. You'll have every reason to be thankful later on.

MR. HOMEBUILDER:
Have you seen another Bungalow tract with so many advantages for such low prices? Here you get BIG lots—many 160 feet deep, graded and improved streets, cement sidewalks, curbings and gutters all in, gas, water, telephone and electricity. Schools, churches and stores near. Three 5c car lines—8-minute service.

Tract Opening Prices

Extra Easy Terms
$25 Down—$15 Monthly

$650 and Up

EXTRAORDINARY INDUCEMENTS are being offered buyers in Arlington Square for a limited time. I will allow a substantial reduction for building. I am making an extra additional discount for cash. Worth while taking advantage of these unusual features.

Take "Hawthorne" yellow cars south on Spring street or "Georgia St." cars on Third or Hill streets. Get off at Arlington avenue Tract office. Agent there will show you. Or, come to my ground-floor city office and one of my salesmen will go with you.

IF YOU CAN'T COME, CUT THIS OUT AND MAIL:

Please send information about Arlington Square.

Ford

Less Than One Cent a Mile

Half the cost of railroad transportation!

That's the record of the Ford Model T—of a whole neighborhood of Fords, in fact.

Read this: "In that short time (June to September) I drove the car 1850 miles with less than one cent per mile running expense, including lights, and no repairs at all. I think that record is good, but I know of several cars just like mine that made just as good records. So I think the Ford 5-passenger, 20-horsepower car is certainly the car for the farmer."

(Signed) E. W. SEILER, Dundas, Ill.

Country roads are not city pavements, either. Get the point?

FORD MODEL T is the universally popular motor car the world over, because of its universal service and everlasting economy. Every third car made in America in 1912 will be a FORD MODEL T. Good buying logic for you, eh?

Ford branches and dealers in all cities, towns and villages are at your elbow with Ford Service for Ford Owners.

Ford Model T Touring Car, 4 cylinders, 5 passengers, fully equipped, f.o.b. Detroit.. $690
Ford Model T Torpedo, 4 cylinders, 2 passengers, fully equipped, f.o.b. Detroit.. $590
Ford Model T Commercial Roadster, 4 cylinders, 2 passengers, removable rumble seat, fully equipped, f.o.b. Detroit..... $590
Ford Model T Town Car, (Landaulet) 4 cylinders, 5 passengers, fully equipped, f.o.b. Detroit..... $900
Ford Model T Delivery Car, capacity 750 pounds merchandise, fully equipped, f.o.b. Detroit..... $700

This Is Joe Rivers's Twentieth Birthday!

The World His Oyster.

JOE RIVERS HAS BIRTHDAY.

Van Court Discusses His Chances of Future.

Mexican Could Surely Beat Abe Attell.

Might Beat Wolgast But it Would be Hard.

BY DE WITT VAN COURT.

Little Joe Rivers has now attained the venerable age of 20. His birthday happened yesterday.

That is to say, it began happening yesterday. Among these hospitable old Spanish families, a birthday is no light affair to be disposed of in one round. Joe's birthday will last a week. The wind-up is to be a big old-fashioned California dinner at his mother's house.

Not yet old enough to vote; not even having attained his full growth, this little Spanish boy is now known all over the world and has made a fortune.

Less than two years ago, he was a ragged little urchin hanging around Sonoratown. Now he has a bank account that looks like the national debt; has so many jewels that they sweep nothing but diamond dust out of his house; is pinched for exceeding the speed limit in two fine automobiles.

HIS LIGHTWEIGHT DEBUT.

The strange part of it is that the future seems to hold for Joe even more sugar plums than the past has already thrust upon him.

Just about to make his debut into the lightweight division, and a strong contender for the lightweight championship of the world, he is the brightest star in the ring world today.

His immediate future promises two spectacular and sensational events.

As soon as the financial part can be arranged, he will be matched by Tom McCarey to fight Ad Wolgast; and it is very probable that he may fight Abe Attell before he meets Wolgast.

COULD BEAT ATTELL.

His chances with Attell at the present time would be good for an easy victory. From the easy manner Kilbane defeated Abe and the little trouble he had in hitting him, Rivers would about knock Attell out long before the limit of twenty rounds.

Abe was always an easy man to hit with a straight left hand punch. Imagine what Joe would do to him with that wicked left and the power he puts behind it. If he keeps improving in

(Continued on Third Page.)

KILBANE PLAYS PEACE-MAKER ROLE.

[BY DIRECT WIRE TO THE TIMES.]

CLEVELAND (O.) March 20. — [Exclusive Dispatch.] Rough language directed at Johnny Kilbane, featherweight champion of the world, was resented by his friends and cigars flew in all directions, when they disciplined a beer wagon driver today. Kilbane was in the midst of the mix-up, imploring his friends not to create a scene, when Patrolman Zitzmann separated the contestants and "Golden ruled" them all. The fracas happened when Kilbane and his friends in an automobile, and a beer wagon, were caught in a traffic tangle. The driver recognized Kilbane and called him foul names. Words were exchanged, when the driver leaped from his wagon and started for the automobile. Kilbane's friends met him in the middle of the street. Kilbane was struck three or four times in trying to separate the combatants.

Across the Net.

WEST LOOMS LARGE NOW.

Bundy and McLoughlin Top Title Contenders.

New Rules May Eliminate "Champ" Larned.

California Likely to Land Tennis Laurels.

BY R. A. WYNNE.

With the golden opportunity of annexing the title for the singles tennis championship of the United States hanging in the balance, the crack tennis stars of California will make an invasion of the East.

With the ruling of the National Lawn Tennis Association that every champion must play through the tournament instead of awaiting until the challenger has been determined and then play but the one match, William Larned, the present holder of the title, is thought to be eliminated.

LARNED OUT.

Larned has been seeking an opportunity to gracefully retire on his laurels and he will undoubtedly take this opportunity to step aside.

This, according to all of the "dope" of the last two years, will leave the fight for supremacy between Thomas C. Bundy of Southern California and Maurice McLoughlin of San Francisco.

McLoughlin has already signified his intention of going East and competing in the All-Comers' tournament at Newport, and yesterday Thomas Bundy practically said that he would go. He made the proviso however, that as he was very busy he might be unable to get away, but was hoping that it would become possible.

A third man who has been working hard and who is coming to the front in tennis is Hal Braly. He has been playing a wonderful game during the last year, and in the exhibition game with Maurice McLoughlin at Long Beach a month ago forced the wonderful San Francisco boy to deuce sets before he was defeated.

Miss May Sutton is also planning to make one more invasion of the East and dispose of some of the haughty young players who during her absence from eastern courts have set up themselves as champions. Miss Sutton has been playing tennis strenuously this winter and is in perhaps the best form of her career.

Miss Florence Sutton is also planning to go East for the summer and will enter in the more important tournaments at Lake Forest, Niagara on the Lakes and in the New England States.

Mrs. Wightman, nee Miss Hazel Hotchkiss of great tennis fame, who was wed but a few weeks ago is understood to be planning a trip to Europe with her husabnd and may arrange her itinerary so that she can engage in one or more of the larger tournaments in the East and then arrive in England in time to enter in the tournament at Wimbledon for the championship of all Britain.

WEST LOOMS LARGE.

In the doubles events it is expected that McLoughlin and Bundy will again work together although, in common with the dub players they must go through the annual doubles tournament of the Pacific Coast States at Long Beach in the early part of July before they will be entitled to represent this section in the doubles team.

McLoughlin has been playing with Dr. Sumner Hardy of San Francisco since his return from New Zealand and for a time it was thought that he would pair with Hardy, but while Hardy is a wonderful and exact player, he is not in the same class as Tom Bundy, who has everything that Hardy has, and in addition greater speed and generalship.

There will be several new teams of doubles in the field this summer which will have to be considered. There are Brown and Wayne, a very hard team to beat. They are as steady as a rock and many of the more brilliant smashing players have worn themselves out against their superb defense and been beaten.

They have been playing a great game this winter and should come into the summer events in perfect form. There might be a surprise for

(Continued on Third Page.)

JIM STEWART OUTPOINTS MORRIS.

[A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, March 20.—Jim Stewart, the Brooklyn heavyweight, outpointed Carl Morris of Oklahoma in a ten-round bout at the Empire Athletic Club tonight. In the sixth round Stewart, with a right hook, which caught Morris on the jaw as he was backing away, sent Morris sprawling to his hands and knees. He was up again immediately.

They were fighting hard at the bell.

The weights were announced as follows: Morris, 225; Stewart, 209¾ pounds.

TOO MUCH CLASS FOR JACKSON'S BOYS.

The second round of play in the A.A.U. basket-ball tournament last night brought out the Y.M.C.A. team on their home courts, and proved another Waterloo for Coach Jackson's boys from Huntington Beach High School. The inside courts had a great deal to do with the poor showing made by the beach athletes, but the word "class" attached to the name of every player on the association quintette, explains matters in a "nuf sed" manner.

In the first night's play, Huntington Beach lost to the L.A.A.C. five, and the drubbing of last night puts them out of the running.

In the first half, the home team ran rings around the visitors, who showed plainly that they were not accustomed to the polished floor, and when the recess was called the score stood 25 to 6.

In the second period, the beach tossers came back in spots; and managed to score nine points in ten minutes; but the counting was stopped when Haptonstall hit the floor and went out of the game with a wrenched arm. Heil went in at guard and Linn took the center stand.

The second game was a walk-over for Whittier Athletic Club, who stacked up against Pasadena Athletic Club in the 135-pound class.

The game started in a scoring run by Whittier; and five minutes after play had started the lads from the Quaker city had packed the game away with a comfortable lead; and the final count was: Whittier, 77; Pasadena, 19.

The programme for Friday night will be Y.M.C.A. vs. L.A.A.C. in the first game and Whittier Athletic Club vs. Triangle Athletes of Los Angeles Y.M.C.A. in the second act. Both games should be fast and spectacular. The interest in the contests is at the high water mark.

Who'll Be Champ.

MISS HARLEY FAILS TO WIN.

Mrs. Kennett Lowers Color of Former Champion.

Katherine Mellus Loses to Mrs. Van Dyke.

Finals Between Mesdames Van Dyke and Kennett.

BY ALMA WHITTAKER.

The semi-finals in the women's championship yesterday, played on the Los Angeles Country Club links, resulted in two complete surprises. The erstwhile invincible Miss Katherine Harley, with national and various other championships glowing in her train, was defeated by Mrs. L. M. Kennett by 3 up and 1 to play.

Mrs. Katherine Van Dyke likewise defeated Miss Katherine Mellus (such a lot of Katherines) by 2 up and 1 to play, leaving Mrs. Kennett and Mrs. Van Dyke to wrestle for the championship between them.

None of the players were up to their best game and brilliant golf was a "regrettable absentee." Miss Harley seemed absolutely incapable of achieving a decent putt and many a green saw four attempts e'er the ball elected to roll into the cup.

It was on superior putting that Mrs. Kennett won the day, but even such superiority did not amount to "class." The last time Mrs. Kennett, as Miss Isabel Smith, was champion of Southern California she won her laurels with very much better golf.

It is, of course, true that the course is one of the most difficult of all the local courses and even the men find it hard to show to the best advantage at Beverly. Annandale links are unquestionably the best for women's play. Then there is the fact that even Beverly is not at its very best just now, so there is every excuse for the poor class of golf seen there during this meeting.

RECKLESS MISS MELLUS.

In the match between Mrs. Van Dyke and Miss Mellus very much the same conditions held good as in the other match. Miss Mellus seemed joyously reckless and "blest if she ain't giving 'em away at every hole," as one of the professional onlookers remarked, reproachfully.

Mrs. Van Dyke is well known in the golf world as Miss Katherine Moulton, only having exchanged names some six months ago. She plays a pretty, graceful game and is an exceptionally popular girl. The contest between her and Mrs. Ken-

Middleweight Fight.

M'GOORTY ELIMINATES HUGO KELLY FROM RACE.

[BY DIRECT WIRE TO THE TIMES.]

KENOSHA (Wis.) March 20.—[Exclusive Dispatch.] The aggressiveness of Eddie McGoorty of Oshkosh, eliminated for the time being Hugo Kelly from the middleweight championship race here tonight, McGoorty winning after ten hard-fought rounds. Both men worked exceptionally fast, Kelly being the more clever, but McGoorty offset this cleverness by his hard hitting and forcing of the mill.

McGoorty started the going right off the reel in the first round with a left to the jaw that sent the Italian to the floor. After a few seconds fighting Kelly went down again from a vicious left hook to the chin. He stayed for the count of eight. As he recovered his strength he put up a better fight, but he showed a lack of aggressiveness, punch and strength.

Kelly featured the battle with a left jab and hook, and a right uppercut, which usually found its mark, but inflicted little damage. McGoorty did not land so often, but when he did connect the blow usually slowed Kelly. Each punch of the Oshkosh contender carried a sting and that they hurt Kelly was evidenced by his desire to clinch in the later rounds.

The battle was cleanly fought, Kelly working for points most of the time, and McGoorty waiting for a chance to rip over his right hand. Several times it appeared as though Kelly was in distress, but he came back every time fresh and willing.

HERRICK-MANTELL BEGIN TRAINING.

Jack Herrick and Frank Mantell will begin their training today, Herrick at Venice and Mantell at Jack Doyle's.

Herrick is still dazed from the effects of signing the articles to fight Mantell March 30.

It happened that Mantell first attached his name to the articles. When it came Herrick's turn to sign he happened to glance down at Mantell's line and this was the signature that met his eye:

"Frank Mantell, Middleweight Champion of the World."

"Hey, fella, how did you get to be champion of the world?" demanded the chagrined Herrick.

"Well, didn't I lick this guy Billie Papke?" growled Mantell. "And wasn't he champion of the world?"

"Well, he was once," conceded Herrick.

"Yes, and I am now," retorted Mantell.

Herrick intends to do considerable swimming during his training work. He will take a run on the board every morning, ending with a plunge in the surf. In the afternoon he will box.

Mantell will do the usual training stuff at Doyle's.

In spite of the fact that Brother Mantell has presented himself with the championship of the world, the winner of the Herrick-Mantell match will be signed with the winner of the Klaus-Dillon match in San Francisco.

WALLOPED JACK REDMOND.

DETROIT (Mich.) March 20.—[Exclusive Dispatch.] Jack Redmond, the Milwaukee lightweight, received one of the worst lickings in his career from Paul Brown of Hibbing, Minn., in a scheduled eight-round bout at Windsor tonight, the Minnesota lad having the better of the fight in every round. In the closing rounds Redmond was in a bad way but his gameness held to the last minute.

Fine Show.

DEMETRAL BEATS SCHMIDT IN WRESTLING CONTEST.

BY GREY OLIVER.

A GRAND free rough house on the stage in which the wrestlers and Referee Harry Burns were the principals was the exciting finale to the wrestling performance given last night by Harry Burns at the Walker Theater on Grand avenue, near Seventh street.

After the Greek Demetral had won the second of three falls from Schmidt in three minutes Schmidt was picked up groggy from the floor. It was a waist hold and the Greek in throwing Schmidt bumped his head severely on the floor and then fell on him, pinning his shoulders to the mat.

Schmidt was stunned and out of his head for a few minutes for after he had been carried into the wings he suddenly rushed out on the stage and then dashed back again. Harry Burns came out then to announce the result of the match and Schmidt grappled him and in a few seconds had thrown him on the stage in a burst of wild rage. Demetral shot out from the wings and grappled Schmidt as the big crowd stood up screeching and whistling in excitement and then some super let the curtain fall, shutting out the finish of the ra-

A wild dash was made for the stage by the crowd but a policeman threw the eager ones back off the stage steps and by the time a few could get behind the curtain from the front the fighters had disappeared and all was peace again. No one was injured.

The card was a cracking good one and if Burns can pull off such another one he should have a big house next time. The curtain raiser was a catch-as-catch-can match between Johnson and Foreman and they wrestled thirty minutes to a draw, the bout being a good one.

The next number was a good bout between two Japs at Jiu Jitsu and the main event was then put on.

This was a fine struggle between big men and was exciting all the way. Demetral won the first fall in twenty-seven minutes by a leg lock and half-Nelson and after a rest of ten minutes they went at it again. Schmidt won the second fall in seven minutes with a waist lock, and after another rest Demetral got the third fall in three minutes by a waist hold.

A good-sized crowd was present and enthusiastic applause greeted the performers.

Bon Voyage.

TROJANS GET PARTING JAB

U.S.C. Has Goods But Can't Find Them.

Confident of Making Good Showing North.

Boys Leave Today in Best of Condition.

BY OWEN R. BIRD.

The Trojan athletes celebrated their last day at home yesterday in divers and sundry ways. First, the baseball team went through a seven inning affray with the Vernon Yannigans. The score of this game ended in two totals, first 12 to 0 in favor of Vernon, and second 9 to 0 in favor of U.S.C. This last result can be credited to Johnny Kane, who umpired the fiasco.

When the first half of the seventh inning had rolled around, Capt. Speed McDonald of the Vernon team grew weary of seeing his men gallop around the bag, and thought he would save Bovard Field from needless mutilation, so called his team off the field. At this time Speed was at the bat, and had two strikes and no balls called on him, and umpire Johnny Kane, hoping that Speed would fan out, came back with a forfeit decision when he decided to call a halt, so the fans may chose for themselves as to who won the game.

Hape Tigers had a terrible time yesterday. They mauled the struggling Trojans all over the lot and every possible kind of boot and bonehead play was served up by the college men in the course of the afternoon. There was one good feature however of the game, in that all the Vernon players got plenty of marathoning and are now in the pink of condition as to lung power.

U.S.C. IN SLUMP.

The U.S.C. aggregation was in a bad slump, in fact the worst so far exhibited this spring, but then it is always darkest just before the dawn and Saturday these same boys may come back and give Berkeley a trimming, long to be remembered.

The U.S.C. team has the goods and the question now is, can it be shown? Don Haskell started heaving for the University, and got by nicely until the third inning, when they began to touch him up rather freely. Three hits were racked up against him in this frame and two in the following. Burrell then sent in Benson, who had a rather stormy passage while on the mound. The trouble with the Trojans however, was in the fielding support. Six errors were chalked up against them in the seven innings.

The Vernon Tigers were shifted around at such a rate, that it was practically impossible to keep track of their doings on the field. Everybody was hitting the ball, and doing it right hard and often. Rossbach started the gunning for Vernon and blanked the college men in three of the four innings that he pitched as to hits. "Chick" Cummings then went in, and the boys gathered four bingles from his delivery, but was unable to turn them into runs, because of some class "A" bonehead work on the bases. In fact the college men looked like a lot of suffragettes running for the polls on election day when on the bags, and that lets them out. The Vernon team, although rated as Yannigans, played big league ball, and Hap Hogan is to be congratulated upon having rounded his men into such perfect trim just as the season is about to open.

The score was as follows:

	R	H	E
Vernon	12	15	1
U.S.C.	0	5	6

Batteries: Vernon, Rossbach, Cummings, and Hasty Sullivan.

U.S.C.: Haskell, Benson, and O'Conner.

Umpire, Johnny Hane.

While the baseball drama was being enacted, Dean Cromwell was putting his knights of the cinder through their last hard workout before their northern trip. Swiggett negotiated ten laps, which is the last work he will do until Saturday, when he meets Crabbe and H. Wood of Berkeley in the battle royal for the Coast two-mile championship. The little fellow looks good; all the kinks have been worked out of his legs, and his slight cold has entirely left him, so he will leave for the conquest of the North without a single physical handicap.

Waldo Throop is right. Cromwell sent him through three 50-yard dashes and he showed wonderful speed both out of his marks and on the cinders. If Waldo can hold his present form in the meets with Stanford and Berkeley, he is due to win all his races. Throop's hardest competition will be Stanford, where he will meet Coleman and McKee in both the 100 and 220. McKee beat Throop in the 100, but lost in the 220 in the meet here March 2. Tom Coleman was out of shape with a bad leg and was not allowed in this meet by Dad Moulton, but northern reports have it that Captain Tom is back in the running once more, so he and Throop can finally settle as to which is the best man in the sprints. They have not met for a year, and at the last meeting Coleman won the 220 but lost the 100, so both men are out for blood and first place.

Fred Kelly was sent through his full programme of field events, including high and low hurdles, shot, hammer and discus. The big boy was in rare form in all of them and especially surprised in the shot, by heaving the 16-pound pellet a few inches over the 50-foot mark. This heave will only get him a third place at Berkeley but it may win at Stanford, as in the last meet Alderman beat him by but a scant two-inch margin.

Victor Hodge, Julius Hanson, Cookman, Watkins, Linton, Smith, Freeman, Earle and Torrance were all working in top notch form, and if the sea voyage does not take the keen edge off of their condition they will put up a pretty fight in the meets with Berkeley Saturday.

The Trojans leave for Further Gaul this afternoon at 1:30 when a squad of forty-five men and two co-eds will assemble at the Salt Lake station.

The teams making the trip include track, baseball and tennis and while victory may not perch on every standard, these clean-limbed young athletes and windsome co-eds are sure to make somebody know they have been cruising around the Bay City.

The track team is going up against overwhelming odds at both Stanford and Berkeley, and the utmost to be expected of them in either case is a good split for first places. The baseball team, however, stands a better chance in the three-game series with Berkeley, as the pitchers, Haskell, Bridwell and Benson, are all in first-class shape, and if the rest of the team comes out of its present slump there is no reason for the south not bringing home some of the bacon.

TENNIS TEAM GOOD.

The tennis team is likely to be the most consistent winner on this trip, as Miss Lily Kincade and Miss Nettie Wellbourn are two of the best co-ed racquet wielders in the South, and we do not know of any one at Stanford who can show them anything about the court game. With the women winning their events and Newell, Weller and Oxnam nosing the Stanford men out in some of the events, it stands to reason that the margin of victory goes to U.S.C.

As to the Occidental and Pomona teams, as our friend Rudyard says "That's another story."

CHANCE FOR AMATEURS.

The Games Promotion Association was formed today at Hap Hogan's billiard and pool parlors. The object of this association is to stimulate amateur baseball in Southern California and book games with different teams. In this manner the baseball magnates can get a better line on, and come in touch with, the coming players. This organization will be independent of any one sporting goods concern, all the leading sporting goods houses as well as some of the leading public citizens are backing it financially and morally. Complete data of all sporting events, amateur and professional will be kept.

Those interested: Eddie Maier, Harry J. Leland, E. B. Tufts, Hap Hogan, H. H. Eiting, Bernal Dyas, Adolph Hartman, S. D. Tipton.

Two New Stars of Los Angeles Team.

Outfielder Driscoll (above) and Second Baseman Page (below,) who are sure to be members of the Angel club this season.

INSIDE FACTS

The public have been educated along nearly every line of thought—but did it ever strike you as peculiar that cigar manufacturers either don't care to, or are afraid to tell the public the inside facts about the cigars they make—about all you ever get is "display" signs with "catch lines"—that don't catch.

We have one cigar we are proud of—built to please men who really want a high grade, mild Havana smoke and we will try by actual photographs and explanations, couched in language so every smoker can understand, to tell exactly how and why.

Lawrence Barretts—

are combined from tobaccos to satisfy the smoker who wants a high-grade, MILD HAVANA CIGAR.

The Lawrence Barrett Filler

Actual photo of filler of a Lawrence Barrett which is selected from Cuban Leaf grown in Santa Clara Province, Cuba, and is noted for its delightful mild aroma.

A Very Important Feature

Actual photo of the finest imported Sumatra grown, used exclusively as wrappers on Lawrence Barretts. If you will remove this wrapper you will find it is absolutely tasteless—therefore, it is used *only* to dress and finish the cigar with the result that you can *enjoy—unmolested—the full benefit* of the delightful, mild aroma of the fine Santa Clara filler—and you actually have a *Real Mild Havana Cigar.*

The Lawrence Barrett Wrapper

Lawrence Barretts are made in several shapes—but if you want a good full smoke, we suggest you try the "Club House" shape at 10c straight—At all first class dealers—*ask for a fresh one.*

J. J. Gans & Bro., Los Angeles, Cal.

P. S.—In later issues we will publish other interesting facts and illustrations.

MRS. HARLEY FAILS.

(Continued from First Page.)

nett will be watched with the keenest interest today.

Th consolation handicap against bogey found the lists sadly depleted. Mrs. Eliot failed to take part, and another player gave up.

Mrs. Frank Griffith however, won the consolation honors very definitely, for in playing from scratch she made both the best gross and best net scores, 107. This represented the best golf of the day, and a good deal better than a great many of the men players at Annandale, where 110's were pretty frequent amongst the 10 and 12 handicap men.

Mrs. Guy Cochrane came next with a net 114, less 6, 108. And Mrs. Perley third with 124-16-108. There are two prizes for this event, so Mrs. Cochrane and Mrs. Perley will play off their tie for net scores.

SECOND FLIGHT.

In the second flight match between Mrs. Requa and Miss Marion Clark, the San Gabriel player won by 4 up and 3 to play. Miss Clark plays a careful and particularly graceful game and there is general satisfaction that she should have won at least one distinction during the tournament.

Today there will be a considerable augmentation of numbers, for no less than four Riverside players have arrived to take part in the California Women's Golf Association event. These are Mrs. Harry Kearne, Mrs. Bowen Mrs. E. B. Howe and Mrs. T. Hewitt. Riverside certainly is a sporty little city and never fails to support the various country club tournaments both men and women's events. The Riverside women will receive a most hearty welcome, needless to say, and things begin to feel brighter already. All of these ladies will also take part in the San Gabriel events on Friday and Saturday. Hurrah!

What I am being asked is "Is anything jolly going to happen at any of the clubs on Saturday evening?" With so many interesting visitors in town, and mixed foursomes coming off at San Gabriel and all that sort of thing, don't you know—well it is a bit tame for them all to retire meekly to their hotel directly the golf is over.

"You might just drop them a hint," suggested a little group of these visitors—so there you are. If it should happen to be a dance, will the committee please make golf clothes compulsory? You see when we all go to Riverside or Redlands, they plan our evenings for us as well as our days—and it does make things go with a jolly swing—and we must not forget that Riverside and Redlands feel a bit lost in the "seething metropolis" in the evenings when the business of golf is over.

BRITISHERS LAUNCH CLUB.

P. J. Higgins, secretary of the Los Angeles Cricket Club and several other "live wires," contemplates launching a new club. This probably will be located at No. 534½ South Spring street, recently occupied by the Los Angeles Athletic Club. The new club will be christened the Los Angeles Sports Club.

In addition to an English billiard table and card tables, sporting papers from Australia, New Zealand, South Africa, the British Isles and other centers of sport activity will be on file. With an adjacent pool room and gymnasium, members will find an abundance of amusement.

OPEN YELLOWSTONE PARK.

A strong spirit is again developing in the West against the exclusion of automobiles from the Yellowstone National Park. This spirit of opposition has developed chiefly since the use of motor buses has been taken up by the concern having the privilege of operating stages within the park. The old argument that motor vehicles render the park unsafe for general use has been exploded, and there will be no rest until its driveways are opened in the rational use of the automobile.

A Duty Do

—Is our factory in Tampa. The finest tobacco grown. Abajo tobacco—we also Cuba in the leaf, thereby cigar duty which fully equal tobacco's cost. This enables ours—it goes into the cigar expert Cuban workmanship fragrance and flavor—all yours in

JUST BEFORE T IN THE TRA

McCredie Discovers Anoth Fence Breaking Boy Name League Teams Are at the G ways Comes to Good Athl

BY WINNIE

SANTA MARIA, March 19.—The period has come upon the Beavers which is so well known to those who have had long experience in one or more of the several branches of athletics. It is when things seem to go wrong generally. There are grouches in plenty, shoulders which will not respond to the accustomed final snap, legs which are stiff and sore. The battling lamps seem to need frequent trimming, and unmasked for "boots" among the most staid of the old hands.

This is a time which comes to most good athletes, usually succeeding a hard period of fast work in preliminary training and preceding that time when the athlete suddenly leaps into his vigor, and his best form. None of the Beaver squad appear stale, and with the two weeks yet to intervene before the ball clangs for the opening game, the men should go into the fray fit to do battle as champs.

The infield problem seems no closer to settlement than it was a week ago. It is a great battle between Caltrin and Bancroft. Both men are hard to beat as infielders, but both appear a trifle weak with the willow. Another factor seems to have sprung into the race. This boy, McDowell, from Nebraska, is some sweet hitter. In Saturday's Yannigan contest "Little Mac" was up three times and clouted safely twice. Nor were these clouts of the slap-on-the-wrist variety. They were face-breakers, a double and a single. In last Saturday's Yannigan contest, McDowell in four trips to the plate banged out a double and a single. "I don't see how I am going to let the boy wander up into the northwest brush," said McCredie Monday, as he watched the fielders back to the plate, tearing after one of the Nebraskan's drives. "Caltrin and Doane are having a little fight for the outfield job, but the fancy New Orleans gent seems to have a lead of the contest so far. The new Strait greatly resembles Perry, who used to be with 'Frisco. He has a weak Gotch shoulders, swings from the port side, and is fast on his feet. It looked too much like rain today for the boys to line up, but a Yannigan bout is scheduled for tomorrow, provided Jupiter Pluvius does not issue an injunction.

There is a new man, a pitcher whom Baker brought with him, and as he was furnished no opportunity to get an estimate of his ability.

Cheabourne appears in first-class form. He is as brown as a coffee bean, and apparently as hard as nails. Since he has been conditioning himself by trotting up and down the beach at Long Beach. At any rate he seems to fine advantage in practice this afternoon, hitting strong and fielding with all of his old-time speed and precision.

Ted Williams, in the role of playing manager, romped around the diamond like a colt—but perhaps there was more of the Clydesdale than colt in the romp, for Nick looks to be about an English stone overweight. But then Nick's worries are more managerial than otherwise.

WEST LOOMS LARGE.

(Continued from First Page.)

and McLoughlin when they beat these two at Long Beach.

Little and Touchard, who won the national doubles championship from Alexander and Alexander last year, are expected to play together again this year and last year it was by the merest fluke that they won over Little and McLoughlin.

MIDDLE WEST OUT.

That Little and Touchard eliminated the team sent from California should be able to come through handily and bring home the doubles championship.

The big tournaments in the East really come to be contests between about twenty players from the East and three or four from California. The Middle West has not been a factor for several years. The twenty players from the Far West come from the big colleges as a rule and all enter in the all-comers' tournament at Newport. They do not play as fast a game or deliver a game as the California players, but they have been raised on the grass courts and have developed a perfect ground stroke. Were they to be used on the grass courts, the California players, who are accustomed to play on fast cement or asphalt courts, have played a great net game, using the fore arm drive and volley in their overhead work. Were the cement or oiled courts make it impossible or at least unprofitable to develop a ground stroke, which is to bounce to a ball on the bounce courts making the fore arm

cCredie Discovers Another Batting Wonder in a Base Breaking Boy Named McDowell—The Coast League Teams Are at the Grouch Stage Which Always Comes to Good Athletes.

BY WINNIE CUTTER.

MARIA, March 19.—The ...d has come upon the Beavers ... is so well known to those ... had long experience in one ... of the several branches of ... It is when things seem to ... going generally. There are ... in plenty, shoulders which ... respond to the accustomed ..., legs which are stiff and ... batting lamps seem to ... present trimming, and un... "boots" among the most ... old hands.

... a time which comes to most ... usually succeeding a ... of fast work in preliminary ... and preceding that time ... athlete suddenly leaps into ... and his best form. None ... squad appear stale, and ... two weeks yet to intervene ... ball clangs for the opening ... men should go into the ... to battle as champs.

... problem seems no closer ... than it was a week ago. ... great battle between Coltrin ... Both men are hard to ... holders, but both appear a ... with the willow. Another ... to have sprung into the ... boy, McDowell, from ... is some sweet hitter. In ... Yannigan contest "Little ... up three times and clouted ... Nor were these clouts of ...-on-the-wrist variety. They ... home-breakers, a double and ... in last Saturday's Yannigan ... McDowell in four trips to the ... singled out a double and a ... "I don't see how I am going ... the boy wander up into the ... brush," said McCredie ..., as he watched the fielders, ... to the plate, tearing after ... the Nebraskan's drives.

... and Doane are having a little ... the outfield job, but the ... Orleans gent seems to have ... of the contest so far. The ... greatly resembles Perry, ... to be with 'Frisco. He has ... shoulders, swings from ... side, and is fast on his feet. ... hits much like rain today ... boys to line up, but a Yanni... is scheduled for tomorrow, ... Jupiter Pluvius does not ... objection.

... is a new man, a pitcher whom ... brought with him, and as ... furnished no opportunity to ... of his ability.

... appears in first-class ... is as brown as a coffee ... apparently as hard as nails. ... has been conditioning ... by trotting up and down the ... Long Beach. At any rate he ... in fine advantage in practice ..., hitting strong and ... all of his old-time speed ...

... Williams, in the role of play... romped around the dia... a colt—but perhaps there ... of the Clydesdale than ... romp, for Nick looks ... English stone over... then Nick's worries are ... managerial than otherwise.

He is a bit non-committal concerning his plans, but he intimated that his portion of recruits looked good, and that he was after some bunting to match the samples already annexed by McCredie.

It is probable that Mathes, Heisch, Osborn, and either Bancroft or Coltrin will return North with the curly-blonde manager.

Temple certainly looks like a valuable acquisition to the Beavers' encampment. He is a big fellow and has plenty of steam and control. The ex-Giant seems to be an assured fixture.

OAKLAND PLAYS ROUNDERS GAME.

[BY DIRECT WIRE TO THE TIMES.]

LIVERMORE (Cal.) March 20.—[Exclusive Dispatch.] For two hours this morning Manager Sharpe had every member of the Oaks team of 1912 hard at work on the field with the exception of Zacher Mitze and Tiedeman, who were allowed to spend the night in Oakland after the game with California yesterday. Although the weather was raw and cold, some good work was accomplished.

For the first hour Gregory, Malarkey and Brooks pitched to the batters, who were instructed to do nothing but bunt the ball and run to first base while the pitchers were to field the ball and catch the runners if possible.

This exercise enabled the boys to loosen up their muscles without any danger of bad results from the cold wind. The morning practice wound up with the old-time game of rounders and there was much rivalry shown by the players as everyone wanted to hit. Hille kept at the bat the longest time.

The afternoon practice was delayed until 2:30 in hopes that the sun would come out but the boys were disappointed and the cold wind was very disagreeable. Manager Sharpe called off the usual practice game and the time was spent in hitting practice.

PRESIDENT BAUM ON SPRING CAMP TOUR.

SAN FRANCISCO, March 20.—[Exclusive Dispatch.] President Allen T. Baum of the Pacific Coast League left tonight for Los Angeles on his official visits to the training camps of the six league clubs. This visiting the clubs during the training season is an innovation inaugurated by President Baum for the purpose of getting in touch with the players, and letting them understand the rules which they will be expected to follow.

He will spend Thursday and Friday in Los Angeles to meet the men on the Los Angeles and Vernon clubs. Saturday he will be in Santa Maria with Portland, and on Sunday he will visit the Seals at Paso Robles.

Next week, some time, the head of the league will go to Livermore, where the Oaks are in training and also will visit the Senators at Sacramento.

The California players are determined to bring back at least one of the national championships to the State and in the event of any national tournaments ever being played in this State on the speedy courts used here there would be a wonderful falling off in the standing of the grass court players from the East.

EARLY TOURNEY.

One of the first events of the spring and summer tennis season will be the seventeenth annual spring tournament at the Ojai Valley Tennis Club's courts at Nordhoff. The tournament begins April 18 and lasts to the 20th, inclusive.

The events include the fourteenth annual Southern California interscholastic championships in singles and doubles, the sixth annual invitation Ojai championship for girls of private schools in California, ladies' special singles, exhibition matches, the second annual Ojai all-California intercollegiate championship in singles and doubles, and the Ojai Valley championship for all comers.

The entry list for these events has already exceeded that of former years and practically all of the prominent tennis stars will be there. It is generally from these interscholastic and intercollegiate matches that the coming tennis stars are secured and the present players of the "big game" like to be present to see the new talent work out.

Carlisle Arrives.

Walter Carlisle, the center fielder of the Vernon team, arrived here late Tuesday night from the East and will be out for practice with the Tigers today.

JOE RIVERS'S BIRTHDAY.

(Continued from First Page.)

the force that he puts into this punch, he will never have much use for his right.

WOLGAST—MAYBE.

His chances with Ad Wolgast will not be as rosy as with Attell. Ad is a much tougher proposition. While he would be about as easy for Rivers to hit, Joe will have to develop a much harder punch and have his hands in the best of condition to hold out through the gruelling fight that Wolgast will undoubtedly give him even if he should lose.

Rivers's chances would be much better if he could meet Wolgast before Ad meets any one else. Ad is a game tough fellow, but, with all that, he will be a little careful in his first fight.

That operation is bound to make him a little cautious and careful the first time he starts, no matter whom he meets. Rivers's chance is to land him first if he can. No matter who meets Wolgast first, he will be sure to play for that tender spot, and Ad will be sure to protect that as much as he possibly can until he is sure that he can take it there, without any danger.

RIVERS'S FUTURE.

But while he is doing that, he is sure to leave his face open more or less, and this would be just the chance that Rivers would want. Rivers is the most talked-of fighter in the country today. Most of his fights have been of the sensational kind and, say what they will, there are not many lightweights in the country that are very anxious to take him on.

Rivers at the age of twenty years has just started.

He probably would have never lost to Johnny Kilbane if he had not been compelled to take off weight. Outside of this mistake he has a wonderful record.

Joe Levy has made a study of Rivers and has struck the right system of training him.

There have been more mistakes made in that line with young fighters than any other. Many trainers insist on taking off weight on growing boys, that ruins their chances of winning a title.

ALWAYS BE LIGHTWEIGHT.

At fourteen, Rivers weighed one hundred pounds; at twenty he weighs one hundred and thirty. At this rate he would soon be out of the lightweight class, but he has about reached his growth.

Rivers has several brothers that are heavy men and take on flesh rapidly. But I believe that they take more from the mother's side of the family. Joe takes more from his father's side both in looks and build. Joe is about the same size as his father and about the same weight. So if we can figure from that point of view, he should always be a lightweight. If the fight takes place near the end of the year, Rivers will have a great chance to take that title.

SEALS PRACTICE SOME INSIDE BASEBALL.

[BY DIRECT WIRE TO THE TIMES.]

PASO ROBLES, March 20.—[Exclusive Dispatch.] By Friday, Walter Schmidt, the peppery hold-out catcher, will be here mingling with the squad to get into condition to do duty behind the log. This pleasing bit of news was conveyed to Manager D. W. Long this morning in the form of a telegram from Schmidt, who is now at Los Angeles. With Claude Berry the only tried and true catcher on the team, the Seals would have been up against it if Schmidt had remained a hold-out.

There was no practice game today because it turned cold in the afternoon, but the players were out bright and early in the morning and the infield was drilled in signal practice. The Seals are now down to a working basis, and the boys are beginning to pull off so-called "inside baseball."

In the afternoon the able men of the squad were out in uniforms, and the infield had some good fielding practice—Jackson at first, Gedeon and Mohler at second, McArdle at short and Corhan at third, which is considered the regular infield.

Manager Long is mighty sweet on this fellow Jackson, which was made evident by his turning back Sheely to Spokane.

Roy Corhan at third is another new player who is going to make San Francisco fans sit up and take notice of his fielding.

SPORT ASSOCIATION FORMED IN THE SOUTH.

Practically all the sporting goods stores in Los Angeles have organized for the purpose of boosting all kinds of clean sports. A games promotion organization has been formed and headquarters soon will be located at some downtown business place.

In the past booking agencies have contented themselves with booking only baseball games and forming leagues for the various teams. This booking department will not be located at any of the sporting goods stores, will book all kinds of games. Basket-ball, cricket, soccer; in fact, all forms of sport will be booked and boosted at the new place. All managers of sports kindly call and see C. H. Nicoll, manager of the association, who can be found at No. 435 South Spring street.

Van Court's Boxing Lesson.

No. 62—Slip and Hit.

This should be used only when your opponent hits straight at your head with his left hand. If used when he swings, you will duck into his blow. When your opponent hits, turn the left shoulder and head downward to the right, which will make him miss you and throw him off his balance for an instant; then hit at his body with your right hand and get away.

ARMORY NOTES OF THE SEVENTH REGIMENT

BY THE CAPTAIN

Co. G qualified fifteen experts, three sharpshooters and seven marksmen. The company commander received eighteen gold bars, nine silver and four bronze.

The curtain fell on the indoor baseball team of Co. K last week when the residents of the Armory district made a noise like a protest to the Town Marshal of San Bernardino. Too much noise was the cause of the objection.

Co. E of Santa Monica is a live outfit. A new company they are, but they are up and on the move all the time. It is reported that a squad of the soldiers from the beach town will take part in the military hike which will be run off in connection with The Times Modified Marathon on April 20. There is also a possibility of a track team from Co. E competing in the regimental field and track meet, which will be the big athletic bill of March 30. This soldier meet will be staged on the Bovard cinders.

Fifteen of those precious counters went dowwn into the sands of Santa Monica Canyon when Sergeant Phil Couterier allowed his distance reacher to get too close to the wheel of Jesse McComas's big Moreland truck. Phil was counted on for three firsts in the field day, but now he will do well to get out to see the sports without even hoping for a chance at the events. At first it was thought that the boy's instep was crushed, but later it was discovered that only two toes were fractured and Maj. Decker says that he will be all O.K. again in a month.

There is a mysterious recruit in Co. C, who is reported to be a sprinter of the Waldo Throop brand. We are all asking who the lad might be and the more we try to find out, the tighter are the lips of the C company men sealed. Never mind; we'll get wise when the race is won.

The mile run will be a better affair than was at first expected, and there are a lot of races which will be close. Foster will travel the four laps for Co. C and the star of A Co. will be Frank Holmes, who is of the miler build.

Goldsborough and Simon are counted on for honors in the quarter, but they will have to go fast if they wish to get anything on the B Co. boys.

The battery will be out in force on the big day, and it is expected that their showing in the contest will be close to excellent.

Maj. Decker has been selected to act as referee of the soldier meet and Lieut. Beach is booked to do the starting. Col. Schriber and Lieut.-Col. Saltmarsh will act as timers and Majs. Heaber, Ford and Pollmer will be judges of finish. Lieut. Kunkle, Harry C. Carr and Capt. Peckham will officiate as judges of weights and jumps.

Sergt. Mondon is slated to act as announcer, and Sergt. Crossman will be clerk of course, assisted by Sergt. Harry Miles.

The inspectors will be Lieuts. Jesse McComas, Samuel C. Haver, Jr., Harry C. Underwood and Bert T. Demmit. Lieut. Streeton will officiate as scorer and Lieut. Irwin will be field marshal, assisted by Quartermaster-Sergeant Raul A. Raul.

Capt. Anderson of Co. C will take part in the events and is counted upon to win the shot put. Capt. McReynolds will also participate in the meet and will put the shot, throw the discus and run the quarter. Lieut. Sidener will run the low hurdles for his company and ramble a lap in the relay.

Sergt. Tracey will be a sensation in the high hurdles and Stagg of Co. F will star in the sprints.

The meet will start at 3 o'clock and there is every indication of a large and enthusiastic crowd. The college teams will be in the North, so the soldier athletes will be the only attraction.

The next thing on the calendar for the Armory athletes is a baseball team which will play Saturday afternoon ball. The colleges will be met and there is a chance to have a lot of sport out of the games.

Indoor baseball will be dropped after the games of the Olympic Circus series and there will be no more of the big ball stuff dished out till next season.

Report has it that Co. A has a new pitcher to take the place of Abbott, who has turned in his suit and will play no more.

The medal fobs for Co. A's indoor team have been ordered and will be seen on the players before the next drill night of Capt. Holden's outfit. The prize discs are of ten-karat gold and attached to silk fobs with a safety catch. The design is the official Olympic figure awarded in all section and national championships.

FROM THE MASON TO THE MAJESTIC

By JULIAN JOHNSON.

Harry Mestayer is to return to Los Angeles in about three weeks. He will be a member of the Belasco Theater company.

"The Truth-Wagon" seems to have been either untrue or too good to be true. In addition to natural defects in the play, they did not better it when they moved from the barn of Daly's to the icebox of the Bijou. It was merely out of the skillet into the gas-burner.

Harry's switching back and forth between Chicago, New York and Los Angeles—eternally playing in one of these places, but never long at a time, is a commentary on the restlessness of the actorial ambition.

Read Oliver Morosco's article in the April Green Book on the Los Angeles Idea in the Drama.

In the middle of the piece you will find a humorous tale of the actor who went to the metropolis, from a Morosco company—and had to wait until Morosco arrived, to get a New York job.

Though no names are mentioned, that's the story of Harry.

And he is some actor—don't forget that.

Donald Boyles is to leave the Belasco and become a permanent member of the Burbank organization.

Bob Leonard is to make his debut with the Burbank company next Sunday, in "Captain Lafitte."

Those who have watched this large and clever chap in musical comedy, for several seasons past, know that he possesses character talents well out of the ordinary.

A prepossessing member of the Jahn company, at the Mason, is Beatrice V. Benton, daughter of B. H. Benton of the Gotham Press Syndicate, New York, and a niece of Jessie Fremont Benton.

I wonder if many people sense the real man that Bob Lett, in his burlesque of Hammerstein, in the Fischer Follies, seems to be imitating?

He is perhaps a fairly good Hammerstein caricature, but apart from his dialect he spells "Doc" Leahy, all over, to me.

Any one who has ever stood in a corridor or in the hotel wings and heard "Doc" pull that gentle, persuasive, managerial "Come, Louie!" cannot but remember the phrase immediately on hearing Lett utter same words, in the identical tone.

Another thing about Lett; he is taking it away from Herbert Cawthorne, who is supposed to be first comedian of the company.

This is perhaps no fault of Cawthorne's, but the fact remains that in the present show, Lett, with his ready humor and his excellent singing specialty, quite outshines the first luminary.

Oliver Morosco returned from San Francisco yesterday morning, after a three-day session with John Cort, with whom he will build theaters in New York and Boston, this summer.

Morosco carried a few grains of news to be released, and a few tons that is as yet untellable.

Among the "must not" stuff is a very interesting story about the summer at the Belasco. It will interest all theater-goers when it breaks.

In the you-can-if-you-want-to batch are announcements of several plays recently secured for the Morosco-Blackwood houses. Among these are "The Witching Hour," "Madame X," and probably "The Gamblers."

William Ptomaine Wyatt has ordered 3000 pink carnations for next Monday night's "Pink Lady" premier.

The box-office has ordered up a battery of light artillery to guard the cash they expect to have inveigled through the window by tonight—the first day's sale proceeds.

"The Pink Lady" will stay two weeks, and then will come Alice Lloyd in "Little Miss Fix-It," also for two weeks.

Thus the Mason is cared for very nicely for a month.

Lovely Louise Gunning, in "The Balkan Princess," will be an April feature at the Majestic.

I hear that in the next Fischer show, "The Hen-Pecks," Texas Guinan will receive the role which brought Blossom Seeley into prominence and the Barbary Coast dances into fashionable repute.

Wonder if the fair Texas will have to toddle the Todolo?

The Hartman company will, it is said, inaugurate its road tour somewhat earlier than usual, this spring.

The fiftieth performance of "The Girl and the Boy" will take place Saturday.

Author Walter has certainly put over a successively successful pair.

The opening of Kolb & Dill, reunited and playing "The Girl in the Train," at the Savoy Theater, San Francisco, last Monday night, seems to have been an event of joyous magnitude comparable only to the great theatrical days of old in the city of the Argonauts.

The floral offerings sent over to the co-stars and the members of their organization would have filled several carts, and must have aggregated in value nearly $1500.

Tetrazzini sat in a stage box and was the recipient of almost as big an ovation as Kolb and Dill themselves.

The joint speech of Kolb and Dill, very evidently unrehearsed, was quite affecting.

Dill wept undisguisedly.

"Mike," said Kolb, his vast hands on his angular hips, "I haf missed you dese last two years."

"Und I haf missed you," quavered "Mike," in his lofty little voice.

"I missed you most when I t'ought of the money I lost!" explained Kolb, frankly.

"Do you luff me, Mike?" quavered Dill.

"Sure I luff you!"

"Then show me!"

Whereat Kolb fell upon him and they repeated, in a gale of laughter, the uproarious Weberfieldian choking scene.

As they broke apart, out of breath but happy, Dill said petulantly: "No, you don't luff me!"

"Why, Mike?"

"You forgot somethings!"

And at that tip Mr. Kolb applied the toe of his boot, in the certain and good old-fashioned way, to the most inflated portion of Mr. Dill's stage anatomy, whereat Dill arose in the air, fell on his racing-tire stomach and shot to his feet from the pneumatic rebound—all to the accompaniment of howls and shrieks of childish glee from the intellectual and dress-suit audience just beyond the orchestra pit.

Olga Stech is said to have scored a remarkable impression and to have matured wonderfully in voice and histrionic powers—as well as in beauty.

She was with Kolb when he was playing "The Girl in the Train" through the South this year.

Dick Tully was in town yesterday, and left for San Francisco last night.

He expects to return in a few days for a five weeks' stay.

Ned Finley, now playing the hop-head in "Blackmail" at the Orpheum, may be seen out here in a piece of his own next year.

A dispatch to me from Boston, last night, reads as follows: John Mason, now playing in "As A Man Thinks" at the Shubert, one of the ablest actors on American stage, who for five years past has been under the management of the Shuberts, will leave them at the end of the season to join Charles Frohman's forces. He will appear first under Mr. Frohman's management in "The Attack." Bernstein's fine play, now current in Paris, which will be produced in New York next season. Mr. Mason's departure will cost Shuberts one of the ablest, best known and generally liked stars, who has appeared in some of their most important and successful plays. Over the telephone he has agreed to remain under Mr. Frohman's management for an indefinite number of years. No papers have been signed, as both contracting parties, according to their custom, regarded only the exchange of word as necessary.

Photo by Matzene.

Virginia Kirkley,

One of the best-known and best-liked motion picture players in Los Angeles at the present time.

REJANE AND BERNHARDT.

Great Actresses to Be Seen Next Week in Local Theater, Via Their Recent Photo-Plays.

Mme. Sarah Bernhardt and Mme. Gabrielle Rejane, the two glories of the French stage and two of the world's greatest actresses, whose art has delighted theater-goers in every country in the world, have found immortality in the motion pictures.

Bernhardt has played "Camille," her greatest dramatic success, before the motion-picture camera, and Mme. Rejane has produced "Mme. Sans-Gene," her greatest comedy creation. Both of these famous artistes are now recorded in their most brilliant performances on the films, and these pictures, the announcement of the taking of which attracted widespread attention, will be shown at the Majestic Theater next week, commencing Sunday night and continuing throughout the week every afternoon and every night.

Just as the talking machine has brought the art of Caruso, Melba, Tetrazzini and other world-famous singers within the reach of everyone, just so has the motion picture, or "photo-play," as some prefer to call it, at last brought the act of two of our greatest actresses within the reach of everyone, putting the motion picture on a higher plane than it has ever been before.

The Divine Sarah was paid $30,000 for her one performance of "Camille" before the motion-picture camera, while Mme. Rejane was paid $25,000 for one performance of "Mme. Sans-Gene." This enormous sum, of course, included the services of their original Parisian companies.

Following the first view given Mme. Bernhardt of the films in Paris, she remarked: "I have conquered a new world, that of the photo-play. I never thought that I would be a film, but now I am several whole reels of pictures. I rely for my immortality upon these records."

Both "Camille" and "Mme. Sans-Gene" are admirably adapted to the photo-play and the presentation of these two films, both at each performance, of two such famous actresses in their greatest roles, will no doubt attract a vast amount of attention to the Majestic Theater and establish a new standard for the motion-picture field in general. A popular scale of prices will prevail.

Book-keepers, Stenographers and Professionals Need Murine Eye Tonic—It Soothes, Strengthens and Restores When "Eye Strain" gives you That Tired Feeling. Try Murine.

Rejane

Who, with Bernhardt, will be one of the photo-play offerings of the Hamburger Majestic Theater next week.

Boston Garter

Velvet Grip

Dealers Carry Both Styles. They are Standard in Quality.

Boston Garter is trim, neat and comfortable, shaped to fit the leg—stays "put"—holds up the sock as smooth as your skin. The webbing is full of live, snappy rubber, and will hold its life and firmness. Look for the trade marks on the loop. Buy it by name.

Guaranteed Against Imperfections.

San Bernardino.

GUARD SHOOTS BOTH OF THEM.

Would-be Robbers Attempt to Steal Bullion.

Wounded Men Hike for Funeral Mountains.

Marriage Fees Must Be Paid Into County Fund.

SAN BERNARDINO, March 20.—Several bars of gold bullion, valued at between $10,000 and $15,000, lured H. Langley and Burt Lane, desert teamsters, to attempt a confiscation. As a result each was shot through a shoulder by Hermon Preston, a guard, at the Capitol Mining group, in the Slate range. Preston was slightly wounded.

The bullion represented the monthly run of the mining group. The teamsters, who had been employed by the mining company for several months hauling supplies, knew of the proposed shipment of the treasure. Carefully they planned slipping the bullion off during the night, but appear to have miscalculated the material of which the watchman is made.

Shortly before midnight Preston was aroused by some one seeking to pry open the office door. From his position within he called out an inquiry. The answer came the next instant when the door fell in with a crash. The shooting followed quickly, Preston recognizing his assailants. Both were shot presumably by the same bullet. Dropping their revolvers they fled.

Their flight was in the direction of the Funeral range, as ascertained when parties arrived at the Capitol group telling of having met the two fugitives within fifteen miles of the mines, they having stopped at Salt Springs, where their wounds were dressed.

This is the second attempt within two years to make away with bullion from the Capitol group. The first occurred Christmas Day, two years ago, when Alfred Cummings, messenger, was fired upon, but escaped by outdriving the robbers.

ONLY KISSES LEFT.

That Justices of the Peace throughout the State who are on a straight salary must pay marriage fees into the treasury of their respective counties is the decision of the Appellate Court for the Third District, in a case from San Diego county. The Appeal Court reverses the Superior Court. In this county it has always been the practice of justices to keep their marriage fees, under the belief that the law allowed them these fees.

Coronado offers every amusement.

LOUISIANA'S SALT MINES.

The Deposit Is Several Thousand Feet Deep and Requires Air Drills for Its Disintegration.

[St. Louis Globe Democrat:] It need hardly be said that New Orleans is one of the great salt markets of the United States. Within her own territory are those wonderful salt mines, practically inexhaustible, from which train loads of salt are always being taken away, leaving no perceptible decrease behind them. Away in the depths of the earth are the miners, working with compressed air drills, getting out the huge blocks, and there are the mules and the drays, carrying it to the places where it may be drawn out; and the work goes on without ceasing, year in and year out. These wonderful natural deposits have never been understood or satisfactorily explained, but whether they formed an ancient sea bed or not, the fact remains that they are one of the important assets to Louisiana, and therefore to this city. That there should be, less than 125 miles from New Orleans, vast deposits of rock salt, underlying whole sections, not 100 feet from the surface of the earth, and several thousand feet thick, is one of the mysteries of nature, which shows what care she was taking in those long millions of years to prepare the earth for the coming of man.

To the visitor, one of these mines looks more like a fairy cave or an enchanted palace than like a mere prosaic, everyday mine; the roof upheld by massive pillars of salt; the place lighted by electricity; and all these lights glittering on the transparent crystals of the salt. Modern plants have been installed, and everything that could be done to make salt mining profitable has been done, at the same time no expense has been spared in construction or operation.

To the uninitiated, salt is merely salt; but if one begins to inquire he will find that there are a number of varieties, each one distinctive and worthy of study. When the mines are worked to their capacity, one of them will produce 1500 tons of salt a day, and when this is loaded into cars, packed into 300-pound barrels or 200-pound bags, it has already been assorted and sifted and graded, each for its own especial use.

Society seeks Coronado now.

Oldest American Highway.

[Washington Post:] What probably is the oldest highway in America still in use is just about to be modernized and put into first-class condition with a good layer of macadam by the American engineers on the Isthmus of Panama. This is a road built about 1530 over the old Cruces trail, on which pack trais traveled between the old city of Panama and a point on the Chagres River, where goods were loaded into boats and floated down to the Gulf of Mexico.

Originally, the trail was paved with field rock, but it was abandoned about the middle of the eighteenth century, when the treasure and merchandise fleets ceased to call at Porto Bello. Again it was used by the adventurous spirits among the "forty-niners" as part of the Panama route to California.

Money That Burns.

[Washington Star:] From the girl's gloved hand the grocer received a half dollar when he dropped with a smothered, "Oh."

"That must have just come out of the mine," he said. "It's warm enough."

"Oh, I forgot it might still be hot," said the girl. "That is my way of keeping my hands warm. I can't afford just yet to buy the kind of muff I want, and until I can afford it I heat my silver money and put it into my purse piping hot. It makes a regular furnace and stays hots long enough to keep my hands warm for a long trip."

WALTER E. SMITH & CO.
216-218 SO. SPRING ST.

"I want to see thousands of people come in here." — Mr. Roosevelt, in speech at dedication of Roosevelt Dam.

Orange and Alfalfa Lands under ROOSEVELT Irrigation System--$100 per acre --10 years' time for payment

Former California ranchers have been captivated by the surpassing soil, water and climatic conditions of Chandler Ranch, the finest body of land in the famous Salt River Valley of Arizona. They have substantially proven their preference for Chandler Ranch lands by purchasing close to three-quarters of a million dollars' worth of these value-giving acres within the past few months. This great land-selling record is the talk of real estate men from coast to coast.

A few of the reasons back of the success of Chandler Ranch lands are:

1. A water supply that, for abundance, dependability and low cost, is absolutely unsurpassed in any part of the Southwest.
2. A rich, deep soil that will respond equally well to the planting of alfalfa seed or citrus trees.
3. Soil and climatic conditions that afford a wide variety of agriculture, horticulture and stock raising—including oranges, lemons, grapefruit, olives, figs, dates, pears, peaches, grapes, early melons, strawberries, all varieties of vegetables, alfalfa, dairying, hog raising, poultry farming, ostrich raising, etc., etc.
4. Easy access to the best of social, educational, commercial and transportation advantages.
5. Close proximity to the model town of Chandler—a town with a magnificent plan back of it.
6. The lowest prices ever asked for land of this character.
7. The easiest buying terms that could be desired—ten solid years to make your payments.

The United States Government is really back of this project. It has expended over eight million dollars to bring an abundance of cheap water to the most fertile lands in the United States. And in addition to this, Uncle Sam is giving the ranchers of the valley an opportunity to buy the entire irrigation system, with its canals and wonderful power development possibilities, for less money per acre per annum than the average yearly water rates which prevail throughout Southern California.

Call or write for literature. Visit our ground-floor offices at 122 West Sixth Street and see colored photographs taken by official government photographers, portraying practically every industry in the valley. Special low-rate excursions four days each week.

The Roosevelt Irrigation System

—Irrigates 240,000 acres.
—Has a drainage area of over 12,000 square miles.
—Reservoirs 1,300,000 acre feet.
—Furnishes water at cost.
—Will be owned by the ranchers.
—Is a Co-operative Government Land Owners' system.
—Creates the largest artificial lake in the world, 18 miles long, holding 500,000,000,000 gallons.
—Has over 300 miles of main canals and thousands of miles of laterals.
—Will generate about 25,000 hydro-electric horse power, the profits of which, after cost of construction has been paid, to be received by the land owners.
—Is the best irrigation system in America.

...asserted Bauwaraerts ... he did not see the ... the well, which was ... very strange, saying they ... over there, but Putnam ... of the women on his ...

...that there was some... ...Putnam journeyed on ... camp several miles ... and left neighbors on the ... about the queer actions of ... but not finding them at ... back to his own camp ... found a note from Bau... ...waraerts saying that the women had suddenly decided to go to Los Angeles and that he was following them and that should he not return within three or four days, Putnam could have everything at their camp.

Still more convinced that something was wrong Putnam immediately went to the camp of the Belgian and the women, and soon found clots and streams of blood leading to some freshly dug mounds and with a little digging he found the bodies.

Putnam left immediately for Imperial Junction, walking the entire distance of thirty miles. On reaching the first telephone he communicated to officers at the Junction a description of Bauwaraerts and he was apprehended just an hour before he was to leave for Yuma.

Together Putnam, Officer Pruitt, and the accused man came to Riverside this morning. Bauwaraerts had on him, when arrested, $125, and it is supposed the remainder of his stake furnished by the women has been hidden by him.

Bauwaraerts stoutly denies that he is the murderer and accuses Putnam of the crime, saying that Putnam came to his camp to get one of the women to go and cook for him and when she refused he deliberately shot them both. His stories as to when Putnam came to their camp and of the shooting and the burial of the women vary so greatly, however, that no credence is put in his tales. He admits writing the note found by Putnam at his camp, and now in the hands of the officers, and it is thought his full confession of the crime will follow within a few days.

Bauwaraerts is a rough looking Belgian of about thirty years. Putnam is a well-dressed miner of about fifty-five years.

Coroner Dixon and Putnam left this evening for Imperial Junction to bring back the bodies of the two women.

Orange County.

...TRIAL GRANTED CONVICTED MURDERER.

...NA, March 20.—Sheriff ... ready to go to San ... Mateo Rains, who ... to be hanged on Au... ...for the murder of Jose ... Chinese from Mexico. Recently he was indicted in Los Angeles for smuggling.

PETITIONS FOR LETTERS.

L. P. Hendrickson today petitioned for letters of administration on the estate of his son, Abram B. Hendrickson, who was drowned in Lake Hemet near Hemet on February 29.

Arrangements have been made for a banquet to be given at 8 o'clock in Elks' Hall on March 27 to the Associated Chambers of Commerce of Orange county. The Santa Ana Chamber of Commerce will offer the civic bodies of the various communities of the county an opportunity to accept space in the local Chamber of Commerce rooms for exhibits of products.

Marriage licenses: Henry Holtkamp, 56, and Anna Uhrbach, 47, both of Los Angeles; Harvey Perry, 33, of Santa Ana, and Blanch Rockey, 29, of Los Angeles.

Rooms now at "Coronado."

Imperial County.

EGYPTIAN COTTON SEED SECURED FOR PLANTING.

EL CENTRO, March 20.—It is probable that at least 500 acres of Egyptian cotton will be planted in Imperial Valley this season and that this will be the beginning of a very important departure from the raising of the ordinary short staple cottons.

Argyle McLachlan, Egyptian cotton expert of the government experiment station at Bard, in Imperial county, is spending several days in El Centro in the interest of this new enterprise and today he had secured applications for seed for 205 acres. He expects to have applications for seed for the full 500 acres before Friday, when he will return to the station to make the shipments.

The government experts urge that all ranchers of Imperial Valley undertaking to raise Egyptian cotton this season adhere closely to the instructions sent out from the Bard station, where Egyptian cotton culture has been in progress for the past few years. The seed to be used in this valley will be selected, and acclimatized seed from the Bard station, and it is advised that not more than ten acres on any one place be planted, so that it may be assured the best of cultivation and irrigation.

In response to a largely signed petition presented to the City Trustees of El Centro, that body last night adopted an emergency ordinance prohibiting the presenting of any circus performance in this city on Sundays. The Sells-Floto Shows had billed the city for Sunday, April 7, and today the management was notified by wire of the action taken by the City Trustees.

The Trustees have also placed a license tax of $10 per performance on all "high-kicking" shows in tents and $5 per performance on all vaudeville performances in tents. This tax does not apply to companies performing at either of the local showhouses.

SUBMITTED TO VOTE.

The City Trustees of El Centro have adopted ordinances submitting to a vote of the people at the next municipal election the proposition to adopt the commission form of government and to make all offices except those of the Trustees appointive. Similar propositions will be submitted to the voters of Brawley and probably those of Imperial.

The people of El Centro are also to vote on the question as to whether they shall retain control of public utilities or allow them to pass under the control of the State Board of Public Utilities.

VALLEY BRIEFS.

Frank Wooley of Holtville and Miss Della Shook of El Centro were married Sunday evening at the home of the bride's parents, six miles east of El Centro, by Rev. R. L. Glasby of Calexico.

James McMullen, managing editor of the San Diego Union, is visiting El Centro and other Imperial Valley points for the first time in four years, and is astonished by the material progress made here since his previous visit.

Only 10 per cent. of the trees planted on the streets of El Centro last season have had to be replanted this year. Many that were thought to be dead have made a fresh start this spring. The one season's tree growth has made a transformation in the appearance of El Centro's residence streets.

The masonry on the two-story brick business block being erected at Sixth and Main streets by A. H. Rehkopf is nearing completion. On the first floor will be a banking room and a large store with double frontage, one on Main and the other on Sixth streets, while the second floor is arranged in suites of office rooms.

Coronado is almost paradise.

FINANCIAL NEWS SUMMARY.

[Furnished by Logan & Bryan, Members New York and Boston Stock Exchanges, Bradbury building, Los Angeles.]

NEW YORK, March 20.—American stocks in London, steady, ⅛ off to ⅜ up.

United States Steel annual report shows $ 9-10 per cent. for common stock against 12.25 per cent. in 1910.

Shrinkage in cash on hand and working capital.

New York Central annual report shows 6.97 per cent. for stock after equipment reserve against 6.41 per cent in 1910.

Lake Shore earned 21.2 per cent. against 27.50 per cent. in 1910.

Michigan Central, 11.29 per cent. against 9.18 per cent. in 1910.

Big Four, 2.77 per cent., against 2.04 per cent. in 1910.

American Telephone and Telegraph annual report shows 6.84 per cent. for $220,940,700 stock, against 18.02 per cent. for $263,325,600 stock in 1910.

La Follette defeats Roosevelt in North Dakota in first State-wide primary.

Money trust inquiry to begin today. Secretary MacVeagh expects to be the first witness.

Minimum wage bill passes first reading in Commons today, but may be amended at second hearing. Compulsory arbitration clause veiled.

Bills introduced in House and Senate provide for Federal investigation of controversies affecting interstate commerce to avert coal strike.

Twelve industrials advanced .17 per cent. Twenty active roads advanced .17 per cent.

The stock market displayed distinct advancing tendencies throughout today's session and a rather favorable feature was the marked increase in the inquiry from outside sources. Sentiment was improved by the cheerful tenor of foreign advices relative to the labor conditions, and in addition the war reported quits reliably that various steel companies were advancing prices on finished steel products. London was a good buyer of the metal stocks, and Berlin for the time being appears to have ceased selling American issues. Strong forces are still arrayed on the conservative side of the market, and while some distribution has occurred, still the offerings have been absorbed in a satisfactory manner and it looks as though a higher range of quoted values will be established.

SALES—Morning session: 1000 Con. Mines at 4; 1000 do. at 6; 1000 do. at 7; 2000 do. at 6; 2000 do. at 6; 1000 do. at 6; 1000 do. at 5; 3000 do. at 4.

LOCAL PRODUCE MARKETS

There was a much firmer tone to the market for onions, and as a result all yellow varieties advanced from 25 to 50 cents. Quotations were fixed at from $4 to $4.25 per hundredweight. The advance was due to the limited holdings and with practically no stock in sight. Indications are that prices will shortly show another advance, if the present state of the market is any criterion. No receipts were reported in.

Receipts of asparagus were liberal, principally from the Sacramento River districts. The price was a trifle firmer than the previous day. Fancy lots sold at 10 cents per pound and some extras commanded a premium. No. 2 stock sold at 8 cents per pound.

Celery was firm. There was a good demand for choice long stalk stock at $5.75 per crate. Considerable short stalk stock moved out at $4 per crate. Rhubarb was abundant and weak, plenty of stock being held over from last week.

The citrus fruit market was dull and featureless. There was only a moderate call for navel oranges and sales were confined to one and two-box lots. Standard stock were firm at the old range of prices.

Apples were slow sellers, even in Bellefleurs and Newton Pippins, included.

Dried fruits continued steady with a slow movement. Prunes are still in demand in the East and fancy large stocks are well cleaned up. Ordinary sorts are still to be had at former rates.

The egg market showed no change. The demand was about in keeping with the receipts. Case counts at the prevailing quotation of 21 cents were best in call. Sales were not brisk on 'Change. Receipts were 980 cases.

The market on both creamery extra and creamery firsts butter was firm.

Ladle and country grades were inclined to drag. The market was featureless. Arrivals were 21,853 pounds.

An advance in several varieties of cheese was shown. Eastern twins were quoted 1 cent higher at 23 cents. Eastern singles went 1 cent higher to 21 cents and cheddars sold at 21 cents. The advance was due to limited receipts of these varieties and in keeping with the recent advance along this line. Northern fresh cheese was in good demand at 21 cents. The San Francisco market was reported firm at 19 cents. Receipts were 1090 pounds.

Potatoes were firm under the revised figures of the previous day. Notwithstanding, that there are liberal holdings, most handlers are storing their stocks in anticipation of a shortage in the East. The San Francisco market is quoting spuds at a higher rate than the local market and this has served to keep the market in excellent shape. Arrivals were 3854 sacks.

No bean receipts were reported in. The market was firm.

Sweet potato arrivals were 69 sacks. The market was firm on fancy stock, while inferior grades were sacrificed to keep a free movement.

Prices Current.

EGGS—Fresh, local ranch, candled, selected, 24; ranch, case count, 21; seconds, 19; pullets, 18.

Arizona.

FEAR RACE WAR NEAR BOUNDARY

Mexican Laborers of Arizona in Angry Mood.

Deny that Railroad Employees Are Leaving Posts.

Several Thousand Elks Will Assemble at Tucson.

[Special Correspondence of The Times.]

TUCSON (Ariz.) March 19.—A race war is understood to be imminent near Charleston, Cochise county, where 300 Mexican laborers are employed on a cut-off line being constructed by the El Paso and Southwestern system. There are fifty American employees, who have armed themselves ready for any trouble that may arise, while the Board of Supervisors has ordered the closing of a drinking saloon around which most of the disturbance has revolved. The Mexicans were much excited a few days ago by a report that American troops had been ordered into Mexico and threatened reprisals on the spot. Several deputy sheriffs have been ordered to the grading camps and will see that no more whisky is brought in.

A report lately circulated that a large number of the Southern Pacific employees in Mexico had abandoned their posts, on account of danger, has been denied by Vice-President Charles Hine of the Randolph lines. President Randolph and Maj. Hine are now traveling by special train on an inspection of the western Mexican lines and are in the heart of the country where the most serious disturbances are being reported. Several bridges have been burned by the revolutionists, two being destroyed Thursday at Casal, in retaliation for the carrying of Federal soldiers by the railroad. The railroad authorities expect return of all damages from the Mexican government in the same manner that repayment was made for property destroyed during the Madero rebellion.

HOLD ALLEGED SLAYER.

An inquest was finished at Florence last week over the remains of Deputy Sheriff William Dodson, who was killed at Red Rock March 9. Frank Norte, the alleged slayer, was held to await the action of the grand jury without bail, and W. J. Crowell was held as an accessory under $2500 bonds. Norte came to Red Rock as a tramp and had been in Crowell's employ for several weeks. On the day of the shooting, while drunk, according to one witness, Norte came into the barroom of Crowell's hotel and proclaimed to the proprietor that he was "ready." Crowell, who also filled the position of justice of the peace, thereupon pinned on Norte's coat the badge of a deputy constable and told him, "Go over to Dodson and do not return without my property." Dodson, a saloon-keeper, stepped out of his place of business and, noticing the badge on Norte's coat, pulled it off with a remark that Norte had no business wearing it. In an exchange of pistol shots that promptly followed, Dodson was hit four times. No one of the wounds necessarily was fatal, but he died from loss of blood. Norte was unhurt and returned to Crowell's place, where he was found asleep, by Sheriff Nelson, a few hours later. Dodson and Crowell had been enemies for several years.

CHARGED WITH SMUGGLING.

Louis Fleischer has been rearrested by the United States authorities, after discharge at Nogales on a writ of habeas corpus, and will be brought to Tucson for safe keeping until taken before the United States court at Phoenix. He has been under arrest upon application made by Mexico for extradition, being charged with having smuggled goods across the line from the United States, and with having bribed a Mexican officer to permit him to escape to the United States after he had been arrested at Nogales, Sonora.

The Board of Trade at Nogales has inaugurated a campaign which is hoped will lead up to the building of a government storage dam on the Santa Cruz River and the Chamber of Commerce and business men of Tucson have been asked to join in the movement. At least 40,000 acres of land could be irrigated by the storage of the storm waters of the Santa Cruz River.

ELKS WILL GATHER.

Next Thursday in this city will open the first State reunion of the Order of Elks, with large delegations present from all parts of Arizona. Elaborate preparations have been made for the entertainment of several thousand guests. The parade is expected to be the finest ever known in Arizona, and prizes have been offered for the largest and best uniformed lodges in column. Miss Winnie Dodge has been elected queen of the parade.

Eight rifle teams from the National Guard and several rifle clubs will contest during the last three days of the week on the Wilmot rifle range, east of this city, for the championship of Arizona, and for prizes offered by the National Rifle Association, the Governor and Adjutant-General. Arrangements for the match have been in hands of the Tucson Rifle Club, and George R. Roskruge, State secretary of the National Rifle Association.

INDICTMENTS DISMISSED.

A grand jury called in the Superior Court has passed upon a large number of cases to be tried in the first criminal term of court, and has dismissed all indictments remaining against Frank Blighton, a socialistic editor, who has had his name upon the criminal docket of the county for several years, mainly in connection with newspaper assaults upon various public officials.

The Casa Grande Valley Water Users' Association is preparing to use a diamond drill for bedrock investigation at the site of the San Carlos water storage dam. This work is to be under charge of J. H. Quinton of Los Angeles.

At Deming, N. M., Saturday night two Southern Pacific coaches were completely burned, through the explosion of a gas tank. The cars were occupied by Creatore's Band. No one was injured.

The Arizona Telegraph and Telephone Company is preparing to build a new office for itself in this city.

Three thousand head of range cattle have been purchased by an Omaha buyer from John Nelson and others in this vicinity, for approximately $80,000. The cattle will be delivered in Tucson after the spring roundup.

John Lorimer,

A newsboy of this city, who is too sick to work and for whom his fellows are arranging a big benefit to send him to Arizona, which the doctor says is the the only way to save his life.

HELP THEIR COMPANION.

Newsboys Organize Big Benefit to Send Comrade to Arizona to Recover From Serious Sickness.

Because their friend and comrade, John Lorimer, is so ill with consumption as to be unable to work and because the doctor says his only chance to recover is to go to some higher altitude, the newsboys of Los Angeles have organized a big benefit, the proceeds of which will be given to him to defray the costs of a trip to Arizona. It will be given at the Majestic Dancing Academy, Fifteenth and South Main streets, Tuesday evening, the 26th inst.

The hall, music, lights, etc., have been donated by Carl Horn.

Miss Katherine Knoff has donated a valuable piece of merchandise to be raffled off to further swell the "Lorimer Benefit Fund."

Huge posters which the boys have put out announce that eight "world champion Texas Tommy dancers" will perform in addition to many special attractions from local theaters. All the larger fellows in the newsboy ranks who have heretofore never been nearer to a dress suit than a photograph, are billed to appear in full dress, under the sonorous title of "society leaders."

A long list of local sporting celebrities, newspaper writers, and circulation men are down on the bill as floor managers.

The admission price is 50 cents per couple and all the money realized will go to the deserving newsboy. Tickets are being sold by the hundreds. Eddie Maier and several other local men have already bought blocks of twenty tickets each. Carl Toepfer is chairman of the committee in charge of the ball and from present indications he will be successful in raising enough money to send Lorimer away and keep him for some time to come.

San Joaquin Valley.

WOULD INSTALL BIG GAS PLANT.

LOS ANGELES CAPITALISTS ASK PORTERVILLE FRANCHISE.

"Public-Be-Damned" Attitude of Some Corporations Asserted to Be Thing of the Past—Women Align Themselves With Radicals and Conservatives in Election.

PORTERVILLE, March 19.—Charles S. S. Forney, representing Southern California capitalists who have financed the Central Counties Gas Company, appeared before the City Council last evening and asked for a franchise for his company.

In the course of his remarks, Forney stated that the "public be d—d" attitude of some public service corporations was a thing of the past and he assured the city officials that he and the other officials of the concern which will furnish gas to all Central California towns wish to continue at all times on a friendly basis with the city as well as their patrons.

It is understood that to forestall any criticism the main plant of the company is to be placed without the city limits, and that the location will be such as to be objectionable to no one.

There is prospect of a lively time at the city school election, which is to be held April 8, and already candidates are aligned as "Up-to-Dates" and the "Conservatives," with well defined platforms. The women have taken their part in the campaign and insist that there should be at least one woman on the Board of Education.

Mrs. Sarah LaBille, a wealthy property owner is the candidate of the conservatives, and expects to win on an avowed platform of opposition to manual training, domestic science and all "fads." The Ladies' Improvement Club promises to produce a candidate with more progressive ideas. Already considerable ginger has been injected into the campaign and there is every reason to anticipate a merry time on election day.

Due notice has been given to the public service corporations of Porterville that at the first meeting in June of the City Council, an ordinance will be introduced which will fix the rates for the ensuing year of the telephone, water, electric light, electric power and gas companies.

There is reason to believe there will be a strenuous protest raised by the telephone company against the rates which it is proposed to put into effect for the use of telephones.

Practically definite assurance has been received here that expenditure has been authorized by the high officials and that work is to be started this spring in a complete reconstruction of the east side lines of the Southern Pacific Railroad through this district. Work has already started in changing switches to conform to heavy steel, which will be laid the entire length of the branch from Fresno to Famoso.

It is asserted that when this work has been completed the line through Porterville will be made the main line for transcontinental trains. This change is due entirely to the rapid growth of Southern Tulare county.

San Pedro.

TRADE OPENS WITH PANAMA.

CITY OF PARA TO SAIL TODAY FOR ISTHMIAN PORT.

Big Real Estate Deal Near Harbor Consummated for New Subdivision—Hulk of Derelict Sighted Off the Humboldt Coast and Warning Is Issued.

SAN PEDRO, March 20.—Another link connecting San Pedro Harbor and Los Angeles with South America, the West Indies and Atlantic and European ports, via the Isthmus of Panama, was forged tonight with the arrival from San Francisco of the Pacific Mail liner, City of Para, Capt. Russell, en route to Balboa.

She is the first passenger steamer of the Pacific Mail to stop at this port on the recently inaugurated schedule of the company between San Francisco, San Pedro and Panama.

The freighter, Aztec, of the same line, arrived here from Balboa on her initial voyage on January 28, and is due again north-bound on Saturday.

The City of Para is a vessel of about 2500 tons net and when she arrived tonight she had over forty passengers in addition to a full cargo of general freight, which will be transhipped at Panama to New York and other Atlantic ports.

It is only recently that passengers have been carried on the through ships to the isthmus and the demand for transportation more than equals the accommodations that can be supplied. The first steamer that sailed on schedule from San Francisco for the canal zone only carried a half-dozen passengers, but travelers are now availing themselves of the quick direct route established by the Pacific Mail. About twelve additional passengers will be taken on board. She will sail tomorrow at noon.

Among the City of Para's passengers are Charles Stephens, chief boarding officer of San Francisco; Mrs. Stephens and their guest, Miss Ruth Keyes. Some of the passengers are going through to New York, but the majority of them are making the round trip for the purpose of seeing the almost completed Panama Canal. F. M. Lee, president of the Nixon National Bank of Reno and his wife are passengers, accompanied by Mr. and Mrs. U. M. Slater and their daughter. John Fleming Wilson, the author, and his wife are making the trip. Other passengers included Lieut. H. H. Roberts, U.S.A., and F. B. Alderdice of San Francisco. Capt. W. J. Russell, who is in command, succeeded Capt. Charles Austin, the day before the steamer left San Francisco. The steamer Pennsylvania will follow the City of Para on the south-bound schedule and will touch here early in April.

During 1911 the increase in tonnage moved between Pacific Coast ports and the Atlantic seaboard, by the Panama route was remarkable and is an excellent criterion of what may be expected with the approaching opening of the Panama Canal and clearly shows the necessity of the port of San Pedro being put in readiness to handle the business. It is believed that in the near future it will be necessary and found profitable to place on this run vessels of a more commodious and luxurious type than the ones now being operated.

REAL ESTATE DEAL.

The largest deal in unimproved real estate ever made in San Pedro was closed this afternoon when Mrs. Eucarcion Sepulveda, widow of Aurelio W. Sepulveda, transferred to George H. Peck, 450 acres of the Palos Verdes rancho, lying just west of Pacific avenue, partly within and partly without the city limits, for a price of $400 an acre, the total consideration being about $180,000.

The other half of the tract is owned by Mrs. Esperanza de Larson, daughter of Mrs. Sepulveda. The transfer was made through the agency of Richard Mahar, who was formerly administrator of the estate of H. W. Sepulveda, who died here about two years ago and from whom the property was inherited.

The land sold today was part of the old Rancho de los Palos Verdes, given by Mexican grant many years ago to Diego Sepulveda. Several thousand acres of the rancho are still owned by his descendants, including Mrs. Rudecinda F. S. de Dodson and Roman D. Sepulveda. Part of the original grant is now the property of John T. Gaffey and Mrs. Arcadia B. de Ward of Santa Monica.

George H. Peck, purchaser of the land sold today, will subdivide the property and place it on the market.

FLOATER SIGHTED.

The North Pacific Company's steamer George W. Elder reports having sighted a capsized schooner off the Humboldt Coast, which is floating close in shore and is a serious menace to coast-wise navigation. Capt. Thomsen reported the derelict off Cape Blanco on March 18, and as the obstruction has recently been seen by a number of vessels a general warning has been issued to all coast-wise navigators. A tug will probably be dispatched to pick up the hulk, if definite information concerning its whereabouts can be obtained.

There is considerable speculation among mariners concerning the identity of the derelict. It may be the wreck of the schooner Ruth E. Godfrey, which sailed from Cocopilla for Eagle Harbor, August 28, last and has never been heard of since, or it may be the little schooner, Ida McKay, which left Coquille River on January 28, bound for this port and which turned turtle in a terrific storm on January 30, and was abandoned by the crew about 300 miles south of Coquille River, by dead reckoning. On the same day Capt. Linquist and his crew of five men were picked up by the schooner Azalea and brought to this port, arriving February 16.

COAL VERSUS OIL.

The advantages of oil over coal for fuel is clearly shown by the conversion of the little steam schooner, Grace Dollar, into an oil burner at the Union Iron Works in San Francisco. The change has materially increased the steamer's speed, and though the conversion cost $2400, the saving in fuel cost alone for one year will be $2700. Swayne & Holt have the Grace Dollar under charter for two years and they figure that by making the change from coal to oil they will improve their bargain by at least $5000, and this without figuring the saving in time and labor that will be effected by the use of liquid fuel.

William Mahar, for many years Deputy Collector of Customs here, has been promoted to a position in the Los Angeles office and his place here has been taken by H. A. Stocklin, formerly stationed at Redondo Beach.

And now comes the greatest offer the Hamburger Men's Store has ever made!—

—which is really saying the greatest offer Los Angeles men folks have ever known.

It is a fulfillment of everything you could possibly wish in high-class clothes. We stand right back of that claim with our guarantee.

It is an offering of suits with an extra pair of trousers at $15. Suits not made merely to sell—suits made to last!

—We're enthusiastic—we're impatient to show them to you—they're BOUND to please. Plan to stop in today.

$15 For a Suit with an Extra Pair of Trousers

Hand-tailored—two and three-button models.
All-wool materials—tweeds, worsteds, cassimeres.
Suits that bear the stamp of Fashion in every line.
Fit guaranteed—a new suit if you're not pleased.

Suits With Double Life---

—for that's what the "extra trousers" feature really means. Isn't it worth investigating?

Among the Fabrics Are---

all-wool navy blue serges, navy with white pencil stripes, seal brown, gray and blue unfinished worsteds—brown, tan and gray tweeds — handsome cassimeres.

NEWPORT BEACH NEWS.

President Wilson Re-elected for Fifth Consecutive Term By Chamber of Commerce.

NEWPORT BEACH, March 20.—W. W. Wilson was unanimously elected president for the fifth consecutive term at the annual meeting of the Newport Beach Chamber of Commerce last night. Albert Hermes was elected vice-president; Charles H. Wallace, secretary, and the State Bank of Newport, treasurer. The annual banquet will be held at the Newport Tavern on Thursday evening, April 4.

J. J. Schnitker will shortly begin work on a new brick building next to the Parker block that will have a frontage of fifty feet on the ocean front. The present residence building, bowling alley and photograph gallery on the lots will be moved off.

Mrs. R. J. Strauss, wife of City Trustee Stauss, is critically ill with whooping cough.

Mrs. Lottie Cloyes and children of Chicago, who have been passing the winter here, left for their home Wednesday.

The Chamber of Commerce has contracted with J. A. Ricker for a painting of Newport Bay, eight feet square, which will be used for exhibition purposes.

W. S. Collins today received his new hydroplane for use on Newport Bay. It is expected that the boat will develop a speed of better than thirty-five miles an hour. It is propelled by a 40-horse-power engine.

POMONA TAFT CLUB.

President to Be Endorsed for Renomination and Re-election—Medical Society Entertained.

POMONA, March 20.—A Taft Club will be formed here tomorrow evening at the Fraternal Aid Theater, the following call having been signed by a number of prominent citizens: At the request and under the authority of the Southern California Taft Association of Los Angeles, the friends and admirers of our President, William Howard Taft, looking forward to his renomination and election as the next President of the United States, and for the purpose of lending all the assistance possible to that end, have called for a rousing Taft meeting to be held in the Fraternal Aid Opera-house, Thursday evening, March 21, 1912, at 8 p.m. for the purpose of forming a permanent Taft Club. There will be prominent speakers from Los Angeles and Pasadena, also music and a general good time is expected. All admirers and friends of President Taft, both men and women are cordially invited to be present.

Morris H. Wilson, president of the Board of Trade, will preside.

Rev. Paul McReynolds, local minister at the First Unitarian Church, has gone to Fresno to attend the Pacific Coast Conference of Unitarian Churches and will deliver an address on "The Liberal Church and the Masses."

At the Academy of Holy Names yesterday, a farewell entertainment was given by the pupils in honor of Rev. Joseph Nunan, who has been pastor of St. Joseph's Catholic Church for ten years and will leave soon for San Diego to take charge of the large parish there.

On Saturday William R. George, founder of the George Junior Republic, will be at the Republic at Chino. Many local people are planning to go to Chino to meet Mr. George and visit the Republic, in which there is much interest in this locality.

Last evening the Pomona Valley Medical Society was entertained at the home of Miss Christine Fleming on Randolph street. Dr. L. N. Breed presided. The programme included addresses by Drs. J. K. Swindt, F. Kenyon, C. Warner of Ontario.

Rain fell here last night, .08 of an inch being registered, the total for the season being 10.95.

ADDITIONAL MARKETS.

NEW YORK, March 20.—London copper opened steady, spot, £64, 10s; futures, £64 5s, up 11s. Tin easy, spot, £199 5s, off £1; futures, £188 15s, off 12 s 6d. Lead, £16 15s, up 11 s. Tin easy, spot, £190 5s, off £1; 6d, off 2s 6d; futures, £191 15s, off 2s 6d. Sales, spot, 500 tons; futures, 2200 tons. Tin, spot, £189 15s, off 10s; futures, £187 5s.

The Chicago Record-Herald said yesterday morning: "Copper was advanced to 14¾ cents a pound by one of the big sellers yesterday. A price of 15 cents for electrolytic within a few days is likely to be realized, according to men well informed on the copper trade. At Swansea, a great British coal port, the ores of the English owned Chile and Rio Tinto mines are refined. On account of the coal strike the fuel supply at Swansea is deficient, and the copper defining operations are suspended, with the result that more than ever is Europe dependent on this market for its copper supply. This accounts for the recent remarkable increase in the export demand for our copper. An important independent producer of lead says the situation is the same for his product is ripe for an advance. The recent abrupt decline to the 4-cent level, it is said, was due entirely to the action of the Guggenheim interest, which, through the American Smelting and Refining Company, controls about fifty per cent. of the lead output of this country."

A leading copper authority tells us: "Last year we heard a good deal about the curtailment in copper production, but it is very noticeable that with the increase in the price of the metal to 14½ cents there is no particular increase in the production of copper. Phelps-Dodge, producing over 18,000,000 pounds of copper per month, have not shown any increase in production, for the principal reason that their mines are being worked practically to the limit. Greene-Cananea could increase somewhat, but has not done so because of operating difficulties, and the only big increase in production so far has come from Butte, where the Anaconda miners have increased their production about 6,000,000 or 7,000,000 pounds. As a matter of fact, I do not see any prospect of any material increase in the production of this country, except from the new porphyry coppers, and they are not likely to increase production this year as much as was at one time anticipated. Take time to get the big porphyry deposits to the limit of their production, and it will probably be well toward the close of the year before either Ray Consolidated or Chino will be fully developed. Utah Copper is now in a position to increase somewhat, but I do not believe it will be able to add very much to its present production this year. Taking the situation as a whole, there is no reason to anticipate any great increase in production over present figures this year, and I think it is very apparent that the world's consumption of copper is today in excess of production, and I am inclined to the belief that we are entering a period of sustained higher copper prices."

Earnings of the Old Dominion Company apparently justified the directors in placing the stock on a $3 dividend basis, as the company for the first six months has shown earnings at the rate of $5 per share, independent of earnings of the United Globe. Earnings of the Old Dominion Company of New Jersey for the past three months have been as follows: December, $184,000; January, $118,000; February, $120,000; total, $372,000. In December the company received 13.55 cents for its copper, in January, 14.09 cents, and in February 14.08 cents. Its March copper should net the company ¼ cent more than January and February.

The New York News Bureau says: "A leading copper interest who is in a position to speak authoritatively on both the production and selling end of the business says: 'The copper situation appears to be in an exceedingly strong position. The consumers today on a rising market have less copper on hand than at any time since the present advance started in November. Certain producers' reported advance in electrolytic to 14¾ cents a pound has caused some hesitation among consumers. However, copper selling agencies are not pressing copper for sale, the United Metals Selling Company, for example, being practically out of the market. In copper producing circles the consensus of opinion is that surplus stocks may show a small increase this month, due to falling off in exports. To my mind the situation is a most remarkable one, and it is surprising that the price is not higher than the present quotations. I believe if it were not for the British coal strike that copper would be strong at over 15 cents.'"

BOSTON COPPER MARKET.

[Furnished by Logan & Bryan, Members New York and Boston Stock Exchanges, Bradbury Building, Los Angeles.]

BOSTON (Mass.) March 20.—Reflecting the advance in London copper this morning of one pound in spot and futures, the copper shares continued strong and active all day, closing buoyant. North Butte, Isle Royale, Chicago & Alton and Calumet & Hecla were the strong feature, but there was a more active and broad market in all the others, although such stocks as Copper Range, Utah, Quincy, Osceola and other large producers, which will benefit materially by the advanced metal prices, still failed to respond. We believe it is only a question of very short time, however, and that they should be bought tomorrow. The metal advanced to 15 cents today after a purchase of about 1,500,000 pounds by the United States Steel Corporation. The strength of Chicago & Alton was due to report of an important strike in the Briggs shaft where it is said the ore assays 30 to 40 per cent. copper. It looks tonight as if the coppers all will be higher.

Schools and Colleges.

MARLBOROUGH SCHOOL FOR GIRLS, 23rd

General, Special and College Preparatory Courses. Certificate admits to Colleges. No girls under fourteen admitted.

To its present academic work will be added a Junior College Department of Domestic Science, both to open October 1.

The Junior College Department provides two years Freshman and Sophomore work. Requirements for admission, standards and examinations, precisely as in University of California and Stanford University, whose sanction the work has. Pupils work fifteen hours a week. Subjects offered: Rhetoric, English Literature, General Literature, History of Art, French, German, Latin, Economics, Sociology, Mathematics, Music, Musical History, Harmony, Domestic Science, Domestic Art, Current Events, Municipal Affairs.

None but experienced and accredited instructors.

Young women wishing to do postgraduate work, but not desiring college credit, can enter on the same conditions and at the end of a year may receive a certificate for the amount of work completed.

Tuition as for Academic Department.

Mrs. George A. Caswell, Principal. Miss Grace Wiltshire, B. L., Associate Principal.
